For Special Provision Reporting

For **Community Eligibility Provision (CEP)**, The FREE percentage used to claim meals (ISP X 1.6) in the LEA/School should be applied to the current October enrollment number to estimate the number of children approved for FREE lunches. CEP LEAs do not report REDUCED PRICE data. Enter "0" for reduced price.

Mixed districts will have reduced price numbers to report from the NON-CEP sites only. If reporting numbers for **Provision 2 - BASE YEAR**, school data are reported for October just as they are during standard meal counting and claiming procedures.

If reporting numbers for **Provision 2 - NON-BASE YEAR**, the FREE percentage used to claim meals in an LEA/school should be applied to the current October enrollment number to estimate the number of children approved for FREE lunches. In addition, the REDUCED percentage used to claim meals in the LEA/School should be applied to the current October enrollment number to estimate the number of children approved for REDUCED PRICE lunches.
