APPENDIX B: Current Status of State's Longitudinal Data System

Facilitating Data Integration through Education Choice and Equity-Driven Research-Practice Partnerships

Requirement	Current Status			
	Not Planned	**Planned**	**In Progress**	**Operational**
Governance and Policy				
Need and Uses. System should provide data and data-use tools that can be used in education decision-making at multiple levels	☐	☐	☐	☑
Governance. Entities responsible for operation of the statewide data system identified; Common understanding of data ownership, management, and data confidentiality and access	☐	☐	☐	☑
Institutional support in terms of resources and legal authorization	☐	☐	☐	☑
Sustainability. Ongoing commitment of staff and other resources for system maintenance, quality control, and user training	☐	☐	☐	☑
Technical				
Federal Reporting. Increased efficiency in meeting Federal reporting requirements, including those of the U.S. Department of Education's Ed*Facts* system	☐	☐	☐	☑
Privacy Protection and Data Accessibility. Ensured confidentiality of student data; public documentation	☐	☐	☐	☑
Interoperability with CEDS	☐	☐	☐	☑

APPENDIX B: Current Status of State's Longitudinal Data System

Facilitating Data Integration through Education Choice and Equity-Driven Research-Practice Partnerships

Data Quality. Ongoing plan for training those entering and using the data and accuracy monitoring	☐	☐	☐	☑
Enterprise-wide data architecture that links records across systems, data elements, and time. Student identifier assignment, data dictionary, data model, and business rules. Data dictionary must be publicly available.	☐	☐	☐	☑
Data Use				
Secure access for stakeholder groups including policymakers, SEA staff, external researchers, and school and district staff.	☐	☐	☐	☑
Data Use Deliverables. System includes deliverables to meet end-user needs to inform decision-making and evaluate policies and programs; Professional development program to prepare end-users to effectively use the data for these purposes	☐	☐	☐	☑
Evaluation process to determine the effectiveness of data use deliverables	☐	☐	☐	☑
Partnerships with Research Community. Policy for processing data requests for research purposes; Established partnerships to assist with answering policy and practice questions; Actively disseminate research findings to the public	☐	☐	☐	☑
Sustainability plan for sustaining the deliverables and training beyond the life of the grant	☐	☐	☐	☑
