Subject: 2020 Food Service State Aid Payments

Annual State Match Payments

SFAs participating in NSLP and SB or SBSEVERE receive an annual state match payment. The state aid match payments have been processed for school year (SY) 2018-19. The Electronic Funds Transfer (EFT) is recorded on the [STAR Aids Register](#), and the effective date is May 27, 2020.

NSL

This state aid payment should be deposited in your School Food Service account. The deposit should be reported as "School Food Revenue" in the NSL row of your food service annual financial report at the end of SY 2019-20. The state payment is the product of the number of student lunches served by your school during SY 2018-19, multiplied by the computed per meal matching rate. This year, the statewide average payment per meal is \$0.05111372. The NSL state aid payment will be listed under "STATE SCHOOL LUNCH AID" and described as MATCH in the [Aids Register](#). Statutory authority for this state matching aid can be found under s. 115.34(2).

SB and SBSEVERE

This state aid payment should be deposited into your School Food Service account. The deposit should be reported as "School Food Revenue" in the SB and SBSEVERE row of your food service annual financial report at the end of SY 2019-20. Due to increased participation in the school breakfast programs, there was a continued need to prorate this year's payments. Instead of the \$0.15 outlined in Wisconsin State Statutes, the amount received was determined by multiplying \$0.07983683 by the total number of student school breakfasts your school claimed for reimbursement during SY 2018-19. The SB and SBSEVERE state aid payment will be listed under "SCHOOL BREAKFAST PROGRAM" and described as SSBA in the online [Aids Register](#). Statutory authority for this state matching aid can be found under s. 115.341.

Annual State Aid Payments

SFAs participating in EN and WSDMP receive an annual state aid payment. The state aid payments have been processed for SY 2018-19. The ETF is recorded on the [STAR Aids](#)

[Register](#), and the effective date is May 27, 2020.

EN

This payment should be deposited into your School Food Service account. This deposit should be reported as “School Food Revenue” in the EN row of your food service annual financial report at the end of SY 2019-20. This state aid payment is made on the basis of your June 1, 2019 EN claim submitted for SY 2018-19. The EN state aid payment will be listed under “NUTRITION IMPROVEMENT ELDERLY” and described as EN in the [Aids Register](#). Statutory authority for this state aid payment can be found under s. 115.345 and provides for a payment rate of 15 percent of your reported per meal cost, or \$0.50 per meal, whichever **is lower**. There was no need to prorate this year’s payment.

WSDMP

This payment should be deposited into your School Food Service account. The deposit should be reported as “School Food Revenue” in the WMMP row of your food service annual financial report at the end of SY 2019-20. This state aid payment is made on the basis of your June 1, 2019 WSDMP claim submitted for SY 2018-19. There was no proration necessary this year because the allocation was increased by Wisconsin legislation and signed by Governor Evers. The WSDMP state aid payment will be listed under “WISCONSIN SCHOOL DAY MILK PROGRAM” and described as WSDMP in the [Aids Register](#). Statutory authority for this state aid payment can be found under s. 115.343.
