WISCONSIN UNIFORM FINANCIAL ACCOUNTING REQUIREMENTS
“WUFAR”
EFFECTIVE JULY 1, 2002

FOREWORD

The account description and definitions in this document supersede those in the Wisconsin Elementary and Secondary School Accounting System (WESSAS) Handbook and previously issued Financial Accounting Requirements. Since those documents were last issued, the Department of Public Instruction has made many enhancements to the account code structure which is reflected in this document. Wisconsin public school districts are required to use this manual for reporting purposes.

ANTI-DISCRIMINATION STATEMENT

The Wisconsin Department of Public Instruction does not discriminate on the basis of sex, race, religion, age, national origin, ancestry, creed, pregnancy, marital or parental status, sexual orientation or physical, mental, emotional, or learning disability. Persons having questions about equal opportunity and nondiscrimination should contact the State Superintendent of Public Instruction at the Wisconsin Department of Public Instruction.

Chapter 1 INTRODUCTION

Purpose of the Manual

This manual is intended to be the basic accounting document for Wisconsin’s public school systems. The purpose of this manual, beyond providing financial information, is to promote uniformity important for the facilitation of reporting, auditing, data processing, interdistrict comparisons, and financial accounting for cooperative programs. A uniform accounting system also eases the transition for personnel moving from one district to another. The need for uniformity in the application of WUFAR is balanced with the flexibility needed to suit local needs. The WUFAR is designed to be used in large, medium, or small districts; in rural, suburban, or urban settings; in common, unified, or first class city school districts; and in districts with different kinds of accounting equipment or procedures.

Fund Accounting

Financial administration requires that each transaction be identified for administrative and accounting purposes. The first identification is by “fund” which is an independent fiscal and accounting entity, requiring its own set of books, in accordance with special regulations, restrictions, and limitations that earmark each fund for a specific activity or for attaining certain objectives. Each fund must be so accounted for that the identity of its resources and obligations and its revenues and expenditures is continually maintained.

All funds used by Wisconsin school districts must be classified into one of nine “fund types”. The major fund types are the General Fund, Special Projects Fund, Debt Service Fund, Capital Projects Fund, Food Service Fund, Agency (Pupil Activity) Fund, Fiduciary Fund, Community Service Fund, and Package and Cooperative Program Fund.

Wisconsin School Districts may not need all of these fund groups at any given time. The General, Debt Service, Food Service, Pupil Activity, and Special Projects Funds will undoubtedly encompass the majority of the transactional activity that will occur in the school district. The remaining fund groups, however, are still material to the overall presentation of the financial position of the school district and as such should be maintained and reported accordingly.

Conformance with Generally Accepted Accounting Principles

A primary emphasis of this manual is to define account classifications that provide meaningful financial management information to its users. As part of this emphasis, the manual is written to
conform to generally accepted accounting principles (GAAP), a uniform minimum standard of and guidelines for financial accounting and reporting. For LEAs, adherence to GAAP implies that their financial reports contain the same types of financial statements for the same categories and types of funds and account groups. Such conformity will enhance the comparability of LEA financial reporting.

In keeping with GAAP, this manual’s content and format are based on double entry and the accrual or modified-accrual basis of accounting.

**Basis of Accounting**

The “basis of accounting” refers to the point in time when revenues, expenditures or expenses (as appropriate), and the related assets and liabilities are recognized in the accounts and reported in the financial statements. In other words, the “basis of accounting” determines the timing with which the accounting system recognizes transactions.

Governmental funds, expendable trust funds, and agency funds use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available (susceptible to accrual). “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to pay liabilities of the current period.

State general and categorical aids, federal impact aid, and other entitlements are recognized as revenue at the time for receipt or earlier if the “susceptible to accrual” criteria are met. Expenditure-driven programs currently reimbursable are recognized as revenue when the qualifying expenditures have been incurred. Aids received prior to meeting revenue recognition criteria are recorded as deferred revenue.

Charges for services provided other educational agencies and private parties are recognized as revenue when services are provided. Charges for special educational services are not reduced by anticipated state special education aid entitlements.

Interest earnings on temporary investments are recognized in the fiscal period earned.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Employee services and payroll-related costs (employee health, life, disability insurance, FICA, Medicare, Wisconsin Retirement System contributions, annuities) other than compensated absences, termination, and other post-employment benefits are recognized in the fiscal period when incurred. The cost of capital items is recorded as an expenditure when acquired. Interest cost on temporary borrowing is recognized as an expenditure of the fiscal period incurred. Costs for educational services provided the District by other educational agencies or private organizations are recognized when incurred. Costs for special education services are not reduced by anticipated state special education aid entitlements.

Compensated absences are recognized as expenditures when used rather than when earned by the employee. Termination and other post-employment benefits are recognized as expenditures in
the fiscal period when paid or normally paid rather than when earned by the employee. Principal and interest on long-term debt is recognized when due.

Comparability

Using the classifications and definitions in this handbook will enhance comparability of recorded and reported financial information among LEAs, the states and the federal government. This comparability should provide assistance to LEA, state and federal administrators, legislators, LEA boards of education and the general public in understanding where funds come from and how they are used.

The Account Classification Structure

This manual provides for classifying three basic types of financial activity: revenues and other sources of funds; expenditures and other uses of funds; and transactions affecting the balance sheet only. For each type of transaction, the specific account code is made up of a combination of classifications called dimensions. Each dimension describes one way of classifying financial activity. The dimensions applicable to each type of transaction are:

</tr>
</tbody>
</table>

WUFAR Sequence of Dimensions

WUFAR, being a multidimensional accounting system with independent dimensions, could be used in many account code configurations as determined by the user. This would, however, create confusion regarding interdistrict comparisons. In order to ensure statewide uniformity, the sequence of dimensions below should be utilized for dimensions that are employed on all documents of origination: i.e., requisitions, purchase orders, voucher jackets:

<table>
<thead>
<tr>

<th>Location/Organization</th>
<th>Object or Source</th>

<td>----</td>
<td>---</td>
<td>XXX</td>
<td>---</td>
</tr>
<tr>
<td>XXX</td>
<td>---</td>
<td>---</td>
<td>XXX</td>
<td>---</td>
</tr>
</tbody>
</table>
Account Code Hierarchy

Code numbers are arranged in a hierarchical order. A zero (0) in any position of a code number represents a total of other more detailed account codes and should not be used for coding of transactions if a more discrete detail level is used.

For example, reported accounted codes shown in Fund 90, “Package-Cooperative Fund” are totals of all transactions for that code as recorded in Funds 91 through 99. If a reported sub-fund such as Fund 93 is used, no transaction can be recorded as an original entry to Fund 90.

Organization of Manual

The development and purposes of this manual were discussed previously in this chapter. Chapter 3 describes a “Minimum Chart of Accounts” that will meet federal and state reporting requirements. Chapter 5 provides a definition of all funds and Chapters 6-11 provide an expanded version of the minimum chart of accounts as well as definitions for those accounts included in the minimum chart of accounts.
Chapter 2 REVENUE AND EXPENDITURE RECOGNITION REQUIREMENTS

The following are requirements that should be reported in the district’s Budget and Annual reports. Account classification is made per the Wisconsin Uniform Financial Accounting Requirements (WUFAR).

PROPERTY TAXES

The entire district levy is recognized as revenue for the fiscal year levied. The levy is considered due to the district as of the January 1 following levy certification. An allocation of levy between fiscal years is not made.

STATE AND FEDERAL AID

Revenues for entitlement programs (programs that are computed on a formula basis, such as state general and categorical aid, and federal impact aid) are recognized in the fiscal year that the district is entitled to receive the aid. Currently reimbursable programs, (e.g. WUFAR source codes 630 and 730 claimed by filing DPI form PI-1086), are recognized as revenue when the reimbursable expenditures are made. Aid payments received prior to meeting revenue recognition requirements are recorded as deferred revenue.

SUPPLY AND MATERIAL INVENTORY, PREPAID EXPENSE

Expendable supplies, non capital items and equipment acquired for use in subsequent fiscal periods are recorded as supply inventory and/or prepaid expense. Prepaid expense accounts are not used for recording unexpired insurance premiums or service contracts for equipment maintenance unless not doing so would result in more than one year’s cost being recorded.

CAPITAL ITEMS

Buildings, sites and improvements are recorded as expenditures when acquired. The value of construction work completed, if billed by contractors, is charged to "Construction Work in Progress" as expenditure during the fiscal period in which the work was completed. Equipment is recorded as expenditure when placed in service or upon the time when title and risk of loss passes to the district as purchaser.

PAYROLL AND PAYROLL RELATED BENEFITS (other than compensated absences and post-employment benefits)

Payments for employee services and payroll related costs (employee health, life, & disability insurance, FICA, Wisconsin Retirement System, annuities) are recorded as expenditure in the fiscal year in which employee services are provided.

ACCUMULATED COMPENSATED ABSENCES

Accumulated unpaid vacation, sick leave, earned "comp" time is recognized as expenditure in the fiscal period when the accumulated time is used, not when earned.

TERMINATION AND POST-EMPLOYMENT BENEFITS

Unless an employee benefit trust has been established, termination payments, insurance payments on behalf of former employees or dependents, supplemental retirement payments and other post-employment benefits are recognized as an expenditure in the fiscal period when the payment is required to be made rather than when earned or at termination date. Upon establishment and funding of such a trust, all current retiree costs are paid by the trust, not by general operating funds.
UNSETTLED EMPLOYEE CONTRACTS

Payroll and related benefit costs are recorded as fiscal period expenditures to the extent that they are costs associated with implemented (including implemented "QEO") bargaining agreements. If the district and an employee bargaining unit do not have an implemented agreement, recording any increased costs above the most recent agreement is limited to the lower of the district’s or bargaining unit’s final offers submitted to the Wisconsin Employment Relations Commission (WERC). The district shall amend its Annual Report as necessary to reflect any changes in reported costs in accordance with the preceding. Such agreements must be implemented by the October 1 following the June 30 fiscal year end. Statute 120.18(1)(gm)

SELF-FUNDED HEALTH BENEFITS

Expenditures for self-funded health benefits are limited to cost incurred during the fiscal period, including an estimate for incurred but not reported claims and associated costs. Additions to fund balance reserve accounts cannot be included in expenditures.

PREPAYMENT OF "PRIOR SERVICE PENSION" LIABILITY

A prepayment of pension system "prior service liability" is recognized as an expenditure in the fiscal year the payment made. If the payment is made using General Fund resources, it is charged as an expenditure of the General Fund using Function 299000. A payment made with the use of debt proceeds is treated as a refinancing transaction in the Debt Service Fund.

CHARGES FOR PROVIDING SERVICES TO OTHER EDUCATIONAL AGENCIES AND PRIVATE PARTIES

Charges for services provided to other educational agencies and private parties are recognized as revenue in the fiscal period the services were provided. Charges for special educational services are billed at full cost without a reduction for state aid payments or a reduction for anticipated aid related to such services.

COST FOR SERVICES PROVIDED BY OTHER EDUCATIONAL AGENCIES

Costs for educational services provided by other educational agencies are recognized as an expenditure in the fiscal period services are received. Expenditures for special education services are not reduced by state aid payments or other anticipated revenue related to services received.

SCHOOL BASED SERVICES (SBS) OR MEDICAID) REVENUE

Reimbursements for eligible services are recognized as revenue in the fiscal period that they are received by the provider agency. No offset for the revenue received or anticipated revenues is made against expenditures. If reimbursements are due the district from a CESA or another district, a revenue and receivable transaction must be recorded based on information contained in a confirmation requested from the CESA or the other district.

PARTICIPATION IN A CONSORTIUM

The fiscal agent of a consortium will receive revenues and make expenditures on behalf of consortium participants. Expenditures funded through grants and debt proceeds received directly by the fiscal agent on behalf of the consortium are not recorded by the participants.

LONG-TERM DEBT

Incurred long-term debt (bonds, notes, state trust fund loans, land contracts, capital leases) is recorded at the full principal amount, i.e. "face" or "par" value as a financing (revenue) source. An amount identified as "discount" is recorded as an expenditure. Premium and accrued interest received as part of bond or promissory note proceeds is recorded as a revenue in Debt Service Fund.
An offsetting expenditure equal to the amount financed is recorded for land contracts and capital leases. Principal and interest expenditures on long term debt are recorded when payment due.

**TEMPORARY BORROWING INTEREST COST**

Temporary borrowing interest cost is accrued during the fiscal period. Accrued interest payable is recorded at end of fiscal period for unpaid interest cost.

**TEMPORARY INVESTMENT INCOME**

Interest revenue on investments is recorded as revenue in fiscal period related to the investment. Interest receivable is recorded at the end of the fiscal period for accrued interest income (interest earned but not received).
Chapter 3 THE MINIMUM CHART OF ACCOUNTS

Used in its entirety, the handbook classification structure (particularly the expenditure classifications) can generate large amounts of detailed data. However, much of the classification system described herein is offered for the optional use of the LEA. Hence, a LEA may choose, in a number of ways, which parts of the system it needs or wants to use. It may choose:

1. Not to use certain dimensions at all;
2. To consolidate certain dimensions in its own local chart of accounts;
3. To use less (or more) than the number of digits described for any particular dimension in this handbook.

Using this handbook, the district's first task then is to decide what additional classifications it wishes to use for its own purposes. Thus, each LEA will develop its own chart of accounts as it selects the dimensions and categories of accounts suitable to its specific needs. Whatever system a district chooses, it must follow a certain minimum list of those classifications to meet federal and state reporting requirements.

Analyzing transactions of LEAs for classification requires considerable knowledge of school funds and accounts. There is no real substitute for experience in exercising this function.
A fund is an accounting entity consisting of a self-balancing set of asset, liability, and equity accounts used to account for the district's financial transactions in accordance with laws, regulations, or restrictions. The Department of Public Instruction requires reporting of various revenues and expenditures within specified funds.

Chapter 5 FUND DEFINITIONS

The following are funds reported in the school district's Annual and Budget reports to the DPI categorized by the activities that occur within the funds. The reported funds in each category have similar function-object expenditure coding.

**Instructional Funds**

Instructional funds are funds where elementary and secondary instruction (i.e. K - 12) activities (100 000 function series) pupil support activities (210 000 function series) or instructional staff support (220 000 function series) are recorded.

**Fund 10 General Fund**
The general fund is used to account for all financial transactions relating to the district’s current operations, except for those required to be accounted for in other funds.

**Fund 21 Special Revenue Trust Fund**
This fund is used to account for trust funds that can be used for district operations. The source of such funds is gifts and donations from private parties. Cash and investments in this fund are expended pursuant to donor specifications. There may be a fund balance in this fund.

**Fund 23 “TEACH” Fund**
This fund is used to account for programs funded with grants and loans from the TEACH Wisconsin Board. There may be a fund balance or a deficit in this fund as permitted by the TEACH Board.

No separate cash or investment accounts are required for this fund. Any interest earnings resulting from an invested balance in this fund should be credited to this fund.

**Fund 27 Special Education Fund**
The fund is used to account for the excess cost of providing special education and related services for students with disabilities during the regular school year or extended school year. Also included are charges for services provided to other districts as a result of being a host district for a special education package or cooperative program. School Age Parent costs are also charged to this Fund. No fund balance or deficit can exist in this fund.

**Fund 29 Other Special Project Funds**
Used to report special revenue K - 12 instructional programs not required to be discretely reported in Funds 21, 23, or 27. The district may account for in such programs in Funds 22, 24, 25, 26, 28 (which are not presently assigned by DPI for reporting purposes) and/or Fund 29. If the district uses funds other than Fund 29, the district must combine and report these funds as Fund 29. A fund balance may exist in this fund.

Programs reported as Fund 29 include Federal Indian Education funded programs and "Head Start" revenues used to fund K-12 instructional programs. "Head Start" revenues used in district operated child care operations are to be reported in Fund 80, Community Services.

**Fund 91 Packaged Services**
This fund is used to account for expenditures made by a host district for programs made available to other districts through a CESA. The CESA makes the packaged service available to school districts. The participating districts, including the host district, will pay CESA for their share of the program. CESA payments to the host district are the only revenue recorded in this subfund and must equal expenditures. The CESA applies for any program related aid and handles any required aid distribution. No fund balance or deficit can exist in this fund. Special education related services provided by a CESA should be accounted for in Fund 27, not Fund 91.

**Fund 93 TEACH Program Consortium**
This fund is used to account for consortia programs funded with grants and loans from the TEACH Wisconsin Board. There may be a fund balance or a deficit in this fund as permitted by the TEACH Board.
Fund 99 Other Package and Cooperative Program Funds
This fund is to be used for all other types of cooperative instructional funds. No fund balance or deficit can exist in this fund. Special education related cooperative programs should be accounted for in Fund 27.

Debt Service Funds
These funds are used for recording transactions related to repayment of the following general obligation debt: promissory notes (issued per statute 67.12(12)), bonds, state trust fund loans, and TEACH loans. Also included in these fund are transactions pertaining to land contract payments and refinancing of debt issues and other district obligations as specified by the DPI. Debt tax levies must be recorded in these funds. TEACH loan payments are not recorded in a debt service fund unless the district has incurred the TEACH debt as general obligation debt. TEACH debt is usually incurred as a capital lease transaction.

The resources in these funds may not be used for any other purpose as long as a related debt remains. For this reason separate checking and/or investment accounts for debt service funds is highly recommended.

Subfunds may be established for various debt issues. If subfunds are established, funds 31 - 37, and/or 39 may be used for debt authorized prior to August 12, 1993 or approved by referendum. Fund 38 is required to be used to report transactions pertaining to non-referendum debt authorized after August 12, 1993.

If the district is required to have a debt service tax levy as a result of participating in a consortium, the levy is recorded in the appropriate debt service fund with the appropriate principal and interest accounts charged when payment (usually to the consortium’s fiscal agent) occurs.

Fund 38 Non-Referendum Debt Service Fund
This fund is used to account for transactions for the repayment of debt issues that were either: not authorized by school board resolution before August 12, 1993, or incurred without referendum approval after that date. A fund balance may exist in this fund.

Fund 39 Referendum Approved Debt Service Funds
This fund is used to account for transactions for the repayment of debt issues that were either: authorized by school board resolution before August 12, 1993, or approved by referendum. The district may account for in such referendum approved debt service transactions in Funds 31, 32, 33, 34, 36, 37 (which are not presently assigned by DPI for reporting purposes) and/or Fund 39. If the district uses funds other than Fund 39, the district must combine and report these funds as Fund 39. A fund balance may exist in this fund.

Capital Projects Funds
These funds are used to account for expenditures financed through the use of bonds, promissory notes issued per statute 67.12(12), state trust fund loans, land contracts, an expansion fund tax levy established per statute 120.10(10m) or projects funded with a TIF capital improvement levy (Kenosha School District only). As permitted a capital project fund may also be used to record capital lease transactions involving a “letter of credit” or where use of the lease proceeds extends beyond the fiscal year end.

Capital projects funded through other sources of revenue such as gifts, grants, sale of capital objects, etc. may be accounted for in these funds depending on the circumstances. Proceeds from the sale of buildings, sites and equipment may be placed in this fund with annual meeting approval only. Expenditures is financed through General Fund tax levy or balance are always recorded in the General Fund.

The use of subfunds is required for audit reporting and legal compliance purposes. Subfunds 42, 43, 46 - 47 and/or 49 may be used as necessary to account for revenues other than an expansion fund tax levy authorized statute 120.10(10m) or a TIF capital improvement levy. Fund 41 is used for transactions financed with an expansion fund tax levy. Fund 48 is used for transactions financed with a TIF capital improvement tax levy.

Any balance remaining in a subfund established with borrowing proceeds must be transferred to the related debt service fund account upon project completion.
The resources in capital projects funds may not be used for any purpose other than that for which the fund was established. For this reason a separate checking and/or investment account for these funds is highly recommended.

**Fund 41 Capital Expansion Fund**
Projects financed with tax levy per statute 120.10(10m). State statute restricts the use of this fund for capital expenditures related to buildings and sites. Equipment cannot be acquired through the use of this Fund. For the purpose of determining eligible expenditures from this Fund, the DPI defines “capital expenditures related to buildings and sites” as being expenditures for acquiring and remodeling buildings and sites, and maintenance or repair expenditures that extend or enhance the service life of buildings and building components, sites and site components.

**Fund 44 Qualified Zone Academy Bond Projects Fund**
Projects financed with Qualified Zone Academy Bond funding. This fund is optional and is included in Fund 49 for reporting purposes.

**Fund 45 Qualified School Construction Bond Projects Fund**
Projects financed with Qualified School Construction Bond program funding. This fund is optional and is included in Fund 49 for DPI reporting purposes.

**Fund 46 Long Term Capital Improvement Trust Fund**
A school board with an approved long-term capital improvement plan (minimum of 10 years) may establish a “trust” that is funded with a transfer from the general fund. The contribution from Fund 10 to Fund 46 (Long-term Capital Improvement Trust Fund) is recorded as the expenditure for shared cost and equalization aid purposes. Future expenditures from Fund 46 are not part of shared costs. A school board is prohibited from removing money deposited into Fund 46 for a period of five years after the fund is created. After the initial five year wait period is over, funds may only be used for the purposes identified in the approved long-term capital improvement plan. Fund 46 assets may not be transferred to any other school district fund.

**Fund 48 TIF Capital Improvement Levy Fund**
Projects financed with a tax levy per statute 120.135. Only the Kenosha School District meets the requirements for such a levy. A fund balance may exist in this fund.

**Fund 49 Other Capital Project Funds**
Used to report capital project fund activities not required to be reported in Funds 41 or 48. The district may account for in such projects in Funds 42, 43, 46, 47 (which are not presently assigned by DPI for reporting purposes) and/or Fund 49. If the district uses funds other than Fund 49, the district must combine and report these funds as Fund 49. A fund balance may exist in this fund.

**Food and Community Service Funds**
These funds are used to account and report transactions of the district’s food and community service activities. No K-12 instructional (100 000 series) or instructional support related functions are recorded in these funds.

**Fund 50 Food Service Fund**
All revenues and expenditures related to pupil and elderly food service activities are recorded in this fund. A fund balance in the Food Service Fund is permitted. There may be no deficit in the district’s Food Service Fund. Any food service fund deficit, resulting from student food services, must be eliminated by an operating transfer from the General Fund. Any food service fund deficit, resulting from elderly food services, must be eliminated by a transfer from the district’s Community Service Fund. The maximum that may be transferred if the district does not have a deficit in the Food Service Fund is limited to an amount necessary to cover a current year deficit in a particular food service program (National School Lunch, Breakfast, Ala Carte, etc.)

**Fund 80 Community Service Fund**
This fund is used to account for activities such as adult education, community recreation programs such as evening swimming pool operation and softball leagues, elderly food service programs, non-special education preschool, day care services, and other programs which are not elementary and secondary educational programs but have the primary function of serving the community.
Actual, additional expenditures for these activities, includes salaries, benefits, travel, purchased services, etc. are to be included in this Fund to the extent feasible. The district may adopt a separate tax levy for this Fund.

Statute 120.13(19) permits a school board to establish and maintain community education, training, recreational, cultural or athletic programs and services, outside regular curricular and extracurricular programs for pupils, under such terms and conditions as the school board prescribes. The school board may establish and collect fees to cover all or part of the costs of such programs and services.

The School Board must establish a Community Service Fund pursuant to s. 120.13(19). A budget for the Community Service Fund must be adopted as required by s. 65.90. Any tax necessary to operate the Community Service Fund is considered a "operation" levy subject to s. 120.10(8) and s. 120.12(3).

Access to Community Service Fund activities cannot be limited to pupils enrolled in the district's K-12 educational programs. Other funds, such as the General Fund and the Special Projects Funds, carry out the day to day K-12 educational operations of the district. All activities associated with a well-rounded curriculum (curricular and extra-curricular activities) are to be accounted for in these funds and in pupil organization accounts contained in the Agency Fund (Fund 60).

Excluded from a Community Service Fund are any academic subjects and extra-curricular activities available only to pupils enrolled in the district. Student activities such as inter-scholastic athletics and other extra-curricular activities, pupil clubs, dances, field trips, student seminars and symposiums also may not be funded through Community Service.

A school board may, under s. 120.13(17), grant temporary use of school grounds, buildings, facilities or equipment, under conditions, including fees as determined by the school board. A Community Service Fund should not be established for providing access to district property for organizations such as youth, theater, and other groups not under the control of the school board unless the district is incurring additional direct cost that will not be recovered through fees, therefore requiring a tax levy subsidy.

Agency Fund

Fund 60 Agency Fund

This fund is used primarily to account for assets held by the district for pupil organizations. Funds held for parent organizations may be accounted for in this fund and are accounted for as a liability to the parent organization. Parent organization funds may be accounted for in Fund 60. The parent organization may not be a separate 501( c) (3) entity. Receipts such as pupil deposits for books, locks, etc; other receipts such as school lunch collections, athletic admissions and other fees may be temporarily deposited to agency fund checking accounts maintained at school locations until these items are remitted the district's business office for placement in required funds.

Only balance sheet accounts for this Fund are reported in the Budget and Annual Reports. However, auxiliary records of receipts and disbursements must be maintained in at locations administering the accounts. Pupil organizations accounted for in this fund may give money to the district. It is recorded as a gift in the receiving fund.

Trust Funds

These funds are used to account for assets held by the district in a trustee capacity for individuals, private organizations, other governments and/or other funds.

Fund 72 Private Purpose Trust Fund

This fund is used to account for gifts and donations specified for the benefit of private individuals and organizations not under the control of the school board. Scholarships are recorded in this fund. Cash and investments in this fund are expended pursuant to donor specifications. There may be a fund balance in this fund.
Gifts and donations for district operated instructional programs are recorded and accounted for in the Special Revenue Trust Fund (Fund 21).

**Fund 73 Employee Benefit Trust Fund**
This fund is used to account for resources held in trust for formally established defined benefit pension plans, defined contribution plans, or employee benefit plans. Such plans must be legally established in accordance with state statutes, federal laws and Internal Revenue Service requirements. Specific requirements for use of this fund have been established by the Department of Public Instruction. This fund applies to all post-employment benefit plans where the district is providing such benefits by contribution to a legally established irrevocable trust.

**Fund 76 Investment Trust Fund**
This fund is used to account the external (non-district) portion of investment pools sponsored by the district.

Chapter 9 SOURCE DEFINITIONS

The Source dimension is used to classify revenues and other sources of income according to their origins. Revenue is (1) an increase of assets which does not represent recovery of expenditures and which does not increase liabilities by an identical amount or (2) a decrease in liabilities which does not cause an increase in other liabilities or a decrease in assets. The exchange of one type of asset for another (as in the sale of equipment for cash) does not represent a revenue. Revenue increases both the assets and the equity of the district as a whole.

Chapter 13 BALANCE SHEET ACCOUNTS DEFINITIONS

Wisconsin school districts are required to use Generally Accepted Accounting Principles (GAAP). Revenues and expenditures of all funds, except nonexpendable trust funds, are recognized utilizing the modified accrual basis of accounting. Revenues and expenditures of nonexpendable trust funds are recognized utilizing the accrual basis of accounting. Each fund requires use of balance sheet accounts to fully disclose the district's financial condition.

Balance sheet accounting is based on the principle that Assets minus Liabilities equals Fund Equity. This principle is true for each fund and the subfunds within the funds.

The balance sheet series of accounts is composed of three main groups:

**ASSETS**  700 000 series

**LIABILITIES**  800 000 series

**EQUITY**  900 000 series

The six-digit balance sheet account codes should not be confused with the six-digit function codes used with revenue and expenditure accounts; the two codes are not directly related. The balance sheet codes are associated only with a FUND code or an ACCOUNT GROUP code in order to be complete.
