USDA Child Nutrition Programs Administrative Review Summary Report

School Food Authority: Mount Horeb Area School District Agency Code: 133794

School(s) Reviewed: Mount Horeb Intermediate

Review Date(s): March 14-15, 2018 Date of Exit Conference: March 15, 2018

State agencies (SA) are required to conduct administrative reviews to assess School Food Authority (SFA)'s administration of the National School Lunch Program (NSLP), School Breakfast Program (SBP), and other school nutrition programs. The objectives of the Administrative Reviews are to:

- Determine whether the SFA meets program regulations,
- Provide technical assistance,
- Secure needed corrective action,
- Assess fiscal action, and when applicable, recover improperly paid funds.

General Program Reminders/Updates:

- The Department of Public Instruction (DPI) School Nutrition Team (SNT) conducts School Nutrition Skills Development Courses (SNSDC) each summer in various locations around the state. Courses cover many areas of the school nutrition programs including administrative responsibilities, program basics, meal pattern requirements and menu planning, financial management, meal benefit determination process, professional standards, procurement, and many other topics. More information along with other upcoming trainings and webinars can be found on the Wisconsin DPI School Nutrition Training webpage (dpi.wi.gov/school-nutrition/training).
- SFA staff are encouraged to pursue GOALS Certification. GOALS stands for Goal Oriented Achievement Learning Skills. This is a certificate endorsed by the DPI and is obtained by completing training in nutrition, program administration and operations, or communications and marketing. For more information go to the Wisconsin DPI <u>School Nutrition Training</u> webpage (dpi.wi.gov/school-nutrition/training/goal-oriented-achievement-learning-skills).
- The US Department of Agriculture (USDA) has a toolkit of resources to assist schools in meeting
 the nutrition standards on their <u>Healthier School Day: The School Day Just Got Healthier</u> webpage.
 The topics covered include Smart Snacks, offering fruits and vegetables, reducing sodium, and
 serving whole grain-rich products (http://www.fns.USDA.gov/healthierschoolday).
- The Smarter Lunchrooms Movement encourages schools to implement low-cost and no-cost lunchroom solutions to help students select healthier meal options (http://smarterlunchrooms.org). Smarter Lunchroom techniques are easy to begin implementing and help encourage student consumption of fruits, vegetables, legumes, non-flavored milk, and other healthful choices. These strategies are effective and research-based. Consider trying the Smarter Lunchroom techniques for increasing consumption of white milk.

Appreciation/Commendations/Noteworthy Initiatives:

Thank you to the staff at Mount Horeb Area School District for the courtesies extended to us during the on-site review and for being available to answer questions and provide additional information. All the staff were very friendly and accommodating. They had fund with the students and truly seemed to enjoy what they do. The meals were fresh, at the right temperature and very tasty. It was nice to see some not so common items included in the menu that the students are taking and learning to appreciate. In addition, thank you for taking the time to respond to the off-site questions and requests, as well as pulling records for the on-site portion of the review.

REVIEW AREAS

1. MEAL ACCESS AND REIMBURSEMENT

Certification and Benefit Issuance

Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

222 eligibility determinations were reviewed, 1 error were identified.

Free and Reduced Price Meal Applications

Annual Income

• There has been a recent modification to the requirement pertaining to the reporting of annual income on an application. USDA released SP-19, 2017 on March 20, 2017 allowing households to report current income as an annual figure. Annual income is typically reported for households with jobs that are seasonal, self-employed, or agricultural work since that is a more accurate representation of current income. These applications may now be processed at face value. However, most households that receive regular pay checks, will report income based on what is currently earned and the frequency of that pay, i.e. weekly, biweekly, bimonthly or monthly.

Income Eligibility Guidelines

- The current Income Eligibility Guidelines (IEGs) are used to determine applications, whether manually or electronically. If done through software, please check that the income levels are updated each year after July 1.
- The complete IEG grid may not be sent to the households applying for meal benefits as they include the specific income amounts for free or reduced benefits. Therefore, the Public Release may not be sent to households, either. The information letter must include the reduced price guidelines and an explanation that households with incomes at or below the reduced price income limit may be eligible for free or reduced price meals. Typically, the information letter is the USDA template entitled Letter to Parents/Frequently Asked Questions (https://dpi.wi.gov/sites/default/files/imce/school-nutrition/doc/fr-application-parent-guardian-letter-faq.docx).

Household Size Box

• The total household member size box (Step 3G) includes all children and adults in the household and must match the number of names on the application for that application to be considered complete.

Incomplete Applications

Any application that is missing required information, contains inconsistent information, or is unclear is
considered an incomplete application and may not be determined until clarified with the household.
The SFA may return the application to the household or contact the child's parent or guardian either
by phone or in writing/email. The determining official should document the details of the
conversation plus date and initial. Applications missing signatures must be returned to the parent to
obtain. Reasonable effort should be made to obtain the missing information prior to denying the
application.

Application Forms

- If an SFA wishes to change the look or format of the application for Free or Reduced-price school
 meals or other forms in the application packet, that document needs to be approved by the School
 Nutrition team at DPI.
- Thank you for using the DPI prototype letters with the current non-discrimination statement.

Other Source Categorical

- If a household submits an application that indicates Other Source Categorical Eligibility, such as homeless, migrant, or runaway, the SFA must confirm the children's status by an appropriate program official either through direct contact with the agency or by a list of names provided by the agency, before meal benefits can be provided. Once confirmed, this eligibility is only available to the designated child and is not extended to other members of the household.
- Applications that indicate a child is a foster child are categorically eligible for free meals. The child's status for free meals does not require confirmation of eligibility prior to receiving benefits. This benefit is not extended to other household members.

Effective Date of Eligibility

SFAs may establish the date of submission of an application as the effective date of eligibility, rather
than the date the application is reviewed and eligibility is determined. This flexibility applies only to
complete applications containing all required information. See SP 11-2014 for more information. The
SNT must be contacted prior to implementing this flexibility for approval. Contact Karrie Isaacson at
karrie.isaacson@dpi.wi.gov for more information and approval.

Public Release

- All SFAs are required to distribute a <u>Public Release</u> before the start of the school year (https://dpi.wi.gov/school-nutrition/national-school-lunch-program/free-reduced-applications#apps). The purpose is to inform the public that free and reduced price meals are available.
- SFAs must annually distribute the Public Release to:
 - o Local news media
 - Grassroots organizations (local organizations providing services to populations in need)
 - Major employers contemplating or experiencing large layoffs
 - Local Unemployment Office (as applicable)
- SFAs are not required to pay to have the public release published but must maintain documentation of whom it was sent to along with the specific materials distributed.

<u>Limited English Proficiency (LEP)</u>

- Application materials and other communications with households concerning eligibility
 determinations must be provided in a language that parents or guardians can understand in order to
 diminish any language barriers to participation for individuals with limited English proficiency.
- SFAs must make reasonable efforts to provide household letters and application forms to families in the appropriate languages.
- To assist SFAs in reaching households with limited English proficiency, the SNT provides the Wisconsinized version of the USDA Free and Reduced Price Meal application materials in English, Spanish, and Hmong.
- The USDA Food and Nutrition Service (FNS) website offers many other <u>foreign language translations</u> <u>of the Application for Free and Reduced Price School Meals</u> (https://www.fns.usda.gov/school-meals/translated-applications).
- The nonprofit food service account may be used to pay for translation services if there is a need to translate materials in a language that is not currently available.

Direct Certification

• Thank you for running the Direct Certification matches in the required time frames, when you receive a new student and other times to pick up any newly eligible students.

Transferring Students

- When a child transfers to a new school within the same Local Educational Agency (LEA), the new school must accept the eligibility determination from the child's former school, if the child has an individual eligibility determination.
- A child that transfers within the same LEA from a CEP to a non-CEP school must be given free reimbursable meals for up to 30 operating days or until a new eligibility determination is made, whichever comes first.
- Transferring the eligibility determination between LEAs ensures that qualifying students continue to receive school meal benefits as they transition to new schools, and avoids the possibility of unpaid meal charges. FNS strongly encourages LEAs to immediately accept the eligibility determinations made at a student's previous LEA (if they participated in NSLP) when a student transfers between LEAs during the school year, over the summer, or at the start of the next school year. Wisconsin DPI requires source documentation of the student's previous eligibility. The transfer of eligibility between LEAs for students attending CEP schools will be required by July 1, 2019.

Disclosure

- The information provided by the family on the free and reduced price application is to be used only for determining eligibility for meal or milk benefits.
- The LEA must seek written consent from the parent or guardian to use the information provided on the application or through direct certification for non-program purposes, such as athletic or testing fee waivers, registration fee waiver, school fees, etc. Consent must be obtained each school year. Find the <u>Sharing Information with Other Programs</u> template on the Free and Reduced Meal Applications and Eligibility webpage (https://dpi.wi.gov/sites/default/files/imce/school-nutrition/doc/sharing-infoother-programs.doc).
- For anyone receiving eligibility information to approve students for non-food service program
 benefits after parental consent is received, the *Disclosure Agreement* form should be signed and on file
 at the district. A template <u>Disclosure of Free and Reduced Price Information</u> form is located on the
 SNT website (http://dpi.wi.gov/sites/default/files/imce/school-nutrition/doc/disclosureagreement.docx).

Findings and Corrective Action Needed: Certification and Benefit Issuance

Finding #1: One application had a benefit issuance error. Corrective Action Needed: Please contact the household using the template letter that will be provided and notify them of the change in eligibility. Provide the date the letter is sent to the household on the SFA-1 form in the date of correction column that will be provided.
Finding #2 : One application requires more information from the household. Corrective Action Needed : Reach out to the household and let me know the outcome.
Finding #3 : Meal prices show up on the point of service registers which is overt identification of a student's eligibility. Corrective Action Needed : Please work with your POS software vendor to find a solution to the meal prices not showing up on the screen and provide a statement on how this is being corrected.

Verification

Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

- When applications are chosen for verification, the person designated as the Confirming Official must review the application(s) to ensure the initial determination is correct prior to contacting the family.
 There is a place for the Confirming Official to sign and date on the back of the application.
- The LEA has a regulatory obligation to verify "for cause" all approved applications that may be questionable. For more information, refer to the current Eligibility Manual.
- When a benefit eligibility status increases, the change must take place within 3 days. When a benefit eligibility decreases, the change cannot take place before 10 calendar days and a notice of adverse action is sent in writing with appeal rights procedures.

Findings: Verification

One application that was verified was notified by phone of a change in eligibility, but the required letter was not sent to provide additional information and how to appeal. The SFA was aware that this step was missed and will correct in the future. The verification tracking tool (https://dpi.wi.gov/sites/default/files/imce/school-nutrition/doc/verification-forms.docx) is a helpful

resource for verification to ensure all requirements are met.

For noting that a confirmation review was completed, since most applications are returned without the back side of the application (where the confirming official signs), please indicate on the application when and who completed the confirmation review by dating and signing the application(s) selected for verification.

Meal Counting and Claiming

No findings in this section, the claim was validated and edit checks are being used for each site.

2. MEAL PATTERN AND NUTRITIONAL QUALITY

Commendations

We extend sincere appreciation to the FSD and nutrition professionals at Mount Horeb School District. Thank you for the time, organization, and efforts that you have put into preparing for this review. The

time that you took to meet with us and answer questions on site is greatly appreciated. Mount Horeb has an excellent meal program with appealing menu items.

<u>Comments/Technical Assistance/Compliance Reminders</u>

The updated Child and Adult Care Food Program (CACFP) meal pattern was implemented on October 1, 2017, replacing the previous meal pattern options for SFAs serving infants and children aged 1-5 and not yet in kindergarten. Pre-kindergarten is exempt from the CACFP meal pattern if they are comingled with older students following the National School Lunch Program; meaning that pre-k students can follow the NSLP meal pattern if they are served at the same time as older students and without distinction. More information regarding the updated CACFP meal pattern is available on the Infants and Preschool in NSLP and SBP webpage (https://dpi.wi.gov/school-nutrition/national-school-lunch-program/infants-and-preschool). Contact Erin Opgenorth (erin.opgenorth@dpi.wi.gov) or Tanya Kirtz (tanya.kirtz@dpi.wi.gov) with any questions.

Findings and Corrective Action Needed: Meal Pattern and Nutritional Quality

- ☐ Finding #1: Weekly grain shortage Please note that on future Administrative Reviews (AR), repeat violations of minimum quantity shortages may result in fiscal action.

 Students grades K-5 must have access to 8 oz eq grains weekly. Each entrée/line needs to be considered independently for each day of the week that a student may select it. The following is the minimum amount of grains a student could possibly select from the week of review:
 - Monday: 0.75 oz Goldfish from the yogurt pack credits as 1 oz eq grain
 - Tuesday: 0.75 oz Goldfish from the yogurt pack credits as 1 oz eg grain
 - Wednesday: chicken strips credits as 0.5 oz eq grain + ½ cup rice pilaf credits as 1 oz eq grain =
 1.5 oz eq grain
 - Thursday: 2 taco shells credits as 0.75 oz eq grain + Bosco stick credits as 2 oz eq grain = 2.75 oz eq grain
 - Friday: 0.75 oz Goldfish from the yogurt pack credits as 1 oz eq grain
 - o TOTAL: 7.25 oz eg grain

A possible solution is to add another source of whole grain to the yogurt pack.

Corrective Action Needed for Finding #1: Please submit a written statement on how you will ensure each meal option offered meets the K-5 weekly minimum of 8 oz eq grain.

☐ Finding #2: Offer versus Serve at breakfast

Under Offer versus Serve (OVS) for the breakfast meal pattern, four food items must be offered from the three components Although required on signage but not menus, it is best practice to inform households that $\frac{1}{2}$ cup fruit and/or vegetable must be selected to make a reimbursable meal.

The following is suggested text for the breakfast menu:

- ½ cup of fruit and/or vegetable is required to make a reimbursable meal
- Choose up to 2 grains, 1 protein, 1 fruit, 1 juice, and 1 milk
- Select at least 3 items to make a reimbursable meal

Corrective Action Needed for Finding #2: Please submit an updated breakfast menu that clearly communicates what a student may select to make a reimbursable meal.

☐ Finding #3: Salad bar production records

Planned portion sizes are required for every meal component. Even in self-service, such as at the salad bar, the menu planner must plan a specific portion size that he or she intends students to take. Please refer to the Production Record Requirement list found on our Production Records webpage (https://dpi.wi.gov/school-nutrition/national-school-lunch-program/menu-planning/production-records).

Corrective Action Needed for Finding #3: Please submit an updated salad bar production record template that indicates the intended serving size for each item.

☐ Finding #4: Required lunch signage

Reimbursable meals must contain $\frac{1}{2}$ cup of fruit and/or vegetable. This statement was present on breakfast, but not lunch signage. Please add a statement to your current lunch signage that says student must take at least $\frac{1}{2}$ cup fruit, vegetable, or combination.

If you are interested in ordering signage from SNT, please visit the <u>Team Nutrition</u> webpage (dpi.wi.gov/team-nutrition) and complete the Resource Order Form.

Corrective Action Needed for Finding #4: Please submit a photo of the updated lunch signage hung in the Intermediate Center cafeteria.

3. RESOURCE MANAGEMENT

Nonprofit School Food Service Account

Comments/Technical Assistance/Compliance Reminders

Annual Financial Report (AFR)

- All revenues (reimbursements and student payments) and expenses (including food, labor, equipment, purchased services, and the other category) need to be separated into each program; this will aid the school in calculating its "yearly" reference period for nonprogram food compliance which is highly recommended. The new 16-17 Annual Financial Report instructions are located on the DPI website (https://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/annual-financial-report-instructions.pdf). Your district is doing a nice job of this.
- These categories of the AFR that should be addressed when tracking revenues and expenditures include:
 - Expenses for paper supplies, chemicals, thermometers, etc., should be reported under "Other".
 Only expenses for edible food items and beverages should be reported under "Food".
 - "Equipment" should reflect major purchases of equipment. Utensils, pans, smaller equipment such as a cart, etc., should be reported under "Other".
 - o Under "Purchases Services" report any time you pay someone for services provides such as equipment repair and health inspections.
 - Under "nonprogram foods", report the expenses for any food items served to students that are not claimed as part of the reimbursable meal. Revenues and expenses from adult meals, a la carte, and caterings would also be included here.
 - When revenues are recorded from the federal reimbursement payments, make sure that you
 are recording the full reimbursement based on the printed claim form and not what is actually
 deposited into your account. As you will note on the claim, there may be money deducted from

shipping, handling and processing fees for USDA Foods. The amount deducted from your revenue should be reported as an NSLP food expenditure for private schools and a purchased service for public schools.

Allowable Costs

- The nonprofit school food service account is to be used for the operation of the school meal program including food, supplies, equipment and personnel.
- The nonprofit school food service account may not be used to purchase land and/or buildings unless approved by FNS.
- Allowable costs are defined in 2 CFR 200 Subpart E and should be necessary, reasonable and allocable. More information on allowable costs can be found within the <u>Indirect Costs guidance</u> (http://dpi.wi.gov/school-nutrition/national-school-lunch-program/financial).
- Bad debt is an unallowable expense to the food service program. A transfer must be made from non-federal funds to cover student account write-offs. <u>SP23-2017 Unpaid Meal Charges guidance Q & A</u> may be found our Financial Management webpage (https://dpi.wi.gov/school-nutrition/national-school-lunch-program/financial).

Unpaid Meal Charge Policy

- USDA Policy Memorandum SP 46-2016 requires all SFAs operating federal school meal programs to have a written and clearly communicated policy that addresses unpaid meal charges. For a snap-shot on what the policy must include, see the <u>Unpaid Meal Charges In a "Nutshell"</u> (http://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/unpaid-meal-charges-nutshell.pdf). For a more comprehensive overview, see SP 23-2017: <u>Unpaid Meal Charges Guidance</u> https://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/sp-23-2017.pdf
 - Best Practices
 - o Local meal charge policy checklist
 - Sample outstanding balance letter
 - Sample robo-call script
- Funds in student meal accounts are considered a liability until a meal is purchased. When the funds are left "unclaimed", they cannot be used to offset another student's negative account, unless *paid* households have *chosen to donate* those funds to the school food service account. All funds left in any student meal account which cannot be contacted must be turned over to the Wisconsin Department of Revenue (DOR) as unclaimed property. The DOR has rules concerning <u>unclaimed property</u> that must be followed (https://www.revenue.wi.gov/DOR%20Publications/pb82.pdf).
- We discussed the unpaid meal charge policy in some depth. The above resources maybe helpful and
 please ensure that any unclaimed money in a student's account is not absorbed into the nonprofit
 school food service account or Angel account.

Paid Lunch Equity (PLE)

• Thank you for completing the Paid Lunch Equity tool each year and adhering to the pricing requirements.

Revenue from Nonprogram Foods

Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

 Nonprogram foods include: Adult Meals, A la Carte, Extra Entrees, Extra Milk (for cold lunch or milk break), Vended Meals (meals sold to other agencies), Catered Meals, and Food Service operated Vending Machines.

- All costs associated with nonprogram foods, including food, labor, equipment, and purchased services
 must be covered by revenues received from the sale of those foods. Nonprogram foods may not be
 supported by reimbursable meals or have a nonprogram foods loss absorbed by the food service
 account. Thus nonprogram foods may never run in the negative unless non-federal funds are
 transferred into the food service fund to cover the deficit.
- Nonprogram Food costs and revenues must be separated from Program food costs and revenues.
- Since nonprogram foods include Adult Meals and extra milk, these expenses and revenues must be separated from Program foods.
- The USDA Nonprogram Revenue Tool must be completed yearly, at a minimum. The <u>DPI Nonprogram Food Revenue Tool/Calculator</u> located on our website feeds into the USDA tool and aids in calculating prices of nonprogram foods and meeting the USDA nonprogram food regulation (http://dpi.wi.gov/sites/default/files/imce/school-nutrition/xls/non-program-food-price-calculator.xlsx).

$$\frac{\textit{Nonprogram food revenue}}{\textit{Total program and nonprogram revenue}} \geq \frac{\textit{Total nonprogram food costs}}{\textit{Total program and nonprogram food costs}}$$

- Thank you for using the DPI nonprogram foods revenue tool to assess your nonprogram food
 prices. When observing breakfast, it was discovered that all breakfast items may be sold ala carte.
 In reviewing the nonprogram foods revenue tool you completed in October, it appears most items
 are included, but please review the items sold for breakfast and ensure they are all included in the
 tool.
- Initially it was stated there was no catering out of the Intermediate school, but a classroom special
 event was catered after further conversations. Just as a reminder, please ensure these meals are
 priced to cover the full cost of providing the meal and the invoice is paid back to the school food
 service account.

Adult Meals

- Adult meals are considered non-program foods. Food service programs must price adult meals above
 the overall cost of the meals. Since adult meal costs can be difficult to calculate, SFAs must, at a
 minimum, follow the <u>minimum</u> pricing guidelines in Food Nutrition Services Instruction 782-5.
- A <u>Wisconsin Adult Meal Pricing Worksheet</u> has been developed to assist the SFA in pricing adult meals (http://dpi.wi.gov/sites/default/files/imce/school-nutrition/doc/wisconsin-adult-meal-pricing-guide.doc).
- Districts need to assess adult meal prices annually prior to contract submission to ensure student reimbursements are not being used to subsidize adult meals.

Resources

- Nonprogram Foods Revenue Rule SP-20-2016 (http://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/sp-20-2016.pdf)
- Nonprogram Foods In a "Nutshell" (http://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/nonprogram-foods-in-a-nutshell.pdf)

Indirect Costs

No Indirect Costs are charged to the food service account.

4. GENERAL PROGRAM COMPLIANCE

Civil Rights

Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

Nondiscrimination Statement

• When including the <u>non-discrimination statement</u> on letters, menus, website, and other documents used to convey program information, it is necessary to use the current statement which was updated in 2015 (http://dpi.wi.gov/school-nutrition/national-school-lunch-program/civil-rights). However, when space is very limited, such as on the printed menus or low balance notices, the abbreviated statement may be used, "This institution is an equal opportunity provider." Either of these statements must be in the same size font as the other text in the document.

Civil Rights Training

- Civil rights training must be conducted on a yearly basis for all staff and volunteers who administer any portion of a school nutrition program. All staff including all nonprogram staff have completed this training. Nice job.
- Civil rights training had been attended by all staff in the schools and documentation was available for review.

Special Dietary Needs

- All food substitutions made outside of the meal pattern requirements must be supported by a signed medical statement from a licensed medical professional. SFAs may use the <u>prototype Medical Statement</u> for Special Dietary Needs posted on the DPI website, which is also available in Spanish and Hmong (http://dpi.wi.gov/school-nutrition/national-school-lunch-program/special-dietary-needs). Meals served to students with special dietary needs with the signed medical statement do not need to meet meal pattern requirements. Additional information on <u>special dietary needs</u> can be found on the DPI School Nutrition Team website (http://dpi.wi.gov/school-nutrition/national-school-lunch-program/special-dietary-needs). This <u>flow chart</u> gives guidance on special dietary needs, as well (https://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/sdn-flowchart.pdf)
- School food service staff may make food substitutions, at their discretion, to accommodate children
 without a signed medical statement from a licensed medical practitioner. It is highly recommended
 that the SFA have a completed medical statement on file from a medical authority (which could be the
 school nurse) to support the request. These accommodations made for students must meet the USDA
 meal pattern requirements in order for the meals to be reimbursable. It is recommended that the SFA
 develop a policy for handling these types of accommodations to ensure that requests are equitable for
 everyone.
- Juice may not be substituted for fluid milk unless juice is specified as a substitution on a medical statement signed by a licensed medical practitioner. Water is available to all students, but an SFA may choose to offer lactose free milk or provide a fluid milk substitute that meets the nutritional requirements set forth by USDA. Nutrition information for a fluid milk substitute the SFA wishes to provide for students, must be approved by the SNT office. For more information on <u>fluid milk substitutes</u>, please see our Special Dietary Needs webpage (http://dpi.wi.gov/school-nutrition/national-school-lunch-program/special-dietary-needs).
- Fluid milk substitution rules apply to all federal school nutrition programs, including the National School Lunch Program, School Breakfast, and After School Snack Program, but do not apply to the Wisconsin School Day Milk Program. WSDMP allows juice as a milk substitution and is reimbursable.

SFAs may offer lactose-free milk to children who have lactose intolerance without requiring DPI preapproval for use.

Overt Identification

• The meal counting system must prevent overt identification of students receiving free and reduced price benefits. It was noted that meal prices for student meals (i.e., \$2.25, .40, 0.00) are visible on the computer screen that can be seen by students; this constitutes overt identification.

Processes for complaints

- Schools must have a process for receiving and processing complaints alleging discrimination within the school meals program.
- All verbal or written civil rights complaints regarding the school nutrition programs that are filed with the district must be forwarded to the Civil Rights Division of USDA Food and Nutrition Service within 3 days. You will want to make sure that this is included in the district procedures to ensure compliance.
- All SFAs should have procedures (written procedures preferred) in place for handling civil rights complaints in regards to discrimination in the National School Lunch Program and School Breakfast Program. A SFA may always attempt to resolve a situation that is occurring in real time. However, if an individual states that they wish to file a civil rights complaint, the SFA must provide them with the information necessary to do so and not impede an individual's right to file. Please refer to the USDA Program Discrimination Complaint Form for assistance in filing these complaints (https://www.ocio.usda.gov/sites/default/files/docs/2012/Complain_combined_6_8_12.pdf).

Findings and Corrective Action Needed: Civil Rights

Finding #1: The nondiscrimination statement was not included on the webpage with the free and reduced price meal applications.
Corrective Action Required: Please add the full nondiscrimination statement to this webpage. Completed 3/15/18
Finding #2: Schools must have a process for receiving and processing complaints alleging discrimination within the school meals program.
Corrective Action Required: Please a statement on the timeline for this process to be created and implemented.
Finding #3: <u>Disclosure agreements</u> are not on file for individuals outside of school food service who has access to the individual student free and reduced eligibility information.
Corrective Action Required: Please have each individual who is provided individual student eligibility information sign a disclosure statement and keep on file. Please provide a copy of each disclosure statement that is signed. A template agreement is linked above that may be modified as appropriate.

On-site Monitoring

Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

Every school year, each SFA with more than one school must perform no less than one on-site review
of the meal counting and claiming system and the readily observable general areas of review
identified under 7 CFR 210.18(h) in each school operating the NSLP and 50% of schools operating the
SBP administered by the SFA; this is due by February 1.

• Thank you for completed this monitoring using the updated forms and within the required timeframes.

Local Wellness Policy

Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

The local wellness policy requirement was established by the Child Nutrition and Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) Reauthorization Act of 2004 and further strengthened by the Healthy, Hunger-Free Kids Act (HHFKA) of 2010. The final rule requires School Food Authorities (SFAs) to begin developing a revised local school wellness policy during School Year 2016-17 with full compliance of the final rule by June 30, 2017.

Content of the Wellness Policy

The final Local School Wellness Policy Implementation Under the Healthy, Hunger-Free Kids Act of 2010 rule requires the SFA to retain basic records demonstrating compliance with the local school wellness (LWP) requirements. If no LWP has been developed, the SFA must establish a written policy. For assistance in the creation of a LWP, SFAs are encouraged to utilize the Wisconsin Wellness: Putting Policy into Practice - School Wellness Policy Toolkit (http://dpi.wi.gov/school-nutrition/wellness-policy/toolkit). At a minimum the wellness policy must include:

- Nutrition education (Recommended goals related to nutrition education include integrating into other core subjects or offering as a stand-alone course for all grade levels.)
- Nutrition promotion (At a minimum SFAs must review smarter lunchroom tools and strategies. Additional promotional activities include contests, surveys, food demonstrations, taste testing, and farm to school programming.)
- Physical activity (Recommended that SFAs offer time for students to meet the 60 minute goal, this
 could include recess, classroom physical activity breaks, and opportunities for physical activity
 before and after school.)
- Guidelines for all foods and beverages sold on the school campus during the school day (The LWP must contain guidelines for Federal school meal requirements and competitive food standards [Smart Snacks]).
- Guidelines for all foods and beverages provided on the school campus during the school day (SFAs must develop standards for foods provided to students, this includes classroom parties, schools celebrations, food offered as rewards/incentives.)
- Guidelines for food and beverage marketing (At a minimum, SFAs must restrict marketing to food and beverages that meet competitive food standards on the school campus during the school day.)
- Public involvement and committee leadership (SFAs must invite and allow for a diverse group of stakeholders to participate in the development, implantation, review, and updating of the LWP.
 SFAs must also identify the official responsible for oversight of the LWP to ensure school compliance.)
- Implementation, assessment and update of policy (At a minimum, SFAs must notify the public about the content, implementation of, and updates to the LWP. SFAs must complete a triennial assessment to evaluate compliance with the LWP, how the LWP compares to model wellness policies, and progress made in attaining the goals of the LWP).

Resources:

 Please refer to the USDA <u>summary of the requirements</u> for local school wellness policies (http://www.fns.usda.gov/sites/default/files/tn/LWPsummary_finalrule.pdf).

- USDA Food and Nutrition Service has information on the <u>local school wellness policy</u> process and wellness policy elements (https://healthymeals.nal.usda.gov/school-wellness-resources).
- Wisconsin Team Nutrition has several <u>wellness policy resources</u> available, including a toolkit, a
 wellness policy builder, and wellness policy report card (http://dpi.wi.gov/schoolnutrition/wellness-policy).

You have done a nice job with a regular committee, taking minutes, evaluating the policy and making it a tool to help improve the health of students in Mount Horeb Area SD. You were asked to present at the SNA National Conference on wellness policies, congratulations!

Technical Assistance: The final Local School Wellness Policy Implementation Under the Healthy, Hunger-Free Kids Act of 2010 rule requires the SFA to assess the local school wellness policy (LWP) every three years, at a minimum. The first assessment should be completed within three years of the SFA's policy being updated, but no later than June 30, 2020 to be in compliance with this rule. The triennial assessment must evaluate compliance with the LWP, how the LWP compares to model wellness policies, and progress made in attaining the goals of the LWP. SFAs must retain documentation of the results of the triennial assessment and when it took place. To assist SFAs with evaluating compliance with their LWP, a report card has been developed and is available at School Nutrition Team's Wellness Policy webpage (https://dpi.wi.gov/school-nutrition/wellness-policy). A sample model wellness policy is available at the USDA Wellness Policy webpage (http://www.fns.usda.gov/tn/implementation-tools-and-resources). Public School Districts that participated in the Wisconsin Obesity Prevention's Wellness Policy project, in SY16-17, have received a copy of a report comparing their policy to a model policy (reports were sent in August, 2017). Additional information about interpreting your school's report is available at the Wisconsin Health Atlas webpage (https://www.wihealthatlas.org/lwp/). Schools are encouraged to establish an account with the Rudd Center for Food Policy and Obesity to access the Wellness School Assessment Tool (WellSAT) for assistance in assessing the LWP.

The final Local School Wellness Policy Implementation Under the Healthy, Hunger-Free Kids Act of 2010 rule requires the SFA to inform and update the public about the assessment of the implementation of LWP. The notification should include the extent to which SFAs are in compliance with their LWP; the progress made toward attaining the goals of the LWP; and the extent to which the SFA's LWP compares to a model policy. SFAs are required to retain a copy of the assessment and documentation regarding the public notification. SFAs may use a variety of methods to notify the public about the assessment. This may include mailing flyers, newsletters, emails, website postings, and newspaper articles. It is recommended SFAs include an improvement plan upon the results of the assessment.

Smart Snacks in Schools

At the time of the on-site review there were no competitive foods or beverages other than all a carte breakfast items and milk sold at Mount Horeb Intermediate Center. If any food or beverage sales occur in the future, the items must either be in compliance with the Smart Snacks general and nutritional guidelines, or must qualify as an exempt fundraiser. A staff member at each school should be responsible for documenting compliance of exempt fundraisers and any other competitive food sales. You can find fundraiser tracking tools on our Smart Snacks webpage (https://dpi.wi.gov/school-nutrition/national-school-lunch-program/smart-snacks).

Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

- All foods (vending machines, school stores, etc.) sold anywhere on school campus, between midnight
 and 30 minutes after the last bell, must be in compliance with the new "Smart Snacks" regulation that
 became effective July 1, 2014. Information on this regulation, along with a product calculator to help
 determine compliance of various food items, can be found on our <u>Smart Snacks</u> webpage at
 (http://dpi.wi.gov/school-nutrition/national-school-lunch-program/smart-snacks).
- The Wisconsin Department of Public Instruction (DPI) allows two fundraiser exemptions per student organization per school site per school year, per the district's approval. A fundraiser cannot exceed two weeks in time. An exempt fundraiser may sell foods and beverages that are not allowable under the Smart Snacks rule but may not compete directly with the sale of reimbursable meals. All food fundraisers must be tracked SFA-wide to assure compliance with the regulation. Copies of the tools are available on our Smart Snacks webpage (http://dpi.wi.gov/school-nutrition/national-school-lunch-program/smart-snacks).

Professional Standards

Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

<u>Professional Standards: New Food Service Director Hiring Requirements</u>

- The Professional Standards regulations in 7 CFR 210.30 established hiring standards for new school nutrition program directors, hired on or after July 1, 2015, that manage and operate the National School Lunch and School Breakfast Programs. In addition, the regulations established annual training standards for all school nutrition program directors, managers, and staff which must be tracked.
- The <u>hiring standards for SFA directors</u> are based on the size of the SFA and includes education, school nutrition experience and food safety training requirements
 (http://dpi.wi.gov/sites/default/files/imce/school-: nutrition/pdf/professional-standards-hiring-chart-by-district-size.pdf).
- Per SP 38-2016, any School Food Service Director hired after July 1, 2015 that does not meet the minimum education requirements cannot use the nonprofit school food service account to pay their salary; this would be an unallowable cost and the SFA's general fund may be used to pay the salary of a new director who is actively pursuing the minimum education requirements.

Professional Standards: Training Requirements

- Annual training must be job-specific and intended to help employees perform their duties well. The
 required annual training hours vary according to the employee's role in the management and
 operation of the school nutrition program.
- Trainings can be provided in a variety of formats (online, in person, webinars) and through various providers (DPI, USDA, in-house, etc.).
- SFAs should clearly document all required training information and maintain that file including the
 name of staff person, date hired, title/position, brief list of core duties/responsibilities, status (full,
 part-time, substitute, volunteer, etc.), professional standards position (director, manager or staff).
 Learning codes are not required, but encouraged. A template tracking tool is posted to our
 Professional Standards webpage (http://dpi.wi.gov/school-nutrition/training/professional-standards).

Annual Training Requirements for All Staff

Directors: 12 hoursManagers: 10 hours

- Other Staff (20 hours or more per week): 6 hours
- Part Time Staff (under 20 hours per week): 4 hours
- If hired January 1 or later, only half of the training hours are required during the first school year of employment.

All school food service and nonprogram staff training hours are tracked using the DPI tracker tool. Thank you! A couple additional pieces of information are required to be added to each employee: date hired, title/position, brief list of responsibilities and status (full time/part time). Please add this to your tracking tool.

Water

Water is required to be available at no charge to students during the lunch and breakfast meal services. Schools can provide free water in a variety of ways, such as water pitchers and cups on lunch tables, a water fountain, or a faucet that allows students to fill their own bottles or cups.

Water is available in the hall outside the cafeteria, there are no restrictions to accessing this during meals.

Food Safety and Storage

Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

<u>A Flash of Food Safety</u> is a video series designed to help school nutrition professionals understand and apply safe food practices (www.fns.usda.gov/ofs/food-safety-flashes). The <u>Office of Food Safety</u> website (www.fns.usda.gov/ofs/food-safety) includes food safety resources.

Food Safety Inspections

- Every school operating USDA School Child Nutrition Programs must have two food safety inspections during each school year: including food safety inspection and a review of the site's Food Safety Plan.
- Food safety inspection reports must be posted in public view. Thank you for posting your last two
 reports in the cafeteria.

Temperatures

- All cooling equipment must have internal temperatures taken and recorded daily on temperature logs. Posting them directly on the equipment makes recording convenient and a regular part of daily routines.
- Your staff are doing a nice job of this.

Food Safety Plans

- The Food Safety Plan was available for review and had been reviewed and updated.
- All schools must have a comprehensive, site-specific food safety plan on-site which includes all
 process 1, 2, and 3 items, all applicable standard operating procedures (SOP), all equipment, and a
 listing of food service staff at that site. The food safety plan must be reviewed annually. A prototype
 food safety plan template as well as template SOPs may be found on the <u>SNT Food Safety</u> webpage.
 (https://dpi.wi.gov/school-nutrition/food-safety)
- The site-specific food safety plan should include SOPs for all programs and procedures utilized at the site.

- The procedures detailed in the SOPs included in the site-specific food safety plan should be followed by all food service staff, student workers, volunteers, and any other people involved in the implementation of Child Nutrition Programs at all times.
- SFAs are required to update food safety programs based on Hazard Analysis Critical Control Point (HACCP) principles to cover any facility where food is stored, prepared, or served for the purposes of the NSLP, SBP, or other FNS programs. This means the food safety program should contain standard operating procedures (SOP) for safe food handling on school buses, in hallways, school courtyards, kiosks, classrooms, or other locations outside the cafeteria.
- Thank you for maintaining a food safety plan which includes all process 1, 2, and 3 items, all applicable standard operating procedures (SOP), all equipment, and food service staff.

Food Employee Reporting Agreements

- All food service employees must have a signed <u>Food Employee Reporting Agreement</u> on file (https://datcp.wi.gov/Documents/foodemployeereportingagreementsupplement.pdf).
- Employees must sign a new Food Employee Reporting Agreement form if changes are made to the document. While there are no requirements as to how frequently food service employees must sign a Food Employee Reporting Agreement form, it is the best practice for each food service employee to annually review and sign an agreement to reinforce the information contained in the document.

Storage

- SFAs are required to ensure that facilities for the handling, storage, and distribution of purchased and donated foods are properly safeguarded against theft, spoilage, and other loss (7 CFR 210.13(d)).
- The on-site and/or off-site storage areas were reviewed, including freezers, refrigerators, dry good storage rooms and other areas, no food safety violations noted. Kitchen service areas were very clean and organized.

Buy American

Comments/Technical Assistance/Compliance Reminders

The USDA requires that an SFA purchase, to the maximum extent practicable, domestic commodities or products. Using food products from local sources supports the local economy, small local farmers and provides healthy choices for children in the school meal programs. The Buy American provision is required whether food products are purchased by SFAs or entities that are purchasing on their behalf.

The Buy American provision should be included in solicitations, contracts, and product specifications. The SFA should maintain written procedures to ensure product received and inventory is compliant with the Buy American procedure. Sample written procurement contract management procedures (https://dpi.wi.gov/school-nutrition/procurement/contract-procedures/contract-management) and Buy American monitoring procedures.

There are limited exceptions to the Buy American provision which allow for the purchase of products not meeting the "domestic" standard as described above ("non-domestic") in circumstances when use of domestic products is truly not practicable. Refer to SP 24-2016 for more information on the Buy American provision and limited exceptions.

More information on this new requirement, including a tool to assist with tracking noncompliance products, can be found on the SNT Procurement webpage (http://dpi.wi.gov/school-nutrition/procurement/buy-american).

Findings and Corrective Action Needed: Buy American

☐ Finding #1: Insufficient information recorded on tracking tool

There are 4 pieces of information per non-compliant item that must be recorded on the Buy American Non-Compliant Product list of your choosing:

- 1. Date
- 2. Name of product
- 3. Country of origin
- 4. Reason
 - a. Cost analysis
 - b. Seasonality-record the months that the domestic product is not available
 - c. Availability
 - d. Substitution-record the reason the distributor substituted the product
 - e. Distribution- record the reason the distributor carries the non-domestic product
 - f. Other-explain

At the time of on-site review, non-compliant documentation records name of product and reason. Date and country of origin must also be recorded. You may record additional information if you find it beneficial. A template form is located on the procurement webpage (https://dpi.wi.gov/sites/default/files/imce/school-nutrition/doc/buy-american-noncompliant-list.docx).

Corrective Action Needed for Finding #1: Please provide a copy of the Noncompliant Product List with all required information. Include any noncompliant products currently in the SFAs food storage areas. Provide the updated and completed list as corrective action.

☐ Finding #2: Non-compliant items

The following products were identified in SFA's storage area as non-domestic and not listed on the SFA's Buy American Noncompliant List:

- Balsamic vinegar- Italy
- Garlic powder- US and China

Corrective Action Needed for Finding #2: Provide an updated non-compliant list.

School Breakfast Program (SBP) and Summer Food Service Program (SFSP) Outreach

Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

At the beginning of the school year, the SFA must notify families of the availability of breakfast and schools should send reminders regarding the availability of the SBP multiple times throughout the school year.

Breakfast Promotion

Please continue to promote and advertise your school breakfast program throughout the school year to encourage participation.

For more ideas on breakfast menus, visit our On, Wisconsin! Cycle Menu or look up menus for other schools in Wisconsin.

- <u>Cycle Menu Resources</u> (http://dpi.wi.gov/school-nutrition/national-school-lunch-program/menu-planning/cycle-menu)
- <u>School Breakfast Menus on the Web</u> (http://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/school-breakfast-menus-on-the-web.pdf)

National School Breakfast Week is in the spring each year. This is a great time to promote your breakfast program, try new recipes, incorporate activities, etc. to increase participation.

- School Breakfast is promoted in the Back-to-School newsletter, monthly menus and throughout the year in the newsletter.
- Continue to promote participation in the School Breakfast Program with fun menus or promotions.

Summer Meals

A goal of USDA Child Nutrition Programs is to ensure all students have access to healthy and nutritious meals year-round. Even though a summer feeding program is not operated at Mount Horeb Area School District, USDA requires all SFAs to inform families of where their students can receive a free meal in the summer months. SFAs can inform families of summer meals via the following methods:

- Promotion of the <u>summer meals locator</u> on the DPI Summer Meals webpage (https://dpi.wi.gov/community-nutrition/sfsp/find-summer-meals-site)
- Promotion of calling 211 to locate meals in the area
- Promotion of the ability to text 'food' to 877-877 to locate meals in the area
- Promotion of the USDA <u>Summer Food</u> website (http://www.fns.usda.gov/summerfoodrocks)

Resources:

- To access an inclusive map of all potential participating sites in your area, see the <u>interactive map</u> on the SFSP website (http://www.fns.usda.gov/capacitybuilder).
- For more information on Summer Feeding option contact: Amy J. Kolano, RD, CD, Summer Food Service Program Coordinator Phone: 608.266.7124; e-mail: amy.kolano@dpi.wi.gov

Findings and Corrective Action: SBP and SFSP Outreach

☐ Finding #1: SFSP promotion did not occur in 2016-17.

Corrective Action Needed: Please provide how you will communicate information to households regarding the SFSP locations and how to access more information.

Wisconsin School Day Milk Program (WSDMP)

Commendations/Comments/Technical Assistance (TA)/Compliance Reminders

- Wisconsin School Day Milk Program requires the distribution of free milk to students eligible for free and reduced priced meals, but only for students in K-5th grade.
- Point of Service Counts (POS) for the Wisconsin School Day Program must be recorded by who "did" take milk not by marking who "did not" take one at the time they receive the milk.

Findings and Corrective Action: Wisconsin School Day Milk Program

☐ **Finding #1**: One classroom was observed and milk counts were taken in the morning and not at the point of service when the student received the milk.

Corrective Action Required: Please provide your plan of correction including training for teachers on an accurate point of service procedures.

Dr. Tony Evers, State Superintendent of Wisconsin Department of Public Instruction, shares a vision that every student will graduate prepared for college and career. His goals are for students to have the knowledge, skills, and habits that will allow them to succeed in life after high school. Access to quality nutrition plays a major role in developing those life-long habits.

The School Nutrition Team believes that what school nutrition programs do every day plays a very important part in the success of every child being able to graduate. We all know that well-nourished children are ready to learn. Thank you for all you do to ensure student success.

For more information on this initiative, please visit the Wisconsin DPI Every Child a Graduate webpage (dpi.wi.gov/statesupt/agenda-2017).

With School Nutrition Programs!
