

**USDA Child Nutrition Programs
Administrative Review Summary Report**

School Food Authority: Riverdale School District

Agency Code: 223850

School(s) Reviewed: Riverdale Middle School

Review Date(s): April 9, 10, 2019

Date of Exit Conference: April 10, 2019

State agencies (SA) are required to conduct administrative reviews to assess School Food Authority (SFA)'s administration of the National School Lunch Program (NSLP), School Breakfast Program (SBP), and other school nutrition programs. The objectives of the Administrative Reviews are to:

- Determine whether the SFA meets program regulations,
- Provide technical assistance,
- Secure needed corrective action,
- Assess fiscal action, and when applicable, recover improperly paid funds.

General Program Reminders/Updates:

- The Department of Public Instruction (DPI) School Nutrition Team (SNT) conducts School Nutrition Skills Development Courses (SNSDC) each summer in various locations around the state at no charge. Courses cover many areas of the school nutrition programs including administrative responsibilities, program basics, meal pattern requirements and menu planning, financial management, professional standards, meal benefit determination process, procurement, and many other topics. More information along with other upcoming trainings and webinars can be found on the Wisconsin DPI [School Nutrition Training](http://dpi.wi.gov/school-nutrition/training) webpage (dpi.wi.gov/school-nutrition/training).
- SFA staff are encouraged to pursue GOALS Certification. GOALS stands for Goal Oriented Achievement Learning Skills. This is a certificate endorsed by the DPI and is obtained by completing training in nutrition, program administration and operations, and communications and marketing. For more information go to the Wisconsin DPI [School Nutrition Training](http://dpi.wi.gov/school-nutrition/training/goal-oriented-achievement-learning-skills) webpage (dpi.wi.gov/school-nutrition/training/goal-oriented-achievement-learning-skills).
- The US Department of Agriculture has a toolkit of resources to assist schools in meeting the nutrition standards on their [Healthier School Day: The School Day Just Got Healthier](http://www.fns.usda.gov/healthierschoolday) webpage. The topics covered include Smart Snacks, offering fruits and vegetables, reducing sodium, and serving whole grain-rich products (http://www.fns.usda.gov/healthierschoolday).
- [The Smarter Lunchrooms Movement](http://smarterlunchrooms.org) encourages schools to implement low-cost and no-cost lunchroom solutions to help students' select healthier meal options (http://smarterlunchrooms.org). Smarter Lunchroom techniques are easy to begin implementing and do help encourage student consumption of fruits, vegetables, legumes, non-flavored milk, and other healthful choices. These strategies are effective and research-based. Consider trying the Smarter Lunchroom techniques for [increasing consumption of white milk](https://www.smarterlunchrooms.org/scorecard-tools/smarter-lunchrooms-strategies#Milk) (https://www.smarterlunchrooms.org/scorecard-tools/smarter-lunchrooms-strategies#Milk).

Appreciation/Commendations/Noteworthy Initiatives:

Thank you to the staff at Riverdale School District for the courtesies extended to us during the on-site review. Thank you for being available when answering questions and providing additional information. Everyone was very receptive to recommendations and guidance. In addition, thank you for taking the time to respond to the off-site questions and requests, as well as pulling records for the on-site portion of the review.

REVIEW AREAS

1. MEAL ACCESS AND REIMBURSEMENT

Certification and Benefit Issuance

55 Applications were reviewed.

Free and Reduced Price Meal Applications

- Applications must be reviewed in a timely manner. An eligibility determination must be made, the family notified of its status, and the status implemented within 10 operating days of the receipt of the application.
- Children are eligible for free or reduced price meal benefits on the date their eligibility is determined by the Determining Official.
- All free/reduced applications and the direct certification runs were available for review. All applications have been approved and students are receiving the benefits they have been determined eligible for.
- When an application only has one frequency of payment indicated for all of their reported incomes on the application, the income should not be converted to annual, but using the [Income Eligibility Guidelines](#) one would look at the amount of their income under the column indicating that frequency (i.e., weekly, twice monthly, every two weeks, monthly, annually) (<https://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/income-eligibility-guidelines-1718.pdf>).
- When a household has income in addition to a loss from a business, that income must be included on the free and reduced application in full and is not offset by the business loss. A business loss (negative dollar amount) would become \$0 for the income on the application.

Effective Date of Eligibility

- SFAs may establish the date of submission of an application as the effective date of eligibility, rather than the date the application is reviewed and eligibility is determined. This flexibility applies only to complete applications containing all required information. See SP 11-2014 for more information. The SNT must be contacted prior to implementing this flexibility for approval. Contact Karrie Isaacson at karrie.isaacson@dpi.wi.gov for more information and approval.

Annual Income

- There has been a recent modification to the requirement pertaining to the reporting of annual income on an application. USDA released SP-19, 2017 on March 20, 2017 allowing households to report current income as an *annual figure*. Annual income is typically reported for households with jobs that are seasonal, self-employed, or agricultural work since that is a more accurate representation of *current income*. These applications may now be processed at face value. However, most households that receive regular pay checks, will report income based on what is *currently earned* and the frequency of that pay, i.e. weekly, biweekly, bimonthly or monthly.

Household Size Box

- The total household member size box (Step 3G) includes all children and adults in the household and must match the number of names on the application for the application to be considered complete.

Incomplete Applications

- Any application that is missing required information, contains inconsistent information, or is unclear is considered an incomplete application and may not be determined until clarified. The SFA may return the application to the household or contact the child's parent or guardian either by phone or in writing/email. The determining official should document the details of the conversation plus date and initial. Applications missing signatures must be returned to the parent to obtain. Reasonable effort should be made to obtain the missing information prior to denying the application.

Application Forms

- If an SFA wishes to change the look or format of the application for Free or Reduced-price school meals or other forms in the application packet, that document needs to be approved by the School Nutrition team at DPI.
- Thank you for using the DPI prototype letters with the current non-discrimination statement.

Limited English Proficiency (LEP)

- Application materials and other communications with households concerning eligibility determinations must be provided in a language that parents or guardians can understand in order to diminish any language barriers to participation for individuals with limited English proficiency.
- SFAs must make reasonable efforts to provide household letters and application forms to families in the appropriate languages.
- To assist SFAs in reaching households with limited English proficiency, the SNT provides the Wisconsinized version of the USDA Free and Reduced Price Meal application materials in English, Spanish, and Hmong. OoOnd Nutrition Service (FNS) website offers many other [foreign language translations of the Application for Free and Reduced Price School Meals](https://www.fns.usda.gov/school-meals/translated-applications) (<https://www.fns.usda.gov/school-meals/translated-applications>).
- The nonprofit food service account may be used to pay for translation services if there is a need to translate materials in a language that is not currently available.

Other Source Categorical

- If a household submits an application that indicates Other Source Categorical Eligibility, such as homeless, migrant, or runaway, the SFA must confirm the children's status by an appropriate program official either through direct contact with the agency or by a list of names provided by the agency, before meal benefits can be provided. Once confirmed, this eligibility is only available to the designated child and is not extended to other members of the household.
- Applications that indicate a child is a foster child are categorically eligible for free meals. The child's status for free meals does not require confirmation of eligibility prior to receiving benefits. This benefit is not extended to other household members.

Transferring Students

- When a child transfers to a new school within the same Local Educational Agency (LEA), the new school must accept the eligibility determination from the child's former school, if the child has an individual eligibility determination.

- A child that transfers within the same LEA from a CEP to a non-CEP school must be given free reimbursable meals for up to 30 operating days or until a new eligibility determination is made, whichever comes first.
- Transferring the eligibility determination between LEAs ensures that qualifying students continue to receive school meal benefits as they transition to new schools, and avoids the possibility of unpaid meal charges. FNS strongly encourages LEAs to immediately accept the eligibility determinations made at a student's previous LEA (if they participated in NSLP) when a student transfers between LEAs during the school year, over the summer, or at the start of the next school year. Wisconsin DPI requires source documentation of the student's previous eligibility. The transfer of eligibility between LEAs for students attending CEP schools will be required by July 1, 2019.

Direct Certification

- As a reminder, you are required to run direct certification a minimum of three times a year: at or near the beginning of the school year, three months after the initial run and six months after the initial run.
- The effective eligibility date for a DC eligible student is the date of the original output file.
- Thank you for running the Direct Certification matches in the required time frames, when you receive a new student and other times to pick up any newly eligible students.

Commendations/Comments/Technical Assistance/Compliance Reminders

Findings and Corrective Action Needed: Certification and Benefit Issuance

Finding #1: There are no errors in Benefit Issuance. Nothing further needed.

Verification

Commendations/Comments/Technical Assistance/Compliance Reminders

- When applications are chosen for verification, the person designated as the Confirming Official must review the application(s) to ensure the initial determination is correct prior to contacting the family. There is a place for the Confirming Official to sign and date on the back of the application.
- The LEA has a regulatory obligation to verify "for cause" all approved applications that may be questionable. For more information, refer to the current Eligibility Manual.
- When a benefit eligibility status increases, the change must take place within 3 days. When a benefit eligibility decreases, the change cannot take place before 10 calendar days and a notice of adverse action is sent in writing with appeal rights procedures.

Findings and Corrective Action Needed: Verification

Two families were selected for Verification, and both responded. Both application determinations were Reduced. After Verification, they were both changed to Paid status. There were no errors in the Verification process, and the report was submitted on time.

2. MEAL COUNTING AND CLAIMING

Commendations/Comments/Technical Assistance/Compliance Reminders

- Meals may only be charged to a student at the time of receipt of a reimbursable meal to assure proper benefits issuance.
- When entering the claim it is necessary to use the edit check to calculate your reimbursable meals by site for claim submission.
- Meals must be offered to all students each day school is in session a full day, so DPI has created [Field Trip meal resources](https://dpi.wi.gov/school-nutrition/national-school-lunch-program/menu-planning) to help schools offer student meals (https://dpi.wi.gov/school-nutrition/national-school-lunch-program/menu-planning).
- The meal counting and claim for the Review Month was conducted perfectly.
- Please note that SFAs may claim visiting students in the paid category or the individual's category with documentation, unless they are from a CEP school.
- REMINDER: Meal benefits apply only to the reimbursable meal. The reimbursable meal includes milk as one of the required components, and must be priced as a unit. If the student decides to take only milk, this is not a reimbursable meal and will be charged for the milk as an a la carte item.

3. SMART SNACKS

❑ Finding #3: Non-compliant beverages in the vending machine. If multiple grades have access to vending machines with beverages, products must meet Smart Snacks standards for the youngest age/grade group. The vending machine currently has \ beverages that are allowable for 9-12 grades only.

For example, if a vending machine with beverages is available to 6-12th graders, beverages must meet Smart Snacks standards for the 6-8 age/grade group; therefore, items like caffeinated, low-calorie (≤ 5 kcal/fluid oz.) flat or carbonated, or no-calorie beverages (< 5 kcal/8 fluid oz; ≤ 10 kcal/20 fluid oz.) flat or carbonated beverages are unallowable.

Corrective Action Needed: Please communicate in writing to the Public Health Nutritionist regarding your plan for limiting the access of non-compliant beverages to the middle schoolers.

4. BUY AMERICAN PROVISION

Findings and Corrective Action Needed: Buy American Provision

❑ Finding #4: There are non-domestic food products in inventory. Under the Buy American Provision, it is required that schools purchase domestic products to the maximum extent practicable.

For example, the canned pineapple is a product of the Philippines, the mandarin oranges are a product of China, and the cereal products do not list a country of origin.

j

Corrective Action Needed: It is understood that not all commodities can be produced and purchased in the USA. When it is not practicable to purchase domestically, please complete the Buy American Noncompliant List found on the [Buy American webpage](https://dpi.wi.gov/school-nutrition/procurement/buy-american) (https://dpi.wi.gov/school-nutrition/procurement/buy-american) and keep on file. **Please submit three instances of your choice documenting food items produced outside the USA.**

5. RESOURCE MANAGEMENT

Nonprofit School Food Service Account

Commendations/Comments/Technical Assistance/Compliance Reminders

Annual Financial Report (AFR):

- All revenues including reimbursements and student payments, and expenses including food, labor, equipment, purchased services, and other need to be entered into the program to which they belong, and this will aid the school in calculating its “yearly” reference period for nonprogram food compliance which is highly recommended. The new [16-17 Annual Financial Report instructions](https://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/annual-financial-report-instructions.pdf) are located on our website (<https://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/annual-financial-report-instructions.pdf>).
- When a student deposits funds in their lunch account which will be used for meal purchases, the amount received is not treated as revenue until the meal has actually been served to the student. The amount of funds on hand in student accounts is treated as a deposit or liability account in either the foodservice fund (Fund 50) or the general fund (Fund 10) until the meal is served at which point the deposit account is converted to revenue. This amount should not be recorded as revenue, or part of the fund balance on your Annual Financial Report.
- The ending balance on June 30 from the previous year needs to be the beginning balance on July 1 for the current year.
- The ending balance, on June 30, can never be a negative balance. A transfer must be made from the non-federal funds to bring the ending balance to \$0.00.
- The school food service fund may not have an ending fund balance in excess of 3 month operating expenses, as this is considered “Excess Cash Balance”.
- These categories of the AFR that should be addressed when tracking revenues and expenditures include:
 - Expenses for paper supplies, chemicals, thermometers, etc., should be reported under “Other”. Only expenses for edible food items and beverages should be reported under “Food”.
 - “Equipment” should reflect major purchases of equipment. Utensils, pans, smaller equipment such as a cart, etc., should be reported under “Other”.
 - Under “Purchases Services” you should be reporting any time you pay someone for services provides such as equipment repair and health inspections.
 - Under “Ala Carte”, you should be reporting the expenses for any food items served to students that are not claimed as part of the reimbursable meal. Revenues and expenses from adult meals would also be included here.
 - When revenues are recorded from the federal reimbursement payments, you want to make sure that you are recording the full reimbursement based on the printed claim form and not what is actually deposited into your account. As you will note on the claim, there may be money deducted from shipping, handling and processing fees for USDA Foods. The amount deducted from your revenue should be reported as a food expenditure.

Allowable Costs

- The nonprofit school food service account is to be used for the operation of the school meal program including food, supplies, equipment and personnel.
- The nonprofit school food service account may not be used to purchase land and/or buildings unless approved by FNS.
- Allowable costs are defined in 2 CFR 200 Subpart E and should be necessary, reasonable and allocable. More information on allowable costs can be found within the [Indirect Costs guidance](http://dpi.wi.gov/school-nutrition/national-school-lunch-program/financial) (<http://dpi.wi.gov/school-nutrition/national-school-lunch-program/financial>).

- Bad debt is an unallowable expense to the food service program. A transfer must be made from non-federal funds to cover student account write-offs. [SP23-2017 Unpaid Meal Charges guidance Q & A](#) may be found on our Financial Management webpage (<https://dpi.wi.gov/school-nutrition/national-school-lunch-program/financial>).

Unpaid Meal Charge Policy

- USDA Policy Memorandum SP 46-2016 requires all SFAs operating federal school meal programs, by July 1, 2017, to have a written and clearly communicated policy that addresses unpaid meal charges. For a snap-shot on what the policy must include, see the [Unpaid Meal Charges In a "Nutshell"](#) (<http://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/unpaid-meal-charges-nutshell.pdf>). For a more comprehensive overview, see SP 23-2017: [Unpaid Meal Charges Guidance](#): <https://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/sp-23-2017.pdf>
 - Best Practices
 - Local meal charge policy checklist
 - Sample outstanding balance letter
 - Sample robo-call script
- Funds in student meal accounts are considered a liability until a meal is purchased. When the funds are left "unclaimed", they cannot be used to offset another student's negative account, unless *paid* households have *chosen to donate* those funds to the school food service account. All funds left in any student meal account which cannot be contacted must be turned over to the Wisconsin Department of Revenue (DOR) as unclaimed property. The DOR has rules concerning unclaimed property that must be followed (<https://www.revenue.wi.gov/DOR%20Publications/pb82.pdf>).

Nonprofit School Food Service Account

Commendations/Comments/Technical Assistance/Compliance Reminder

Paid Lunch Equity

Commendations/Comments/Technical Assistance/Compliance Reminders

The Paid Lunch Equity Tool was not necessary this year due to a positive balance in Fund 50. Riverdale School District chose to raise their meal prices anyway.

Revenue from Nonprogram Foods

Commendations/Comments/Technical Assistance/Compliance Reminders

- Nonprogram foods include: Adult Meals, A la Carte, Extra Entrees, Extra Milk (for cold lunch or milk break), Vended Meals (meals sold to other agencies), Catered Meals, and Food Service operated Vending Machines.
- All nonprogram food costs including food, labor, equipment, and purchased services must be covered by revenues received from the sale of those foods. Nonprogram foods may not be supported by reimbursable meals or have a nonprogram foods loss absorbed by the food service account. Thus nonprogram foods may never run in the negative unless non-federal funds are transferred into the food service fund to cover the deficit.
- Nonprogram Food costs and revenues must be separated from Program food costs and revenues.
- The USDA Nonprogram Revenue Tool must be completed yearly, at a minimum. The [DPI Nonprogram Food Revenue Tool/Calculator](#) located on our website feeds into the USDA tool and aids in calculating prices of nonprogram foods and meeting the USDA nonprogram food

regulation (<http://dpi.wi.gov/sites/default/files/imce/school-nutrition/xls/non-program-food-price-calculator.xlsx>).

$$\frac{\textit{Nonprogram food revenue}}{\textit{Total program and nonprogram revenue}} > \frac{\textit{Total nonprogram food costs}}{\textit{Total program and nonprogram food costs}}$$

- SFAs that sell only nonprogram milk and adult meals as nonprogram foods are [exempt](#) from completing the USDA Nonprogram Food Revenue tool (<http://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/exceptions-nonprogram-revenue.pdf>).
- Adult meals are considered non-program foods. Food service programs must price adult meals above the overall cost of the meals. Since adult meal costs can be difficult to calculate, SFAs must, at a minimum, follow the **minimum** pricing guidelines in Food Nutrition Services Instruction 782-5.
- A [Wisconsin Adult Meal Pricing Worksheet](#) has been developed to assist you in pricing adult meals (<http://dpi.wi.gov/sites/default/files/imce/school-nutrition/doc/wisconsin-adult-meal-pricing-guide.doc>).
- Districts need to reassess adult meal prices annually prior to contract submission to ensure student reimbursement are not being used to subsidize adult meals. The current reimbursement rates should be used to determine prices.

Resources

- [Nonprogram Foods Revenue Rule SP-20-2016](#) (<http://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/sp-20-2016.pdf>)
- [Nonprogram Foods In a "Nutshell"](#) (<http://dpi.wi.gov/sites/default/files/imce/school-nutrition/pdf/nonprogram-foods-in-a-nutshell.pdf>)

Findings and Corrective Action Needed: Revenue From Nonprogram Foods

Finding: The Non-Program Food Tool was not completed. This tool is used to guide SFA's on pricing for non- program foods.

Corrective Action Needed: Fill out the Non-Program Food tool, and submit a copy to the consultant. Keep for your files per the record requirement rule.

Indirect Costs

Commendations/Comments/Technical Assistance/Compliance Reminders

- DPI does not allow the annual assigned indirect cost rate to be applied to Fund 50 (Foodservice account within WUFAR). For both public and private schools in Wisconsin, any costs assessed to foodservice must be based on documented and justifiable costs for each school building as they pertain to your school situation rather than on the indirect cost rate. This could include items such as utilities, rent, printing and mailing services, administrative oversight, etc.
- Allowable Expenditures assessed to the food service fund must be supported with documentation for things such as gas, electricity, waste removal, fuel, water, etc. for both public and private schools. Examples of supporting documentation for costs assessed to food service fund could include:

- Rent – consultation with knowledgeable resource person on appropriate charges per facility (i.e., local realty broker who has knowledge of current rates for rent of similar facilities).
- Utility charges - separately metered or current usage study by the local utility company.
- Labor expenditures - based on actual amount of time worked specifically for the purpose of school food service times the employee's wages and benefits.
- Printing/publishing – documentation of actual costs or documentation to support how these costs were prorated from the district’s total costs, based on volume.
- Waste disposal services, extermination services, and laundry services - documentation of actual costs or documentation to support how these costs were prorated from district’s total.

Findings and Corrective Action Needed: Indirect Costs

There aren’t any indirect costs.

6. GENERAL PROGRAM COMPLIANCE

Civil Rights

Commendations/Comments/Technical Assistance/Compliance Reminders

Nondiscrimination Statement

- When including the [non-discrimination statement](#) on letters, menus, website, and other documents used to convey program information, it is necessary to use the current statement which was updated in October 2015 (<http://dpi.wi.gov/school-nutrition/national-school-lunch-program/civil-rights>).
- However, when space is very limited, such as on the printed menus, the abbreviated statement may be used, “**This institution is an equal opportunity provider.**” Both statements should be in the same size font as the other text in the document.

And Justice for All Poster

- “And Justice for All” posters need to be posted in public view where the program is offered.

Civil Rights Training

- Civil rights training must be conducted on a yearly basis for all staff and volunteers who administer any portion of a school nutrition program.
- Civil rights training had been attended by all staff in the schools and documentation was available for review.

Civil Rights Self-Compliance Form

- The [Civil Rights Self-Evaluation Compliance](#) form is required to be completed by October 31 annually.

Special Dietary Needs

- All food substitutions made outside of the meal pattern requirements must be supported by a signed medical statement from a licensed medical professional. You may use the [prototype Medical Statement](#) for Special Dietary Needs posted on our website, which is also available in Spanish and Hmong (<http://dpi.wi.gov/school-nutrition/national-school-lunch-program/special-dietary-needs>).

- SFAs must accommodate dietary requests that are supported by a signed medical statement from a licensed medical practitioner. Meals served to students with special dietary needs who have a signed medical statement from a licensed medical practitioner do not need to meet meal pattern requirements. Additional information on [special dietary needs](http://dpi.wi.gov/school-nutrition/national-school-lunch-program/special-dietary-needs) can be found on the DPI School Nutrition Team website (<http://dpi.wi.gov/school-nutrition/national-school-lunch-program/special-dietary-needs>).

School food service staff may make food substitutions, at their discretion, for children for whom they do not have a signed medical statement from a licensed medical practitioner. It is highly recommended that the SFA have a completed medical statement on file from a medical authority

Findings and Corrective Action Needed: Civil Rights

Civil Rights training is being done each school year for all staff, and documented and saved.

❑ **Finding:** The Justice for all Poster was inside the kitchen, and should be outside the kitchen where public can view at any time.

Corrective Action Needed: The poster was moved immediately, no further action needed.

On-site Monitoring

Commendations/Comments/Technical Assistance/Compliance Reminders

- Every school year, each SFA with more than one school must perform no less than one on-site review of the meal counting and claiming system and the readily observable general areas of review identified under 7 CFR 210.18(h) in each school operating the NSLP and 50% of schools operating the SBP administered by the SFA by February 1.
- The Administrative Review Final Rule updated 7 CFR Part 220.11(d)(1) establishing the requirement to conduct onsite monitoring of the School Breakfast Program beginning in school year 2016-17. The annual requirement is to annually review 50% of schools approved to participate in the SBP within the jurisdiction of the SFA, with each school in SBP being reviewed once every two years. For more information see USDA memo [SP 56-2016](http://www.fns.usda.gov/sites/default/files/cn/SP56-2016os.pdf) (<http://www.fns.usda.gov/sites/default/files/cn/SP56-2016os.pdf>).
- The onsite monitoring forms have been updated to include the general areas of review and a new SBP program onsite review form found on our [Administrative Review](http://dpi.wi.gov/school-nutrition/national-school-lunch-program/administrative-review) webpage under the SFA onsite monitoring section (<http://dpi.wi.gov/school-nutrition/national-school-lunch-program/administrative-review>).

Findings and Corrective Action Needed: On-site Monitoring

On-Site monitoring is being done and forms are filled in correctly. Nothing further needed.

Local Wellness Policy

Commendations/Comments/Technical Assistance/Compliance Reminders

The local wellness policy requirement was established by the Child Nutrition and Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) Reauthorization Act of 2004 and further strengthened by the Healthy, Hunger-Free Kids Act (HHFKA) of 2010. The final rule requires School Food Authorities (SFAs) to begin developing a revised local school wellness policy during School Year 2016-2017 and full compliance with the requirements of the final rule by June 30, 2017.

At a minimum, SFAs must permit participation by the general public and the school community including parents, students, and representatives of the school food authority, teachers of physical education, school health professionals, the school board, and school administrators in the wellness policy process. In addition, SFAs must designate one or more school officials to ensure each school complies with the policy.

Content of the Wellness Policy

The final *Local School Wellness Policy Implementation Under the Healthy, Hunger-Free Kids Act of 2010* rule requires the SFA to retain basic records demonstrating compliance with the local school wellness (LWP) requirements. If no LWP has been developed, the SFA must establish a written policy. For assistance in the creation of a LWP, SFAs are encouraged to utilize the *Wisconsin Wellness: Putting Policy into Practice - School Wellness Policy Toolkit*. This can be accessed electronically at (<http://dpi.wi.gov/school-nutrition/wellness-policy/toolkit>). At a minimum the wellness policy must include:

- Nutrition education (Recommended goals related to nutrition education include integrating into other core subjects or offering as a stand-alone course for all grade levels.)
- Nutrition promotion (At a minimum SFAs must review smarter lunchroom tools and strategies. Additional promotional activities include contests, surveys, food demonstrations, taste testing, and farm to school programming.)
- Physical activity (Recommended that SFAs offer time for students to meet the 60 minute goal, this could include recess, classroom physical activity breaks, and opportunities for physical activity before and after school.)
- Guidelines for all foods and beverages sold on the school campus during the school day (The LWP must contain guidelines for Federal school meal requirements and competitive food standards [Smart Snacks]).
- Guidelines for all foods and beverages provided on the school campus during the school day (SFAs must develop standards for foods provided to students, this includes classroom parties, schools celebrations, food offered as rewards/incentives.)
- Guidelines for food and beverage marketing (At a minimum, SFAs must restrict marketing to food and beverages that meet competitive food standards on the school campus during the school day.)
- Public involvement and committee leadership (SFAs must invite and allow for a diverse group of stakeholders to participate in the development, implantation, review, and updating of the LWP. SFAs must also identify the official responsible for oversight of the LWP to ensure school compliance.)
- Implementation, assessment and update of policy (At a minimum, SFAs must notify the public about the content, implementation of, and updates to the LWP. SFAs must complete a triennial assessment to evaluate compliance with the LWP, how the LWP compares to model wellness policies, and progress made in attaining the goals of the LWP).

Please refer to the USDA [summary of the requirements](http://www.fns.usda.gov/sites/default/files/tn/LWPsummary_finalrule.pdf) for local school wellness policies (http://www.fns.usda.gov/sites/default/files/tn/LWPsummary_finalrule.pdf). Wisconsin Team Nutrition has several [wellness policy resources](http://dpi.wi.gov/school-nutrition/wellness-policy) available, including a toolkit, a wellness policy builder, and wellness policy report card (<http://dpi.wi.gov/school-nutrition/wellness-policy>).

Findings and Corrective Action Needed: Local Wellness Policy

□ **Finding:** The Wellness Policy for Riverdale School District is written well. It meets all the required components for USDA. The finding was in the second section under “Policy Leadership”, for stakeholders, it does not list “parent, or community member” which is required.

Corrective Action Needed: Add the words “ parent and community members” to your policy under Policy Leadership, in the last sentence. Submit an updated copy to the consultant.

Professional Standards

Commendations/Comments/Technical Assistance/Compliance Reminders

- Annual training must be job-specific and intended to help employees perform their duties well. The required annual training hours vary according to the employee’s role in the management and operation of the school nutrition program.
- Trainings can be provided in a variety of formats (online, in person, webinars) and through various providers (DPI, USDA, in-house, etc.).
- SFAs should clearly document all required training information and maintain that file including the name of staff person, date hired, title/position, brief list of core duties/responsibilities, status (full, part-time, volunteer, etc.), professional standards position (director, manager or staff). Learning codes are not required, but encouraged. A template tracking tool is posted to our [Professional Standards](http://dpi.wi.gov/school-nutrition/training/professional-standards) webpage (<http://dpi.wi.gov/school-nutrition/training/professional-standards>).
- **Annual Training Requirements for All Staff**
Directors: 12 hours
Managers: 10 hours
Other Staff (20 hours or more per week): 6 hours
Part Time Staff (under 20 hours per week): 4 hours
If hired January 1 or later, only half of the training hours are required during the first school year of employment.

Findings and Corrective Action Needed: Professional Standards

There are no findings.

Water

Commendations/Comments/Technical Assistance/Compliance Reminders

Water is required to be available at no charge to students during the lunch and breakfast meal services. Schools can provide free water in a variety of ways, such as water pitchers and cups on lunch tables, a water fountain, or a faucet that allows students to fill their own bottles or cups.

Findings and Corrective Action Needed: Water

Riverdale School District has water available to all students at no charge in the cafeteria. Nothing further needed.

Food Safety

Commendations/Comments/Technical Assistance/Compliance Reminders

[A Flash of Food Safety](http://www.fns.usda.gov/ofs/food-safety-flashes) is a video series designed to help school nutrition professionals understand and apply safe food practices (www.fns.usda.gov/ofs/food-safety-flashes). While you’re at it, visit the

[Office of Food Safety](http://www.fns.usda.gov/ofs/food-safety) website (www.fns.usda.gov/ofs/food-safety) and explore all of the great food safety resources available to USDA's nutrition assistance program operators. Let's grow food safety!

Food Safety Inspections

- Every school operating USDA School Child Nutrition Programs must have two food safety inspections during each school year: one in the fall, which is an actual food safety inspection; and one in the spring, which is a review of the site's Food Safety Plan.
- Food safety inspection reports must be posted in public view. Posting the food safety inspection report in the same location as the "And Justice For All" poster can be a convenient way to have both items publicly visible.

Temperatures

- All cooling equipment must have internal temperatures taken and recorded daily on temperature logs. Posting them directly on the equipment makes recording convenient and a regular part of daily routines.

Food Safety Plans

- The Food Safety Plan was available for review. It was obvious in observing the food service manager/director at work that they are very knowledgeable about food safety practices and safe food handling. All temperature logs, calibration logs, and sanitizing solution logs were up-to-date.
- All schools must have a comprehensive, site-specific food safety plan on-site which includes all process 1, 2, and 3 items, all applicable standard operating procedures (SOP), all equipment, and food service staff. The food safety plan must be reviewed annually. A prototype food safety plan template as well as template SOPs may be found on the [SNT Food Safety](https://dpi.wi.gov/school-nutrition/food-safety) webpage. (<https://dpi.wi.gov/school-nutrition/food-safety>)
- Only SOPs relevant to the programs and procedures for which the site-specific food safety plan is written should be included in the plan.
- The site-specific food safety plan should include SOPs for all programs and procedures utilized at the site.
- The procedures detailed in the SOPs included in the site-specific food safety plan should be followed by all food service staff, student workers, volunteers, and any other people involved in the implementation of Child Nutrition Programs at all times.
- SFAs are required to update food safety programs based on Hazard Analysis Critical Control Point (HACCP) principles to cover any facility where food is stored, prepared, or served for the purposes of the NSLP, SBP, or other FNS programs. This means the food safety program should contain standard operating procedures (SOP) for safe food handling on school buses, in hallways, school courtyards, kiosks, classrooms, or other locations outside the cafeteria.
- Thank you for maintaining a food safety plan which includes all process 1, 2, and 3 items, all applicable standard operating procedures (SOP), all equipment, and food service staff.

Food Employee Reporting Agreements

- All food handlers must have a signed [Food Employee Reporting Agreement](https://datcp.wi.gov/Documents/foodemployeereportingagreementsupplement.pdf) on file (<https://datcp.wi.gov/Documents/foodemployeereportingagreementsupplement.pdf>).
- All food handlers must sign a new Food Employee Reporting Agreement form if changes are made to the document. While there are no requirements as to how frequently food service employees must sign a Food Employee Reporting Agreement form, it is the best practice for each food service employee to annually review and sign an agreement to reinforce the information contained in the document.

Findings and Corrective Action Needed: Food Safety

- Calibrate using ice-point method:

- a. Fill an insulated container, such as a wide mouth “thermos” bottle with a mixture of crushed ice and water.
 - b. The container must have crushed ice throughout to provide an environment of 32° F., so pack more ice into the container during the calibration process.
 - c. When mixture of the water has stabilized after four or five minutes, insert thermometer to be calibrated to the appropriate immersion depth.
 - d. Be sure to hold the stem of the instrument away from the bottom and sides of the container (preferably one inch) to avoid inaccurate reading.
 - e. If thermometer is not accurate within ± 2 of 32 °F., adjust the temperature accordingly. Manufacturer’s instructions will specify how to recalibrate the particular thermometer.
- Calibrate using boiling-point method:
- a. After the water in the container has reached a complete “rolling” boil, insert the instrument to the appropriate depth.
 - b. Allow the temperature reading to stabilize before reading temperature. Reading should be 212 °F (± 2 °F). If not, calibrate to this temperature as directed by manufacturer.
2. Appropriately re-calibrate thermometers to the correct temperatures.
 - a. Bimetallic, stemmed, dial-faced thermometer - adjust the temperature by turning the dial while securing the calibration nut (located just under or below the dial) with pliers or a wrench.
 - b. Digital thermometer with a reset button - adjust the thermometer according to manufacturer’s instructions.
 3. Discard inaccurate thermometer that cannot be adjusted.
 4. Check the accuracy of the food thermometers:
 - o At regular intervals (at least once every two weeks).
 - o If dropped.
 - o Whenever accuracy is in question.

Monitoring and Recordkeeping:

Keep calibration logs to document that thermometers are calibrated for: Minimum required by federal regulation (a period of six months following a month’s temperature records) or One school year from the date of the second annual food safety inspection (DPI recommendation).

Finding: The documentation for the calibrating thermometers is disorganized and not consistent. This is very important as described above.

Corrective Action Needed: Use the template off of the DPI website or create a spreadsheet to show each month of the year, and space for documenting the days the thermometers are calibrated. Submit a copy to the DPI consultant.

Finding: The Food Transport sheets for food being transported from Elementary to High school are vague and no consistent.

Corrective Action Needed: Fill in the transport sheets more completely with all information necessary. Place in binder with monthly divider tabs or something similar. Keep better organized with correct dates and school year. Submit a sample transport sheet to the consultant.

Reporting and Recordkeeping

Commendations/Comments/Technical Assistance/Compliance Reminders

- Thank you for completing the required USDA and DPI reports and maintaining the paperwork in an organized manner.
- There are additional record retention rules for CEP. “LEAs/schools must retain records used in the development of the ISP (e.g., records for the initial approval year and all records from the year any updates are made to the ISP) during the entire period CEP is in effect. In addition documentation must be retained for five years after the submission of the final claim for reimbursement for the last fiscal year of CEP.” Documents would also need to be maintained longer if there were an open audit issue needing to be resolved.
- All free and reduced price applications, including applications from households denied benefits must be kept on file for a minimum of three years after the final claim is submitted for the fiscal year to which they pertain.

Findings and Corrective Action Needed: Reporting and Recordkeeping

Records are being kept for the required 3 yrs plus the current year.

Summer Food Service Program (SFSP) and School Breakfast Program (SBP) Outreach

Commendations/Comments/Technical Assistance/Compliance Reminders

A goal of USDA Child Nutrition Programs is to ensure all students have access to healthy and nutritious meals year round. USDA would like all SFAs to inform families of where their students can receive a free meal in the summer months. SFAs can inform families of summer meals via the following methods:

- Promotion of the [summer meals locator](https://dpi.wi.gov/community-nutrition/sfsp/find-summer-meals-site) on the DPI Summer Meals webpage (https://dpi.wi.gov/community-nutrition/sfsp/find-summer-meals-site)
- Promotion of calling 211 to locate meals in the area
- Promotion of the ability to text ‘food’ to 877-877 to locate meals in the area
- Promotion of the USDA [Summer Food](http://www.fns.usda.gov/summerfoodrocks) website (http://www.fns.usda.gov/summerfoodrocks)

As part of the National School Lunch Program, it is required to do SFSP outreach. The purpose is to inform your students and families of the free feeding site(s) they may have access to in the summer while school is out of session. Near the end of this school year, it is as simple as a blurb in a newsletter sent home to students, or putting up free posters and/or mail these items free of charge. To access an inclusive map of all potential participating sites in your area, see the [interactive map](http://www.fns.usda.gov/capacitybuilder) on the SFSP website (http://www.fns.usda.gov/capacitybuilder).

For more information on Summer Feeding option contact:

Amy J. Kolano, RD, CD
Summer Food Service Program Coordinator
Phone: 608.266.7124
e-mail: amy.kolano@dpi.wi.gov

Findings and Corrective Action: SBP and SFSP Outreach: There re no findings, however, Riverdale School District prepares summer meals in coordination with their Summer School Program classes. Meals are available for 6 wks. In the summer Riverdale finds that participation during this time period. Is quite good! It is great that they can provide meals for those families that need it and also the general public. Great job!

7. OTHER FEDERAL PROGRAMS REVIEWS

Special Milk Program (SMP)

Commendations/Comments/Technical Assistance/Compliance Reminders

The Special Milk Program is used by the 4K students. The program is monitored by the Food Service Director, who also operates the Point of Service computer for the Special Milk Program. The students bring their id card, which is then scanned in, and charged. Nothing further is needed.

“The Wisconsin Department of Public Instruction has a vision that every student will graduate prepared for college and career. Goals are for students to have the knowledge, skills, and habits that will allow them to succeed in life after high school. Access to quality nutrition plays a major role in developing those life-long habits.

The School Nutrition Team believes that what school nutrition programs do every day plays a very important part in the success of every child being able to graduate. We all know that well-nourished children are ready to learn. Thank you for all you do to ensure your students’ success.

For more information on this initiative, please visit the Wisconsin DPI [Every Child a Graduate](https://dpi.wi.gov/statesupt/every-child-graduate) webpage (<https://dpi.wi.gov/statesupt/every-child-graduate>).”
