Department of Public Instruction (DPI) - USDA Foods Section Announces: Computer Lab Session for New Food Service Personnel

Prior to the *Wisconsin USDA Foods Annual Ordering Period* (typically February/March time frame), the DPI USDA Foods Section provides annual training to assist new programs and/or new food service personnel in placing of the annual USDA Foods order. However, frequently after this annual period occurs, School Food Authorities hire new food service personnel. Therefore, the DPI USDA Foods Section will be holding a computer lab session to provide assistance to new food service personnel unfamiliar with the use and tracking of USDA Foods in the *Wisconsin USDA Foods Ordering System*.

This computer lab session will provide a **GREAT** opportunity for new food service personnel to receive personal one-on-one assistance in utilizing the *Wisconsin USDA Foods Ordering System*.

Date and Location:

Tuesday, August 23, 2016: DPI – Madison – GEF 3, DPI Training Center

Registration Information: The Wisconsin USDA Foods Section will provide additional information and registration details at a later date. There will be no registration cost to attend this computer lab session.

This institution is an equal opportunity provider.
