Subject: 2019 Food Service State Aid Payments

Annual State Match Payments

SFAs participating in NSLP and SB or SBSEVERE receive an annual state match payment. The state aid match payments have been processed for school year (SY) 2017-18. The Electronic Funds Transfer (EFT) is recorded on the [STAR Aids Register](#), and the effective date is May 13, 2019.

NSL

This state aid match payment must be deposited as follows: Fund: 50 Source: 617 and Project Code: 542

The deposit should be reported as "School Food Revenue" in the NSL row of your food service annual financial report at the end of SY 2018-19. The state payment is the product of the number of student lunches served by your district during SY 2017-18, multiplied by the computed per meal matching rate. This year, the statewide average payment per meal is \$0.04989947. The NSL state aid payment will be listed under "STATE SCHOOL LUNCH AID" and described as MATCH in the [Aids Register](#). Statutory authority for this state matching aid can be found under s. 115.34(2).

SB and SBSEVERE

This state aid match payment must be deposited as follows: Fund: 50 Source: 617 and Project Code: 543

The deposit should be reported as "School Food Revenue" in the SB and SBSEVERE row of your food service annual financial report at the end of SY 2018-19. Due to increased participation in the school breakfast programs, there was a continued need to prorate this year's payments. Instead of the \$0.15 outlined in Wisconsin State Statutes, the amount received was determined by multiplying \$0.07999114 by the total number of student school breakfasts your district claimed for reimbursement during SY 2017-18. The SB and SBSEVERE state aid payment will be listed under "SCHOOL BREAKFAST PROGRAM" and described as SSBA in the [Aids Register](#). Statutory authority for this state matching aid can be found under s. 115.341.

Annual State Aid Payments

SFAs participating in EN and WSDMP receive an annual state aid payment. The state aid payments have been processed for SY 2017-18. The ETF is recorded on the [Aids Register](#), and the effective date is May 13, 2019.

EN

This state aid payment must be deposited as follows: Fund: 50 Source: 617 and Project Code: 545

This deposit should be reported as “School Food Revenue” in the EN row of your food service annual financial report at the end of SY 2018-19. This state aid payment is made on the basis of your June 1, 2018 EN claim submitted for SY 2017-18. The EN state aid payment will be listed under “NUTRITION IMPROVEMENT ELDERLY” and described as EN in the [Aids Register](#). Statutory authority for this state aid payment can be found under s. 115.345 and provides for a payment rate of 15 percent of your reported per meal cost, or \$0.50 per meal, whichever is lower. There was no need to prorate this year’s payment. Any cost for the EN, not covered by Fund 50 meal charges or aid payments, is to be funded with an operating transfer from the community service fund.

WSDMP

This state aid payment must be deposited as follows: Fund: 50 Source: 617 and Project Code: 544

The deposit should be reported as “School Food Revenue” in the WSDMP row of your food service annual financial report at the end of SY 2018-19. This state aid payment is made on the basis of your June 1, 2018 WSDMP claim submitted for SY 2017-18. It continues to be necessary to prorate this payment. Your prorated payment is determined by multiplying 0.64672555 by your submitted claim. The WSDMP state aid payment will be listed under “WISCONSIN SCHOOL DAY MILK PROGRAM” and described as WMMP in the [Aids Register](#). Statutory authority for this state aid payment can be found under s. 115.343.
