

Questions and Answers from What's New with School Nutrition Webinar | 2016

Question: How would you make an indirect cost a direct cost when it comes to garbage pick-up? Our own garbage contract?

Answer: For a period of time in a documented study, count by weight or volume the amount of garbage for the food service program as compared to the entire school. Another option would be to have a separate dumpster for food service.

Question: In reference to submitting the October claim and requirement to have already submitted three reports, I got an error message even though the reports had been submitted.

Answer: Double check which year is selected when submitting the October claim. The default is sometimes the incorrect year.
