WISCONSIN UNIFORM FINANCIAL ACCOUNTING REQUIREMENTS
“WUFAR”
EFFECTIVE JULY 1, 2002

FOREWORD

The account description and definitions in this document supersede those in the *Wisconsin Elementary and Secondary School Accounting System (WESSAS) Handbook* and previously issued *Financial Accounting Requirements*. Since those documents were last issued, the Department of Public Instruction has made many enhancements to the account code structure which is reflected in this document. Wisconsin public school districts are required to use this manual for reporting purposes.

Chapter 1 INTRODUCTION

This manual presents a uniform financial and accounting structure for public elementary and secondary schools in the state of Wisconsin. It replaces the Wisconsin Elementary and Secondary School Accounting System (WESSAS) Handbook last updated in July, 1992.

Purpose of the Manual

This manual is intended to be the basic accounting document for Wisconsin's public school systems. The purpose of this manual, beyond providing financial information, is to promote uniformity important for the facilitation of reporting, auditing, data processing, inter-district comparisons, and financial accounting for cooperative programs. A uniform accounting system also eases the transition for personnel moving from one district to another. The need for uniformity in the application of Wisconsin Uniform Financial Accounting Requirements (WUFAR) is balanced with the flexibility needed to suit local needs. The WUFAR is designed to be used in large, medium, or small districts; in rural, suburban, or urban settings; in common, unified, or first class city school districts; and in districts with different kinds of accounting equipment or procedures.

Fund Accounting

Financial administration requires that each transaction be identified for administrative and accounting purposes. The first identification is by "fund" which is an independent fiscal and accounting entity, requiring its own set of books, in accordance with special regulations, restrictions, and limitations that earmark each fund for a specific activity or for attaining certain objectives. Each fund must be so accounted for that the identity of its resources and obligations and its revenues and expenditures is continually maintained.

All funds used by Wisconsin school districts must be classified into one of nine "fund types". The major fund types are the General Fund, Special Revenue Fund, Debt Service Fund, Capital Projects Fund, Food Service Fund, Custodial Fund, Trust Fund, Community Service Fund, and Package and Cooperative Program Fund.

Wisconsin school districts may not need all of these fund groups at any given time. The General, Debt Service, Food Service, Pupil Activity, and Special Revenue Funds will undoubtedly encompass the majority of the transactional activity that will occur in the school district. The remaining fund groups, however, are still material to the overall presentation of the financial position of the school district and as such should be maintained and reported accordingly.

Conformance with Generally Accepted Accounting Principles

A primary emphasis of this manual is to define account classifications that provide meaningful financial management information to its users. As part of this emphasis, this manual is written to

conform to generally accepted accounting principles (GAAP), a uniform minimum standard of and guidelines for financial accounting and reporting. For Local Education Agency (LEA), adherence to GAAP implies that their financial reports contain the same types of financial statements for the same categories and types of funds and account groups. Such conformity will enhance the comparability of LEA financial reporting.

In keeping with GAAP, this manual's content and format are based on double entry and the accrual or modified-accrual basis of accounting.

Basis of Accounting

The "basis of accounting" refers to the point in time when revenues, expenditures or expenses (as appropriate), and the related assets and liabilities are recognized in the accounts and reported in the financial statements. In other words, the "basis of accounting" determines the timing with which the accounting system recognizes transactions.

Governmental funds, expendable trust funds, and Custodial funds use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available (susceptible to accrual). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period.

State general and categorical aids, federal impact aid, and other entitlements are recognized as revenue at the time of receipt or earlier if the "susceptible to accrual" criteria are met. Expenditure-driven programs currently reimbursable are recognized as revenue when the qualifying expenditures have been incurred. Aids received prior to meeting revenue recognition criteria are recorded as deferred revenue.

Charges for services provided to other educational agencies and private parties are recognized as revenue when services are provided. Charges for special educational services are not reduced by anticipated state special education aid entitlements.

Interest earnings on temporary investments are recognized in the fiscal period earned.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Employee services and payroll-related costs (employee health, life, disability insurance, FICA, Medicare, Wisconsin Retirement System contributions, annuities) other than compensated absences, termination, and other post-employment benefits are recognized in the fiscal period when incurred. The cost of capital items is recorded as an expenditure when acquired. Interest cost on temporary borrowing is recognized as an expenditure of the fiscal period incurred. Costs for educational services provided by other educational agencies or private organizations are recognized when incurred. Costs for special education services are not reduced by anticipated state special education aid entitlements.

Compensated absences are recognized as expenditures when used rather than when earned by the employee. Termination and other post-employment benefits are recognized as expenditures in

the fiscal period when paid or normally paid rather than when earned by the employee. Principal and interest on long-term debt is recognized when due.

Comparability

Using the classifications and definitions in this manual will enhance comparability of recorded and reported financial information among LEAs, the states and the federal government. This comparability should provide assistance to LEAs, state and federal administrators, legislators, LEA boards of education and the general public in understanding where funds come from and how they are used.

The Account Classification Structure

This manual provides for classifying three basic types of financial activities: revenues and other sources of funds; expenditures and other uses of funds; and transactions affecting the balance sheet only. For each type of transaction, the specific account code is made up of a combination of classifications called dimensions. Each dimension describes one way of classifying financial activity. The dimensions applicable to each type of transaction are:

Revenues	Expenditures	Balance Sheet
Fund	Fund	Fund
Location/Organization	Location/Organization	Balance Sheet
Account	Object	
Source	Function	
Function	Program/Project	
Program/Project		

WUFAR Sequence of Dimensions

WUFAR, being a multidimensional accounting system with independent dimensions, could be used in many account code configurations as determined by the user. This would, however, create confusion regarding inter-district comparisons. In order to ensure statewide uniformity, the sequence of dimensions below should be utilized for dimensions that are employed on all documents of origination: i.e., requisitions, purchase orders, voucher jackets:

Fund	Location/Organization	Object or Source	Function	Program/Project
XX ----	XXX	---	XXX XXX ---	XXX

Account Code Hierarchy

Code numbers are arranged in a hierarchical order. A zero (0) in any position of a code number represents a total of other more detailed account codes and should not be used for coding of transactions if a more discrete detail level is used.

For example, reported account codes shown in Fund 90, “Package-Cooperative Fund” are totals of all transactions for that code as recorded in Funds 91 through 99. If a reported sub-fund such as Fund 93 is used, no transaction can be recorded as an original entry to Fund 90.

Organization of Manual

The development and purposes of this manual were discussed previously in this chapter. Chapter 3 describes a “Minimum Chart of Accounts” that will meet federal and state reporting requirements. Chapter 5 provides a definition of all funds and Chapters 6-11 provide an expanded version of the minimum chart of accounts as well as definitions for those accounts included in the minimum chart of accounts.

Chapter 2 REVENUE AND EXPENDITURE RECOGNITION REQUIREMENTS

The following are the requirements that should be reported in the district's Budget (PI-1504) and Annual (PI-1505) reports. Account classification is made per the *Wisconsin Uniform Financial Accounting Requirements* (WUFAR).

PROPERTY TAXES

The entire district levy is recognized as revenue for the fiscal year levied. The levy is considered due to the district as of the January 1 following levy certification. An allocation of levy between fiscal years is not made.

STATE AND FEDERAL AID

Revenues for entitlement programs (programs that are computed on a formula basis, such as state general and categorical aid, and federal impact aid) are recognized in the fiscal year that the district is entitled to receive the aid. Currently reimbursable programs, (e.g. WUFAR source codes 630 and 730 claimed by filing DPI form PI-1086), are recognized as revenue when the reimbursable expenditures are made. Aid payments received prior to meeting revenue recognition requirements are recorded as deferred revenue.

SUPPLY AND MATERIAL INVENTORY, PREPAID EXPENSE

Expendable supplies, non-capital items and equipment acquired for use in subsequent fiscal periods are recorded as supply inventory and/or prepaid expense. Prepaid expense accounts are not used for recording unexpired insurance premiums or service contracts for equipment maintenance unless not doing so would result in more than one year's cost being recorded.

CAPITAL ITEMS

Buildings, sites and improvements are recorded as expenditures when acquired. The value of construction work completed, if billed by contractors, is charged to "Construction Work in Progress" as expenditure during the fiscal period in which the work was completed. Equipment is recorded as expenditure when placed in service or upon the time when title and risk of loss passes to the district as purchaser.

PAYROLL AND PAYROLL RELATED BENEFITS (*other than compensated absences and post-employment benefits*)

Payments for employee services and payroll related costs (employee health, life, & disability insurance, FICA, Wisconsin Retirement System, annuities) are recorded as expenditure in the fiscal year in which employee services are provided.

ACCUMULATED COMPENSATED ABSENCES

Accumulated unpaid vacation, sick leave, earned "comp" time is recognized as expenditure in the fiscal period when the accumulated time is used, not when earned.

TERMINATION AND POST-EMPLOYMENT BENEFITS

Unless an employee benefit trust has been established, termination payments, insurance payments on behalf of former employees or dependents, supplemental retirement payments, and other post-employment benefits are recognized as an expenditure in the fiscal period when the payment is required to be made rather than when earned or at termination date. Upon establishment and funding of such a trust, all current retiree costs are paid by the trust, not by general operating funds.

SELF-FUNDED HEALTH BENEFITS

Expenditures for self-funded health benefits are limited to cost incurred during the fiscal period, including an estimate for incurred but not reported claims and associated costs. Additions to fund balance reserve accounts cannot be included in expenditures.

PREPAYMENT OF "PRIOR SERVICE PENSION" LIABILITY

A prepayment of pension system "prior service liability" is recognized as an expenditure in the fiscal year the payment is made. If the payment is made using General Fund resources, it is charged as an expenditure of the General Fund using Function 299000. A payment made with the use of debt proceeds is treated as a refinancing transaction in the Debt Service Fund.

CHARGES FOR PROVIDING SERVICES TO OTHER EDUCATIONAL AGENCIES AND PRIVATE PARTIES

Charges for services provided to other educational agencies and private parties are recognized as revenue in the fiscal period the services were provided. Charges for special educational services are billed at full cost without a reduction for state aid payments or a reduction for anticipated aid related to such services.

COST FOR SERVICES PROVIDED BY OTHER EDUCATIONAL AGENCIES

Costs for educational services provided by other educational agencies are recognized as an expenditure in the fiscal period services are received. Expenditures for special education services are not reduced by state aid payments or other anticipated revenue related to services received.

SCHOOL BASED SERVICES (SBS) OR MEDICAID REVENUE

Reimbursements for eligible services are recognized as revenue in the fiscal period that they are received by the provider agency, with one exception. SBS claims that are filed towards the end of the fiscal year and received within 60 days should be accrued. No offset for the revenue received or anticipated revenues is made against expenditures. If reimbursements are from a CESA (Cooperative Educational Service Agency) or another district, a revenue and receivable transaction must be recorded based on information contained in a confirmation requested from the CESA or the other district.

PARTICIPATION IN A CONSORTIUM

The fiscal agent of a consortium will receive revenues and make expenditures on behalf of consortium participants. Expenditures funded through grants and debt proceeds received directly by the fiscal agent on behalf of the consortium are not recorded by the participants.

LONG-TERM DEBT

Incurred long-term debts (bonds, notes, state trust fund loans, land contracts, capital leases) are recorded at the full principal amount, i.e. "face" or "par" value as a financing (revenue) source. An amount identified as "discount" is recorded as an expenditure. Premium and accrued interest received as part of bond or promissory note proceeds is recorded as a revenue in Debt Service Fund.

An offsetting expenditure equal to the amount financed is recorded for land contracts and capital leases. Principal and interest expenditures on long term debt are recorded when the payment is due.

TEMPORARY BORROWING INTEREST COST

Temporary borrowing interest cost is accrued during the fiscal period. Accrued interest payable is recorded at the end of fiscal period for unpaid interest cost.

TEMPORARY INVESTMENT INCOME

Interest revenue on investments is recorded as revenue in fiscal period related to the investment. Interest receivable is recorded at the end of the fiscal period for accrued interest income (interest earned but not received).

Chapter 3 THE MINIMUM CHART OF ACCOUNTS

Used in its entirety, this manual's classification structure (particularly the expenditure classifications) can generate large amounts of detailed data. However, much of the classification system described herein is offered for the optional use of the LEA. Hence, a LEA may choose, in a number of ways, which parts of the system it needs or wants to use. It may choose:

1. Not to use certain dimensions at all;
2. To consolidate certain dimensions in its own local chart of accounts;
3. To use less (or more) than the number of digits described for any particular dimension in this handbook.

Using this manual, the district's first task then is to decide what additional classifications it wishes to use for its own purposes. Thus, each LEA will develop its own chart of accounts as it selects the dimensions and categories of accounts suitable to its specific needs. Whatever system a district chooses, it must follow a certain minimum list of those classifications to meet federal and state reporting requirements.

Analyzing transactions of LEAs for classification requires considerable knowledge of school funds and accounts. There is no real substitute for experience in exercising this function.

Chapter 4 FUND DIMENSION SUMMARY

Required Reporting Codes

Optional Codes for local use

A fund is an accounting entity consisting of a self-balancing set of asset, liability, and equity accounts used to account for the district's financial transactions in accordance with laws, regulations, or restrictions. The Department of Public Instruction (DPI) requires reporting of various revenues and expenditures within specified funds.

Chapter 5 FUND DEFINITIONS

The following are funds reported in the school district's Annual and Budget reports to the DPI categorized by the activities that occur within the funds. The reported funds in each category have similar function-object expenditure coding.

Instructional Funds

Instructional funds are funds where elementary and secondary instruction (i.e. K-12) activities (100 000 function series) pupil support activities (210 000 function series) or instructional staff support (220 000 function series) are recorded.

Fund 10 General Fund

This fund is used to account for all financial transactions relating to the district's current operations, except for those required to be accounted for in other funds.

Fund 21 Special Revenue Fund

This fund is used to account for the proceeds of non-trust revenues of which the expenditures are limited to specified purposes related to district operations. The most common source of such funds is gifts and donations. There may be a fund balance in this fund.

Fund 23 "TEACH" Fund

This fund is used to account for programs funded with grants and loans from the TEACH Wisconsin Board (issued prior to 2012). There may be a fund balance or a deficit in this fund as permitted by the TEACH Board. These grants and loans are different than the TEACH grants issued by the Department of Administration, which should be coded to Fund 10.

No separate cash or investment accounts are required for this fund. Any interest earnings resulting from an invested balance in this fund should be credited to this fund.

Fund 27 Special Education Fund

This fund is used to account for the excess cost of providing special education and related services for students with disabilities during the regular school year or extended school year. Also included are charges for services provided to other districts as a result of being a host district for a special education package or cooperative program. School Age Parent costs are also charged to this fund. No fund balance or deficit can exist in this fund.

Fund 29 Other Special Revenue Funds

This fund is used to report special revenue for K-12 instructional programs not required to be discretely reported in Funds 21, 23, or 27. The district may account for in such programs in Funds 22, 24, 25, 26, 28 (which are not presently assigned by Department of Public Instruction for reporting purposes) and/or Fund 29. If the district uses funds other than Fund 29, the district must combine and report these funds as Fund 29. A fund balance may exist in this fund.

Programs reported as Fund 29 include Federal Indian Education funded programs and "Head Start" revenues used to fund K-12 instructional programs. "Head Start" revenues used in district operated child care operations are to be reported in Fund 80, Community Services.

Fund 91 Packaged Services

This fund is used to account for expenditures made by a host district for programs made available to other districts through a CESA. The CESA makes the packaged service available to school districts. The participating districts, including the host district will pay CESA for their share of the program. CESA payments to the host district are the only revenue recorded in this sub-fund and must equal expenditures. The CESA applies for any program related aid and handles any required aid distribution. No fund balance or deficit can exist in this fund. Special education related services provided by a CESA should be accounted for in Fund 27, not Fund 91.

Fund 93 TEACH Program Consortium

This fund is used to account for consortia programs funded with grants and loans from the TEACH Wisconsin Board (issued prior to 2012). There may be a fund balance or a deficit in this fund as permitted by the TEACH Board. These grants and loans are different than the TEACH grants issued by the Department of Administration, which should be coded to Fund 10.

Fund 99 Other Package and Cooperative Program Fund

This fund is to be used for all other types of cooperative instructional funds. No fund balance or deficit can exist in this fund. Special education related cooperative programs should be accounted for in Fund 27.

Debt Service Funds

These funds are used for recording transactions related to repayment of the following general obligation debts: promissory notes (issued per Wis. Stats. s. 67.12(12)), bonds, state trust fund loans, and TEACH loans. Also included in these funds are transactions pertaining to land contract payments and refinancing of debt issues and other district obligations as specified by the Department of Public Instruction (DPI). Debt tax levies must be recorded in these funds. TEACH loan payments are not recorded in a debt service fund unless the district has incurred the TEACH debt as general obligation debt. TEACH debt is usually incurred as a capital lease transaction.

The resources in these funds may not be used for any other purpose as long as a related debt remains. For this reason, separate checking and/or investment accounts for debt service funds is highly recommended.

Sub-funds may be established for various debt issues. If sub-funds are established, Funds 31-37 and/or 39 may be used for debt authorized prior to August 12, 1993 or approved by referendum. Fund 38 is required to be used to report transactions pertaining to non-referendum debt authorized after August 12, 1993.

If the district is required to have a debt service tax levy as a result of participating in a consortium, the levy is recorded in the appropriate debt service fund with the appropriate principal and interest accounts charged when payment (usually to the consortium's fiscal agent) occurs.

Fund 38 Non-Referendum Debt Service Fund

This fund is used to account for transactions for the repayment of debt issues that were either: not authorized by school board resolution before August 12, 1993, or incurred without referendum approval after that date. A fund balance may exist in this fund.

Fund 39 Referendum Approved Debt Service Funds

This fund is used to account for transactions for the repayment of debt issues that were either authorized by school board resolution before August 12, 1993, or approved by referendum. The district may account for in such referendum approved debt service transactions in Funds 31, 32, 33, 34, 36, 37 (which are not presently assigned by DPI for reporting purposes) and/or Fund 39. If the district uses funds other than Fund 39, the district must combine and report these funds as Fund 39. A fund balance may exist in this fund.

Capital Projects Funds

These funds are used to account for expenditures financed through the use of bonds, promissory notes issued per Wis. Stats. s. 67.12(12), state trust fund loans, land contracts, an expansion fund tax levy established per Wis. Stats. s. 120.10(10m) or projects funded with a Tax Incremental Fund (TIF) capital improvement levy (Kenosha School District only). As permitted, a capital project fund may also be used to record capital lease transactions involving a "letter of credit" or where use of the lease proceeds extends beyond the fiscal year end.

Capital projects funded through other sources of revenue such as gifts, grants, sale of capital objects, etc. may be accounted for in these funds depending on the circumstances. Proceeds from the sale of buildings, sites and equipment may be placed in this fund. Expenditures are financed through General Fund tax levy or balance are always recorded in the General Fund.

The use of sub-funds is required for audit reporting and legal compliance purposes. Sub-funds 42, 43, 46 - 47 and/or 49 may be used as necessary to account for revenues other than an expansion fund tax levy authorized by Wis. Stats. s. 120.10(10m) or a TIF capital improvement levy. Fund 41 is used for transactions financed with an expansion fund tax levy. Fund 48 is used for transactions financed with a TIF capital improvement tax levy.

Any balance remaining in a sub-fund established with borrowing proceeds must be transferred to the related debt service fund account upon project completion.

The resources in capital projects funds may not be used for any purpose other than that for which the fund was established. For this reason a separate checking and/or investment account for these funds is highly recommended.

Fund 41 Capital Expansion Fund

Projects financed with tax levy per Wis. Stats. s. 120.10(10m). State statute restricts the use of this fund for capital expenditures related to buildings and sites. Equipment cannot be acquired through the use of this fund. For the purpose of determining eligible expenditures from this fund, the DPI defines "capital expenditures related to buildings and sites" as being expenditures for acquiring and remodeling buildings and sites, and maintenance or repair expenditures that extend or enhance the service life of buildings and building components, sites and site components.

Fund 44 Qualified Zone Academy Bond Projects Fund

Projects financed with Qualified Zone Academy Bond funding. This fund is optional and is included in Fund 49 for reporting purposes.

Fund 45 Qualified School Construction Bond Projects Fund

Projects financed with Qualified School Construction Bond Program funding. This fund is optional and is included in Fund 49 for DPI reporting purposes.

Fund 46 Long Term Capital Improvement Trust Fund

A school board with an approved long-term capital improvement plan (minimum of 10 years) may establish a "trust" that is funded with a transfer from the general fund. The contribution from Fund 10 to Fund 46 (Long-term Capital Improvement Trust Fund) is recorded as the expenditure for shared cost and equalization aid purposes. Future expenditures from Fund 46 are not part of shared costs. A school board is prohibited from removing money deposited into Fund 46 for a period of five years after the fund is created. After the initial five year wait period is over, funds may only be used for the purposes identified in the approved long-term capital improvement plan. Fund 46 assets may not be transferred to any other school district fund.

Fund 48 TIF Capital Improvement Levy Fund

Projects financed with a tax levy per Wis. Stats. s. 120.135. Only the Kenosha School District meets the requirements for such a levy. A fund balance may exist in this fund.

Fund 49 Other Capital Project Fund

Used to report Capital Project Fund activities not required to be reported in Funds 41 or 48. The district may account for in such projects in Funds 42, 43, 47 (which are not presently assigned by DPI for reporting purposes) and/or Fund 49. If the district uses funds other than Fund 49, the district must combine and report these funds as Fund 49. A fund balance may exist in this fund.

Food and Community Service Funds

These funds are used to account and report transactions of the district's food and community service activities. No K-12 instructional (100 000 series) or instructional support related functions are recorded in these funds.

Fund 50 Food Service Fund

All revenues and expenditures related to pupil and elderly food service activities are recorded in this fund. A fund balance in the Food Service Fund is permitted. There may be no deficit in the district's Food Service Fund. Any food service fund deficit, resulting from **student** food services, must be eliminated by an operating transfer from the General Fund. Any food service fund deficit, resulting from **elderly** food services, must be eliminated by a transfer from the district's Community Service Fund. The maximum

that may be transferred if the district does not have a deficit in the Food Service Fund is limited to an amount necessary to cover a current year deficit in a particular food service program (National School Lunch, Breakfast, Ala Carte, etc.)

Fund 80 Community Service Fund

This fund is used to account for activities such as adult education, community recreation programs such as evening swimming pool operation and softball leagues, elderly food service programs, non-special education preschool, day care services, and other programs which are not elementary and secondary educational programs but have the primary function of serving the community. Actual, additional expenditures for these activities, includes salaries, benefits, travel, purchased services, etc. are to be included in this fund to the extent feasible. The district may adopt a separate tax levy for this Fund.

Wis. Stats. s. 120.13(19) permits a school board to establish and maintain community education, training, recreational, cultural or athletic programs and services, outside regular curricular and extracurricular programs for pupils, under such terms and conditions as the school board prescribes. The school board may establish and collect fees to cover all or part of the costs of such programs and services.

The school board must establish a Community Service Fund pursuant to Wis. Stats. s. 120.13(19). A budget for the Community Service Fund must be adopted as required by Wis. Stats. s. 65.90. Any tax necessary to operate the Community Service Fund is considered an "operation" levy subject to Wis. Stats. s. 120.10(8) and Wis. Stats. s. 120.12(3).

Access to Community Service Fund activities cannot be limited to pupils enrolled in the district's K-12 educational programs. Other funds, such as the General Fund and the Special Revenue Funds, carry out the day to day K-12 educational operations of the district. All activities associated with a well-rounded curriculum (curricular and extra-curricular activities) are to be accounted for in these funds and in pupil organization accounts contained in the Custodial Fund (Fund 60).

Excluded from a Community Service Fund are any academic subjects and extra-curricular activities available only to pupils enrolled in the district. Student activities such as inter-scholastic athletics and other extra-curricular activities, pupil clubs, dances, field trips, student seminars and symposiums also may not be funded through Community Service.

A school board may, under Wis. Stats. s. 120.13(17), grant temporary use of school grounds, buildings, facilities or equipment, under conditions, including fees as determined by the school board. A Community Service Fund should not be established for providing access to district property for organizations such as youth, theater, and other groups not under the control of the school board unless the district is incurring additional direct cost that will not be recovered through fees, therefore requiring a tax levy subsidy.

Custodial Fund

Fund 60 Custodial Fund

This fund is used to account for custodial activity, which is primarily related to pupil organizations, parent organizations, and certain scholarships pursuant to GASB 84, including the district not having administrative involvement with the custodial assets.

Trust Funds

These funds are used to account for assets held by the district in a trustee capacity for individuals, private organizations, other governments and/or other funds pursuant to GASB 84.

Fund 72 Private Purpose Trust Fund

This fund is used to account for district controlled trusts (other than pension, OPEB, and Investment) or an equivalent arrangement in which the district itself is not a beneficiary, benefits are provided in accordance with the trust, and the funds are legally protected from the creditors of the district. There may be a fund balance in this fund.

Non-trust gifts and donations for district operated instructional programs are recorded and accounted for in the Special Revenue Fund (Fund 21).

Fund 73 Pension and Other Employee Benefit Trust Fund

This fund is used to account for resources held in trust for formally established defined benefit pension plans, defined contribution plans, or employee benefit plans. Such plans must be legally established in accordance with state statutes, federal laws and Internal Revenue Service requirements. Specific requirements for use of this fund have been established by the Department of Public Instruction. This fund applies to all post-employment benefit plans where the district is providing such benefits by contribution to a legally established irrevocable trust.

Fund 76 Investment Trust Fund

This fund is used to account the external (non-district) portion of investment pools and individual investment accounts sponsored by the district.

Chapter 7 FUNCTION DEFINITIONS

100 000 INSTRUCTION

110000 Undifferentiated Curriculum

An instructional situation in which one teacher is responsible for providing instruction in two or more curricular areas to the same group of pupils. Examples include a language arts/social studies core program or a first-grade class where a teacher teaches reading, writing, arithmetic, penmanship, etc. to the same group of pupils. *This definition does not imply that only elementary level programs are coded here. The cost of individual use equipment such as laptops and chrome books should be charged to this function for pupils in this instructional setting.*

120000 Regular Curriculum

An instructional setting in which a teacher is responsible for instructing a group of pupils in only one curricular area not required to be reported under vocational, health, special or co-curriculum functions. *The cost of individual use equipment such as laptops and chrome books should be charged to this function for pupils in this instructional setting. An allocation to the optional sub-functions may be performed at the local level using an appropriate basis for allocation.*

131000 Vocational Curriculum - Agriculture Education

Instructional activities that enable students to acquire the background, knowledge, skills, and attitudes to enter agriculturally-related occupations.

132000 Vocational Curriculum - Business Education

Instructional activities that enable students to acquire the background, knowledge, skills, that are applied in the business world or for personal use.

133000 Vocational Curriculum - Marketing Education

Instructional activities that prepare students to perform activities that direct the flow of goods and services, including appropriate use, from the producer to consumer. These activities include selling, buying, transporting, financing, and their management.

134000 Vocational Curriculum - Health Occupations Education

Instructional activities that provide students with the knowledge, skills, and understanding required by occupations that support the health professions.

135000 Vocational Curriculum - Family & Consumer Education

Instructional activities that enable students to acquire the knowledge and develop the understanding, attitude, and skills relevant to personal, home, and family life, and to home economics occupations.

136000 Vocational Curriculum - Technology Education

Instructional activities that develop students' understanding about all aspects of industry and technology that help students make occupational choices or prepare them to enter advanced trade and industrial or technical education activities.

138000 Vocational Curriculum - Special Needs

Instructional activities designed to develop in students with disabilities the knowledge, skills, and attitudes that relate to the work world and profitable use of leisure time.

139000 Other Vocational Curriculum

Vocational instructional activities not required to be coded elsewhere.

140000 Physical Curriculum

Instructional activities concerned with health and safety in daily living, physical education, and recreation. *Appropriate sub-function coding will be necessary for claiming Driver's Education Aid.*

150000 Special Education Curriculum

Instructional activities for pupils with disabilities and provided by specially qualified personnel as required by an Individual Educational Program (IEP) for such pupils. *Appropriate sub-function coding will be necessary for claiming Special Education Aid.*

160000 Co-Curricular Activities

Instructional activities under the guidance and supervision of school staff designed to provide students such experiences as motivation, enjoyment and improvement of skills. Co-curricular activities supplement the regular instructional activities and include such activities as band, chorus, speech and debate, athletics.

171000 Culturally/Socially Disadvantaged

Instructional activities designed to assist students in interaction with others and in responding to the social demands of the environment.

172000 Gifted & Talented

Instructional activities for the mentally gifted or talented.

173000 Non-Special Education Home Bound

Instructional programs for homebound pupils not required by an IEP or as part of a school age parent program.

174100 School Age Parent Classroom

Instructional activities for students placed in this program.

174200 School Age Parent Home Bound

Instructional activities for students placed in this program.

179000 Other Special Needs

Special needs instructional activities not required to be reported elsewhere. Expenditures for Alternative (and At Risk) education programs are included here. These programs typically include expenditures for activities for students assigned to alternative campuses, centers or classrooms designed to improve behavior and/or provide an enhanced learning experience. Typically, Alternative (and At Risk) education programs are designed to meet the needs of students that cannot be addressed in a traditional classroom setting. Instructional services related to 504 plans are also included here. Non-instructional 504 plan related services should be coded to the appropriate support function.

270000 Insurance & Judgments

Insurance premiums for district liability, property, fidelity, unemployment compensation. Also recorded here are costs of insurance consultants and other costs related to the preceding items. Employee benefit insurance is classified to the function relating to the employee's salary. Insurance relating to pupil transportation is recorded under function 256 000 "Pupil Transportation". Judgments by courts, state or federal agencies against the district are included in this function. Also included here are "out of court" settlements which if fully adjudicated, could have resulted in a judgment against the district. Costs resulting from failure to pay bills or debt service are recorded against the appropriate function related to the bill or debt service expenditure.

281000 Long Term Capital Debt

Expenditures for the repayment of long-term notes, bonds, state trust fund loans, capital leases, and land contracts that were recorded as a financing source in a capital projects fund when incurred. Also reported here are payments to a CESA for a state trust fund loan where the district is required to have a debt service tax levy relating to it. Function 289000 should be used for debt service payments on loans issued to pay off the district's unfunded prior service liability.

282000 Refinancing

Expenditures for payment of existing district obligations provided through the issuance of long-term debt. Included here are payments of prior service pension liabilities made with the use of debt proceeds.

283000 Long Term Operational Debt

Expenditures for the payment of interest on temporary borrowing, and principal and interest on loans for operational purposes recorded in the General Fund. Debt service payments are made out of Fund 38 and Fund 39.

285000 Post-Employment Benefit Debt

Expenditures for the payment of interest and principal on debt incurred for the purpose of funding post-employment benefits. Included in this function would be debt service payments on loan proceeds used to make contributions to Fund 73 or interest payments on debt incurred in Fund 73.

289000 Other Long-Term Debt

Expenditures for the payment of interest and principal on other long term district indebtedness. Included in this function is the debt service cost of debt incurred to pay off the district's unfunded prior service pension liability.

291000 Termination Benefits

Expenditures to employees upon separation of service for unused leave such as sick leave or vacation or other early retirement benefit incentives paid to hasten termination (cash payout).

292000 Other Retiree Payments

Expenditures for post-retirement health benefits, pensions or stipends, when the district is on the pay-as-you-go method for funding benefits using Object 290. Also, district contributions to a post-retirement trust fund in excess of the Annual Required Contribution

(ARC) using Object 218 when the district is funding benefits using an actuarial cost method recognized by generally accepted accounting principles.

295000 Administrative Technology Services

Activities concerned with supporting the school district's information technology systems, including supporting administrative networks, maintaining administrative information systems, and processing data for administrative and managerial purposes. These activities include expenditures for internal technology support, as well as support provided by external vendors using operating funds. These activities include costs associated with the administration and supervision of technology personnel, systems planning and analysis, systems application development, systems operations, network support services, hardware maintenance and support services, and other technology-related administrative costs.

Chapter 9 SOURCE DEFINITIONS

The Source dimension is used to classify revenues and other sources of income according to their origins. Revenue is (1) an increase of assets which does not represent recovery of expenditures and which does not increase liabilities by an identical amount or (2) a decrease in liabilities which does not cause an increase in other liabilities or a decrease in assets. The exchange of one type of asset for another (as in the sale of equipment for cash) does not represent a revenue. Revenue increases both the assets and the equity of the district as a whole.

Excess funds received as a result of a refinancing transaction do get recorded in Fund 30 as Source 968 since the excess funds can be used for any debt service transaction and are not restricted for refinancing purposes.

969 Other Adjustments

Record here other adjustments not provided for elsewhere. Adjustments resulting from trade-ins of equipment acquired pursuant to a capital lease would be included here.

970 Refund of Disbursement

Refund related to expenditure, typically prior year.

971 Refund of Prior Year Expense

Refund receipt related to a prior year expenditure other than an expenditure coded to Object 972. Include here "E-Rate refunds" even though a portion of the refund may be related to current year expenditures. Refunds from CESAs, insurance refunds, and workers compensation dividends should also be reported here. Interest subsidies related to Build America Bonds, Qualified Zone Academy Bonds and Qualified School Construction Bonds received from the Internal Revenue Service are reported here in the fiscal year received. Include here funds received through the 'Focus on Energy' program. P-Card rebates are coded here even if they relate to the current fiscal year. Insurance proceeds received as a result of equipment loss is recorded in Source 860 even if received in a year subsequent to the year the loss was incurred. Revenues coded to this account increase deductible receipts used in the equalization aid computation.

972 Property Tax and General Aid Refund

Refund related to prior year expenditure coded to object 972. Also included are general aid refunds and taxpayer levy refunds. Refunded delinquent personal property taxes are recorded here. Receipts for "Sharing of Non-Manufacturing Omitted Property Taxes" are also coded here. Revenues coded to this account do not affect shared cost in the general aid computation.

980 Medical Service Reimbursements

Revenue for eligible medical services provided to district residents.

989 Other Medical Service Reimbursement

Revenue, other than Medicaid reimbursements, received from insurance providers or other payers for specified medical services provided to district residents. Record reimbursements received from another district in source 389. Record reimbursements received from a CESA in source 589. Payments received from insurance providers to reimburse districts for costs associated with Clinics operated for employees are coded here.

990 Miscellaneous

Any revenue not required to be reported elsewhere. Includes land use penalty received from municipalities, credit fee revenue, and timber sales revenue. Also included are restitution payments received, liquidated damages received, and settlement proceeds from a lawsuit. Flex Plan forfeitures and HRA forfeitures for terminated non-vested employees are also recorded here.

Expenditures for which the district is making custodial payments in Fund 60.

998 UNREALIZED LOSSES ON INVESTMENTS

Used with Function 420000 in Funds 72 and 73 only.

Losses recognized from changes in the value of investments. Losses represent the excess of the cost or any other basis at the date of valuation over fair value. Unrealized losses are only recognized for Fund 72 and Fund 73 investments.

999 OTHER MISCELLANEOUS

Used with all functions and sub-functions except those in the 254 600, 256 300, 256 700, 256 800, 256 900, 270 000, 280 000, 400 000 series.

Expenditures that are not required to be coded elsewhere.

Chapter 13 BALANCE SHEET ACCOUNTS DEFINITIONS

Wisconsin school districts are required to use Generally Accepted Accounting Principles (GAAP). Revenues and expenditures of all funds, except nonexpendable trust funds, are recognized utilizing the modified accrual basis of accounting. Revenues and expenditures of nonexpendable trust funds are recognized utilizing the accrual basis of accounting. Each fund requires use of balance sheet accounts to fully disclose the district's financial condition.

Balance sheet accounting is based on the principle that Assets minus Liabilities equals Fund Equity. This principle is true for each fund and the sub-funds within the funds.

The balance sheet series of accounts is composed of three main groups:

ASSETS	700 000 series
LIABILITIES	800 000 series
EQUITY	900 000 series

The six-digit balance sheet account codes should not be confused with the six-digit function codes used with revenue and expenditure accounts; the two codes are not directly related. The balance sheet codes are associated only with a FUND code or an ACCOUNT GROUP code in order to be complete.

700 000 ASSETS

Assets are items of value owned by a district.

710 000 CURRENT ASSETS

Current assets include cash and other assets which are readily available to finance current operations and liabilities.

711 000 Cash

Cash includes demand deposits (checking accounts); currency, checks, money orders, and bank drafts on hand; and deposits with fiscal agents.

711 100 Cash on Deposit

Bank deposits from which check withdrawals may be made as desired.

711 200 Cash on Hand

Cash in the physical possession of the district which is set aside for payment of small obligations or for providing change.

711 300 Cash with Fiscal Agent

Money deposited by agreement with a financial institution or other authority which serves as an agent to manage district funds for specific purposes.

712 000 Investments

The amount of money invested to earn income. Investments are recorded at cost.

712 100 Certificates of Deposit

Certificates of deposit are for fixed dollar amounts and generally remain on deposit for specified lengths of time.

712 200 Savings Accounts/State Investment Pool

Interest earning accounts which permit growth through additional deposits. Withdrawal activity may be restricted by rules and regulations of the depository.

712 300 Government Securities

Securities issued by various branches of government or agencies.

712 400 Repurchase Agreement

A short-term investment in a security which a bank agrees to repurchase on a specified date for a specified amount.

713 000 Receivables

Amounts which the district has not received, but which the district is entitled to receive as of the date of the balance sheet.

713 100 Taxes Receivable

The uncollected portion of property taxes which the district has levied.

713 200 Accounts Receivable

Amounts owed to the district by persons, firms, or corporations (but not other funds or governmental units) for goods and services furnished by the district.

713 300 Interest Receivable

The amount of interest earned, but not received.

714 000 Due from Other Funds

Amounts loaned to other funds or due from other funds which are subject to current settlement. This account should be used only on a short term basis until the balance can be eliminated by the necessary payment or transfer. The recognition of an interfund payable in one fund requires the recognition of an interfund receivable in another. Because of this relationship, the aggregate amount of interfund payables must equal the aggregate amount of interfund receivables at all times.

715 000 Due from Other Governments

Amounts owed to the district by other governmental units. These include grants, aid, shared taxes, loans, and charges for services rendered by the district.

716 000 Inventory

716 100 Inventory

The cost of noncapital objects which are stored for future use.

716 400 Assets Held for Resale

This account is used to record the cost of items held by the district for resale rather than for use; e.g., cost of a building constructed in vocational class for sale.

717 000 Prepaid Expenses

Prepayment of expenditures not yet recognized; e.g., supplies and materials which will be used and recorded as expenditures in the future.

719 000 Other Fund Assets

750 000 FIXED ASSETS (To be used only in the general fixed assets account group 07)

Those assets of a fixed, permanent, or stable nature, which the school district intends to hold or continue in use over a long period of time, are recorded using original cost or best available estimate of original cost if records are not available. Donated assets are recorded at fair market value. All fixed assets are recorded in the general fixed assets account group.

751 000 Sites (including improvements other than buildings)

This asset account reflects the acquisition costs of land. If the land is acquired by gift, this account reflects its appraised value at the time of acquisition. Site remodeling and site-component replacement will add to the value of the land.

753 000 Buildings

This asset account reflects the acquisition costs of permanent structures used to house persons and property owned by the school district. If buildings are acquired by gift, the account reflects their appraised value at the time of acquisition. Building remodeling and building-component replacement will add to the value of buildings.

754 000 Equipment (including vehicles)

This asset account reflects the acquisition cost of equipment and vehicles.

759 000 Construction Work in Progress

The cost of construction work undertaken, but not yet completed, is recorded here. When construction work is completed, the cost of the project is removed from this account and recorded in the proper fixed asset accounts.

800 000 LIABILITIES

Liabilities are obligations owed by a district.

810 000 CURRENT LIABILITIES

Obligations that the school district expects to pay within a year.

811 000 Payables

Amounts which the school district has not paid as of the date of the balance sheet, but which the district is required and expects to pay at some future date.

811 100 Temporary Notes Payable

This account is credited with the face value of all notes payable within one year from the date of issue and debited when the notes are repaid. District cash flow borrowings cannot extend beyond November 1.

811 200 Accounts Payable

Liabilities on open account owing to private persons, firms, or corporations (but not to other funds or governmental units) for goods and services received by the district.

Accounts payable must be recorded at the close of the year to report expenditures/expenses in the year they are incurred. For interim reporting purposes, accounts payable should be recorded monthly.

The balance in this account should be supported by a detailed accounts payable ledger or by a list of vouchers.

811 300 Judgments Payable

Amounts due to be paid by a school district as the result of court decisions.

811 400 Construction Contracts Payable

Amounts due on construction contracts for services rendered. Amounts due on salary contracts are recorded in Account 811 800.

811 500 Matured Long-Term Debt Payable

This account is used to record debt service fund liability for long-term debt on maturity dates.

811 510 Matured Long-Term Debt Payable - Principal

Principal on long-term debt which has matured, but which has not been paid.

811 520 Matured Long-Term Debt Payable - Interest

Interest on long-term debt which has matured, but which has not been paid.

811 600 Withholdings and Related District Fringes Payable

Payroll deductions from employees' salaries and wages and related district fringes are credited to the applicable accounts in this series when payrolls are recorded. Also included are flexible spending plan deposits (optional Account 811690).

The accounts will be debited when the amounts withheld are disbursed to the agencies or parties for whom deductions were authorized. Detailed records must be maintained at all times to indicate the composition of account balances in a manner satisfactory to the recipient agencies.

811 700 Accrued Interest Payable

Interest accrued at the end of a period, but which is not payable until a later date.

811 800 Accrued Payroll Payable

Wages earned by employees as of the balance sheet date, but which have not been paid.

811 900 Unused Vested Employee Benefits

The vested amounts of unused vacation, sick leave, and other credits claimed by employees and due at reporting date.

812 000 Due to Other Funds

Amounts which are owed to other funds. The recognition of an interfund payable in one fund requires the recognition of an interfund receivable in another. Because of this relationship, the aggregate amount of interfund payables must equal the aggregate amount of interfund receivables at all times. This account should be used only on a short term basis until the balance can be eliminated by the necessary payment or transfer.

813 000 Due to Other Governments

Amounts owed to other units of government.

814 000 Due to Student Organizations

Amounts Owed to Student Organizations. In custodial Fund 60, amounts should only be recorded here if the student organization has directed the district to disburse its custodial funds to the student organization directly. This account is not used to record a student organization's share of fund balance as a liability.

815 000 Deposits Payable

Money deposited with the school district as a prerequisite to receiving goods or services from the district.

815 100 Self-Funded Premium Deposits

Money deposited by the school district and others for self-funded health benefits prior to coverage.

815 110 District Share

The June 30 balance in this account is to equal the district's share of premium equivalencies for health benefits related to employee services rendered prior to June 30 but which will be used to fund coverage after that date, i.e. "summer payrolls."

815 120 Employee Share

The June 30 balance in this account is to equal the amount withheld from employees for health benefits prior to June 30 but which will be used to fund coverage after that date.

815 130 Non-Employee Share

This account should be used to record payments received from non-employees for health benefits prior to the period for which coverage is provided.

815 200 Health Reimbursement Arrangements (HRAs) deposits

This account is used to record the monies deposited and paid through an irrevocable HRA trust account (non-OPEB). The activity within the account should be reflective of contributions made less medical costs paid. If investment earnings are used to pay medical claims, or offset subsequent year contributions, they may also be reported here. At year end this account should represent the assets of the HRA trust that will be carried forward.

This account is also used to record the unvested portion of the HRA accounts in Fund 10 and 73.

815 900 Other Deposits Payable

This may include the deposit of money for the use of district-owned objects which will be refunded to the user upon the return of the object. Examples include book deposits, locker deposits, etc. This account should be "cleared" prior to the end of the fiscal year for these types of items. Good faith deposits received related to Fund 38 or Fund 39 may be recorded here until the date of debt refinancing.

Deposits not refunded due to the failure of the user of the object to return the object in a suitable condition become a "fine". Student fines are properly recorded to Source 297.

816 000 Deferred Revenues

Amounts not recognized as revenues, but which are recorded in asset accounts.

816 200 State Aids

Amounts advanced by the state for state projects which have not been earned; i.e., not recognized as expenditures.

816 300 Federal Aids

Amounts advanced by the state or federal government for federal projects which have not been earned; i.e., recognized as expenditures.

816 900 Other Deferred Revenues

Other amounts not recognized as revenue but included in asset accounts. Included here are payments due district in future years for sale of property on land contract. Also included here is the value on vocational education projects held for resale.

817 000 Health Benefit Claims Payable

Amounts due as a result of self-funded health benefits or other formal arrangements.

This account should be credited with the self-funded health benefit premium equivalencies in the period benefit coverage is provided. It should be debited when payments for benefit claims and associated plan costs are made.

The June 30 balance in this account is to equal the amount of unpaid claims (both reported and incurred but not reported) and other plan costs as of that date.

818 000 Due to Parent Organizations

Amounts Owed to Parent Organizations. In custodial Fund 60, amounts should only be recorded here if the parent organization has directed the district to disburse its custodial funds to the parent organization directly. This account is not used to record a parent organization's share of fund balance as a liability.

819 000 Other Current Liabilities

840 000 NONCURRENT LIABILITIES

842 000 Long-Term Debt (To be used with general long-term obligation account group 08)

842 100 Long-Term Notes Payable

The unpaid principal balance of promissory note borrowing.

842 200 State Trust Fund Loans Payable

The unpaid principal balance of state trust fund borrowing.

842 300 Long-Term Bonds Payable

The unpaid principal balance of bonds.

842 500 Land Contracts Payable

The unpaid principal balance of land contracts incurred by the district.

842 600 Capital Leases Payable

The unpaid principal balance of capital leases or "installment purchases" owed by the district.

842 700 TEACH Loans Payable

The unpaid principal balance of TEACH loans incurred by the district.

849 000 Other Long-Term Liabilities

The amount required to be paid in future fiscal periods for district obligations not coded elsewhere. This includes obligations incurred in private purpose trust fund.

900 000 FUND EQUITY

Fund equity is the amount by which the assets of a fund exceed the liabilities of the fund. In governmental and fiduciary fund types, equity is called FUND BALANCE. The General Fixed Asset Account Group Equity is designated as Investment in General Fixed Assets. There is no fund equity in the General Long-Term Obligations Account Group.

910 000 INVESTMENT IN FIXED ASSETS

These accounts represent the district's equity in general fixed assets by financing source. School districts which record depreciation for general fixed assets will be required to adjust these accounts for the amount of annual depreciation.

930 000 FUND BALANCE

935 000 Non-Spendable Fund Balance

935 100 Non-Spendable Fund Balance

This portion of non-spendable fund balance includes amounts that cannot be spent because they are not in spendable form. This includes items not expected to be converted to cash including inventories and prepaid amounts. It may also include the long-term amount of loans and receivables as well as property acquired for resale.

935 200 Non-Spendable Fund Balance: Corpus of Permanent Fund

This portion of non-spendable fund balance includes amounts that cannot be spent because they are legally or contractually required to remain intact due to donor restrictions.

936 000 Restricted Fund Balance

Fund balance should be reported as restricted when constraints placed on the use of resources are either (a) externally imposed by creditors (such as through debt covenants, grantors, contributors, or laws or regulations of other governments); or (b) imposed by law through constitutional provisions or enabling legislation. The following accounts have been set up to account for common restricted fund balance account classifications. Account 936900 should be used for other types of restricted fund balances not falling within the other accounts.

936 110 Fund Balance Restricted for Self-Insurance

This account represents the segregation of a portion of a fund balance that is restricted for self-insurance purposes.

936 120 Fund Balance Restricted for Contractual Obligations

936 130 Fund Balance Restricted for Unspent Common School Fund Revenues

This account represents the portion of Common School Fund (Library) Aid received that was unspent at the end of the fiscal year. These funds are restricted for use for eligible purchases for the school district library.

936 310 Fund Balance Restricted for Debt Refinancing

This account represents that portion of a fund balance representing unexpended proceeds from debt incurred for refinancing.

936 320 Fund Balance Restricted for Other Debt Service Retirement

The amount of debt service fund balance not required to be coded to account 936 310 "Fund Balance Restricted for Debt Refinancing."

936 500 Fund Balance Restricted for Food Service Programs

This account represents the portion of Fund 50 fund balance that is restricted for Foods Service Programs.

936 600 Fund Balance Restricted for Custodial Funds

This account represents the Fund 60 fund balance that is restricted for custodial funds.

936 800 Fund Balance Restricted for Elderly Nutrition Programs

This account represents the portion of Fund 50 fund balance that is restricted for Elderly Nutrition Program.

936 900 Other Restricted Fund Balance

937 000 Committed Fund Balance

Amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority (generally the governing board) should be reported as committed fund balance. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.

937 900 Other Committed Fund Balance

938 000 Assigned Fund Balance

Amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed, should be reported as assigned fund balance.

938 900 Other Assigned Fund Balance

939 000 Unassigned Fund Balance

The unassigned fund balance classification is the residual classification for the general fund only. It is also where negative residual amounts for all other governmental funds would be reported. (Total of 939100-939900)

939 100 Unassigned Fund Balance: Revenue Stabilization

Cash reserves typically referred to as "Rainy Day Funds". This account is used for funds set aside for potential future revenue instability. Any identified budgetary shortfalls can be committed or assigned if the proper board action is taken. This account should be used for amounts not meeting the criteria to be reported as committed or assigned. (used for local use only)

939 200 Unassigned Fund Balance: Working Capital Needs (Cash Flow)

Cash reserves maintained to eliminate or lessen the need for temporary borrowing. Pursuant to GASB 54 this classification does not meet the criteria to be classified as either committed or assigned. (used for local use only)

939 300 Unassigned Fund Balance: Contingencies

Cash reserves maintained for contingencies. Contingencies are potential liabilities as described in GASB 62 which are existing conditions, situations or sets of circumstances involving uncertainties which could result in potential losses to the district if certain future conditions occur. Examples could include a negative outcome of existing litigation against the district or future environmental remediation projects that may be imposed by local governments. Pursuant to GASB 54 this classification does not meet the criteria to be classified as either committed or assigned. (used for local use only)

939 400 Unassigned Fund Balance: Emergencies

Cash reserves maintained for emergency expenditures but not meeting the criteria to be classified as either committed or assigned. Emergencies include unplanned costs arising from unexpected events such as a leaking roof, identification of building mold or a water main break. Situations that are considered catastrophic or 'Acts of God' would be considered emergencies. (used for local use only)

939 900 Unassigned Fund Balance: Other

The residual fund balance classification not otherwise classified. Unassigned fund balance is reported to DPI using only this account.
