

# Is it a Grain-Based Dessert?

## Perception Counts!

How a food item is perceived plays a role in determining if it is a Grain-Based Dessert (GBD). Before adding an item to your menu, consider whether the food is commonly thought of as a dessert or sweet treat. If yes, choose another option.

### Grain-Based Desserts

GBDs are not creditable in the Infant and Preschool meal pattern. This includes both store-bought and homemade items. Even items made from scratch with healthy ingredients (i.e. less sugar and/or fat) are NOT creditable.

#### Grain-Based Desserts – NOT CREDITABLE

Brownies	Bread/breadstick with sweet filling (such as pie filling)
Cake, including coffee cake and cupcakes	Carmel popcorn and kettle corn
Cereal bars, breakfast bars, granola bars, marshmallow cereal treats	Pie crusts of dessert pies, cobblers, and fruit turnovers
Cookies, including vanilla wafers and fruit-filled rolls/bars/cookies (i.e. fig)	Sweet biscotti/scones with fruits, chocolate, icing, etc.
Doughnuts	Sweet croissants, such as chocolate-filled
Gingerbread	Sweet pita chips, such as cinnamon-sugar flavored
Ice cream cones	Sweet rolls, including cinnamon rolls
	Sweet bread pudding and rice pudding
	Toaster pastries

**Not sure if an item is a GBD?** Ask yourself if the item is:

- Shaped like a cookie?
- Shaped like a bar (breakfast, cereal, or granola bar)?

Some GBDs may be labeled with a different name (i.e. breakfast flat instead of granola bar or breakfast round instead of cookie); however, they are still a GBD and must not be served.

### Sweetened Food Items

Programs are discouraged from serving creditable foods that contain sweet ingredients, as they are perceived as a sweet treat. Instead, purchase or prepare healthier alternatives.

**Things to Consider When Selecting Foods for Your Menu**
