Foreword

Wisconsin is nationally known for our educational innovation. Our state’s charter schools are a shining example. Wisconsin charter schools are public schools accountable to their authorizers. In

Wisconsin, there are currently 97 local school boards that have authorized at least one charter school. Charter Schools are also authorized by the University of Wisconsin-Milwaukee, the University of Wisconsin-Parkside, and the City of Milwaukee. Charter schools must employ Department of Public Instruction (DPI) certified staff and participate in the state assessment system. Wisconsin charter schools encourage innovation and creativity in their approach to providing educational options for parents and their children.

Communities throughout our state are coming together to ensure that every child has a quality education and graduates from high school. We are all striving to close the achievement gap between economically disadvantaged students, students of color, and their peers. Wisconsin charter schools are an innovative part of our overall public education efforts to meet these goals. From the 1997-98 school year to the 2016-17 school year, Wisconsin charter schools grew in number from 17 to 237, and they serve children in all corners of the state. This publication provides a description of existing charter schools.

Introduction

Charter School \chär-tEr skül\ n: A public school that: (1) in accordance with an enabling state statute is exempt from significant state or local rules; (2) is created by a developer as a public school; (3) provides a program of elementary or secondary education, or both; (4) is nonsectarian in its programs, admission policies, employment practices, and all other operations, and is not affiliated with a sectarian school or religious institution; (5) does not charge tuition; (6) complies with federal law; (7) admits students on the basis of a lottery if more students apply for admission than can be accommodated; (8) agrees to comply with the same federal and state audit requirements as other elementary and secondary schools in the state; (9) meets all applicable federal, state, and local health and safety requirements; and (10) operates in accordance with state law.

Charter schools are public, nonsectarian schools created through a contract or “charter” between the operators and the sponsoring school board or other chartering authority. The Wisconsin charter school law gives charter schools freedom from most state rules and regulations in exchange for greater accountability for results. The charter defines the mission and methods of the charter school. The chartering authority holds the school accountable to its charter. Charter schools are created with the best elements of regular public schools in mind. Wisconsin established charter schools to foster an environment of creativity. Charter schools are, in essence, living laboratories that influence the larger public school system and introduce an element of entrepreneurship within that system. Charter school leaders may experiment with different instructional theories, site-based management techniques, and other innovative practices. They learn, sometimes by trial and error, what works best for their student population. Traditional schools can observe and learn from what happens in the charter school and make similar improvements in other schools. Through this process, the entire public school system is continually challenged to improve.

A charter school is developed to fit the special needs and interests of its community, parents, and students. This is what makes each charter school unique. While many goals for educating and preparing children are similar, each charter school fulfills a specific local need in education. Charter schools offer a choice to parents and students in the areas of curriculum,

teaching methodology, and classroom structure. In districts with charter schools, the community, school boards, and parents have identified their public education needs and established charters that meet them.

Again, charter schools are public schools. They are freed from most state rules and regulations in exchange for greater accountability for results.

Wisconsin Charter Schools State Summary

A: History of Charter School Law

The Wisconsin Charter School Program was established in 1993 with authorization for 10 school districts to establish up to two charter schools each, for a total of 20 statewide. Thirteen charter schools were created under this law. In 1995, revisions to the first charter school law gave chartering authority to all school boards statewide and eliminated the cap on the total number of charter schools. In 1997, the state gave chartering authority in Milwaukee to the chancellor of the University of Wisconsin–Milwaukee (UW–Milwaukee), to the Milwaukee Area Technical College (MATC), and to the Common Council of the City of Milwaukee.

In the 1998 budget adjustment session, the state made additional changes to the law, allowing for a school district to contract with a cooperative educational service agency (CESA) to operate a charter school as long as it is located within the CESA. Another change required that a school board receiving a petition to establish a charter school or to convert a nonsectarian private school to a charter school hold a public hearing on the matter and consider the fiscal impact of the charter’s establishment. A final change required the school district in which a charter school is located to determine whether the charter school is an instrumentality of the school district. Instrumentality is defined in the section titled “Legal Status” later in this chapter.

The changes that occurred in the 1999–2001 biennial budget revolved around Milwaukee per-pupil aids and statewide assessments. In the 2001–2003 budget bill, limited chartering authority was granted to the University of Wisconsin–Parkside (UW–Parkside) allowing it to establish a single charter school. Changes that occurred in the 2003–2005 biennial budget exempted a specific charter school sponsored by UW–Milwaukee (Woodlands Academy) from some residency requirements. Additional changes in 2005 resulted in the elimination of previous school year attendance requirements for students residing in Milwaukee. In 2008, the state law was further amended to clarify requirements for virtual schools. In 2013, Wisconsin Act 20 included changes that increased the payments for pupils attending independent charter schools. In addition, the bill provided that UW–Milwaukee could sponsor independent charter schools anywhere

within Milwaukee County or an adjacent county. Furthermore, the bill provided that pupils residing in Milwaukee County, or in an adjacent county would be permitted to attend any independent charter school located in Milwaukee County or an adjacent county.

In 2015, a number of changes were made to Wisconsin Charter School Law as part of Wisconsin Act 55. Changes included requiring all authorizers to adhere to the standards and principles established by the National Association of Charter School Authorizers (NACSA), strengthening the power of the charter school governance board by providing a list of specific board-related responsibilities, creating five new independent authorizers, removing many of the residency and location restrictions on independent charter schools, and requiring all charter school authorizers to report annually to the legislature and to the state superintendent on the performance of each of its charter schools.

B: Sponsorship

School boards are the primary charter school authorizers in Wisconsin. The Milwaukee Common Council, UW–Milwaukee, UW–Parkside, MATC, Gateway Technical College, Waukesha County Executive, College of Menominee Nation, Lac Courte Orielles Ojibwa Community College, and UW–System Office of Educational Opportunity (in districts with over 25,000 pupils) also have chartering authority. With the exception of the College of Menominee Nation and Lac Courte Orielles Ojibwa Community College, each may establish, sponsor, and operate an unlimited number of charter schools. The chartering entity reviews submitted petitions and reserves complete discretion in granting or denying a petition. The chartering entity must give preference to an applicant who would establish a charter school to serve an at-risk student population. If the Milwaukee School Board denies a petition, the denied petitioner may appeal to the Wisconsin Department of Public Instruction (DPI). For information on school board action taken on new charter school petitions and proposals, visit the section on Legislative Reports on the DPI website

<http://dpi.wi.gov/sms/charter-schools/archives>.

C: Legal Status

In school districts, the school board must determine whether the charter school is an instrumentality of the school district in which it is located. If the board deems the charter school an instrumentality, the district employs all personnel for the charter school. If the board determines the charter school

is not an instrumentality, the personnel are considered employees of the charter school.

Although some charter schools are identified as instrumentalities of the district, the word “instrumentality” is not defined in the Wisconsin Charter School Law and has had limited use in Wisconsin. The word was initially included in the law to ensure continuing eligibility of charter school teachers in the Wisconsin Retirement System. Instrumentality, as used in the retirement law, defines the employer, making it clear that the employing school district is the entity responsible for worker’s compensation, insurance, unemployment compensation, employee insurance and benefits, liability for acts of school staff members, and so forth.

The following exceptions apply to charter schools established by independent authorizers (non-school district). A charter school established by the Milwaukee Common Council, UW–Milwaukee, MATC, the Waukesha County Executive, UW-Parkside, Gateway Technical College, the College of Menominee Nation, the Lac Courte Orielles Ojibwa Community College or the Office of Educational Opportunity is not an instrumentality of any school district and no school board may employ any personnel for the charter school. However, if the Milwaukee Common Council contracts with an individual or group operating a charter school for profit, then that charter school is an instrumentality of the Milwaukee Public Schools (MPS). The MPS board of education will then employ all personnel for the charter school.

If the chancellor of UW–Parkside contracts for the establishment of a charter school, the board of regents of the University of Wisconsin System may employ instructional staff for the charter school. If the Gateway Technical College District Board contracts for the establishment of a charter school, Gateway Technical College may employ instructional staff for the charter school. If a school board enters into an agreement with a federally recognized American Indian tribe or band to establish a charter school, that school board shall determine whether the charter school is an instrumentality of the school district, regardless of the location of the charter school.

D: Charter School Exemptions and Requirements

Charter schools in Wisconsin are exempt from most state requirements regarding public education. However, teachers in charter schools must be licensed by the DPI. Also, students in school district-authorized charter schools are counted for membership in the local school district. State law

provides that the contract under which the school operates may be for any term not exceeding five years and may be renewed for one or more terms, each term, again, not exceeding five years. This law also stipulates that the charter must describe the methods the school will use to enable pupils to attain the general educational goals listed in § 118.01, Wis. Stats. Health and Safety requirements, of course, apply to charter schools as well as to all Wisconsin public schools. Charter schools are not exempt from federal laws governing special education or civil rights policies. For specific information regarding special education, see <http://dpi.wi.gov/sped>.

A charter school cannot charge tuition and must be equally accessible to all students in the school district. If the capacity of the charter school is insufficient to accept all pupils who apply, the charter school shall accept pupils at random. Preference in admissions must be given to students that were enrolled in the charter school the previous school year and siblings of students who are enrolled in the charter school. Preference in admission must also be given to students living within the attendance area of an existing school that is converted to a charter school. Nonresident students may enroll in a district and be assigned to a charter school under the Wisconsin Public School Open Enrollment Program.

Charter schools may not discriminate on the basis of sex, race, religion, national origin, ancestry, pregnancy, marital or parental status, sexual orientation, or physical, mental, emotional, or learning disability. The charter school contract must clearly indicate how the school will achieve a racial and ethnic balance among its pupils that reflects the balance in the school district as a whole.

Attendance at a charter school must be voluntary, and the district must provide alternative public education for pupils who do not wish to attend the charter school or who are not admitted to the charter school. This provision also applies if a school board enters into a contract that would result in the conversion of all the public schools in the district to charter schools.

Charter schools receiving federal grant funds are subject to the non-regulatory guidance of the Public Charter School Program of the U.S. Department of Education. For a copy of this document, which clearly explains admission and lottery requirements, visit http://dpi.wi.gov/sites/default/files/imce/sms/pdf/cs_nonreg_guidance_Jan_2014.pdf.

E: Organization and Governance

Charter schools are free to be creative in their administration and governance structures; however, parental involvement is required and the governing board must be independent and autonomous. The governance board must have autonomy related to policy, budget, and personnel. Governance board membership must be comprised of a majority of non-district employees or school board members. Many charter schools break from traditional management models by establishing decision-making boards that include school staff, parents, and area employers. Others have parent and teacher committees that address school needs, such as fundraising and the budget. Some include student representatives in their governing bodies.

Parental involvement and participation are hallmarks of charter schools. Although many parents readily volunteer, parental service may not be made a condition of pupil admission. In many charter schools that share facilities with other schools, they also share resources such as transportation, food service, accounting and payroll, libraries, and special education programs.

F: Licensing Requirements

Teacher Licensure. The DPI licenses teachers in specific subject areas and developmental/grade levels and requires teachers working in traditional public schools and virtual charter schools to hold the appropriate Initial Educator, Professional Educator, or Master Educator license for the subject(s) and grade levels they teach. Those who teach in nonvirtual charter schools have the following additional options:

Charter School Instructional Staff License: When a licensed teacher is assigned to teach grades and/or subjects not authorized under his/her Initial, Professional, or Master Educator License, the teacher may teach these subjects and/or grades under a charter school instructional staff license, if he/she qualifies. The charter school instructional staff license is added to the remaining term of the existing license(s), not to exceed five years.

To qualify, a teacher who is assigned to teach core academic subjects outside what is allowed under their Initial Educator, Professional Educator, Master Educator, or Life license may obtain the charter school instructional staff license if the teacher demonstrates his/her content knowledge in the core academic subject(s) through either a major or minor in the subject(s)

or a passing score on the appropriate Wisconsin content exam(s). Teachers of core academic subjects are those who teach English, reading or language arts, mathematics, science, civics and government, economics, arts (general music, choral music, instrumental music, dance, theatre, and art), history and geography, and foreign languages, including elementary education and special education teachers. Those who teach subjects not identified as core academic subjects may request the charter school instructional staff license without demonstrating content knowledge.

If a Wisconsin-licensed teacher cannot demonstrate content knowledge before the school year begins, the charter school must justify the need for an emergency license. The emergency license allows the teacher one school year to either:

- (a) enter an approved program and make adequate progress so that he/she is eligible to renew the emergency license; or
- (b) pass the appropriate content knowledge exam(s) so that the teacher can apply for the charter school instructional staff license for the following school year.

Charter School Teacher License: Charter schools can also employ someone with a bachelor's degree who is not trained as a teacher under a charter school teacher license, if he/she qualifies. Applicants for the charter school teacher license must demonstrate content knowledge in the subject(s) they are teaching through either a major or minor in the subject(s) or a passing score on the appropriate Wisconsin content exam(s). If the person hired cannot demonstrate content knowledge before the school year begins, the charter school must justify the need for an emergency permit. The emergency permit gives the teacher one school year to either: (a) enter an approved program and make adequate progress so that he/she is eligible to renew the emergency permit; or (b) pass the appropriate content knowledge exam(s) so that the teacher can apply for the charter school license for the following school year.

Principal Licensure. The DPI issues licenses in administration for specific administrative roles such as principal, director of instruction or superintendent. For the majority of these administrative licenses, the administrator must complete an approved administrator program, approved teacher training program, and have at least three years of teaching experience.

Charter School Principal License: There are principals who were prepared as administrators in other states who do not meet all of the criteria for a

principal license, but are hired as principals in Wisconsin charter schools. In these cases, they may qualify for the charter school principal license if he/she holds a valid license as a principal in good standing from another state and can verify at least three years of teaching experience.

For additional information on charter school licensure, please see the Teacher Education and Licensing home page on the DPI Website at <https://dpi.wi.gov/tepd/licensing/types/charter>.

G: Funding

Most of the money that funds K–12 education in Wisconsin comes from state funds raised primarily through state income and sales taxes. The remaining funds come from other sources, including property taxes, federal aid, and local fees.

In schools chartered by a school district, the contract or charter controls the amount of funding the charter school receives each year. In some cases, the district's per-pupil expenditure follows the student as he or she moves from a regular public school to a charter school. In other cases, the charter school functions with less money. This can happen if a charter school shares an existing district facility, and shares management costs with the school district or if the charter school participates in district services such as co-curricular activities, special education, psychological services, and food service. The school district includes charter school students in its membership count for state aid purposes.

In schools chartered by independent authorizers, the funding amount per pupil is determined by state law. Starting with the 2015-16 school year, all existing nonschool board sponsored/independent charter schools are funded from a proportionate reduction in state school aids from all Wisconsin school districts. For the 2016-17 school year, the amount is \$8,188 per pupil for the independent charter schools and is paid directly to the operator of the charter school. The total amount paid to the school is based on the number of eligible students attending the charter school. Some charter schools receive grants and gifts from community, state and national organizations, foundations, businesses, and private individuals.

Act 55 created a new funding method for independent charter schools authorized by the five new authorizers added in the 2015-16 school year. In these charter schools, students will be counted by the district of residence for revenue limits and general school aids. The DPI is required to reduce a district's general aid (and categorical aids if necessary) in an

amount equal to the charter school per pupil payments of its resident students. Districts will not be able to levy to backfill this aid reduction.

H: Grants

Since 1996, the DPI has received Charter Schools Program (CSP) grants from the U.S. Department of Education. In 1996, the DPI received a three-year grant for more than \$6.4 million. In 1999, the amount received was more than \$8.75 million for three years, and for the years 2002-2005, more than \$27.7 million was awarded. The DPI received \$52.5 million for the 2005-2009 four-year period. The DPI was awarded \$69.64 million from 2009-2016. Ninety-five percent of the grant funds are awarded in sub-grants to charter schools. These federal grant funds may be used for planning and implementation activities such as professional development, assessment strategies, curriculum development, and investments in technology. Grants may generally be used to defray costs not covered by state and local funds, but they may not be used for regular ongoing operational costs of the charter school, such as teacher or staff salaries, facilities, or transportation of students.

The CSP funds also provide dissemination grants to successfully established charter schools. Dissemination grant funds are awarded to charter schools that have been in operation for at least three consecutive years, demonstrate substantial progress in improving student academic achievement, have high levels of parental satisfaction, and are financially viable. The funds are used to develop a product or service to assist other schools.

I: Accountability

Charter schools are held accountable for meeting the student achievement goals described in their contracts. A charter school that fails to meet these goals may be closed by its authorizer. In exchange for this accountability, charter schools are exempted from many traditional state and local rules and regulations, thus allowing greater flexibility in how charter schools achieve student success.

Charter schools are assigned individual school codes by the DPI, and they must participate in the state assessment system. Pursuant to Wisconsin law, a charter may be granted for any term not exceeding five school years and may be renewed for a term not exceeding five years. A charter may be revoked if the authorizer finds that the charter school violated its contract or failed to comply with generally accepted accounting standards of fiscal

management, or if its pupils failed to make sufficient progress in attaining educational goals.

The best charter schools in Wisconsin and across the country balance clear educational goals and expectations with their unique styles and missions. Quality charter schools and their authorizers agree on the measurable pupil performance indicators they will use to demonstrate progress sufficient to renew the charter contract. Charter contracts must include how annual financial and programmatic audits of the charter school will be performed. Additionally, an authorizer is required to monitor the performance of all charter schools with which it contracts. Final contracts, including all special provisions and terms, must be in place prior to the opening of the school.

1. Albany Community Middle School (ACMS)

400 5th Street
Albany, WI 53502
(608) 862-3135
Connie.Gregerson@albany.k12.wi.us
Grade Levels: 05-08

Albany Community Middle School will service 112 students in grades 05-08 in an environment that fosters high academic achievement, critical thinking, and social responsibility and provides a foundation for lifelong learning. The following six design essentials will frame the teaching and learning community of ACMS:

1. Place-based/Community Learning,
2. Project-Based Thematic Learning,
3. 21st Skills Learning Community,
4. Personal Learning Plans,
5. Student Leadership, and
6. Wellness Community.

Bringing it all together are the shared values of ACMS:

Community is school,
School is community,
All people are learners,
Together we are stronger,
Individuals and integrity matter, and

A professional learning community of effective collaboration amongst faculty.

2. Appleton Bilingual School

Joel Cannon
913 North Oneida Street
Appleton, WI 54911
(920) 832-6232
cannonjoel@aaasd.k12.wi.us
Grade Levels: KG-05

The Appleton Bilingual School develops academic excellence and language fluency in Spanish and English, builds cross-cultural relationships, and nurtures an enthusiasm for learning in order for students to achieve future educational and career success and to become active citizens in local and global communities.

Why should you enroll your child in the Appleton Bilingual School?

Your child will have new experiences and understand familiar things with a fresh perspective.

People who learn other languages come to better understand and feel comfortable in unfamiliar settings and situations.

Your child will be able to effectively use Spanish and English in reading, writing, mathematics, science, social studies, and every-day conversation.

The Appleton Bilingual School is located within Columbus Elementary School. To learn more about our school visit our website at

3. Appleton eSchool

Appleton eSchool, an online charter high school, uses the potential that computers and the internet offer to extend educational opportunities for students and to further develop their capabilities as independent learners. Appleton eSchool uses new and emerging technologies, an engaging standards-driven curriculum, and experienced local teachers to provide high quality online high school course options for students in grades 07-12. Frequent student/teacher communication provides the level of support needed to meet the individual needs of the online learner. Whether a student is seeking to fit an extra course into his or her schedule, work on an online course on campus, or study entirely from home, online courses offer flexible learning opportunities not previously available. Special efforts are made to attract those students whose needs have not been met or are not currently being met for whatever reason in the traditional school environment.

4. Appleton Public Montessori

Appleton Public Montessori is a parent-initiated, community-supported charter school offering an authentic Montessori experience, incorporating:

- A prepared environment consisting of specific, hands-on, sequential materials and curricula created by trained Montessori educators.
- Multiage classrooms divided into three-year spans (representing grades 4K-03 and 04-06) based on developmental windows, rather than single-year gradelevels.
- A child-centered approach allowing each child to form his or her own instructional plans, to select work mastering concepts at his or her own pace, engaging children to be active participants in their own educational process fostering independence, self-confidence, and love of learning as well as academic progress.
- Active involvement of children, parents, and community members and organizations in learning opportunities.
- Integrated instruction in world languages, art, and music exposure.
- Outdoor classrooms/gardens designed and created with significant student participation.

305 West Foster Street
Appleton, WI 54915
(920) 832-6289
zimmermanmatth@aasd.k12.wi.us
Grade Levels: PK-06

Foster creates partnerships among students, staff, parents, and community members to serve a diverse population of learners comprised of neighborhood and open-enrolled students in grades PK-6. We develop independent learners who: honor diversity; show respect for themselves, other, and the environment; and seek to use their unique strengths to lead efforts to improve the world around them.

Foster seeks to develop global leaders through the following components of our educational program:

- Flexible, personalized, and high-quality instruction based on Common Core State Standards and the use of proactive, ongoing, and systematic assessments to guide instruction and evaluate student progress.
- Opportunities for student service projects to enrich classroom instruction. Each grade level fosters civic engagement and builds character by participating in projects that address community needs/concerns.
- Respect for diversity by promoting and celebrating different cultures, values, and beliefs. Students have the opportunity to reflect upon the value diversity can offer to any group or community through classroom activities, service projects, field trips, or school-wide special events.
- Strength-based career exploration helps students identify their strengths while exposing them to a variety of careers that utilize those skills.
- A whole-child approach to education enables Foster to develop partnerships with community health organizations so all children can access medical and dental care.

Our dedicated staff at Foster make a difference in their students' lives each and every day, placing a special emphasis on the strengths of each individual child. Let our staff help your student find their passion, and give them the confidence to use that passion to become a global leader!

Imagine a charter school that promises and delivers on student connections to community learning where students do sustained academic work that draws upon and contributes to the place in which they live.

Imagine a charter school that promises and delivers on student learning where:

- Each student demonstrates an ability to make decisions, think critically and creatively, and synthesize knowledge beyond the disciplines.
- Each student shows an increased ability to identify, assess, and transfer significant information needed for solving novel problems.
- Each student promotes cooperative learning, activates a better attitude towards self as a learner, and demonstrates efficacy as a meaningful member of a community.

The new interdisciplinary learning collaborative model from the Fox Cities Leadership Academy does just that

<http://www.youtube.com/watch?v=BhWM4K79WT0>

With this unity of purpose, the Fox Cities Leadership Academy faculty and supportive community are dedicated to the Fox City Leadership Academy mission: *Empowering students to find their passion through collaboration, innovation, and exploration.*

318 East Brewster Street
Appleton, WI 54911
(920) 832-6294
brantallen@aasd.k12.wi.us
Grade Levels: 06-08

Kaleidoscope Academy serves students in grades 06-08 incorporating instructional technology, employing interdisciplinary team teaching, and offering choices for each individual student in fine arts, world languages, technology, engineering, and family and consumer education. Students at Kaleidoscope Academy have the opportunity for increased fine arts study, technology engineering, family and consumer education, and world languages. Kaleidoscope Academy concentrates on using middle school best practices through the use of block scheduling and interdisciplinary teaming. Transitioning from elementary school is smoother as students work with teams of two teachers. Units of study are integrated through all subjects where appropriate. Technology is infused into the Kaleidoscope Academy approach to learning.

12. Renaissance School for the Arts (RSA)

Greg Hartjes
610 North Badger Avenue
Appleton, WI 54914
(920) 832-6219
hartjesgreg@aasd.k12.wi.us
Grade Levels: 09-12

Renaissance School for the Arts provides students in grades 09-12 with a learning atmosphere in which immersion in the arts is the norm. Student artists develop the skills and attitudes that contribute to artistic understanding and learning through the arts. This arts-oriented approach to curriculum delivery recognizes the uniqueness of the individual while promoting artistic and academic excellence. All courses are taught as college preparatory courses, with an option for the student who may not be college bound. The delivery of the academic curriculum in the charter school environment of RSA is grounded in a combination of elements from the one-room schoolhouse, block scheduling, and web-enhanced courses.

Paul Weisse
2121 Emmers Drive
Appleton, WI 54915
(920) 832-6212
weissepaul@aasd.k12.wi.us
Grade Levels: 09-12

Tesla Engineering Charter School has taken the first step toward providing a new approach to learning that emphasizes instruction and activities for students interested in preparing for careers in engineering and other technical fields while strengthening their academic achievement serving students in grades 09-12. The students of Tesla receive their education through online courses, independent and team research activities, youth options, guest and adjunct lecturers, the FIRST robotic competition (a national competition), and work-based learning, as well as traditional educational delivery. The primary educational focus is to use mechanical engineering and electrical engineering as the vehicles to integrate skills in reading, writing, public speaking, math, science, and technology. The knowledge and skills developed enable students of all levels to meet the challenges of state and local performance standards. Tesla creates learning opportunities and direct links to industry and postsecondary education. Students desiring to move directly into industry have the advantage of the established industry network.

14. Valley New School (VNS)

Ben Vogel
10 College Avenue, Suite 288
Appleton, WI 54911
(920) 832-6301
vogelben@aasd.k12.wi.us
Grade Levels: 07-12

Valley New School serves youth in grades 07-12 offering students an opportunity to learn in a student-driven, project-based environment. The focus of the student-driven, project-based curriculum is rooted in the concept that each person is his or her own best teacher. Students develop their own learning experiences based on their interests and passions.

As they plan their comprehensive research projects, students work with their parents and advisors to align their project goals with state and local academic standards. At the conclusion of each project, students present their findings and products to an evaluation team and earn credit (employing a nine-item rubric) based on the quality and breadth of their work. The educational goals at VNS are centered around the empowerment of the school community which includes students, school staff, parents, and community members.

Est. 2002

15. Wisconsin Connections Academy (WCA)

Michelle Mueller
350 W. Capitol Drive
Appleton, WI 54911
(920) 997-1399 Ext. 2118
muellermichell@asds.k12.wi.us
Grade Levels: KG-12

A leader in virtual education, WCA creates dynamic opportunities for learners to succeed. At the heart of WCA is a standards-based curriculum. This comprehensive curriculum affords WCA students the ability to receive a quality education within an environment that is most conducive to their learning while parents enjoy a greater involvement in their children’s educational life. It is delivered via the internet with online materials including lessons, textbooks, workbooks, and other supplementary materials. Although students attend school from a variety of locations, WCA is committed to making each experience meaningful and successful in an environment that is most conducive to student learning. Therefore, each student works with Wisconsin-licensed teachers and a learning coach (usually a parent). These individuals work together to combine the best in virtual education with very real connections among students, families, teachers, and community.

Ashland School District

17. Ashland Elementary Charter School

Mary Zoesch
1101 Binsfield Road
Ashland, WI 54806
(715) 682-7823
mzoesch@sdak12.net
Grade Levels: 03-05

The Ashland Elementary Charter School will be located in the City of Ashland, Wisconsin, and will serve 100 students in grades 03-05. It will provide a community-centered, project-based learning curriculum and personalized learning within a multiage learning environment. Its purpose is to give parents and children a new and meaningful choice of educational options, and demonstrate innovative school improvement practices.

The needs and interests which will be served by this charter school include:

1. Providing rigorous and relevant curriculum that reflects advances in educational technology and skills needed in the 21st century;
2. Providing new and innovative ways of learning and teaching that will benefit everyone, perhaps especially students who are not currently achieving at expected levels;
3. Providing an opportunity to close the achievement gap for underperforming and disengaged students; and
4. Providing an opportunity for teachers in the district to become leaders in the project-based learning model, multi-age classrooms, and teacher led schools.

Est. 2014

Laura Comer
 203 11th Street East
 Ashland, WI 54806
 (715) 682-7087
 lcomer@sdak12.net
 Grade Levels: 06-08

Oredocker Project School will provide a community-centered, project-based learning curriculum, and personalized learning. Oredocker Project School will serve 75 sixth through eighth grade students in the Ashland School District. Its purpose is to give parents and children a choice of middle schools, and demonstrate innovative school improvement practices. Additionally, it will provide a middle school option for students who have flourished in the Ashland Elementary Charter School and would like to continue learning in a project-based school environment.

The needs and interests which will be served by this charter school include:

- Providing rigorous and relevant curriculum that reflects advances in educational technology and skills needed in the 21st century.
- Providing new and innovative ways of learning and teaching that will benefit everyone, perhaps especially students who are not currently achieving at expected levels.
- Providing an opportunity to close the achievement gap for underperforming and disengaged students.
- Providing an opportunity for teachers in the district to become leaders in the project-based learning model, multiage classrooms, and teacher led schools.
- Providing a project-based learning middle school for students that transition out of the Ashland Elementary Charter School which opened in 2013, and serves 100 students in grades 03-05.

Grade Levels: KG-12

Advanced Learning Academy of Wisconsin provides online coursework to students ages 5-18 seeking a customized learning experience that takes place outside the traditional classroom. Students may choose from an exclusively online model, or a blended model which may include a combination of online and on-site coursework. Students are eligible to participate in district-sponsored enrichment activities, field trips, goal setting conferences, and community opportunities.

Empowering students to learn and work at their own pace, ALAW also provides the flexibility of when and where to work on school. Students may choose from over 700 courses which fulfill state standards for core curriculum and electives. Coursework is tailored to the needs and interests of each individual. In line with the Barron Area School District's mission, ALAW is designed to help students reach their dreams and make a positive impact on the world.

21. Barron Area Montessori School

Nancy Weise
808 East Woodland Avenue
Barron, WI 54812
(715) 537-5621 ext. 358
weisen@barron.k12.wi.us
Grade Levels: PK-04

The Barron Area Montessori School offers an innovative education design based on the principles of Maria Montessori. The school welcomes three through five-year olds to the Children’s House program, and six through ten year olds in the Elementary 1 Program. Children exercise individual freedom to choose purposeful work, to physically move while learning, and to repeat a learning activity for as often and as long as the learner chooses. These three freedoms foster crucial developmental stages of learning. Montessori students explore and collect data in their own ways. The teacher’s role is to prepare the environment, to observe when children are entering a new developmental stage, and to link them to purposeful activities that are responsive to their developmental needs.

The weekly learning schedule is organized according to Montessori principles that require students to have long, uninterrupted daily work periods. Curriculum includes practical life skills, sensorial aspects of the world, language development, mathematics, and culture. Each of these academic areas has been aligned with state standards.

The Barron Area Montessori School is dedicated to developing a collaborative Montessori community of educators, parents, and community members who educate themselves and others about the Montessori philosophy of education.

Tina Goecks
1033 Woodward Avenue
Beloit, WI 53511
(608) 361-3340
tgoecks@sdb.k12.wi.us
Grade Levels: 06-12

The vision for RCAA is to create an environment that will empower students in grades 06-12 to successfully achieve their educational goals, create an attainable vision for their future, and partner with the community to actualize their vision. Students are empowered by designing projects that demonstrate mastery of performance standards in math, science, social studies, and language arts as designated by the Wisconsin State Standards.

Students spend little time in an actual classroom, rather, they, with the guidance of certified teachers, will create community projects that reflect mastery of the performance standards for Wisconsin while gaining academic credit for graduation. The RCAA’s curriculum is centered on pre-professional community partnerships which will have the structure of internships undertaken in cooperation with local, regional, and/or international entities, such as business, technical professions, media, health care providers, legal professionals, municipal, police and corrections, educational, governmental, and nongovernmental agencies, etc.

Jeffrey Stanley
300 South Wilson Street
Birchwood, WI 54817
(715) 354-3471
jstanley@birchwood.k12.wi.us
Grade Levels: 07-12

Birchwood Blue Hills Charter School is project-based and designed for students in grades 07-12. Birchwood Blue Hills Charter School utilizes an individualized curriculum involving field experiences, seminars, mentorships, virtual courses, and other one-of-a-kind experiences and projects. All course work is validated through alignment to the Wisconsin Model Academic Standards and Common Core Standards with an emphasis placed on 21st century skills.

An open work space and low teacher-to-student ratio gives more opportunity to help foster and guide student creativity and individual growth. Focus lies in the ability of the student to ask pertinent questions and find the research and technology that provides the answers and solves problems. Students also use live resources in order to gain first-hand knowledge as well as valuable social engagement in a professional setting. Students create products that demonstrate their learning through flexible scheduling and encouragement of exploration and collaboration. More in-depth research enables them to move beyond rote memorization of facts into the realm of application, synthesis, and discovery. Mastery is shown at public Presentation Nights three to four times per school year and at finalization meetings for each project. The students reflect on the challenges and successes of each project, giving them the drive for self-improvement.

jstanley@birchwood.k12.wi.us
Grade Levels: 4K-06

Birchwood Public Montessori Charter School is a child-focused environment built on the Montessori philosophy that understands, supports, and honors the child as an individual. We provide education to students in preschool through grade six in the Children's House, Elementary 1 Program, and Elementary 2 Program environments. The Birchwood Public Montessori Charter School student will have an awareness of the world around them and their contribution to it. We partner with the family and the community to encourage students to become independent, lifelong learners.

Jeffrey Stanley
300 South Wilson Street
Birchwood, WI 54817
(715) 354-3471
jstanley@birchwood.k12.wi.us
Grade Levels: KG-12

Bobcat Virtual Academy is a unique virtual charter school that takes the best of virtual learning and combines it with the best of a small, quality school community.

Bobcat Virtual Academy is for serious students who want to excel in school. It is unique because of its three components:

FREEDOM—Flexible internet options with Fuel Education and K-12 curriculum, “the new power for learning” leading the way with multiple KG-12 options.

CONNECTIONS— Bobcat Virtual Academy students will experience a weekly Connections Day at Birchwood School. Students will connect with other Bobcat Virtual Academy students. Mentoring help will be provided along with enrichment activities. Students may also register for some traditional classes and will have the option of participating in various school clubs and extra-curricular activities.

ACCOUNTABILITY—All Internet-based classes will be taught by Wisconsin certified teachers. Each student will also have a local student support coach who will work to support successful learning.

Who May Attend?

Bobcat Virtual Academy is open to any resident or non-resident students who wish to be involved in a uniquely challenging educational environment that allows freedom in when, what, and how learning takes place.

Bobcat Virtual Academy’s emphasis on connections allows for students to interact with other students and some regular school activities. To ensure high levels of success, accountability will help students stay ontrack.

Grade Levels: KG-06

The vision of the School of Science, Engineering, and technology is to provide equal opportunity for all children to be involved in an innovative approach to their own learning. Use of a multiage structure enhances learning opportunities for students of all ability levels. Students receive differentiated instruction in the core academic subject areas through a thematically-based curriculum, which is focused on science, engineering, and technology. Units emphasize interdisciplinary integration of subject matter, problem-based learning experiences, student-centered instruction, hands-on learning strategies, constructivist approaches, and self-directed learning. Assessment of learning is project- and performance-based.

The school is designed to implement innovative methods essential to the development of the student's intellectual, physical, emotional, and social needs, while being sensitive to the unique qualities that each individual brings with her or him. Emphasis is on providing a sense of community by involving families and instilling in students a concern for others and the environment.

Grade Levels: 09-12

North Star Academy enrolls at-risk students in grades 09-12 from the Barron, Cameron, Chetek-Weyerhaeuser, and Turtle Lake School Districts. As a charter school, North Star Academy serves students at-risk of not graduating in a highly flexible educational setting with a differentiated curriculum and student services that provide opportunities for students to integrate and apply knowledge and skills to the workplace and real-life situations.

The school's non-traditional schedule provides working teens, teen parents, and teens receiving day treatment and other support services with flexible options for completing academic course work. Students complete courses for credit in a variety of modes (face-to-face class instruction, online courses, independent study, on-site field experiences) and within flexible time frames. Both day school and night school options are available.

tkief@csdk12.net
Grade Levels: 09-12

Glidden Class ACT Charter School is aimed at high school students who learn best through project-based learning, are self-disciplined, and desire to learn more about our global economy and the skills necessary to compete in the 21st century.

In the Glidden Class ACT Charter School, "A" stands for applied skills, "C" stands for career-focused, and "T" stands for technology enhanced. Working with the charter school staff, students develop a personalized learning plan that will prepare them for a successful post-secondary transition. Course work to satisfy the plan may include online classes, distance-learning classes, and local classes taught by Chequamegon teachers. The school's mission is to empower students to become independent learners in a technology-enhanced, self-directed, interdisciplinary curriculum emphasizing teamwork and self-determination. The Glidden Class ACT Charter School ensures that students become globally aware and able to effectively use information and communication technology to prepare for a career and meet the challenges of the 21st century.

The Link2Learn Virtual Charter is a non-instrumentality virtual charter school of the Chetek-Weyerhaeuser Area School District. Link2Learn serves students in grades 4K-12. It exists for the purpose of preparing students for postsecondary success. This is done by offering an education tailored to fit the needs of each child. Link2Learn students are empowered to achieve their full potential through high-quality education comprised of: a rigorous curriculum, individualized support, and dedicated partnerships within a variety of learning environments. It is with parent involvement and the support of Link2Learn staff that this educational opportunity is able to maximize student learning. In addition, we partner with several vendors including the Wisconsin eSchool Network. At the elementary level, students are also provided with the opportunity to participate in live online courses taught by local staff members. We embrace innovative ideas, techniques, and technologies to ensure learner success.

34. Downtown Montessori Academy (DMA)

Downtown Montessori Academy is a public charter school serving students in grades PK-08. We pride ourselves on our small class sizes and high staff and student retention rates. As a state certified Green School, we believe, as Maria Montessori said, "The land is where our roots are. The children must be taught to feel and live in harmony with the Earth." Like the rest of us, children learn through trial, error, and discovery. Children in a Montessori classroom are free to learn at their own pace, taking on new challenges when they are ready. Our mission at DMA is to create a Montessori environment where you child's early experiences with learning will help him or her to become a self-confident, competent, cooperative adult. We seek to provide a family-centered environment that enriches and nurtures the growth of the family and the child.

After the complete renovation of our main building, we were able to transform the school into a vibrant and welcoming space. Our newly purchased building next door has also been completely remodeled to accommodate our childcare and adolescent students. This year, we are thrilled to have unveiled our brand new outdoor greenspace.

35. Escuela Verde

Escuela Verde is a public charter school with a vision to cultivate a community that is participatory, just, sustainable and peaceful. A small school located in Milwaukee's Silver City neighborhood, we enroll 100 students in grades 07-12. Escuela Verde or "green school" implements the EdVisions student-centered, project-based learning model and focuses on education for sustainability and social justice. We live our vision through:

- Graduating high school students prepared to live happy, healthy, meaningful lives;
- Collaborating with the community to create a strong sense of place and skills to flourish without harm;

- Providing staff who model our vision and embrace education as liberation;
- Engaging urban youth by adhering to an ecopedagogical praxis;
- Developing biliteracy and honoring linguistic and cultural identities by engaging in translanguaging practices; and
- Offering immersion opportunities for those interested in transformative education.

Grade Levels: 4K-12

The MAS educates 1,000+ students in grades 4K-12. Our scholars come from all areas of Milwaukee (the majority are residents of the central city) and transportation is provided. MAS has a focus on science, technology, engineering and mathematics (STEM) to ensure students are prepared for success in college and their post-secondary career in STEM related fields. Our school offers a longer school day and year (mid-August through mid-June). The MAS holds students to high academic standards across all grade levels and offers rigorous curriculum and unique learning experiences through a variety of field trips and community partnerships. There are four academies within our school, Primary (4K-01), Elementary (02-05), Junior (06-08) and the High School (09-12). The Primary, Elementary, and Junior academies each have a population of approximately 300, while the high school remains smaller at an enrollment of 200. One hundred percent of high school graduates in the 2015-2016 school year were accepted into collegiate programs. The MAS also offers a wide range of athletic programs at the junior and high school level, including basketball, track and field, and our newly introduced lacrosse program through a unique partnership with Marquette University. The mission of the MAS, an exemplary leader in STEM education, is to graduate urban students prepared to compete successfully at the post-secondary level.

37. Milwaukee Collegiate Academy

Judith Parker
4030 North 29th Street
Milwaukee, WI 53216
(414) 873-4014
j.parker@milwaukeecollegiateacaemy.org
Grade Levels: 09-12

Milwaukee Collegiate Academy is a Professional Learning Community that combines high academic standards, high character expectations, and an emphasis on giving back to the community. Milwaukee Collegiate Academy's founder and Board of Directors believe that preparation for college goes far beyond academics. Student leadership is cultivated through academic mastery, community-focused education and the fostering, of lifelong learning in any environment.

Students are part of a learning community that is kept intentionally small. With enrollment capped at just 200 students, class sizes are often as small as 10 to 15 students. Students receive the one-on-one and small group time that is necessary to help them grasp and apply challenging concepts in the classroom. They also receive assistance through individual assessments performed by staff, which highlights areas of strength or growth for each student.

All Milwaukee Collegiate Academy students receive college preparatory coursework and testing preparation beginning in the 9th grade. They also begin visiting college and university campuses as soon as they enroll at Milwaukee Collegiate Academy. Milwaukee Collegiate Academy's mission is **to nurture scholars, capable of transforming their world, by sending them to and through college**, so every aspect of the school's curricula and planning process has this college-going cultural emphasis in mind.

Est. 2011

38. Milwaukee Math and Science Academy

David Chief
110 West Burleigh Street
Milwaukee, WI 53212
(414) 263-6400
dchief@mmsacademy.org
www.mmsacademy.org
Grade Levels: 4K-08

The mission of Milwaukee Math and Science Academy is to create a learning community in which:

- Teachers, parents, and students work together to develop young people who are confident and achieve academic excellence in a powerful college prep curriculum;
- Students do not question “whether” they will go to college, but instead ask “when” and “where”;
- Students understand that with hard work, dreams are possible;
- Students develop the skills in math, science, and technology necessary to become bold inquirers, analytical thinkers, and ethical leaders in the 21st century; and
- Students are empowered to become productively engaged in the local community and broader society.

We create a school culture that is built on success, respect, and accountability. The founders of Milwaukee Math and Science Academy recognize that the success of students is dependent upon the school's ability to create a culture that fosters meaningful, sustained relationships between teachers, students, and parents and holds all stakeholders responsible for outcomes.

It is this culture that forms the foundation of our school. Milwaukee Math and Science Academy builds this culture from the point of first contact with families and throughout the students' academic experience.

Colin Green
980 8th Avenue
Cumberland, WI 54829
715-822-5122
cgree@csdmail.com
Grade Levels: 07-12

Island City Academy is a public charter school for grades 7-12 in the Cumberland School District. The ICA offers a project-based learning environment that uses a progression of learning environments to offer students independence, leadership opportunities, and ownership of their learning.

The ICA middle school provides students an integrated project-based learning environment, which incorporates year-long outdoor education while focusing on sustainability. Students learn the process of project development and management through thematic teacher guided units developed around Project Lead The Way and placed-based curriculum while provided individual choice in development of their projects. In addition, students are given complete autonomy in their individual research projects focused on the students' interests. Students will also use ALEKS Math, an online and individualized math curriculum which allows students to work at their own pace and at their own skill level. Students practice public speaking by presenting projects to the public at least three times per year. Service learning opportunities are integrated into various projects during the year.

The ICA high school provides students a career and a science, technology, engineering, and math (STEM) focus for learning. Students create a Personal Learning Plan that incorporates their career goals. Students then choose between the Stem Strand or the Individualized Career Strand. Students develop individualized projects related to their career interests that incorporate the Wisconsin State Standards in order to earn required credits. Individualized math is achieved through the use of ALEKS Math, a self-paced math program. Public speaking opportunities are provided as students present projects to the public at least three times per year. Student service learning is required for all students each year. Capstone projects highlight the achievements of students and are presented at the end of the senior year.

45. Denmark Community School

Terry Wetzel
450 North Wall Street
Denmark, WI 54208
(920) 863-4120
wetzelt@denmark.k12.wi.us
Grade Levels: 07-12

The Denmark Community School is built on five pillars that drive the education of the diverse learners who attend. The pillars, developed by a multi-level, interdisciplinary design team, are wellness, nature/outdoor learning, technology/art design, project-based learning, and interdisciplinary learning. These pillars will frame the student-centered delivery of the standards-based curriculum.

Organized as a collaborative learning community, students work on both individual and group projects that focus on interdisciplinary standards. Students may also choose to participate in teacher led seminars to meet these standards. Communication, specifically effective and appropriate reading and writing, is stressed for every project, as we recognize that effective communication will be the key for success in our ever-changing global community. The overarching goal is to develop a passion for learning in our students, and foster a strong sense of community through relationship building.

Project-based learning is learning that takes place in a real-world, authentic manner. Students go through an extended process of inquiry in response to a complex question, problem, or challenge, that reflects their unique interests, thus giving them “voice and choice” in their education. They make contact with industry experts from around the globe as they seek answers. A project-based learning classroom may seem chaotic at times, but this chaos reflects the real-world as students prepare for diverse careers in areas we can’t even imagine. In our school, time and space are much less confining for our students because we have created a learning environment based on flexibility and focused on reaching beyond the school walls. The delivery and design of the final product is very much driven by each student’s specific learning style.

46. Chippewa Valley Montessori Charter School

Todd Johnson
400 Cameron Street
Eau Claire, WI 54703
(715) 852-6952
tjohnson3@ecasd.us
Grade Levels: 4K-05

The mission of the Chippewa Valley Montessori Charter School is to provide an opportunity for area elementary students to learn using Montessori principles of education. The academic program of the school allows students to work at their own pace within a multiage setting. Children learn in a carefully created enriched environment. Students are encouraged to make decisions, solve problems, make appropriate choices, and manage their own time.

The Chippewa Valley Montessori Charter School has the following goals: to provide high-quality Montessori education to area students in grades 4K-05, to provide an environment that combines freedom and responsibility and allows children a more active role in their own learning, to facilitate student exploration and creativity, to provide an opportunity for students to succeed and meet high standards of academic excellence, social awareness, moral development, and to develop independent learners with sound decision-making skills.

47. McKinley Charter School

Pete Riley
1266 McKinley Road
Eau Claire, WI 54703
(715) 852-6907
priley@ecasd.us
Grade Levels: 06-12

The mission of the McKinley Charter School is to educate students for responsible behavior in their home, school, and community. The school meets students where they are and helps them move forward academically and behaviorally. The discipline model used is designed to foster self-control.

McKinley Charter School has five components. Each component serves a specific population and delivers a unique curriculum. Two components are located on-site. The Credit Component serves students in grades 06-12, and the Competency Component serves 17- to 20-year-old students. The third

component is the Detention Center, located at the Eau Claire County Courthouse. This component provides educational services to students who are detained in the Northwest Regional Detention Center. The fourth component provides educational services to students under the age of 21 who have not completed a high school diploma and are housed in the Eau Claire County Jail. The fifth component is Homebound Services, provided to Eau Claire Area School District students who will be absent from school for 30 days or more.

Grade Levels: 4K-12

We are excited to welcome families to Elkhorn *Options* Virtual Charter School! *Options* provides opportunities and possibilities to all students! This one-of-a-kind school is designed to provide students with flexibility to choose among diverse educational opportunities that will support academic achievement. *Options* will support students who are looking for an alternative approach to the traditional school model. Students are given more control to the learning process. Teachers plan fun, engaging, hands-on lessons to encourage a love of learning. Some students choose to learn completely from the comfort of their own home. Other families travel over an hour to participate in our innovative wide variety of on-site blended learning classes. High school students can earn college credit.

49. Walworth Co Educ Consortium Alternative High (AHS)

Kelly Demerath
400 County Highway H
Elkhorn, WI 53121
(262) 741-8352
demerathk@gtc.edu
Grade Levels: 11-12

The AHS is a creation of the Walworth County Educational Consortium, a partnership of Gateway Technical College (GTC), Lakeland School, and Badger, Delavan-Darien, and Elkhorn Area School Districts. The school was established in August 1990 to serve the 11th and 12th grade students at risk of not graduating from our five local high schools. The AHS achieved charter school status in the summer of 2000. Our Governance Board is comprised of representatives from the five consortium high schools.

It is the mission of the AHS to provide an environment which promotes the academic, emotional, social, and vocational growth and development of those students whose needs are not being met by the traditional school setting. Our goals are to have AHS students successfully complete a program leading to graduation with a high school diploma, and a successful post-graduate career in one of four areas: college, vocational, military, or trades. We shall accomplish these goals through innovative use of technology, broad-based curricula, diverse teaching strategies, community involvement, a strong partnership with GTC, and varied authentic assessment of progress

and performance. It is also our goal to help our students live as productive, contributing members of society.

The AHS also coordinates the Walworth County Teen Parent Program that serves pregnant and parenting male and female students. The goals of the program are to service the academic needs of pregnant and parenting students, while offering supporting services in the areas of health, child care education, post-secondary planning, and a continuum of care with community agencies in Walworth County.

Fond du Lac, WI 54935
(920) 906-6700 Ext. 4702
smithd@fonddulac.k12.wi.us
Grade Levels: 03-05

Fond du Lac STEM Academy is a school which features student centered, project-based learning based upon science, technology, engineering, and mathematics (STEM). Students in grades 03 through 05 will attend school in a separate facility where reading, language arts, and social studies are integrated into a project-based environment where science, math, and engineering are the basis of the program. The school will consist of approximately 100 students served by four to five teachers who have had advanced training in developmental mathematics, an activity based science program such as FOSS, and engineering principals. Students will work collaboratively in teams solving problems with an emphasis on what have been termed 21st century Skills.

The Fond du Lac STEM Academy is the result of a partnership established between the Mercury Marine Corporation and the Fond du Lac School District. The Fond du Lac School District will benefit from the access to high-level technology based resources and the personnel from Mercury who can serve as role models and provide real world science and engineering applications.

Our goal is to encourage ingenuity and creativity using real-world, hands on experiences. All students will develop strong team skills including collaboration, critical thinking, and flexibility, along with individual skills of self-reflection, persistence, pride, and resiliency. These skill sets will create future, highly employable citizens, armed with the 21st century tools necessary for local, national, and global marketplaces.

Donald Smith
401 South Military Road
Fond du Lac, WI 54935
(920) 906-6722
smithd@fonddulac.k12.wi.us
Grade Levels: 06-08

The Fond du Lac STEM Institute will initially educate 100 students in grades 06–08, providing a differentiated learning experience that will allow all students the opportunity to explore personal values and aspirations. We will ensure that each student has a firm grasp of the project-based learning model, with a curricular focus on science, technology, engineering, and mathematics (STEM). Building upon this foundation, we will bring the STEM curricula to life through community engagement. Middle-school students will investigate the societal impacts and contributions of STEM.

It is our vision that The Fond du Lac STEM Institute will shift the educational model so that the American spirit of innovation, collaboration, investigation, and leadership changes our world. Further, the Fond du Lac STEM Institute seeks to develop innovative, passionate learners by providing a rigorous and challenging project-based curriculum grounded in science, technology, engineering and mathematics. Our goal is to encourage ingenuity and creativity real-world, hands-on experiences. All students will develop strong team skills including collaboration, critical thinking, and flexibility, along with individual skills of self-reflection, persistence, pride, and resiliency. These skill sets will create future, highly-adept citizens, equipped with the 21st-century tools necessary for local, national, and global marketplaces.

Grade Levels: 06-12

iForward is a totally non-profit public school. They are not affiliated with any “for-profit company”. Grantsburg has learned from experience how best to provide a system of optimal online education to students in Wisconsin. iForward provides interactive live classroom lessons with the best teachers in education. Their model of student-to-student interaction and sense of school belonging are second to none.

iForward students focus on courses and classes that lead towards careers in the medical field, finance, business, technology, and manufacturing. They have formed partnerships with leading post-secondary institutions and offer dual credit and advanced placement courses. iForward utilizes these partnerships to prepare their students to attend vocational and technology schools, and college and university institutions.

In 2012-2013, iForward launched a new middle school for those students in the 6th, 7th, and 8th grades. The middle school combined with the high school has a total school population of approximately 400 students. iForward has class homerooms, student council, and a national honors society. They also have clubs such as broadcasting, stock market, art, music, photography, and student leadership. iForward has a spring prom, attends a Brewer’s game occasionally, and has other face-to-face family social events that help connect students with each other. Most students will find iForward as a terrific school for their education and future success.

Grade Level: 4K

The mission of the Time 4 Learning Charter School is to provide an exemplary early intervention program for four-year-old children in the Village of Greendale with primary emphasis on reducing the achievement gap facing children from low socio-economic status homes. The primary goal of the school is to provide children with early learning experiences that meet their unique developmental needs and promote growth in all areas: intellectual, social, emotional, and motor. The curriculum focuses on providing children with the language and literacy skills that are essential to future success in school through a variety of exploratory and play-based experiences that build strong literacy, language, and math skills as well as self-confidence and other school-readiness skills. In addition to a strong academic and social component for preschoolers, the Time 4 Learning Charter School provides a parent education component that recognizes the important role of parents in providing the foundation for their child's education.

Heather Grindatti
232 Church Street
Hartland, WI 53029
(262) 369-6710
hgrindatti@hartlake.org
Grade Levels: KG-02

The HFALA is a KG-02 charter school serving 75 students located within the Hartland, WI community. It will immerse students in literacy through the integration of the arts and drama in a multi-age environment. It values strong community and relationships within and outside of its walls. Students and teachers will engage in joint exploration and build a community that embraces a passion for learning where students have the opportunity to explore and expand their strengths, talents, and leadership skills.

The HFALA integration is about uncovering the standards, exploring their mysteries, and engaging in the arts to create poetic and metaphoric expressions of those explorations. The HFALA integration is activated around big ideas: challenging themes and interesting questions that bring content standards to life, that require critical thought and original research. Based on Tony Wagner's 21st Century Skills, HFALA will build a learning environment around:

- Inquiry, Critical Thinking and Problem Solving
- Leadership, Collaboration and Community
- Agility and Adaptability
- Initiative and Entrepreneurialism
- Effective Reading, Oral and Written Communication
- Accessing and Analyzing information
- Curiosity and Imagination

Grade Levels: 4K-12

Hayward Center for Individualized Learning is a year-round charter school that serves students in grades 4K-12. Wisconsin-certified teachers consult with families to develop an individualized educational plan incorporating goals to ensure students make satisfactory progress in meeting state and district standards and benchmarks. Instruction is multisite-based and may include instruction delivered at home and on-site, virtual classes, small-group enrichment, community based programs, traditional classroom instruction within the district, or a combination of programs. The HACIL plan is structured to incorporate the contributions of those who are willing to share their time, energy, and expertise in addressing the diverse gifts and needs of children.

58. Northern Waters Environmental School (NWES)

Brittany Roberts
10256 North Greenwood Lane
Hayward, WI 54843
(715) 638-9428
broberts@hayward.k12.wi.us
Grade Levels: 06-10

The NWES is designed to take students beyond the four walls of the classroom through projects that explore our community and natural environment. The school is open to grades 06-10.

The NWES is a full-time school, where students learn all academic subjects—reading, mathematics, science, and social studies—integrated through hands-on projects and field-based inquiry.

Students will develop the 21st century skills needed to be successful beyond their school years: collaboration, communication, creativity, and critical thinking.

At the NWES, we believe community partnerships are essential to the learning process.

The NWES is a part of the Hayward School District who contracts with the Northern Waters Board of Directors, which is made up of community members and parents, to operate the school.

Highland School District
CESA 03

Nancy Hendrickson
1030 Cardinal Drive
(608) 929-4525
www.highland.k12.wi.us

Highland, WI 53543-2850

Highland Community Schools

The heart of the Highland Community Schools tradition is that learning in school is also learning in the community. Each school—whether Highland Community Elementary School, Highland Community Middle School, or Highland Community High School—is dedicated to implementing an innovative place-based curriculum that values its small town roots while building the capacity in its students to be 21st century learners and leaders. The spirit of Highland Community Schools is reflected in the young people, educators, parents, and grandparents of the Highland community which it serves. Woven into the culture of each school are the parents, grandparents, and community members who place confidence in this next generation. Together, these three distinctive schools work together to build a cohesive Highland Community Schools climate for life-long learning.

Finally, as a district, Highland originated the Rural Collaborative Initiative (RCI) in 2010, which brings Pre/K-12 rural educators together to sustain their rural schools. The school districts of Highland, Montello, Northwood, and this year Albany are dedicated to this mutual effort where targeted professional development, collaboration, and curriculum resource sharing benefit all four districts involved in the RCI.

Est. 2012 **59. Highland Community Elementary School**

Josh Tarrell
1030 Cardinal Drive
Highland, WI 53543
(608) 929-4525
jtarrell@highland.k12.wi.us
Grade Levels: 4K-05

Highland Community Elementary School implements a vibrant literacy program embedded in a positive school climate guided by responsive classroom tenets. A weekly hands-on science program with a field biologist connects the students with various important science and conservation concepts and activities. The Health and Wellness curriculum is an exciting new development with mileage club, cardio-vascular exercise program, collaborative playground equipment and activities, and team teaching amongst teachers. Another innovation is the Writing Alive program (KG-08) that unifies writing development across the grade levels and produces strong and effective writers. Finally, a distinctive school/community highlight is a strong afterschool and summer program that over 80% of Highland families participate in.

Est. 2012 **60. Highland Community High School (HCHS)**

Josh Tarrell
1030 Cardinal Drive
Highland, WI 53543
(608) 929-4525
jtarrell@highland.k12.wi.us
Grade Levels: 09-12

Highland Community High School has developed interdisciplinary seminars and workshops where teachers team across disciplines to bring relevant and reliable learning in shorter time frames that complement HCHS semester-long courses. For instance, studying the Civil War with three teachers involves the history of the American conflict, the science of medical advances and disease control, and the American literature of the period all rolled into a unified seminar for four weeks. Another highlight is extensive Capstone learning for juniors and seniors, where students choose a topic of interest and work in-depth under the guidance of a mentoring faculty, select community members, and experts.

Est. 2010

61. Highland Community Middle School (HCMS)

Josh Tarrell
1030 Cardinal Drive
Highland, WI 53543
(608) 929-4525
jtarrell@highland.k12.wi.us
Grade Levels: 06-08

Highland Community Middle School is a statewide place-based leader with its rich field biology and hands-on science conservation program that engages 100% of its students in many individual and group outdoor restoration projects. For instance, HCMS partners with a UW-Madison badger ecology graduate study, is designing a school rain garden, and is educating the community about student-planted prairie and lasagna gardens. Numerous place-based projects are highlighted in the following video

(<http://www.youtube.com/watch?v=WM72R11orTU>).

A productive multi-age community collaborates on these projects and the various academic themes throughout the year. Another highlight is the HCMS oral history project that has conducted over 50 hour-long interviews of community members and created I-movies produced by the students and given to the interviewees and their families.

31 West Milwaukee Street
Janesville, WI 53548
(608) 752-8273
lpeterson@janesville.k12.wi.us
Grade Levels: 06-12

The Rock River Charter School serves at-risk students in grades 06-12 who are not finding success in the traditional school setting. The school recognizes that not all students learn in the same way. Innovative curricula and delivery methods are used to reach all students.

There are four programs available. The Alternative-At-Risk Program serves students in grades 06-12 with an integrated hands-on curriculum. The School Age Parent Program provides an education to school-age parents and pregnant teens. The E-Learning Program, a computer-assisted learning lab, assists 17-20 year-old students who need to earn ten or fewer credits to receive a high school diploma. The General Evaluation Diploma (GED) Option #2 Program works with students who have senior status but need more than ten credits to graduate and are able to complete and successfully test out of the program in two semesters in order to receive their high school diploma.

Abbey Frischmann
2601 Sullivan Avenue
Kaukauna, WI 54130
(920) 766-6116
frischmanna@kaukaunasd.org
Grade Levels: KG-04

The NDLC is a charter school serving approximately 250 students in grades KG-04 with the intent of expanding to grades 4K-04 in the coming years. The NDLC believes that literacy empowers people. Literacy (reading, writing, and speaking) is the backbone of our school because it allows people to have a voice and make informed decisions.

The NDLC provides a workshop-based curriculum. The workshop approach is built on individualized instruction aimed at growing readers, writers, and problem solvers for the real world. Key components of the workshop include explicit strategy instruction as well as choice in independent reading, writing, and mathematics. This structure also provides extended periods of time to engage in authentic reading, writing, and mathematics. Inquiry Circles and hands-on learning are used to implement science and social studies standards.

Teachers at NDLC look at the strengths and needs of each learner to nudge each child forward. The NDLC believes in growing student leaders through shared responsibility in the classroom both in environment and academics.

Kenneth Kortens
509 Lawe Street
Kaukauna, WI 54130
(920) 766-6129
kortensk@kaukauna.k12.wi.us
Grade Levels: KG-04

The Park Community Charter School curriculum ties directly into our community. Students are invited and encouraged to take the learning that is taught within the classroom and bring it to the “outside world.” Community resources are invited into the school. Our three learning partners are Kaukauna Utilities (KU), 1000 Islands Environmental Center, and the Grignon Mansion Historical Site. Our students utilize the facilities at these partners on a continual basis to bring our classroom experiences alive. Students at Park Community Charter School are taught using the Partners in Comprehensive Literacy Model. This model provides a great structure to blend science and social studies instruction into our daily literacy lessons. For example, student learning comes alive as they discuss the fur trade in Wisconsin through mentor texts on Fr. Jean Nicolet, historical documents of the fur trade, visiting a reenactment at the Grignon Mansion or studying the habitat of animals from the fur trade at 1000 Islands.

We have the full cooperation of KU to help our students fully understand wind, hydro, solar, and fossil fuel technologies in relation to energy production. Our program is committed to helping our students understand the changes that have and will occur in our environment and community. In addition to going out to our community partners, engineers from KU, historians from the Grignon Mansion and the naturalist from 1000 Islands are regular visitors to our school. A river table in our science lab is used to help our students understand how erosion affects the river and created the islands that make up 1000 Islands Environmental Center. Our students also study how natural and manmade events affect the river that is the heart of our community.

If you would like more information about our school visit our website at www.pccscharter.org follow our progress on Facebook.

Grade Levels: KG-08

The Brompton School offers a challenging and inclusive academically-focused curriculum. The school's program is based on the belief that a solid foundation in basic skills and content knowledge is the cornerstone of academic success, reading is the key to educational achievement, education should be a sequential process which builds upon previous knowledge and that structured learning experiences and development of study skills are essential.

The Brompton School maintains small class sizes, a challenging program, high expectations for student success and a high degree of parental involvement. It is the school's philosophy that success earned through hard work will develop self-worth, confidence, and ensure future achievement; the success children achieve through their own efforts cultivates a desire to achieve greater success.

1. Brompton has a Governance Board with parents, teachers, and community members serving.
2. Middle school students have a One-to-One Laptop Program.

70. Dimensions of Learning Academy

Diana Pearson
6218 25th Avenue
Kenosha, WI 53143
(262) 359-6849
dpearson@kusd.edu
Grade Levels: 4K-08

The Dimensions of Learning Academy is a standards-based school of choice focusing on lifelong learning, serving students in grades 4K-08 in Kenosha Unified School District No. 1. Two unique programs, Dimensions Extensions and Dimensions Connections, further define the school's organizational and management structures. The Dimensions Extensions program consists of extended before- and after-school programming for the Dimensions of Learning Academy.

Dimensions Connections organizes the parental involvement for the entire school program. The parental involvement for this school is organized as an integral part of the school's design. The goal is implementation of a curriculum based on integration of reasoning skills coupled with the targeting of student acquisition of academic as well as lifelong learning standards.

71. Harborside Academy

William Haithcock
913 57th Street
Kenosha, WI 53140
(262) 359-8400
whaithco@kUSD.edu
Grade Levels: 06-12

Harborside Academy is a 06-12 grade expeditionary learning charter school located in Kenosha, Wisconsin. Harborside's school design combines rigorous academic content and real-world projects. Students participate in "learning expeditions" which involve in-depth study of engaging topics coupled with active teaching, fieldwork, and community service.

The school design focuses on teaching in an engaging way. Harborside has a rigorous curriculum and promotes high levels of student engagement through real-world learning focused on issues of concern to young people. The curriculum will have a strong fieldwork component. Students have the experience of authentic service to the community as an ethic that permeates the school community and as an important element of their academic work. Students also learn that values such as collaboration, perseverance, and craftsmanship are essential to the production of high-quality work. Staff emphasize post-secondary preparation, professional quality student work, and engaging students through active pedagogy.

73. Kenosha School of Technology Enhanced Curriculum (KTEC)

Angela Andersson
East Campus: 6811 18th Avenue
Kenosha, WI 53143
(262) 359-3800
West Campus: 5710 32nd Avenue
Kenosha, WI 53143
(262) 359-7100
aanderss@kUSD.edu
Grade Levels: 4K-08

The KTEC is a leader in innovative education, offering rigorous, science, technology, engineering, and math (STEM) infused academics, producing caring, well-rounded 21st century citizens. The mission as a 4K-08 school that engages all students in an innovative learning environment is to prepare students for success in a global society through academic excellence by the use of 21st century skills and technology integration. The KTEC offers its students a balanced education which is literacy focused and includes music, physical education, art, and Spanish. The KTEC uses unique programs, like Project Lead the Way and LEGO Robotics to meet Common Core State Standards and Next Generation Science Standards. They take traditional, existing curriculums for all subjects and infuse them in innovating ways to develop critical thinkers, technical readers and writers, and confident communicators, who use creativity and collaboration to solve problems.

Stephen Plum
349 N Oak Crest Drive
Wales, WI 53183
(262) 968-6300 ext. 4608
plums@kmsd.edu
Grade Levels: 09-12

High School of Health Sciences serves students in grades 09-12 and holds these educational beliefs:

1. Learning is contextual.
2. Students will be empowered to be architects of their own learning.
3. Students will make connections between learning and their future endeavors.
4. Student accomplishments are a result of both successes and failures.
5. Learning is social, diverse, and collaborative.
6. Authentic experiences help students understand their role in a global society.
7. Teachers guide, facilitate, inspire, and coach.

High School of Health Sciences cultivates authentic and personalized learning in a health career and research context. We inspire curiosity in a wide range of fields, studies, and services by engaging problem-solvers in an interdisciplinary spectrum of opportunity. Students master a course of study that equips them for success in health care, research, and related fields. Through collaboration with the Medical College of Wisconsin, Aurora Health Care, and ProHealth Care, HS² offers students the opportunity to learn in an interdisciplinary manner while at an engaging environment. The models of learning within the high school are built with the educational philosophies of each facility in mind: “multifaceted learning modalities” of basic sciences, clinical experiences, scholarly concentrations, and individualized study time.

Laura Dahm
219 N Oak Crest Drive
Wales, WI 53183
(262) 968-6300 ext. 3200
dahml@kmsd.edu
Grade Levels: KG-05

Serving students in grades KG-05, KM Explore is centered around a personalized learning pedagogy, infusing portfolios, learning plans, and blended tools into each child’s learning day. Classes in KM Explore are team taught and multiage, which allows teachers to work in a tight dual grade community, as well as provides opportunities to work with students across KG-05. KM Explore is focused on engaging learners through authentic learning experiences by empowering them to be self-motivated thinkers, creators, and collaborators. The school philosophy is grounded in five learning pillars:

1. Generative Curriculum
2. Multiage Learning
3. Collaborative Teaching
4. Placed-Based Learning
5. Habits of Mind

77. KM School for Arts and Performance

Kevin Erickson
 349 North Oak Crest Drive
 Wales, WI 53183
 (262) 968-6273 ext. 4800
 ericksok@kmsd.edu
 Grade Levels: 09-12

Kettle Moraine School for Arts and Performance is a 09-12 school serving students with strong interests or ability in the arts. KM Perform students choose an area of focus on art, creative writing, drama, or music that serves as a focal point for the four year academic and arts curriculum. Through an Interdisciplinary Learning Collaborative model of learning, students work with content experts and guest artists to earn credit in a focused series of seminars and workshops. Students earn credit through achievement of learning targets and personalization of learning is encouraged by using artistic experiences.

KM Perform is designed to prepare creative and skilled students capable of meaningful creative and artistic experiences in relevant career paths. Perform students can expect to prepare for either a college arts program or any other rigorous academic program with an emphasis on creativity, collaboration, and innovation. English and history credit is achieved through humanities seminars exploring content in-depth while connecting the learning to one or more of the arts. Mathematics and science is delivered through KM Perform's Applied Mathematics and Design curriculum where students engage in

2D and 3D conceptualizations of science and math concepts. Electives, foreign languages, and physical education are also offered as part of the KM Perform school day. All KM Perform students engage in a two year capstone portfolio project.

Joel Dziedzic
5760 Mohawk Road
Campbellsport, WI 53010
(262) 626-8427
jdziedzic@kewaskumschools.org
Grade Levels: 4K-05

The i4Learning Community School is a 4K through fifth grade multi-age learning environment consisting of two separate grade level cohorts, kindergarten through second grade and third through fifth grade. Each cohort has multiple teachers who are able to flexibly group the students throughout the day to best meet their learning needs. Four-year-old kindergarten is a stand-alone class that meets Monday through Thursday in the mornings. Our students also participate in exploratory classes (Spanish, Physical Education, Music and Art) on a weekly basis.

In addition to the multi-age environment, the students engage in project-based learning experiences. These collaborative projects revolve around specific themes and allow for more student voice and choice in the attainment of new learning. Oftentimes, the teachers will be learning alongside the students as they investigate an essential question and seek new knowledge according to his/her interest. Using diverse skills, researching, writing, interviewing, collaborating, calculating, and/or public speaking, students produce an end project demonstrating their new knowledge.

Mission: i4Learning ignites a passion for lifelong learning through individualization, real-life exploration opportunities, and 21st century thinking.

Vision: i4Learning will guide and grow life-long learners through an *individualized, innovative, integrated* and *inspiring* environment. Visit our website www.i4Learning.org for more information.

hdorner@kiel.k12.wi.us
Grade Levels: 07-12

Kiel eSchool is an online school through which students in grades 07-12 access the district-approved internet courses with the assistance of online teachers as well as a licensed educator serving as a local mentor/teacher and personal/family coach. The school was designed to ensure the success of those students whose needs are not adequately met in the traditional classroom.

Kiel eSchool provides accelerated learning opportunities for high-achieving students, as well as the described nontraditional learners. Students “attend” classes on their home computers, in the home-base classroom located in the lower level of the Kiel Area District Office building, and in individual building libraries and technology centers. Students can participate in all activities and services provided to the rest of the district’s students. These support services include access to the guidance department, special education coordinator, and school-to-work coordinator, participation in extracurricular activities, and so on.

Grade Levels: 06-08

Coulee Montessori welcomed its first classes in August, 1998, as the first public Montessori school in western Wisconsin. When it began, there were two multiage classrooms; one containing five year olds and the other containing six-, seven-, and eight-year-olds. Coulee Montessori now serves 160 students from preschool ages through eighth grade on two campus sites. The school has two Children’s House classrooms consisting of preschool and kindergarten students; four Elementary One (E1) classrooms containing first, second, and third graders; two Elementary Two (E2) classrooms containing fourth and fifth graders; and an Adolescent classroom containing sixth, seventh, and eighth graders. Principals, teachers, and the school’s governance board work diligently to guide the school toward achieving long-term goals and to financially support, promote, and grow the school. Coulee Montessori is an asset to the School District of La Crosse as a choice for families seeking other methodologies of instruction for their children which would not otherwise be available without cost.

Penny Reedy
1900 Denton Street
La Crosse, WI 54601
(608) 789-7670
preedy@lacrosseschools.org
Grade Levels: 06-08

La Crosse Design Institute is a middle school charter school serving students in grades 06-08. The school is supported by teachers and administrators who have a strong background in project-based learning and a passion for design. The school is aligned with several community partners who are committed to providing hands-on learning opportunities for La Crosse Design Institute students.

The La Crosse Design Institute will teach students valuable 21st century skills including communication and presentation skills, organization and time management, research and inquiry skills, self-assessment and reflection skills, and group participation and leadership skills. The school's project-based learning approach requires content mastery and critical thinking and incorporates essential project management skills valued by today's global industries.

83. School of Technology & Arts I (SOTA I)

Steven Michaels
1111 South Seventh Street
La Crosse, WI 54601
(608) 789-7695
smichael@lacrossesd.org
Grade Levels: KG-05

The School of Technology and Arts I opened its doors in August 1995 as an elementary school of choice. The SOTA I currently serves students in grades KG-05 whose families believe in the curriculum's technology and arts emphasis. Roosevelt Elementary School houses the charter school and provides transportation, administrative resources, and food service. The SOTA I follows the district's curricula, school calendar, testing programs, and is organized around five major constructs. These constructs include: multiage, nongraded, continuous-progress classrooms, assessment by performance, product, or demonstration, emphasis on the arts and technology, and joint staff parent school governance.

Est. 1997

84. School of Technology & Arts II (SOTA II)

Melissa Murray
510 Ninth Street South
La Crosse, WI 54601
(608) 789-7780
mmurray@lacrossesd.org
Grade Levels: 06-08

The School of Technology and Arts II began operation in the fall of 1997 as a middle school choice in the School District of La Crosse and currently serves students in grades 06-08. Lincoln Middle School houses this charter school as part of a family of three schools under one roof at the Lincoln Middle School building. The staff at SOTA I and SOTA II work closely to ensure continuity between the schools' programming. Studies show the active learning of an art form to increase student motivation and the ability to learn other skills such as reading, mathematics, and writing. SOTA II uses technology and arts integration as a focus for learning core subjects in thematic units of study in a project-based environment. Unique to SOTA II is Innovators, Makers, Performing Artists as a daily experience for all students. This method of curriculum delivery takes into account individual student interests and skills and allows students multiple ways to show their learning. SOTA II extends the learning experience and emphasizes the power and importance of social and emotional learning, community building, and teamwork.

85. Seven Rivers Community Charter High School

Penny Reedy
807 East Avenue South
La Crosse, WI 54601
(608) 789-7670
preedy@lacrossesd.org
Grade Levels: 09-12

Seven Rivers Community High School is a project-based learning (PBL) environment. Seven Rivers Community High School provides a dynamic approach to learning in which students explore real-world problems and challenges. The PBL environment requires a structured process to build towards an authentic outcome. The PBL process fosters a hands-on, interest-based approach to developing skills, knowledge, and a passionate understanding, through intrinsic motivation; the PBL approach creates a deeper level of comprehension and a greater capacity for self-awareness in the learning process.

Kent Swanson
325 Meulemans Street, Suite A
Little Chute, WI 54140
(920) 38-9250
kswanson@littlechute.k12.wi.us
Grade Levels: KG-08

Flex Academy will serve fifty KG-08 students of the Little Chute Area School District through comprehensive interdisciplinary collaborative learning designed to address identified achievement gaps while developing 21st century skills. These two issues—demographically divided learning levels and contemporary global literacy and competency—have driven the development and design of Flex Academy as a student-centered learning forum that combines local, hands-on, individualized, and face-to-face experiences with virtual, technology-enhanced access to a wealth of complementary and contrasting global educational resources.

District Wisconsin Knowledge and Concepts Exam data show a definite and persisting achievement gap between economically disadvantaged and non-economically disadvantaged students as they progress through the grades. Flex Academy will not try to close that gap by running under-achieving students through the same paces over and over again, year after year, expecting different results. Rather than addressing the symptoms (failure to meet the procedural expectations of the traditional educational system), Flex Academy will instead concentrate on developing the character and behavioral characteristics that enable students to achieve the desirable outcomes required by the rapidly changing situations they will encounter as they mature and enter the post-secondary world of education, training, career, civic responsibilities, and personal relationships. This will be accomplished through the Four Pillars of Flex Academy: Habits of Mind, Habits of Work, Habits of Wellness, and Habits of Service. Students, parents, teachers, support professionals, and community stakeholders will collaborate to provide a Personalized Learning Plan for each student of Flex Academy. The charter school framework provides the flexibility to structure customized and responsive education for students in need of learning supports and resources unavailable to them in other learning and living environments.

Est. 2011

87. Little Chute Career Pathways Academy (LCCPA)

Shawn Volk
1402 North Freedom Road
Little Chute, WI 54140
(920) 788-7600
spvolk@littlechute.k12.wi.us
Grade Levels: 09-12

The LCCPA mission is to engage students to be problem solvers and self-motivated adults with the communication skills and academic aptitude to succeed in their desired post-secondary career. Our goal is to provide high quality academic and career preparation. When our students graduate, we want them prepared to meet the demands that leaders in the academic and business worlds have identified as being crucial to success.

The LCCPA's rigorous curriculum includes the equivalent of three credits of mathematics, three credits of science and four credits of English as well as comprehensive coverage of social studies, 21st century skill development, and foreign language. In addition to having access to our innovative core curriculum, LCCPA students also have the opportunity to participate in one of the most well-known and respected Engineering and Bio-Medical Sciences curricula in the country: **Project Lead The Way.**

Our coursework is enriched through partnerships and internships with local businesses, health care providers, local colleges, and universities. Classroom work takes place in the school, out in the field, and in the world of a student's chosen career pathway. At the Academy, a student's learning will be rooted in workshops, seminars, job shadowing, internships, and community initiatives. In the end, our ultimate goal at LCCPA is to meet the individual educational needs of our students in a way that is rigorous, relevant, and meaningful to their lives beyond LCCPA.

Lodi School District
CESA 05

Charles Pursell

88. Ouisconsing School of Collaboration (OSC)

Sherrí Endres-Lovell
103 Pleasant Street
Lodi, WI 53555
(608) 592-3855 ext. 1002
endresh@lodischoolswi.org
Grade Levels: 03-05

Ouisconsing School of Collaboration is named, in part, with the Algonquin word for the Wisconsin River, as translated by the early French explorers. The school rests near the modern day banks of this symbolic waterway that serves as evidence of the last glacial advance, as well as the first transportation routes. Ouisconsing (we-skon-sing) allowed the interaction of people, sharing of ideas and exploration during the past, and continues to do so in the present. The OSC is based on these same principles, while honoring the past and preparing for the future.

Beyond the symbolism, it is an elementary level charter school serving 80 students of the School District of Lodi in four multiage classrooms with students from grades 03-05. Students focus on the promotion of teamwork, leadership, and providing real-world solutions while practicing 21st century skills. The coursework is fully integrated into a project-based learning model, utilizing community and global partners, and technology as resources. Through collaboration with one another and the broader community, students realize the application of their understanding in a real-world context, leading to meaningful relationships, personalized instruction as well as high student achievement and motivation.

The intended outcomes of our model focus on allowing students to possess ownership of the learning community while establishing an environment of high expectations and rigorous coursework. We build proficiency in all Common Core Standards through the implementation of challenging, student selected projects that capitalize on local and global resources, bringing together the broader community and the students of the OSC. Proficiency is also developed through individualized learning plans and small group instruction. Personal choice within course content reduces negative effects of a teacher-centered, or top-down, classroom. Student understanding of their learning styles, personal interests, and ability to meet a high level of expectation serve as guiding benchmarks of success.

Tim Bubon
501 East Badger Road
Madison, WI 53713
(608) 442-1334
tdbubon@madison.k12.wi.us
Grade Levels: 06-08

Badger Rock Middle School will serve students in grades 06-08, primarily from one of Madison's lowest income and underserved neighborhoods, where 76% of the students currently receive free/reduced hot lunch. In a neighborhood that is quickly approaching "at-risk" conditions, the school will help reengage disenfranchised youth through an inquiry-based curriculum emphasizing place-based education, relevant real world experiences, and a strong ethic of community involvement and collaboration. At BRMS students will explore issues of sustainability, local culture, interdependence, social justice, and global awareness. The school will combine the best features of traditional and innovative curricula, propelling students to think critically and strategically, solve problems creatively and collaboratively, and gain the knowledge and skills to become catalysts and change agents in their communities. In doing so, the school will meet and exceed all local and state academic standards and create a dynamic new model for holistic education based upon principles of sustainability that serve as a research and development laboratory for school districts throughout Wisconsin.

Est. 1995

90. James C. Wright Middle School (Wright)

Angela Crawford
1717 Fish Hatchery Road
Madison, WI 53713
(608) 204-1343
acrawford@madison.k12.wi.us
Grade Levels: 06-08

The James C. Wright Middle School, named for one of Madison's civil rights pioneers, is a school of choice for students in grades 06-08. Wright's population is diverse: more than 80 percent of its students are from racial or ethnic minority groups, including African American, Hmong, and Hispanic. Approximately half of the students are economically disadvantaged, and just 45 percent live at home with both parents. In addition to regular education classes, Wright offers special programming for students with learning and emotional disabilities. With an ethnically and culturally diverse staff and innovative and flexible ways of teaching, the school provides its students with the knowledge, skills, and confidence required to participate fully in an evolving global society. School staff members accomplish this goal through three major themes: integrated curriculum, integrated technology, and integrated community.

91. Nuestro Mundo Community School (NMCS)

Joshua Forehand
902 Nichols Road
Monona, WI 53716
(608) 204-1068
jforehand@madison.k12.wi.us
Grade Levels: KG-05

The NMCS is the first public English/Spanish two-way immersion school in the Madison Metropolitan School District. The goals of NMCS are to help all students learn to think, speak, read, and write in both Spanish and English; excel academically; develop positive cross-cultural relationships; and promote participation in multicultural communities.

The school is open to English-dominant and Spanish-dominant speakers interested in this distinctive program. The NMCS curriculum is academically rigorous, community-based, child-centered, and multicultural. The curriculum and instructional strategies reflect students' developmental levels in both cognitive and linguistic areas. Specifically, teachers plan academic instruction in accordance with students' language proficiencies. In kindergarten through second grade, students receive most of their instruction in Spanish. All students, regardless of their language background, learn how to read and write first in Spanish, then in English. This early emphasis on Spanish instruction benefits both language groups. The proportion of English increases with each gradelevel.

(920) 686-4702
leek@mpsd.k12.wi.us
Grade Levels: 09-12

McKinley Academy is an alternative 09-12 high school located in Manitowoc, Wisconsin. McKinley seeks to engage students who have struggled in traditional secondary school settings by providing authentic and intellectually challenging instruction within the context of a small, flexible, and relational learning environment.

Emphasis is placed on higher order thinking and application to the world beyond the classroom. In keeping with the idea of providing purposeful and relevant real world learning as well as developing students' character and resiliency, many of the courses offered at McKinley Academy feature a service learning component.

Career planning and employability skills receive heavy emphasis, and students are encouraged to pursue some form of post-secondary education. During their junior and senior years, students have the opportunity to complete a significant amount of their education off-site in field settings. McKinley Academy seeks to create significant partnerships with local agencies and businesses, as well as give parents and students a strong voice in the school's development and operations.

jreiche@marathon.k12.wi.us
Grade Levels: 06-08

Marathon Venture Academy is an innovative “expeditionary learning” middle school whose mission is to challenge a diverse group of learners to communicate, investigate, and collaborate in authentic learning expeditions. Students are offered a relevant, community-oriented education that holds students accountable for high levels of achievement, while allowing them to learn in the more hands-on, project-based setting within a small public school environment. The MVA’s expeditionary learning approach to learning is coupled with a deeply imbedded technology focus where all students utilize various forms of technology for both enrichment and remediation. Students take part in innovative “learning expeditions” that integrate all traditionally taught subjects, such as English/language arts, science, math, social studies, fine arts, and more into a theme and project-based framework that culminates in the presentations of student work at the end of each 11 - 12 week period. In this unique and personalized setting, students promote their personal “best” work, and learn the importance of civic responsibility and life-long learning.

94. Marshall Charter School

Brian Sniff
623 West Madison Street
Marshall, WI 53559
(608) 655-1310
bsniff@marshall.k12.wi.us
Grade Levels: 10-12

The Marshall Charter School serves at-risk students in grades 10 and 12. The charter school engages at-risk students who have been distracted from their education by outside events and nontraditional learners who were just "lost in the crowd" and not performing to full potential. The typical candidate is credit-deficient, has a history of truancy, or has demonstrated disruptive behaviors in the regular high school setting. However, these students are capable learners with unique talents and skills, fully capable of learning and becoming positive contributors to society. By being in the program, these students demonstrate a desire to complete high school and a willingness to try new approaches to achieve that goal. Education and employment are important to the Marshall Charter School student.

Gil Saylor
800 Grayside Avenue
Mauston, WI 53948
(608) 847-4410 ext. 5323
Grade Levels: 07-12

iLEAD Charter School is an individualized school that develops leadership and entrepreneurship through academic discovery. We believe that when given the right opportunity, students do amazing things. iLEAD Charter will cultivate the entrepreneurial spirit as stated by the Wisconsin Vision for Entrepreneurship, "...the entrepreneurial spirit is at the heart of a society that moves forward and adapts to changing economic, technological, and social challenges."

iLEAD Charter will encourage and empower students to follow their passions, get involved in their community, and learn real world skills. Students at iLEAD learn all core areas of the curriculum, but they learn it in new and exciting ways. Through project-based learning and innovation, students are engaged—focusing on their individual strengths, growth targets, plans, and goals. The community is our classroom, students work in and with our community to solve real world problems. iLEAD allows students to *own* their learning—helping them become the leaders and entrepreneurs of tomorrow.

Mauston Montessori Charter School incorporates 21st century learning skills. This quality school of choice within the district will offer individualized learning plans that will connect its students to the essence of the community through a Montessori based instructional model. Montessori education recognizes that children learn in different ways and accommodates all learning styles. Given the freedom and support to question, to probe deeply, and to make connections, Montessori students are able to think critically, work collaboratively, and act boldly. This Montessori school would be a feeder school into our 07-12 iLEAD Charter School which empowers its students to be agents of innovation by cultivating their entrepreneurial spirit and leadership capacity.

Destinations Career Academy of Wisconsin began its first year in operation in the 2016-17 school year. Destinations is a full-time, tuition-free online public charter school authorized by the McFarland School District and chartered by Four Lakes Education, Inc. Our college and career readiness program offers Career Technical Education (CTE) courses and is focused on providing rigorous academic and technical training important for workplace skills. Our program prepares students in grades 09-12 to be college and career ready by providing core academic skills, employability skills, and technical, job-specific skills. Destinations students throughout the state of Wisconsin receive the structure, support, accountability, and state testing required of all public schools. We offer concentrations in four in-demand career fields—Construction, Business Management and Administration, Health Science, and Information Technology. Our exclusive Operating Engineer Pre-apprenticeship Program with the International Union of Operating Engineers Local 139 prepares students to enter apprenticeship training to become a journeyman operating engineer. Students can graduate from Destinations with not only a high school diploma, but also with technical and specialty trade credentials, college credits, and workplace experiences. In addition to core courses, students will complete a sequence of CTE courses designed to provide exploratory and preparatory learning in a specific pathway that prepares students to take industry certification tests. Destinations is an instructional program delivered online through the K12 Learning Management System with support from Wisconsin-licensed teachers trained in their specific subject area.

97. Wisconsin Virtual Academy (WIVA) High School

Nich Sutherland
4709 Dale-Curtain Drive
McFarland, WI 53558
(608) 838-9482 ext. 1108
nsutherland@k12.com
Grade Levels: 09-12

Wisconsin Virtual Academy established two schools starting in 2014-15 school year: WIVA High School and WIVA KG-08.

Wisconsin Virtual Academy is a non-instrumentality virtual charter school authorized by the McFarland School District and chartered by Four Lakes Education, Inc. We offer students throughout the state of Wisconsin equitable access to an individualized, rigorous instructional program delivered via the Internet based K12® curriculum, physical instructional materials, and via online instruction provided by Wisconsin Certificated teachers. Wisconsin Virtual Academy serves students in grades KG-12 from more than 300 school districts in Wisconsin.

The WIVA program combines high expectations, large group, small group, and individual standards based and assessment driven instructional support in both synchronous virtual or recorded settings and substantial involvement from parents or other primary adults in order to meet the individual learning needs of all students. The K12[®] curriculum is a comprehensive, state and common core standards-aligned, research and performance-based curriculum that includes six core subjects (language arts/English, mathematics, science, history, art, and music). The education program also addresses social and character development.

The WIVA high school features increased independence in the student's daily work, and one-on-one accountability with teaching staff assigned by course. The grading scale is letter graded; making transcripts meaningful for our college-bound graduates.

Nich Sutherland
4709 Dale-Curtain Drive
McFarland, WI 53558
(608) 838-9482 ext. 1108
nsutherland@k12.com
Grade Levels: KG-08

Wisconsin Virtual Academy established two schools starting in 2014-15: WIVA High School and WIVA K-8. See above the description of WIVA.

The WIVA 06-08 Middle School program is similar to WIVA High School in structure. It is letter grade and semester based, also offering the K12[®] curriculum; a comprehensive, state and common core standards-aligned, research and performance-based curriculum that includes six core subjects (language arts/English, mathematics, science, history, art, and music). Throughout our KG-05 program course offerings there are certain recurring themes that build on the previous grade's teaching that results in an ever increasing depth of knowledge. The KG-05 program utilizes a mastery based approach meaning your child can progress at a rate appropriate to their individual academic needs, and with more than 700 lessons per subject, students can engage in coursework reflective of their areas of interest.

Dawn.nonn@maps.k12.wi.us
Grade Levels: KG-05

The Maple Grove School is an innovative exploratory learning and personalized learning plan rural elementary school whose mission is to develop the whole child through the provision of exploratory experiences where students will engage in hands on approach in project development through cultural connections to our traditions, opportunities and our greater community. Students are offered a community-oriented education to honor and sustain their proud history and traditions through educational excellence by holding students accountable for high levels of achievement, while allowing them to learn in the more hands-on, project-based setting within a small rural public elementary school environment. Maple Grove School's exploratory learning and personalized learning plan approach will be coupled with technology where all students will have access to more technology for content area course work. In addition, students take part in innovative "learning expeditions" that integrate traditionally taught subjects, such as English/language arts, science, math, social studies, fine arts, and more into a theme and project-based framework which culminates in presentations of student work at the end of each expedition. These presentations include a "celebration of learning" for students where parents and community can be involved. In our unique and personalized setting, students promote their personal "best" work, and learn the importance of civic responsibility and life-long learning.

1101A North Mill Street
Merrill, WI 54452
(715) 536-4594 ext. 3006
shannon.murray@maps.k12.wi.us
Grade Levels: 12-12+

The Merrill Adult Diploma Academy educates 18-20 year-old high school dropouts. Students may work with a teacher in small groups to meet common goals, independently online, online with teacher-led peer groups, or in a more traditional manner with textbooks and workbooks. In addition to academic work in the core areas of English, mathematics, science and social studies, students will receive small group instruction in various life skill areas including work readiness, technology, and AODA issues. A lead teacher/coordinator works with each student on an individual basis to develop an Individual Learning Plan that outlines the course of study needed to graduate. In addition to academic studies, students will also complete a work-based component to help establish strong work skills and will be involved in a volunteer community service project.

21st Century eSchool is a blended, digital learning option for Wisconsin students who are looking for an alternative to the traditional classroom environment. Our program offers:

- The opportunity for full-time students to participate in classes such as art, music, and physical education offered in the traditional Middleton-Cross Plains Area schools. Plus, extracurricular clubs and sports are available.
- Flexible, blended, and interactive online classes that fit your schedule.
- One-on-one attention from local and state-certified teachers.
- Tuition-free education—available at no cost to Wisconsin students (for district residents and non-district approved through open enrollment).
- A combination of online and offline coursework—including an array of textbooks, videos, and hands-on materials.
- Individualized learning—high-quality, personalized instruction provided by highly qualified teachers.

21st Century eSchool is a proud partner of the Wisconsin eSchool Network and Wisconsin Digital Learning Collaborative.

076@milwaukee.k12.wi.us
Grade Levels: PK-05

The ALBA School is proud to be a Bright Spot in Hispanic Education by the White House Initiative on Educational Excellence for Hispanics. The school was created in 2004 in response to the increasing Hispanic population on the near south side of Milwaukee. Parents, community members, and teachers with strong beliefs in bilingual education and the fine arts joined together to create ALBA.

The mission of ALBA School is founded on the conviction that bilingual students can reach their full potential academically, in English and Spanish, when challenged through a rigorous curriculum that develops critical thinking, problem solving, and creativity through the integration of the fine arts. Students develop self-confidence and self-worth as their Hispanic cultural identity is both recognized and valued through the curriculum. Parents are vital partners in this mission.

The school serves 450 regular and exceptional education students from three year old Head Start kindergarten through the fifth grade. ALBA's student achievement rates have earned the Wisconsin Department of Public Instruction's School of Recognition Award for closing the achievement gap.

In addition, the quality educational program and environment at ALBA has been named a Wisconsin DPI School of Recognition for closing the achievement gap. In addition, the high quality educational program has been awarded Merits of Distinction for PBIS, RtI Math and RtI Reading in 2014-2015. As the ALBA School learning environment fosters Hispanic cultural identity and appreciation through strong parental support and community involvement. Students are preparing to be accomplished bilingual and bicultural problem solving leaders in a global society. Students utilize their cultural, linguistic, artistic, and creative talents to be successful in their learning, higher education, and throughout their lives.

107. Alliance School of Milwaukee, The

Tina Owen
850 West Walnut Street
Milwaukee, WI 53205
(414) 267-5400
042@milwaukee.k12.wi.us
Grade Levels: 09-12

The Alliance School of Milwaukee is a year-round high school that serves the needs of students in grades 09-12 who are not succeeding in the traditional high school environment due to harassment, intimidation, physical abuse, or emotional abuse. The school's primary purpose is to be a safe place where students are treated fairly at all times regardless of sexual identity, appearance, ability, or beliefs. The Alliance School's philosophy starts with the assertion that students must first have their basic safety and security needs met before they can focus on pursuing educational objectives. Academic excellence and the pursuit of higher education are expectations for all students at the school.

The Alliance School uses connections with community agencies to provide a strong network of supportive services for students. The school works closely with the Milwaukee Lesbian, Gay, Bisexual and Transgender Community Center, the Milwaukee Counseling Center, Pathfinders, Walker's Point Youth and Family Center, and various other social service agencies in the city to provide counseling and other services to youth. All students participate in community service placements, and there is a strong focus on changing the attitudes and systems that drove them from the traditional high school settings, through performances, speeches, and other activities that connect them to the community in advocacy work.

The curriculum uses a combination of service learning and expeditionary learning practices, which involve students in community improvement projects and personal growth activities.

hobenp@carmenhighschool.org
Grade Levels: 09-12

Carmen High School of Science and Technology is a small (240 students) college preparatory high school with a rigorous liberal arts curriculum that emphasizes science. Students must take four full years of each of the following subjects: English, laboratory science, social studies/history, and mathematics (Algebra 1 and above). In addition, students take three years of Spanish or Spanish for Native Speakers and at least one full year of fine arts. Courses in engineering and Advanced Placement subjects are also offered, and enrollment is not restricted. The curriculum also uses the Eight Abilities (21st century skills) originally developed for college students by Alverno College. Students in grades 10-12 who maintain cumulative GPAs of 2.5 or higher are allowed to participate in a special program through which they intern one full day per week at local corporations or nonprofit organizations. Funds are raised from corporate sponsors and private donors to support college scholarships for students who participate in the internship program. Each student works with his or her academic advisor to create an Individual Learning Plan in which academic, personal/life, and financial SMART goals are set and plans and schedules for achieving them are made. After school and summer academic enrichment and support programs, including a mandatory 8th grade to high school summer bridge program, are offered to meet the needs of all students. Carmen High School of Science and Technology students also participate in WIAA varsity athletic programs and a variety of clubs. Students also participate in service learning and are required to complete 20 hours of community service each year.

111. Carmen Middle/High School of Science and Technology, Northwest Campus

Patricia Hoben
5496 North 72nd Street
Milwaukee, WI 53218
(414) 384-4000
hobenp@carmenhighschool.org
Grade Levels: 06-12

Carmen Middle/High School of Science and Technology, Northwest Campus, is a college preparatory secondary school with a rigorous liberal arts curriculum that emphasizes science and engineering and requires students to master 21st century skills by the time of graduation. The emphasis on science in the curriculum responds to community calls for greater numbers of scientists *and* the need for all students to develop scientific “habits of mind” such as communication, problem solving, and analysis.

The educational program is designed to meet the highest academic standards for middle and high school students and professional standards for teachers and administrators. Middle school students take a core curriculum that focuses on reading, writing, and speaking skills; global studies and U.S. History; laboratory science; mathematics through Algebra; and fine arts. High school students must take, at a minimum, four years each of college preparatory history/ social studies, mathematics (Algebra through at least Pre-calculus), laboratory science, and five years of English, three years Spanish, and at least two semesters of fine arts or performing arts. Courses in engineering and Advanced Placement subjects are also offered, and enrollment is not restricted. The curriculum also uses the Eight Abilities (21st century skills) originally developed for college students by Alverno College. Each student has a challenging Individual Learning Plan that documents his or her academic, financial, personal career goals, and plans. Carmen is a member of the Wisconsin Interscholastic Athletic Association (WIAA) and offers varsity level sports in volleyball, soccer, cross country, wrestling, track and field, and baseball, with more teams to be added over the next several years. Students are expected to participate in academic enrichment and support programs offered after school and during the summer to meet their academic needs and interests. Additionally, all students are expected to participate in at least 20 hours of community service annually.

Est. 1996

112. Highland Community School

Kathleen Ronco
1706 West Highland Avenue
Milwaukee, WI 53208
(414) 342-1412
428@milwaukee.k12.wi.us
Grade Levels: PK-06

Highland Community School is a neighborhood-based, parent-run, early-childhood Montessori school. The mission of Highland Community School is to provide quality Montessori education and a nurturing environment for economically and culturally diverse groups of children and their families on Milwaukee’s west side; to empower parents to become responsible for and involved with their children’s education; and to be a force for change in education, the community, and society. The educational program is based on the child’s inborn desire to learn and is specifically designed to complement the natural interests and strengths unique to each stage of his or her development.

The school is parent-run, which creates a nurturing environment for children and adults and empowers parents to become responsible for and involved in their children's education. Highland is a community-based school, providing support and stability for the entire family and the surrounding community.

113. Hmong American Peace Academy (HAPA)

Chris Her-Xiong
4601 North 84th Street
Milwaukee, WI 53225
(414) 383-4944
676@milwaukee.k12.wi.us
Grade Levels: 4K-12

Hmong American Peace Academy is the first Hmong Charter School in Wisconsin. The goal for the HAPA is to enable all students to meet or exceed state and local student performance standards. The HAPA believes that all children can learn and that failure is not an option. The HAPA believes that parents are valuable partners in the academy's mission. The HAPA strongly believes that it is only through the partnership of school, family, and community that the children can truly make both academic and social gains.

The HAPA's educational programs are centered on three main components: Standards-Based Academics, Cultural Strengths, and Peace Education. To this end, each of these areas plays an important role in a comprehensive education plan designed to be integral in the academic, psychosocial, and civic development of its students.

114. Honey Creek Continuous Progress School

Gitanjali Chawla
6701 West Eden Place
Milwaukee, WI 53220
(414) 604-7900
334@milwaukee.k12.wi.us
Grade Levels: 4K-05

Honey Creek Continuous Progress Elementary School currently serves students ages 4-11, in early childhood 4K through 5th grade. Honey Creek's mission is an unswerving and uncompromising commitment to educating all students for success in higher education, careers, and responsible citizenship so that is the first choice for families. Honey Creek's continuous progress educational program includes: ungraded, multiage classrooms designed to provide challenges based on individual needs and on continuous progress for students in both general and special education in inclusive settings; the implementation of research-based, structured curricular designs that have been proven highly effective in improving student achievement and thus fostering positive self-esteem; and the creation of a triad between the home, school, and community, which cultivates strong school-to-home connections.

Est. 2001

115. Individualized Development Educational Approaches to Learning (I.D.E.A.L.) Charter School

Jennifer Carter
1420 West Goldcrest Avenue
Milwaukee, WI 53221
(414) 304-6200
224@milwaukee.k12.wi.us
Grade Levels: PK-08

The I.D.E.A.L. Charter School is an instrumentality charter with a diverse PK-8th grade student population. Flexible groupings, a child-centered curriculum, integration of subject matter, active learning, and exploration are the cornerstones of the I.D.E.A.L. Charter School's educational plan. The I.D.E.A.L. Charter School offers real-life educational experiences, extended day programs, and recreational opportunities to students and their families through collaboration with community businesses and agencies.

The I.D.E.A.L. Charter School is built around five important constructs: multiage, inclusive classrooms; a shared-governance model; active engagement in meaningful learning; assessment by performance, product, and demonstration; and community involvement. Through charter status, I.D.E.A.L. Charter School can meet these constructs in creative and flexible ways.

116. Kathryn T. Daniels University Preparatory Academy

At the Kathryn T. Daniels University Preparatory Academy, at least four research-based support systems for students, teachers, and the school will be in place. The four support systems are: 1) challenging standards-based curriculum delivery; 2) continuous data-driven assessment of student performance; 3) continuous job-embedded instructional coaching for teachers; and 4) a continuous, comprehensive formative, and summative program evaluation model for 'blueprinting' and replicating the Academy schooling approach.

The Academy expects to attract students who are intensely drawn to the performing arts and students and parents who are looking for an academically rigorous school environment. Additionally, the option for having a boarding school experience may attract students who would like a pre-collegiate dormitory environment. A nine-month public residential high school is an unusual option that will afford students who choose to live on the expansive grounds an opportunity to experience a pre-collegiate living and learning experience.

117. La Causa Charter School

La Causa Charter School is a neighborhood school in a predominately Hispanic community. Although the school serves a diverse population, including African American, Caucasian, and other cultures, the majority of students come from homes in which English is not the native language. At La Causa, the student's native language is cherished, valued, and used as students are provided with an excellent multilingual and multicultural education.

La Causa has expanded support services for students with the addition of two Bilingual/English as a Second Language (ESL) teachers, one social worker, and two counselors. Many parents attend classes such as GED, ESL, computer technology, and adult basic education, which are also offered at La Causa. Continuous effort is made to involve parents in their children's learning at home, and the school provides many programs to assist parents.

131 South 1st Street
Milwaukee, WI 53204
414-308-1232
jdorman@seedsofhealth.org
Grades Levels: 09-12

Opened in 2010, MC2 High School serves 105 students in grades 09-12. MC2 High School is chartered through the Milwaukee Public Schools and operates under the auspices of Seeds of Health, Inc.

MC2 High School's unique approach to learning blends engaging face-to-face teacher instruction and projects with 1:1 technology as a tool to enhance student learning and achievement. Students develop needed 21st century skills such as effective communication, critical thinking, and collaboration while mastering key content and Common Core Curriculum Standards. Innovative partnerships provide opportunities for students to apply these skills as part of our global and local community.

Student growth is measured through the Measures of Academic Progress assessment, teacher designed assessments, and state defined assessments.

MC2 High School's comprehensive high school program includes extra-curricular activities, club athletics, and Wisconsin Interscholastic Athletic Association cross country.

The focus of MC2 High School is to ensure that all students are aware of and meet their full potential through a unique educational model provided in a safe, nurturing, and disciplined small school environment.

Est. 2002

119. Milwaukee College Prep (MCP)— 36th Street Campus

Kristen Foster, Principal
2449 North 36th Street
Milwaukee, WI 53210
(414) 445-8020
Grade Levels: 4K-08

The flagship campus in MCP's top ranked four campus network, MCP: 36th Street, a long-time, highly respected leader in urban education, has been recognized by DPI as both a "beating the odds" school and "school of recognition" for years. Its success is based directly on the success of its scholars who are graduating on time from high performing high schools and heading to colleges like University of Chicago, Marquette University, Xavier, Howard, and many University of Wisconsin campuses. Like the other MCP campuses, its mission of "knowledge plus character pave the road to college and beyond," is reflected in its daily instruction, which is equal parts academic rigor and joyful character development.

Est. 2011

120. Milwaukee College Prep (MCP)— 38th Street Campus

Maggy Olson, Principal
2623 North 38th Street
Milwaukee, WI 53210
(414) 445-1000
Est. 2011
Grade Levels: 4K-08

The third MCP campus, and its second start up, has been recognized by DPI as a "beating the odds" school for three years and is among the top four five star schools in Milwaukee. Sharing the mission "knowledge plus character pave the road to college and beyond," MCP: 38th Street campus is equal parts academic rigor and joyful character development—both built into the daily instruction. Having grown from 4K-4th grade to 4K-8th, its first "graduates" are now freshmen in high performing high schools around the city and state.

Est. 2011

121. Milwaukee College Prep (MCP)— Lloyd Street Campus

Mark Ketterhagen, Principal
1228 West Lloyd Street
Milwaukee, WI 53205
(414)264-6000
Est. 2010
Grade Levels: 4K-08

The second MCP campus in its top ranked four campus network, continued the remarkable turnaround this year, going from “worst” before it was taken over by Milwaukee College Prep to first, garnering the highest five star ranking in Milwaukee on DPI’s 2016-17 Report Card and ranked third in the state. As with other Milwaukee College Prep campuses, the focus is equal parts academic rigor and joyful character development. MCP: Lloyd Street scholars have been accepted to high performing high schools in the city and state and are poised to continue to succeed in college and life.

Est. 2014

122. Milwaukee College Prep (MCP)— Lola Rowe

Michael Morgan, Principal
1350 West North Avenue
Milwaukee, WI 53205
(414) 264-6600
Grade Levels: 4K-08

The MCP: Lola Rowe North Campus builds on the legacy of MCP’s first three schools, cementing an educational philosophy of love and hard work, coupled with a college-bound curriculum grounded in basic skills, outstanding literature and moral virtues. In its third year, MCP: Lola Rowe North has earned a five-star rating from DPI. Along with the other three MCP campuses, it is one of only five schools in Milwaukee to receive that rating.

Est. 2016

123. Milwaukee Excellence

Maurice Thomas, Principal
4950 North 24th Street
Milwaukee, WI 53209
info@mkeexcellence.org
(414) 403-5892
Grade Levels: 06-12

Mission: Through rigorous academics and character education essential for success, Milwaukee Excellence Charter School educates 6th through 12th-grade students to excel within and graduate from four-year colleges and to pursue the professions of their choice.

Vision: Milwaukee Excellence Charter School is a 6th through 12th grade charter school for the City of Milwaukee and chartered by the Milwaukee Public Schools Board of Directors on July 30, 2015. Starting with 120 6th grade students, Milwaukee Excellence will use a slow growth model, growing one year at a time until we reach full and maximum capacity of 840 students in 2022. Milwaukee Excellence is comprised of two academies: Milwaukee Excellence Middle School (grades 06-08) with 360 students at full capacity and Milwaukee Excellence High School (grades 09-12) with 480 students at full capacity.

Est. 2013

124. Milwaukee Environmental Sciences

Roseann Lococo
6600 West Melvina Street
Milwaukee, WI 53216
(414) 353-3830
rlococo@mke-es.org
Grade Levels: 4K-08

Milwaukee Environmental Sciences is an environmental education charter school. We serve 400 students in grades 4K-08. We partner with Expeditionary Learning (EL), design Learning Expeditions (projects) that are engaging and challenging for students. Students at EL schools conduct hands-on learning with local experts and scientists, create quality, meaningful work that prepares them for college/ career success and share their work with parents and the community through Learning Celebrations. Milwaukee Environmental

Sciences provides a learning environment where every child has a clear expectation, is recognized for performance, and learns character traits such as Craftsmanship, Grit, Integrity, Respect, Leadership, and Stewardship.

Est. 2005

125. Next Door Charter School (NDCS)

Carol Keintz
2545 North 29th Street
Milwaukee, WI 53210
(414) 562-2929
493@milwaukee.k12.wi.us
Grade Levels: 4K-KG

Next Door Charter School provides high-quality four- and five-year old kindergarten programming. The NDCS specifically addresses school readiness and the achievement gap of four- through five-year olds by providing a holistic environment, family-focused advocacy, and a challenging, developmentally appropriate, and culturally and linguistically responsive curriculum. In addition to the teaching staff, the program has a team of Family Advocates. These social service support workers address the individual and collective needs of children and their families as well as support the teaching staff through building and modeling collaborative relationships across program lines.

Est. 2014

126. Northwest Opportunities Vocational Academy

Scott Campbell
2433 West Roosevelt Drive
Milwaukee, WI 53209
(414) 301-6592
info@novatechhs.org
Grade Levels: 09-12

Northwest Opportunities Vocational Academy provides educational opportunities and develops career pathways for high school students interested in science, technology, engineering and math (STEM), and technical fields. The Northwest Opportunities Vocational Academy will prepare students in grades 09-12 for post-secondary education programs—four-year, two-year, or certificate programs—by using innovative learning models (project-based learning, blended learning, and flipping the classroom) and exposure to technical and STEM careers.

It happens inside the classroom, but part of the instruction is delivered online through specialized programs that allow the student to learn at their own pace and path. Teacher instruction and peer collaboration are combined with computer activities. Students in "blended" environments take tests and are assessed on how much they have learned. The key is the "personalized" nature of learning: that technology makes it possible for students who either learn differently or have different interests to encounter material presented in a way that is engaging and meaningful to them.

Students will graduate ready for post-secondary education programs, or entering the workforce with the necessary skills and/or certifications. They will be prepared to be active citizens and have options to decide their future

Est. 2013

127. Universal Academy for the College Bound

Tabia N. Jones, Ed. D
Chief of School—Milwaukee
tnicolas@universalcompanies.org

Webster Campus
6850 North 53rd Street
Milwaukee, WI 53223
(414) 716-5858
Grade Levels: 06-11

The Universal Education mission is to provide unparalleled rich and high-quality education for every scholar and to prepare them for college, technical school, and entrepreneurship leading to sustainable careers in the 21st century. We seek to build altruistic alumni who contribute to the transformation of their communities as future leaders and positive members of society. The Universal Academy for the College Bound offers a unique educational opportunity in a free public charter school! The Universal Education experience builds future leaders and positive members of society through a character-based approach to education. We offer small class sizes and a diverse learning environment.

128. Whittier Elementary School

Peggy Mystrow
4382 South 3rd Street
Milwaukee, WI 53207
(414) 294-1400
398@milwaukee.k12.wi.us
Grade Levels: PK-05

Whittier Elementary....Your path to college starts here! Our mission at Whittier is to provide a quality academic program orientated toward preparation for college, while instilling the essential concepts of building character. Whittier features a multi-faceted approach to learning where character education is an integral part of the school climate and integrated within each classroom. Parent volunteers are seen in the hallways daily, the School Governance Council meets regularly, and the Parent/Teacher Organization presents high interest monthly meetings and events for Whittier’s families. After-school sports are offered and coached by the Whittier parents through the Milwaukee Public Schools Recreation Department.

Minocqua J1 School District

129. Creative Minds Charter School

Susan Scandin
7450 Titus Drive
Minocqua, WI 54548
(715) 356-5206
sscandin@mhit.org
Grade Levels: 03-05

Creative Minds Charter School is an innovative learning environment for the school district of Minocqua-Hazelhurst-Lake Tomahawk (MHLT) that will include: a rich generative curriculum with 21st century skills as essential outcomes, multi-age peers, brain based learning, technology integration, and a strong culture that promotes connections from student-to-student, team-to-team, and school-to-school.

Creative Minds implements ‘learning platforms’ that are the building blocks of its innovative curriculum. Utilizing a brain based philosophy, students and educators will explore, engage, define, and subsequently internalize 21st century skills that will anchor creative and design-based learning. Moreover, the culture of Creative Minds is anchored by the Conscious Discipline program which integrates social-emotional learning and discipline.

As a charter school, Creative Minds will be an autonomous school providing a distinctive choice of excellent elementary education for MHLT area families and will complement that education by providing students a choice for in-depth, multi-age study. An independent Governing Council of community leaders, professionals, parents, business innovators, and educators will lead Creative Minds. Creative Minds believes that all students are to be educated to the highest standards—and that this fundamental outcome will be fully realized as students are engaged in the creative and design life of the school and see the connections between learning and the larger world.

Rebecca Fox-Blair
5301 Monona Drive
Monona, WI 53716
(608) 316-1924
rebecca.fox-blair@mgschools.net
Grade Levels: 09-12

Monona Grove Liberal Arts Charter School for the 21st Century is a public charter school for students in grades 09–12. Our mission is to provide a student centered educational community for independent learners which is designed to give students the skills to walk their path in life. The MG21 curriculum has a focus on collaboration and critical thinking skills as centerpieces of the curriculum. At MG21, the school encourages students to “take control of their education” and is based on the following principles:

Project-Based Learning: an inquiry based learning process in which students design, plan, investigate, research and present their own projects in response to an essential question, problem, or challenge.

Integrated Liberal Arts Curriculum: “Liberal Arts” refers to our academic classes which are teacher led, and emphasize content knowledge and expertise in the core subjects of language arts, art, mathematics, social science, science in a thematically integrated manner.

21st Century Skills: The overall goal is to tie the student's and education to their ability to master the 21st century skills of: critical thinking and problem solving, collaboration, communication, curiosity and imagination, and commitment and motivation.

Accountability and Excellence: The MG21 educational process is a three-fold process which is based on expanding a student's KNOWLEDGE BASE, deepening their UNDERSTANDING and challenging them to MAKE MEANING by applying their knowledge and understanding to their own lives and encouraging them to take responsibility for their education and their choices.

Community: Monona Grove Liberal Arts Charter School for the 21st Century is a community for all who attend. Success for MG21 is based on its ability to develop meaningful relationships: teacher-to-student, and student-to-student.

Grade Levels: 4K-06

Forrest Lane Community School will provide the students of the Montello School District, ages 4-12, a 21st century place-based curriculum that personalizes for each student the rigorous academic requirements of the Wisconsin model of academic standards. The FLCS will utilize a blend of school redesign initiatives with a unified faculty to build an innovative elementary learning community. Six design pillars will guide the faculty in this endeavor:

1. Personalized Learning Plans/GoalSetting.
2. Place based/Communitylearning.
3. Growing Healthy Futures.
4. Neuro-Science Learning.
5. Creative Use of Technology.
6. School Climate.

Governance and parental involvement will round out the highlights of this charter school. A unique collaborative governing council will attend to the operations of the FLCS. Parents and community members, along with educators, will utilize democratic decision-making and deliberative consultation to guide this council as it leads the school in its constructivist, community-benefiting mission.

Grade Levels: KG-06

Eagleville Elementary Charter School, in southeastern Wisconsin, is open to students in grades KG-06, is an instrumentality of the Mukwonago Area School District, and was the first elementary charter school in Waukesha County. Eagleville Elementary School has been in existence since 1849, when it began as a small country schoolhouse, much like those that were common in Wisconsin at the turn of the last century. Eagleville Elementary Charter School is unique in its long historical commitment to academic excellence and close ties to the community. Its essence is the family-like extension of the home. Eagleville Elementary Charter School offers a richness of educational opportunities through multi-grade level classrooms, STEM education, environmental preservation and Spanish language exposure all within a small, rural setting. The school takes full advantage of the unique natural surroundings, which include the Mukwonago River, Jericho Creek, Eagle Springs Lake, the state certified school forest on campus, as well as surrounding environmental corridor running directly through the school property. In addition to its charter enhancements, Eagleville also adheres to all Mukwonago Area School District expectations and guidelines.

The Juneau County Charter School is a collaboration of Juneau County Schools, consisting of the Mauston, Wonewoc, Necedah, and New Lisbon school districts. This project was initiated as a local attempt to provide educational opportunities to disengaged students of Juneau County in grades 07-12. The school focuses on service learning, career exploration, basic academic competencies, confronting individual barriers, and family involvement.

Desired outcomes of the Juneau County Charter School include decreased student community problems through courts, law enforcement, and social services involvement; completion of an educational program or successful transition to post-secondary programming or employment; and reintegration of this population into a traditional, vocational, or educational program.

Grade Levels: 07-12

The Next Generation Academy is a blended learning academy that offers the best elements of online and face-to-face learning. Personalization is the key in Next Generation Academy. Each student is given an advisor who helps them to develop a Personalized Learning Plan that is based upon the belief that students should have input into their learning. How the curriculum is delivered is different for each student based upon his/her Personalized Learning Plan.

Core academic subjects are provided both face-to-face and online. The combination of an online curriculum with instruction in the face-to-face setting provides for one-to-one instruction. Students are also able to complete projects for credit and work with a learning coach to complete projects that result in tangible real-life products tied to areas which students are interested in. Thus, students at Next Generation Academy are able to experience the technologically enhanced possibilities of an online environment along with the socialization opportunities of the traditional classroom.

The Next Generation Academy also provides students with opportunities to hear presentations given by respected experts in a variety of fields through monthly seminars. Team building exercises are provided, as well, to foster a sense of community in the Next Generation Academy. Students have a voice in the day-to-day operations of the schools and design their workday so that individual learning goals are met. They are allowed to work in an environment that is designed to emulate the modern day workplace.

The NR4Kids Charter School provides access to quality, developmentally appropriate early learning opportunities for all interested four-year olds through community and family partnerships. Children with disabilities are served in an inclusive learning environment per Individualized Education Program determination with itinerant speech and language, OT/PT, and small group tutorial services being provided at multiple sites. The School District of New Richmond increased guidance counselor and health aide staffing to provide additional support services for the NR4Kids Charter School.

The NR4Kids Charter School is committed to providing an early learning program which includes:

- Community-based partnerships and collaboration.
- A consistent core program of high quality learning experiences at a variety of educational sites in the community.
- A nurturing environment that provides opportunities for meaningful relationships with both children and adults.
- A child-centered philosophy in which children's interest and curiosity will play an active role in instructional planning.
- Curriculum that reflects and honors the diversity within children, families, and the community.
- Developmentally appropriate curriculum which provides a rich variety of experiences.
- Child-initiated and play-based learning.
- Families' opportunity to choose from varied program options.
- Expectations for the success and growth of each child in social-emotional, cognitive, and interpersonal behaviors.

The NR4Kids Charter School offers monthly parent education workshops, multiple opportunities for families to participate in frequent family activities and volunteer opportunities, as well as a parent resource center at each site. The parent outreach component and focus on social-emotional learning of our school is enhanced by the inclusion of a guidance counselor position specifically for NR4Kids.

Wisconsin Virtual Learning, a charter school of the Northern Ozaukee School District, is Wisconsin's premier 4K-12th grade online school with a mission to provide each student with an individualized, effective, and high-tech education. Our student-centered approach allows our school to mold to fit the needs of each individual student. When a child enrolls, they meet with one of our student learning advocates to determine which courses, curriculum, and pathway will best match their needs. The student is then able to complete their coursework wherever there is internet access, with the support of our teachers, student learning advocates, and the child's parent or learning coach. Our teachers combine interactive, online classes, and support with standards-based online and offline curriculum. Wisconsin Virtual Learning serves students from across the state of Wisconsin; our current population of students come from over 150 different Wisconsin school districts.

Grade Levels: 4K-04

The NPMLC enrolls students 4K through 4th grade. The NPMLC approach to education is rooted in Montessori methodology. It is characterized by an emphasis on independence, freedom within limits, and respect for a child's natural psychological, physical and social development. At NPMLC, students learn to be critical thinkers, work collaboratively, and take ownership of their learning. Students are placed in a multi-age learning environment in which students have the opportunity to learn from mentors and become leaders. The hands on approach to learning emphasizes teaching students concrete concepts before moving onto abstract ideas and often engages students in their learning through play. Every child essentially has his/her own learning plan that the teacher utilizes to facilitate students' learning journey. The NPMLC is dedicated to helping each student reach his/her greatest potential through an individualized learning experience that instills a love for learning so students will move on to be lifelong learners.

146. School of Options and Applied Research High School (SOAR HS)

Scott Foster
1800 Pleasure Island Road
Eagle River, WI 54521
(715) 891-1198
sfoster@npsd.k12.wi.us
Grade Levels: 08-12

The SOAR HS is a project-based charter school serving students in grades 08-12. Located in Eagle River, Wisconsin, SOAR HS is part of the Northland Pines School District. The SOAR HS’s philosophy and practice emphasizes 21st century skills, service learning, career & life skills, and conservation. Students will use PBL as their main way of gaining knowledge and skill blended with an occasional traditional class at Northland Pines High School, online, or through a college. The SOAR HS will use days for job shadowing, field studies, and onsite project work to enhance their learning. The SOAR HS will allow students to use their time during the school year and summer to work ahead and complete their high school career on an accelerated schedule. The SOAR HS students will take the skills they gain use them to pursue and excel in both professional and personal goals post high school.

147. School of Options and Applied Research Middle School (SOAR MS)

Scott Foster
6485 Town Hall Road
Land O’ Lakes, WI 54540
(715) 547-3619
sfoster@npsd.k12.wi.us
Grade Levels: 05-08

The SOAR MS is a project-based multiage charter school serving students in grades 05-08. Located in Land O’ Lakes, Wisconsin, SOAR MS, is part of the Northland Pines School District. The SOAR MS’s philosophy and practice emphasize 21st century skills, service learning, conservation, and community partnerships. “Outside the Walls Learning” is another important component of SOAR MS’s mission. With this in mind, students attend school Monday through Thursday and use Friday to work on projects outside of the school and build community partnerships either with their projects or through their service learning commitment. Our location also makes the natural environment a wonderful classroom and learning opportunity.

Curt Zamzow
N14463 Highway 53
Minong, WI 54859
(715) 466-2297

curt_zamzow@northwoodk12wi.com
Grade Levels: 4K-05

The NES will serve 145 students in 4K through grade 05 with a distinctive team-teaching, multi-age, bio-regional literacy pedagogy anchored in an innovative place-based learning community.

The NES will implement a bio-regional literacy curriculum that focuses students on engagement with place, people, and purposeful literacy text and community expertise. The power of literature to lead children into a greater awareness and “sensibility” for their place will require more attention. This calls for a re-visioning of what literature and the language arts can be. It means identifying writers and artists of the bioregion who reflect our place back to us, who lead us into the unseen depths so we may immerse ourselves in the living world around us.

Grade Levels: 06-12

The NCHS is a conversion charter that will offer an interdisciplinary learning collaborative (ILC) dedicated to a mission of stewardship; sustaining its rural way of life. The essential aspects of the ILC model are the following:

- Interdisciplinary Management Teams
- Integrated and interdisciplinary curriculum
- Community/Business/Industry/ Partners as places to learn and learn from
- Collaborative Faculty
- Student Participatory Leadership

The power of NCHS’s learning will spring from its inherent capacity to be open to the learning at hand and to be open to the feedback of its actions as a purposeful learning community. When students engage and successfully complete something, there is an exponential surge of attention, excitement, and interest. From this energetic, emerging capacity, ever more complex questions and integrated endeavors will take place. For moving forward in an age of global change and local challenges; schools simply must fall on the equation side of solution maker. With student generated solutions, and application of core academic skills directed to stewardship and renewed community engagement, NCHS will be an innovative charter school for Wisconsin’s North Country.

Minong, WI 54859
(715) 466-2297

Michela_Brisky@northwood.k12.wi.us
Grade Levels: 4K-12

Northwood Virtual Charter School provides high-quality, standards-based, self-paced learning to help foster each child’s growth and development through an individualized approach. Designed to serve students in grades 4K–12 who qualify for enrollment into the school district through residence or open-enrollment, the NVCS staff (licensed teachers, community experts, and other school staff) uses collaborative approaches

to meet the needs of each child. Depending on the interests and abilities of students, NVCS staff will provide a flexible and customized plan for each individual student. Plans will consist of online learning, traditional classroom instruction, project-based learning, experiential learning, work-related learning, or a combination of the above.

To ensure student success, the NVCS needs to have a close working relationship. Working with the NVCS staff, the parent and child will be included in the development of the child's learning plan.

Grade Levels: 09-12

This charter high school primarily serves at-risk students in grades 09-12 who have not experienced enough success in the traditional school setting. These students can be credit-deficient and truant and many lack a personal connection with the typical school environment. The FALS aims to provide a safe environment where these students take an active role in the governing and maintenance of the school. These students have the opportunities to earn high school credits as fast as they are willing to work. Some students adjust so well that they end up going to post-secondary school. The FALS provides an online curriculum including credit recovery courses that provide for flexibility, customization and variety of courses.

Bayshore Community Academy collaborates with community members to offer hands-on projects, innovative use of technology, and a learning environment focused on academic excellence and success in a global economy. We achieve our mission through:

21st Century Learning

- **Projects** a new kind of learning that is hands on, flexible, and adaptable to all learning styles.
- **STEM Education** integrates science, technology, engineering, and math in all areas of learning.
- **Technology** connects students to anyone anywhere, benefiting by diverse perspectives, building communication and collaboration skills, and preparing students for life in a global world whether virtually or geographically.

Environmental Focus

Students achieve high academic standards by applying learning to projects that interest them AND inspire appreciation for local natural resources.

Community

Our community becomes a classroom as students interact with community members on real projects that contribute to everyone's quality of life.

Grade Level: 4K

Osceola Charter Preschool was developed to provide a public choice for four-year old kindergartners in Osceola, with specific attention to each child's social, emotional, and behavioral development. Using a blended model from the Creative Curriculum for academic areas, the Second Step Curriculum for general social/emotional development, and Play Therapy techniques for behavioral interventions, the school's goal is to provide early intervention for children and families in order to smooth their transition into full-day kindergarten programs.

Osceola Charter Preschool operates on a model of four half days per week, with children attending approximately three hours per day, either morning or afternoon. Groups run from 18 to 20 children, with children with disabilities from the Early Childhood program blended in based on parent choice or child need. Instructional themes are utilized, as is standard in most preschool settings, to organize learning opportunities over the course of the school year.

Grade Levels: 4K-05

Recent scientific evidence is changing our common belief about human development. Research supports that the brain changes in structure and chemistry every day. We have learned from neuroscience that how and what we teach has a profound impact on those changes. Neuroscience at Shapiro is **MBE (Fischer, 2009)**. When we intentionally combine information from psychology (**Mind**) and brain research (**Brain**) directly to classroom practice using specific strategies, structures and tools (**Education**) we are better developing the whole child. Some examples include teaching thinking skills, having classroom jobs for all children, a safe spot, understanding input limitations (how much information the brain can handle at once), and being able to read and regulate the emotional states of our learners. Data indicates that using an MBE approach has had a positive effect on culture and student achievement. These findings come at a pivotal time when critical analysis, problem solving, and collaboration are going to be essential not only for survival but for competition in a 21st century global market economy.

Grade Levels: 4K-05

Racine Civil Leaders Academy is an urban neighborhood public charter school of the Racine Unified School District. This unique school implements project-based learning as its school-wide instructional model, while prioritizing math, science, and community leadership. The RCLA is:

- Designed to provide academic excellence and meet the needs of lower-income and minority students in a way that closes the achievement gap.
- Driven to build trust with families and community members in order to ensure student success.
- Excited to help students embrace their culture in order to develop a strong self-image.

The vision of the RCLA is to prepare students to become empowered community stakeholders by building self-esteem, fostering leadership abilities, and developing a global mindset. The RCLA's mission is to encourage critical thinking in a project-based learning environment, which maximizes individual potential and ensures that all students have the knowledge and assets to meet the demands of the 21st century.

Grade Levels: 4K-05

Northwoods Community Elementary School is a school that creates a variety of project-based learning opportunities for students in grades 4K-05 to achieve academic success and deepen community roots. By establishing strong and collaborative student, teacher, parent, and community partnerships, a Northwoods Elementary student learns, from an early age, how lifelong learning is building knowledge with others. The NCES has a rich history of education at its rural site. Located in a region of Wisconsin's northern lake and woodland countryside, NCES reflects the small farms, forestry practices, and tourist recreation economy, all of which are centered on the natural resources abundant at the students' doorsteps. Environmental education is emphasized throughout the curriculum. The project-based pedagogy takes full advantage of the surrounding area for students to develop an understanding of their community; its social structure, its history, its economy, its music, its art, and its ecology.

In short, community projects and field study opportunities abound. By studying the watershed, participating in community projects, raising and caring for animals, designing and sustaining a productive garden, interviewing elders about the cultural heritage of home, and helping to serve the needs of others, these students are engaged both academically and socially in the life of the community.

Grade Levels: 06-08

Catalyst Charter Middle School uses a project-based curriculum and approach with an emphasis on digital citizenship and Science Technology-Engineering-Math (STEM). It is intended for students who prefer a more hands-on approach to learning with an integrated curriculum which cuts across traditional subject area boundaries. Catalyst projects are rigorous, standards-driven, and cross-categorical incorporating benchmarks in both core classes and electives. Every day, students work in a blended-online environment, participating in World Language courses while engaging in electives such as band and choir.

The Catalyst student transitions from teacher-led to student-led projects through the process of project-based learning. All projects require students to meet the Common Core Standards, ensuring that their school day is focused, rigorous, and engaging! Digital citizenship is developed through global projects. Catalyst puts advanced technology into good practice as students use Apple products and Chromebooks as tools to accomplish our three goals: creating, communicating and collaborating.

Grade Levels: 09-12+

The Renaissance Academy is an innovative, charter school that offers three programs to meet the needs of a wide range of learners. Our specialty lies in the area of technology. All students are required to take at least one and a half credits of innovative technology classes, and students in the day program are offered a variety of software options. With the use of a CNC machine, students are able to participate in entrepreneurial student led businesses where they manufacture furniture for both the school district and community. Pre-engineering has become a focus to help students to continue to think critically and focus on problem solving and life-long learning.

During the day, students in grades 09-12 earn a standard high school diploma. Students are offered the same core curriculum class content as students attending River Falls High School, but in a flexible, personalized manner. Classes are planned according to sound constructivist theory and are project-based and interdisciplinary where appropriate. We ensure that all students have a firm grasp of the basic skills, complete two years of Spanish, participate in a service learning component, and complete a mentoring-apprenticeship placement in their senior year.

Grade Levels: 09-12

The mission of Cirrus High School is to innovate and adapt in order to challenge and inspire students to become life-long learners, successful adults, and responsible citizens. We do this in a student-led, project-based environment. Cirrus students develop the confidence and ability to successfully meet adult, career, and civic challenges and opportunities. The student-led, project-based learning model enables students, parents, and educators to explore and develop an increasingly effective and efficient learning atmosphere that emphasizes personal interests and aptitudes, inquiry, state and national academic standards, 21st century skills, community involvement, real-world experience, and the demands of a global economy.

Cirrus is a small school with a maximum enrollment of 40 students. The school was developed to give students in grades 09-12 another great option in the Rosendale-Brandon School District. Students at Cirrus drive their education by developing projects within their own interests and goals to meet academic standards. Students work closely with advisors who encourage students to follow their passions and help connect these passions to projects. At Cirrus, students move at their individual pace, focus on areas they are most interested in, take responsibility for their learning, develop their independence, and become active members of a learning community.

Grade Levels: KG-12

The SCVAVE serves students in grades KG-12. The SCVAVE was developed to better serve the unmet needs of students in the St. Croix Valley area, yet is available to students throughout the state. Our mission is to prepare our students with exceptional character, knowledge, and skills to thrive in their changing world.

The charter school uses the potential that technology offers to extend the educational opportunities for students and further develop their capabilities as independent learners. Personal learning plans are developed to allow students and families to navigate their own path toward graduation and lifelong success. Experienced local teachers oversee all programming needs. We pride ourselves on frequent teacher/student/parent communication to provide support for the individual

needs of each learner. We are a small district that believes in doing what is best for each individual student while providing a high quality educational experience.

Merrimac, WI 53561
(608) 493-2217
sid.malek@saukprairieschools.org
Grade Levels: PK-05

Utilizing a community-based model, MCCS combines the principles of place-based education with its existing multiage instruction (grades PK and grades 03-05), involving parents and the community in curriculum development, education, and governance. The curriculum is inspired by and derived from the diverse community that it serves, utilizing the local history, culture, and natural resources surrounding Merrimac to expand the classroom beyond school grounds and to relate classroom education to the outside world. The Merrimac Community Charter School has a strong focus on literacy and mathematics skills achievement and integrates core material with project-based learning. With a project-based learning component, MCCS supports a constructivist learning approach where students are encouraged to use skills taught in the classroom to construct their own knowledge for various projects, both within the school and in extramural opportunities.

dsimmons@sheboygan.k12.wi.us
Grade Levels: 09-12

Central High School is an innovative, project-based charter school in the heart of Sheboygan. It seeks to serve students who may not have found success in other school settings and those for whom the traditional large high school is not a good fit. The CHS will serve students in grades 09-12, ranging in age from 14-21. The 2011/12 projected enrollment is 175 and the maximum enrollment is set at 200 to maintain the atmosphere and advantages of a small, personalized high school. The CHS offers half- and full-day schedule options, summer credit recovery, and extended day programming. Extracurricular activities include student council, school store, intramural co-education athletics, and a student assistance program.

The CHS will implement: 1) innovative educational approaches, and 2) multiple strategies utilized by full-service community schools, i.e., community- and family-friendly strategies that support students beyond their academic needs. The primary instructional format is project-based learning. With teacher guidance, students will tackle projects of their own design and will study real world and community-linked problems and issues.

177. Elementary School of the Arts and Academics

Susan Griffiths
3508 North 21st Street
Sheboygan, WI 53083
(920) 459-0947
sgriffiths@sheboygan.k12.wi.us
Grade Levels: 4K-05

The Elementary School of Arts and Academics is a 4K-5th grade charter school serving a socio-economically and culturally diverse student population in the Sheboygan Area School District. Through a curriculum that integrates the arts and academics, students with diverse learning styles will be able to engage content in a manner that best fits the full spectrum of learning needs. Local artists, community arts agencies, parents, and staff work as a team to create a learning environment that fosters creativity and learning in all students.

Providing a learning environment where students are able to go into greater depth is accomplished through thematic units where dance, drama, language arts, math, music, science, social studies, and visual arts are integrated in a manner that sees learning as a problem to be solved through multiple solutions. Ideas are expressed through the multiple intelligences of: visual (dance), musical (music), kinesthetic (dance), verbal linguistic (language arts), logical/ mathematical (math/science), interpersonal (drama), intrapersonal (reflection), and naturalistic.

Duane Simmons
721 North 6th Street
Sheboygan, WI 53081
(920) 459-0945
dsimmons@sheboygan.k12.wi.us
Grade Levels: 09-12

The George D. Warriner High School for Personalized Learning will serve high school students in grades 09-12. In 2007-08 the school served 28 students. Enrollment is projected to increase by approximately 30 students per year, with a total of 109 students in 2010-11. The purpose of the charter school is to provide students with learning opportunities that fit their learning styles as well as meet their individual academic and social needs. This school supports our diverse student population by providing opportunities for students to learn at their own pace and in flexible locations. They will learn within relevant and motivating contexts and demonstrate knowledge and abilities required by the Sheboygan Area School District's Standards and Benchmarks.

The charter school is focused on a personalized learning plan combining individualized instruction with online instruction for each student. These learning plans will be the result of a partnership between teachers, parents, and students. Each student plans with a teacher to identify a learning context that matches his or her instructional, social, and professional goals.

179. George D. Warriner Middle School

Duane Simmons
721 North 6th Street
Sheboygan, WI 53081
(920) 459-0945
dsimmons@sheboygan.k12.wi.us
Grade Levels: 06-08

George D. Warriner Middle School for Personalized Learning in Sheboygan is an innovative choice for students interested in a self-paced, more individualized learning experience. Parents, students, and other community members have expressed interest in creation of this option since 2007, when the current George D. Warriner High School for Personalized Learning was established. That model, and ours, begins with the belief that building relationships, including strong student-parent-advisor rapport, is the key to student engagement and success. The use of flexible scheduling, including full-day, half-day, and online options, only underscores our commitment to meeting the unique needs of students and families.

The Warriner Middle School vision has evolved based on pre-planning research on middle school student needs as well as focus groups of parents who were excited to provide input into a successful and new kind of learning environment for their child. What came out of that planning work was a curriculum design that is unique in its *four-pillar framework*:

Project-Based learning—Students gain in-depth knowledge by exploring topics of personal interest while meeting Common Core State Standards in English, Social Studies, and other subjects.

Technology-infused learning—A variety of digital technologies help students research, collect, apply, and demonstrate their learning. Interactive computer-based math & science courses (Compass Learning) provide learning that is personalized to students' individual skill levels and pace.

21st Century Skills—Students receive direct instruction and practice in academic and real-world skills for the 21st century, from collaboration and communication to problem-solving skills.

Problem-based service learning—Students identify real community needs, create solutions, and act upon a research-based plan resulting in them becoming more informed and engaged young citizens. Community partners support students (e.g., providing service platforms, teaching needed skills, etc.).

Est. 2011

180. I.D.E.A.S. Academy

Ted Hamm
830 Virginia Avenue
Sheboygan, WI 53081
(920) 459-3504
thamm@sheboygan.k12.wi.us
Grade Levels: 09-12

The I.D.E.A.S. Academy prepares students in grades 09-12 for college and a future that increasingly values creativity and innovation through the integration of academic content with design, engineering, arts, and sciences. The I.D.E.A.S. Academy offers an education that provides students with the knowledge and skills needed in the 21st century through a comprehensive curriculum that allows in-depth understanding through project-based and disciplinary learning. At I.D.E.A.S. Academy we are dedicated to preparing students for our rapidly changing world, one that increasingly values conceptualization, innovation, and empathy. We are moving into an era where creative thinking is valued as much as critical thinking and basic communication skills are no longer enough. Those that thrive will have the ability to understand what moves humankind, the ability to create relationships, and the ability to think holistically. We live in an unprecedented time, one that requires an educational shift to ensure our students are prepared for the future. At I.D.E.A.S. Academy students learn to use their mind well and thrive in an era with exponential growth in technology and information. Our graduates are powerful communicators, innovators, and leaders.

Because the school will offer a flexible education designed to best meet the needs of each unique learner, it utilizes a comprehensive "hybrid approach" featuring a variety of educational models (integrated content areas, project-based learning led by students AND teachers, and a combination of online and face-to-face instruction). The I.D.E.A.S. Academy exemplifies a small school environment where students learn what it means to be part of a community.

Est. 2007

181. Lake Country Academy (LCA)

Shawn Dzwonkowski
4101 Technology Parkway
Sheboygan, WI 53083
(920) 208-3020
sdzwonkowski@lakecountryacademy.com
Grade Levels: 4K-08

The LCA charter school is in the Sheboygan Area School District, serving 405 students in grades 4K-08.

The LCA is a non-instrumentality public charter school which supports high academics and strong character education. Direct Instruction is used as a teaching method and to group students in math, reading and spelling by ability, not by grade. These groups are usually smaller than a regular class size and a great deal of monitoring is done to ensure that each student is placed at the level where he or she is most successful. Students are with their grade-level peers for science, language arts, classic literature, humanities, history, geography, music and visual arts using the Core Knowledge curriculum that teaches essential facts and skills.

Each grade is in sync with the next so students build from one year to the next on knowledge gained from each subject area. Spanish is taught in grades KG-08. We also integrate a core virtue program in classwork, behavior management and the overall culture of the school.

Students learn and apply values that are commonly believed to be important such as responsibility, respect, perseverance, kindness, generosity, and honesty. A different virtue is highlighted each month and is the focus of weekly all-school assemblies. The school culture is also supported by maintaining a uniform policy for staff and students, families volunteering 40 hours per school year, and students engaging in service opportunities around the community.

Est. 2011

182. Mosaic School, The

Ted Hamm
830 Virginia Avenue
Sheboygan, WI 53081
(920) 459-3504
thamm@sheboygan.k12.wi.us
Grade Levels: 06-08

The Mosaic School offers a challenging academic program with a focus on innovative thinking and creative problem-solving using the College of William and Mary curriculum. Students are taught and encouraged to become independent learners to prepare them for high school and beyond. Our approach allows students to make connections, notice patterns, analyze, and problem solve through multiple perspectives. Students develop their own reasoning around concepts and ideas. A collaborative environment creates real-world experience in articulating their thoughts and reasoning as they apply their knowledge in creative and innovative ways.

Our project/seminar time provides the opportunity for students to extend their academic knowledge in projects based on individual interests. Project seminars consist of a six-week exploratory seminar in two disciplines followed by a six-week project development time. The first six weeks of every trimester will allow students to explore two seminars in depth, developing skills specific to those fields. The following six-week period will be spent creating projects that utilize the multiple intelligences, synthesize academic knowledge, and develop 21st century skills. Each semester, students will be able to

pursue a personal interest by developing their own project or choosing from a menu of discipline-based questions to kick off their project. The project menus will provide the foundation for students to gradually progress to self-developed projects in music, movement, drama, visual arts, and design / engineering.

183. Northeast Wisconsin Montessori School (NEW)

Bill Klein
411 East Washington Avenue
Cleveland, WI 53015
(920) 693-8241
bklein@sheboygan.k12.wi.us
Grade Levels: 4K-06

The NEW Montessori charter school initially served 20 elementary students in a multiage classroom spanning grades 01-06 with full enrollment of two classes of 28 students in the fall of 2010. In 2010-11 we increased our grade levels to 4K-06. The purpose of the NEW Montessori Charter School is to offer an authentic Montessori elementary program, a method of education that provides multi-sensory, individualized learning opportunities. This experiential approach encourages exploration, research, and student participation in classroom decisions.

Multiage Classroom & Flexible Grouping: The initial classroom includes a six-year age span. This structure allows for flexibility in the learning pace. In addition to individual work, students work in small groups exploring the content areas through specific skill lessons or projects. Some of the “research work” is also implemented in small groups. The intent is to foster a sense of community and to develop skills in cooperation, team work, and social cognition.

184. Sheboygan Leadership Academy

Peggy Henseler
1305 St. Clair Avenue
Sheboygan, WI 53081
(920) 208-5930
henseler@leadership-academy.us
Grade Levels: 4K-08

Sheboygan Leadership Academy is a 4K–08 school serving 186 students. With a focus on virtue education and service learning and a commitment to high academic standards, our graduates are prepared to take on leadership roles in high school and beyond. The Virtue Project is an integral part of our curriculum. The 52 virtues are infused in all subject areas and in school life in general. Service learning grows out of the curriculum; it is not an addition to it. Through service learning, students are guided to find real world solutions to real world problems. We prepare our students to be successful in their future educational endeavors and valued, contributing members of society.

Sheboygan Leadership Academy provides a strong, thorough comprehensive curriculum in all core subject areas. Saxon Math is a thorough mathematics program that focuses on the comprehension of basic skills through a gentle development of concepts and the practice of those concepts over a considerable length of time. The Spalding Method is a language arts program that is explicit, interactive, diagnostic, and multi-sensory. It is dedicated to teaching all students to spell, write, and read. In addition to the core subject areas; Spanish, music, art, and physical education are taught to all students in grades KG-08. The mission of the Sheboygan Leadership Academy is to inspire students to become leaders through their academic achievement, moral development, and service to others.

tkenney@shorewood.k12.wi.us
Grade Levels: 09-12

New Horizons for Learning offers learning structures that fully engage students by providing a meaningful and challenging academic component integrated with a motivating and empowering life transitions component. New Horizons for Learning serves at-risk students in grades 09-12 and is comprehensive in addressing the needs of the whole child (academic, career/postsecondary, and social/ emotional needs). It offers a low student-teacher ratio of 12:1, with emphasis on student participation, self-advocacy, and self-assessment which helps foster a feeling of being valued and a contributor to one's community. Students work with the teacher for three to four hours per day and are engaged the other half of the day either in a non-core class, an internship, or a field learning experience via community resources, area employment, and/or co-curricular activities.

The charter school's classroom component utilizes project-based learning methods integrating common core standards and core area proficiencies, cooperative learning, online curricula, and supplemental and enrichment materials.

toswald@spartan.org
Grade Levels: 06-08

Innovations STEM Academy is a 06-08 grade STEM-focused school utilizing the principles of the Challenge Based Learning (CBL) model. Innovations enhances students' real world problem solving abilities and experiences. In a smaller setting, students receive immediate support and guidance which will enhance both academic and social development. Universal high standards, collaborative learning environment, individualized learning plans, and community partnerships ensure that every student has equitable access to stimulating coursework, exceptional instruction, and empowering relationships with mentors. The challenging curriculum is designed to be student centered which will enable the intellectual development, technological fluency, and leadership of its students.

The school features unique teaching practices that include CBL, flipped classrooms, and active learning strategies to engage all learners. Daily schedules include core subjects, STEM projects, collaboration time, and field studies. Innovations STEM Academy philosophy includes:

- Utilizing innovative educational strategies.
- Preparing students to be global thinkers.
- Promoting a work ethic necessary for students' success in today's business environment and in their future.
- Cultivating higher-level critical thinking skills necessary in the real-world.
- Preparing students for future educational endeavors.

187. Lakeview Montessori School

Lakeview Montessori School offers an achievement-oriented, student-driven educational choice to pre-kindergarten, through sixth grade students and their families. The school nurtures the whole student with daily, specific activities that facilitate growth in the physical, emotional, social, aesthetic, and cognitive domains. The openness of the learning community is strengthened by its focus on nurturing sensitivity for living things: plants, animals, and each other.

Cognitive success is assured as each student advances at his or her own pace while studying music, language/reading, mathematics, science, art, history, and geography. Student-directed learning allows students to advance academically as fast and far as they desire, or to work slowly with a more gentle increase in challenge. Teachers receive intensive training in the Montessori philosophy and methods. Lakeview Montessori School readily involves parents and community members in the educational process. Parents and community members serve on the Site Council, thereby having direct control over the direction, accountability, and future of Lakeview Montessori School. They participate in their child's educational experience as well as in the management and global evaluation of the school. Lakeview Montessori School is a member of the American Montessori Society. Visit us at our website:

188. Sparta Alternative Independent Learning School

Sparta Alternative Independent Learning School provides an educational journey for at-risk high school learners (grades 09-12) and those ages 18 to 20 who are in danger of not graduating or who did not graduate due to lack of sufficient credits. Sparta Alternative Independent Learning School provides a community where students take responsibility for their learning. Students and teachers develop customized education plans for which students take full responsibility. Students are now in school to master subjects they have chosen and to graduate. This approach to the core academics of math, reading, writing, and technology literacy is paired with a focus on employability skills, social skills, coping skills, lifetime wellness, and life planning.

Higher-order academic skills are assessed through yearlong projects presented to review panels of teachers, peers, and experts in the field of study.

Grade Levels: 07-09

Concerned About Reaching Everyone is an alternative school for at-risk students. It serves 45 7th-9th grade students in need of a smaller school environment that provides individualized instruction and support. The program consists of a block schedule with certified teachers, grade levels: 07-09, providing instruction for students who have been identified as at-risk. An at-risk student is defined as a student facing truancy issues, social or emotional problems, or low academic abilities. Teaching staff work on sound academics and develop the rapport, support, and nurturing environment necessary for a successful alternative program at the junior high school level. Retired senior volunteers assist the students as tutors and mentors. The school has expanded to include adventure education, community service, and technology integration.

The Tomorrow River Community Charter School wishes to develop the whole child through nature, art, movement, language, and music in an innovative, collaborative, and supportive educational environment based on inspiration from Waldorf, Environmental Education, and other proven pedagogy.

The vision of TRCCS is expressed perfectly by Liv Helmericks of Mountain Sage Community School, a Waldorf-inspired charter school in Colorado. “Our intention is to present the world as a beautiful and wonder-filled place where anything is possible. Math IS music, science IS art, and the totality of the way the world works IS poetry. This powerful method provides all children, despite their differences, the opportunity to completely participate in their own education, cultivating compassion and respect for self, others, and the natural world.”

The Lighthouse Learning Academy Charter School allows for flexibility, differentiation, and increased depth of discussion in all curricular areas. By structuring the educational plan around the student and family, we believe that our students are able to explore ideas, participate in unique learning opportunities, and work at a pace best for their learning style. This allows for deeper learning and increased academic achievement.

Pascual Rodriguez
1028 South 9th Street
Milwaukee, WI 53204
(414) 389-4773
pascualr@unitedcc.org
Grade Levels: 4K-08

The Bruce Guadalupe Community School was granted a charter by Milwaukee Public Schools in July 2000 and serves students in grades 4K-08. The school has a strong commitment to improving the educational status of Hispanics. An important part of this commitment is that each student becomes proficient in English while maintaining facility in Spanish. The ultimate goal of BGCS is to exceed national norms in all subject areas at each grade level based on the Iowa Test of Basic Skills. Toward this end, BGCS offers an extended school year that includes a five-week summer school program and an after-school program that provides academic and tutorial services.

198. Capitol West Academy (CWA)

Donna Niccolai-Weber
3939 North 88th Street
Milwaukee, WI 53222
(414) 465-1355
dweber@cwacademy.org
Grade Levels: 4K-08

Chartered by the University of Wisconsin-Milwaukee, CWA opened in the 2004-05 school year serving children in grades KG-03. We have grown to offer grades 4K-08, with a total enrollment of nearly 300 students. Our mission is to provide a safe, nurturing education environment where children, with the support of their families and the community, learn and grow to be successful lifelong learners and productive citizens. The CWA provides a structured environment with an integrated curriculum, in which teaching on a given subject overlaps into various academic areas, as well as rigorous academics and a focus on character education. We are committed to nurturing and developing students who are prepared socially and academically to enter college-preparatory high school and young adulthood with a clear vision of success and who embrace lifelong learning. We stress character development, which teaches the school's core values of respect, responsibility, honesty, and achievement. We have received yearly honors from the Wisconsin Character Education Partnership and national awards from the Character Education Partnership for our innovative character education initiatives. Our strong parental involvement boasts 99.7% yearly attendance at parent/teacher conferences and daily communication through the Passport to Success program. Our educators understand how the structure and growth patterns of the brain affect learning, and they offer a neurodevelopmentally informed, trauma sensitive philosophy and practices that support the needs of all of our students. The CWA has won state and national awards for its accomplishments in promoting character education.

202. School for Early Development and Achievement (SEDA)

Nicola Ciarro
2020 West Wells Street
Milwaukee, WI 53233
(414) 937-2059
nicola.ciarro@mcfi.net
Grade Levels: PK-02

The mission of the SEDA is to increase the developmental competencies and educational achievement of children as a solid foundation for success throughout life. The SEDA provides early childhood education for children with and without special needs, serving grades PK-02. Class sizes are small, so every child benefits from individualized attention. The SEDA’s experienced professional team includes an occupational therapist, speech therapist, special education teacher, and full-time social worker.

The mission of the SEDA is to increase the developmental competencies and educational achievement of children as a solid foundation for success throughout life. We also consider parents our partners in educating the children. Parents in Education is our parent group that meets monthly to encourage involvement in the children’s education.

The SEDA's year-round school schedule revolves around the Baltimore curriculum, block scheduling, multiage classroom designs, and a Direct Instruction reading coach. The SEDA also administers the Northwest Evaluation Association testing protocol.

The SEDA offers child care serving infants and toddlers, ages six weeks to three years. The SEDA Early Achievers Child Care is open year-round, and serves all children including those with disabilities and special needs.

Windlake Elementary
Grades 4K-03
2433 South 15th Street
Milwaukee, WI 53215
(414) 643-9052

jkotsonis@seedsofhealth.org

The SOHE School is a 4K-08 school chartered through the University of Wisconsin-Milwaukee (UWM) and operates under the auspices of Seeds of Health, Inc. The SOHE School serves 450 students at two campuses: grades 4K-03 at Windlake Elementary, and grades 04-08 at Windlake Academy. Students who attend SOHE can transition to one of Seeds of Health's high schools: MC2 High School, Tenor High School, or Veritas High School.

Theresa Yurk, Principal
Windlake Academy
Grades 04-08
1445 South 32nd Street
Milwaukee, WI 53215
(414) 672-0726

tyurk@seedsofhealth.org

The mission of SOHE is to work in strong partnership with parents and community to fully develop the physical, emotional, social and intellectual potential of each child in a safe and supportive learning environment. This is accomplished through small class sizes, a strong family component, and extra-curricular activities that promote positive stewardship.

Student growth is measured through the Measures of Academic Progress assessment, teacher designed assessments, and state defined assessments. The overall program model is assessed using the Baldrige model in conjunction with other quantitative and qualitative measures.

The SOHE School offers an after school program for students in grades 4K-06 at the Windlake Elementary campus.

The SOHE School has been a recipient of the Wisconsin Department of Public Instruction's School of Recognition Award in 2010, 2012, 2013, 2014, and 2015, and SOHE has been recognized in a 2014 study by UWM as one of the most successful schools in the City of Milwaukee.

Grade Levels: 09-12

Opened in 2005, Tenor High School serves 235 students in grades 09-12. Tenor is chartered through the University of Wisconsin-Milwaukee and operates under the auspices of Seeds of Health, Inc. Tenor High School's unique dual certification program provides students with an opportunity to earn their high school diploma and college credits while attending classes at Milwaukee Area Technical College (MATC) during

their senior year. Students are able to earn an MATC program certificate or technical diploma, credits for an associate's degree, or credits to be transferred to a four-year college or university.

Student growth is measured through the Measures of Academic Progress (MAP) assessment, teacher designed assessments, and state defined assessments. The overall program model is assessed using the Baldrige model in conjunction with other quantitative and qualitative measures.

Tenor High School has been recognized locally and nationally as an outstanding school. Tenor has been a recipient of the Wisconsin Department of Instruction's School of Recognition Award in 2013, received a Bronze Medal from *U.S. News & World Report* in their 2014 Ranking of Best High Schools, and was named a finalist for the Milwaukee Charter School Advocates' 2014 High School of the Year Award. In addition, Tenor received national certification in 2013 for its Project Lead the Way Program.

Grade Levels: 09-12

Veritas High School is chartered through the University of Wisconsin-Milwaukee and operates under the auspices of Seeds of Health, Inc. Veritas opened in 2001 and currently provides a traditional four-year college preparatory program for 252 students in grades 09-12. Within that common secondary education format, Veritas is purposefully organized as a small school environment to best support the academic and social growth of urban students. Veritas students develop positive relationships and learn from both their teachers and peers while engaged in a rigorous curriculum that includes core, advanced placement, and elective classes. Veritas also offers students a variety of extra-curricular activities including WIAA and club athletics.

Veritas currently participates in a unique college and career readiness mentoring program, "Mentor 2.0," in partnership with Big Brothers Big Sisters of Metro Milwaukee. Veritas freshmen are paired with mentors from the community who guide them on the path toward successful completion of high school and into their first year of post-secondary education. Veritas and Big Brothers Big Sisters are committed to making sure our students develop personal, academic, and career skills by connecting them to personal and professional networks.

Veritas was a recipient of the Wisconsin Department of Public Instruction's School of Recognition Award in 2015, was named one of America's Best High Schools for 2014 and 2016 by *U.S. News & World Report*, and received the 2015 Martin F. Stein Champion for Children Award in recognition of its partnership with Big Brothers Big Sisters.

208. Woodlands School—Bluemound Campus

Patty Rogers
5510 West Bluemound Road
Milwaukee, WI 53208
(414) 475-1600
patty.rogers@woodlands-school.org
Grade Levels: 4K-08

Woodlands School serves grades 4K-08 and offers an innovative educational program of excellence for the whole child in a multicultural environment that prepares the child for lifelong learning in a rapidly changing society. The school, under the chartering authority of the University of Wisconsin-Milwaukee, serves the richly diverse racial, ethnic, and socio-economic populations of the City of Milwaukee.

The school's core curriculum consists of language arts, mathematics, hands-on science, and social studies. Students are grouped in multiage classrooms with an average of 20 students, 1 teacher, and 1 teaching assistant. Learning is driven by students' curiosity and is focused through a project-based interdisciplinary approach, with students sometimes working independently and other times on cooperative learning projects with partners or in small groups. Students in all grades take specialty classes in music, art, physical education, library studies, and French language, which are also integrated into the core curriculum to deepen the educational experience. A Time for Living curriculum allows teachers and students to focus on their rights and responsibilities to one another, the community, and the world. It includes student service projects with disadvantaged populations in the community.

Student learning assessment focuses on teacher-written evaluations, student-designed portfolios, and standardized tests that measure progress toward academic goals and mastery of local and Wisconsin standards. Parents are closely involved in all dimensions of the school. Each family makes a commitment of 20 hours of voluntary service upon enrollment.

Est. 2013

209. Woodlands School East (WSE)— State Street Campus

Maureen Sullivan
3121 W State Street
Milwaukee, WI 53208
(414) 937-2000 ext. 1002
principal@woodlands-school.org
Grade Levels: 4K-08

The WSE provides an education that encourages discovery, exploration and creativity within a constructivist learning environment. The WSE places a strong emphasis on the integration of music, art, physical education, library studies, and foreign language (currently French) into the core discover-based curriculum. The school’s mission is to offer an innovative educational program of excellence for the whole child in a multicultural environment that prepares the child for lifelong learning in a rapidly changing society. Our philosophy emphasizes that involvement with people of many races and cultures enriches the growth of human understanding.

The WSE currently serves students in 4K-04 and will grow to serve 360 students 4K-08, adding one grade each year. The WSE’s goal is to reflect the demographics of the greater community it serves. While addressing the academic and learning needs of each student, we respect and embrace that which makes one unique, including but not limited to religion, culture, family structure, socio-economic status, and ethnicity.

The focus on the whole child forms the basis of the school’s philosophy. Teachers work closely with one another to integrate individual disciplines into a common theme. Using themes in teaching allows students to put basic skills into real life context.

Ann Princla
401 West Verona Avenue
Verona, WI 53593
(608) 845-4905
princla@verona.k12.wi.us
Grade Levels: KG-05

New Century School in Verona is Wisconsin's first parent-initiated, elementary-level charter school. It serves children in grades KG-05 in multiage classrooms. New Century School was founded as a partnership for learning among students, teachers, and parents. In the fall of 2010, New Century introduced an environmentally integrated curriculum. The classroom at New Century extends beyond the building's walls and into the surrounding natural areas, including the Upper Sugar River Watershed and Ice Age National Scenic Trail. The natural surroundings serve as the context within which core subjects (literacy, math, science, and social studies) are taught. The integrated curriculum provides an environmental context for learning and helps students acquire skills in all academic disciplines in an interconnected way, allowing for a consistent

and relevant context for all instruction. Beginning in 2014, New Century School also adopted a focus on science, technology, engineering, and math (STEM). Specific STEM units are being offered during the school day and also through an active after school program. The STEM concepts are also integrated throughout the curriculum along with maintaining our environmental emphasis.

Ann Princla
5830 Devoro Road
Fitchburg, WI 53711
(608) 845-4224
princla@verona.k12.wi.us
Grade Levels: KG-05

A dedicated group of parents founded VAIS, in 2010. The vision of the school is to educate children from grade levels KG-05 in two languages, Chinese and English, simultaneously; while developing global competency to prepare them to work and solve problems in tomorrow's rapidly evolving and increasingly interconnected world. This 50/50 immersion school allows learners to receive a half-day each of content-based instruction in Mandarin Chinese and English. The format allows the powerful connection between languages and brain development to enhance student achievement, and also drives competency in both Eastern and Western cultures. In 2015, VAIS was designated as a Confucius Classroom, via the Hanban Institute, allowing the school to receive grant money as well as access to materials to support Chinese cultural activities such as calligraphy, music, and Chinese New Year celebrations. The VAIS is the only public school in the state of Wisconsin to have received Confucius Classroom designation.

Grade Levels: 09-12

Laurel High School is an alternative educational choice for high school students in grades 09-12. Enrollment is open to all high school students in Viroqua. The typical charter school student is a nontraditional learner who needs more challenging and active learning opportunities than are available in the regular high school. The staff looks to offer a secondary-level education program that is student-designed, learner-driven, and supported by a true collaborative community effort.

The charter school's overall mission is to offer self-motivated individuals new approaches to meet their academic and technical education needs; to challenge students to meet high standards of academic and social achievement and performance; to foster positive, respectful, and trusting relationships; and to ensure a successful transition to life after school through firsthand experience in goal setting, job seeking, job keeping, and technical college or university preparation.

Katherine Klos
100 Blackhawk Drive
Viroqua, WI 54665
(608) 637-1605
kklos@viroqua.k12.wi.us
Grade Levels: 09-12

Vernon County Area Better Futures High School provides an alternative for students in grades 09-12 who are at risk of failing or dropping out of school because of difficulties integrating into traditional programs and meeting usual behavioral and academic expectations. The students have four main goals: (1) increasing academic achievement, (2) developing abilities to work with others, (3) increasing self-efficacy, that is, the ability to attain goals set out for oneself, and (4) graduating from high school.

Students have a variety of learning opportunities: small-group instruction, individual projects, internet courses, correspondence courses, job shadowing, experiential learning, distance learning, and other educational opportunities developed by the student and teacher as needed to meet the goals in the independent learning plan. The school has modified hours of operation, Monday through Thursday from 11:00 A.M. to 3:00 P.M. This allows students time to complete the required community-based learning program component.

Waukesha, WI 53186
(262) 970-1074
rnettesh@waukesha.k12.wi.us
www.eAchieve.com
Grade Levels: 06-12

eAchieve Academy—Wisconsin is devoted to making quality public education accessible for all students grades 06-12. A dynamic, interactive, virtual learning experience is delivered to students and their families who, for various reasons, are seeking a different kind of middle or high school environment. The mission is to provide a quality education for a wide variety of students by offering alternate solutions to traditional schooling utilizing current Internet technologies and proven teaching practices implemented by a team of professionals.

eAchieve has crafted a unique virtual middle and high school program that brings a comprehensive curriculum, technology, and choice together with individual needs and interaction. This multifaceted approach to education is based on strong learning partnership between parents, students, and their teachers.

eAchieve students access their district-approved courses at home via the internet. Instruction is provided by experienced, Wisconsin certified teachers who are highly qualified, trained subject matter experts. Students interact with their instructors in a variety of ways: e-mail, online discussions, and real-time online tutoring sessions (voice and whiteboard). eAchieve students can also access personnel, guidance, and career planning services, district student services, and library resources. eAchieve at Wisconsin is a comprehensive middle and high school program, and the content is appropriate for any middle and high school student in Wisconsin

220. eAchieve Elementary

Rick Nettesheim
222 Maple Avenue
Waukesha, WI 53186
(262) 970-1074
rnettesh@waukesha.k12.wi.us
Grade Levels: KG-05

eAchieve Elementary is a unique, proficiency-based virtual charter school serving students in grades KG—05, delivering a full elementary program online. Each week, the student's teacher creates a personalized learning plan specifically tailored to the individual student's needs and shares that plan with the family during their weekly, online check-in meeting. Parents are responsible for ensuring the teacher-assigned tasks get done over the next seven days in the same way parents ensure assigned homework in a traditional school is completed each night.

The teacher will also meet with the student and/or parents at other times throughout the week to conduct assessments, answer questions, demonstrate skills and the use of resources, and provide feedback.

The weekly learning plan will include a wide variety of learning activities and assessments. Since eAchieve Elementary is a proficiency-based school, students are not bound by grade levels and will be presented with learning activities, resources, and assessments at the level they are ready to learn within each content area.

Students are provided with a brand new laptop computer which will be theirs to keep after the successful completion of the school year. All online resources will be provided by the school as well. While there is no material, textbook, or registration fee, families will be expected to provide basic school supplies and other easy-to-find materials for hands-on and creative activities. Families are also responsible for ensuring they have a reliable Internet connection.

Even though students are going to school from home, this is not a Home-Based Private Educational Program since teachers are the ones making curricular, instructional, and assessment decisions and determinations for each student.

rgalante@waukesha.k12.wi.us
Grade Levels: 09-12

The Waukesha Academy of Health Professions offers exclusive educational opportunities for students grades 09-12 in the School District of Waukesha and open enrollment students from the greater Waukesha area who are interested in or wish to pursue allied health and medical careers. The academy provides a rigorous curriculum, focusing on:

- Academic skills in health occupations,
- Science and math courses required for the health and medical professions,
- Job shadowing and service-learning,
- Co-op, Mentoring, and Youth Apprenticeship programs,
- Project Lead The Way curriculum,
- Student choice and voice,
- One-on-one conferring sessions with staff through a comprehensive learner profile, and
- Choice of two curriculum pathways.

The first pathway prepares students for four-year college programs in pre-med/dental and various other health care professions. The second pathway prepares students for a two-year technical school programs and/or the workforce. Both pathways require students to participate in four years of health occupation classes; take specific courses in science, math, and English; focus around the learner experience; give access to a full complement of elective opportunities and/or AP classes; and expose them to a host of community health care partners and their real world experiences!

Grade Levels: 09-12

The Waukesha East Alternative School is an umbrella for grades 09-12 at-risk and high-risk students that are in need of an alternative environment to better serve their emotional and learning needs. The Native American-based “Circle of Courage” philosophy, which is based on the belief that at-risk youth become disengaged from school or society because their circle is broken, meets students’ needs for belonging, mastery, independence, and generosity. The school meets these needs in the following ways:

- Belonging, by constructive relationships with peers and staff;
- Mastery, by intense, focused, meaningful instruction in the core academics;
- Independence, by supervised, successful, monitored work programs; and
- Generosity, by service-learning opportunities in the community.

The program’s goals call for at least a 90 percent long-term success rate, a staff commitment to work in professional learning communities, and the informed use of technology as a learning tool.

223. Waukesha Engineering Preparatory Academy

Ryan Galante
401 East Roberta Avenue
Waukesha, WI 53186
(262) 970-3710
rgalante@waukesha.k12.wi.us
Grade Levels: 09-12

Waukesha Engineering Preparatory Academy educates high school students 09-12 in a rigorous and relevant curriculum focusing on science, mathematics, engineering, and technology to create student interest as well as create a vital pipeline of college and work-ready students in these areas. This charter school, through strong collaboration with experts in the engineering profession, community industry and higher educational institutions, provides a solid foundation in technical knowledge and skills that is not only vital for success in this field, but also gives them a step up in post-secondary education! This includes:

- Specialized courses at each grade level covering topics in all fields of study in engineering;
- Courses in language arts, science, math, and technology education which have a specific engineering focus and may count for college credit (such as transcript Project Lead The Way coursework and/or Advanced Placement courses) that will form the core academic requirements for academy students;
- Curriculum delivery that focuses on the learner experience and will utilize the latest advances in technology when possible such as computer software, robotics, and student-response systems;

- Community partner mentors who will provide students with opportunities for educational experiences both inside and outside of the school. These may include tutoring, career advising, and knowledge application experiences;
- Career counseling and job placement assistance;
- Access to state-of-the-art engineering and technology laboratory facilities through community partners;
- A focused, personalized exploration of suitability for employment in engineering and technical fields;
- Required participation in mentoring and internship experiences with area business and industry partners;
- Student choice and voice; and
- One-on-one conferring sessions with staff through a comprehensive learner profile.

224. Waukesha STEM Academy

James Murray
(262) 970-2510
jmurray@waukesha.k12.wi.us

Randall Campus
Grade Levels: KG-05
114 South Charles Street
Waukesha, WI 53186

Saratoga Campus
Grade Levels: 06-08
130 Walton Avenue
Waukesha, WI 53186

The Waukesha STEM Academy, the KG-08 Charter School of the School District of Waukesha, features an educational philosophy focusing on science, technology, engineering and mathematics (STEM) education. The school opened in September 2010 with 504 students currently in grades KG-05 at the Randall Campus and 325 students currently in grades 06-08 at the Saratoga Campus.

The Waukesha STEM Academy provides equal opportunities for all children to be involved in a unique, innovative, relevant, and rigorous elementary and middle school experience. Students receive differentiated instruction in the core academic areas through a STEM project-based curriculum. The STEM concepts and methodologies are integrated throughout all curricular areas. The STEM program is 21st century Skills driven, standards-led, and focuses on how students learn. Instruction is based on research on learning and teaching in grades KG-08 and on research on learning science and mathematics as it relates to culture, gender, and society. Technology is an integral component in the daily exploration of every STEM and 21st century skills infused subject.

225. School for Agricultural and Environmental Studies (SAGES)

Bruce McMurry
200 South Depot Street
Fox Lake, WI 53933
(920) 928-3136 Ext. 2601
bmcmurry@waupun.k12.wi.us
Grade Levels: 4K-07

The SAGES is the new Charter School for Agricultural and Environmental Studies, located in Fox Lake, opening this fall with 125 students enrolled from Fox Lake, Waupun, Beaver Dam, Randolph, and Oshkosh.

The SAGES offers a totally unique and interactive educational experience that focuses on excellence in core subject areas like math, English, science, and social studies while immersing students in the study of the area's rich environmental resources and agricultural heritage. Students at SAGES will spend mornings in traditional classes like math and English while afternoons will be spent engaging in a project-based learning and "digging deeper" into the study of the natural environment. Using key math, literacy, science, social studies, arts and technology skills, students will go out into the environment to conduct research, create projects, and gain a rich understanding of the agricultural history, biological diversity, and the future potential of the local environment. Project-based learning requires students to use 21st century skills like collaboration, creative thinking, communication and critical thinking in preparation for our changing world. Technology is an essential ingredient in student project research and development.

Shannon Young, Ed.D.
2607 North 18th Street
Wausau, WI 54403
(715) 261-0636
syoung@wausauschools.org
Grade Levels: 06-12

The EEA Learning Academy is an instrumentality school serving students in grades 06-12. The EEA's mission is to guide students to EXCEL academically, ENRICH their lives through positive relationships, and lead them to ACHIEVE lifelong success. One of the primary goals of EEA is to re-engage students who have become disenchanted with the traditional school setting. The school values are Preparation, Respect, Integrity, Determination, and Excellence. Emphasis is on cognitive, behavioral and social emotional engagement. The EEA provides an educational environment in which students succeed and grow academically and behaviorally. The EEA focuses on brain research in all situations including a 9 a.m. incentive start time for students who are getting all their work done because research indicates middle and high school students benefit from a later start time. EEA provides technology-based curriculum and direct instruction from teachers

for individualized learning. The curriculum includes content-based courses and teacher designed classes in core content areas, finance, health, physical education, service learning, and career planning.

227. Wausau Area Montessori Charter School

Michael Wridt
3101 North 13th Street
Wausau, WI 54403
(715) 261-0795
mwridt@wausauschools.org
Grade Levels: KG-06

The Wausau School District, in partnership with the Montessori Children's Village and Educational Center, established a charter school in the Wausau area serving students in five-year old Kindergarten through grade 06. The Wausau Area Montessori Charter School offers students learning experiences based upon the principles of Dr. Maria Montessori. As the Wausau population becomes increasingly diverse, the district and community realizes there is no single style or format of teaching that can successfully meet the needs of all children. The Montessori collaboration is a natural choice for this first elementary charter in Wausau because of its proven success for a wide range of children, from gifted to those with special needs. This venture has met with high acclaim in the community.

228. Wausau Engineering and Global Leadership (EGL) Academy

Shannon Young, Ed.D.
2607 North 18th Street
Wausau, WI 54403
(715) 261-0625
syoung@wausauschools.org
Grade Levels: 09-12

The Wausau EGL Academy is an opportunity for high school students in the Wausau School District and beyond. A Wausau EGL Academy graduate will be a student who has mastered rigorous academic standards through an innovative interdisciplinary and project-based learning environment.

The students will be confident in who they are and in their own capacity to matter to the world around them. This confident understanding and personal leadership competence will translate into productive action and a creative interest in the future of our community. Key components include:

- Engineering design and development projects,
- Interdisciplinary science/technology/engineering/math,
- Leadership development and small group application,
- Business/community ethics,
- Global cultural competencies and world language studies, and
- Technology infusion and practical competence.

Wausau EGL Academy will has become an exemplary model for collaboration—breaking down the walls of the classroom—bringing a variety of educational, business, and community organizations together around this innovative constructivist philosophy. Key partnerships with local engineering and business leaders provide real world relevance to our student's seminars, workshops, internships, and projects. The Wausau EGL Academy Governing Council comprised of a majority of community members and parents govern this school and lead this array of productive partnerships.

229. Wauwatosa STEM—Science, Technology, Engineering, & Math

Mike Heun
1060 North Glenview Avenue
Wauwatosa, WI 53213
(414) 773-1900
heunmi@wauwatosa.k12.wi.us
Grade Levels: KG-05

The Wauwatosa School District is committed to providing our students opportunities to experience science, technology, engineering, and math (STEM) integrated learning opportunities. A STEM-based curriculum provides students with interdisciplinary learning experiences between the school subjects of science, technology, engineering, and mathematics. The goal is to cultivate students who are:

- Critical Thinkers
- Effective Communicators
- Innovators
- Problem Solvers
- Effective Collaborators
- Self-Directed Learners
- Information and Media Literate
- Civic Minded and Engaged
- Financially and Economically Literate

The creation of relationships with public and private stakeholders in our community is vitally important as we work together towards improving STEM education both within and outside of our classrooms. The STEM provides an innovative and dynamic learning environment where students are encouraged to inquire, investigate, and discover the world around them.

230. Wauwatosa Virtual Academy (WVA)

Dean Heus
12121 West North Avenue
Wauwatosa, WI 53226
(414) 257-6821
heusde@wauwatosa.k12.wi.us
Grade Levels: 06-12

The WVA is a charter school commissioned by the Wauwatosa School District. We offer a full array of individualized, rigorous on-line courses to students in grades 06-12. The WVA prides itself on offering students class work that is engaging, flexibly-paced, and aligned with state standards. The WVA offers customized programming to full- and part-time students within Wauwatosa and throughout the state of Wisconsin.

Students can access their courses anywhere there is internet access. They are monitored not only by Wisconsin-certified online teachers, but also by a WVA school counselor and teacher from Wauwatosa School District. In addition, students are supported locally through a designated, experienced teacher and guidance support network. Students interact with instructors via real-time chat, e-mail, LiveLessons, classroom discussion, and phone.

The WVA, in partnership with Connections Learning, was commissioned by the Wauwatosa School Board to broaden its efforts locally and throughout the state in order to offer students meaningful options to traditional education. The WVA has been successful with students looking for rigor and an individualized/accelerated pace as well as students who may have struggled with traditional school settings in the past.

Lisa Colla
9004 West Lincoln Avenue
West Allis, WI 53214
(414) 328-6535
collal@wawmsd.org
Grade Levels: 07-12

Shared Journeys is located in West Allis and is an instrumentality charter school of the West Allis/West Milwaukee School District, serving pregnant and parenting students.

This high school charter provides a menu of educational as well as outreach and community support options to best meet the unique needs of each individual student. Students are educated both in parenting and academics with potential coursework including: Literacy Investigations, Power Hour, Child Development I and II, Career and Social Aspects of Society I and II, Prenatal Coursework, Independent Study, Cooperative Education Employment as well as Edgenuity for online general studies. All the courses can be taken in a blended educational setting.

At Shared Journeys the belief is that all students must be prepared to positively parent their own child(ren) and achieve post-secondary training in a chosen career. This supports success in the 21st century.

Poconnor@wbsd-schools.org
Grade Levels: 07-12

Pathways Charter School utilizes project-based learning in an interdisciplinary learning environment to assure students have mastered State Standards while focusing on the 16 Career Clusters. Students implement their school-issued technology as a creation tool to show standard mastery through roughly 4-week career-exploration projects while also demonstrating employability skill mastery. We use the relationship of technology, core academics, and our student's individualized learning plans to foster differentiated instruction that addresses the variety of learning styles, interests, and abilities found within our school. Our unique focus promotes strong ties to the local business community, which yields field experiences to further our innovative learning arena. Juniors work through

employability skills curriculum to prepare them for their experience as a senior. Seniors complete two capstone courses, an internship in the field of their choice, and a civic service experience focusing on using their unique skill set in a volunteer position. Pathways' enrollment is capped at 95 students.

De Pere, WI 54115
(920) 425-1915
jlau@wdpsd.com
Grade Levels: 07-12

Phantom Knight School of Opportunity provides a unique, non-traditional learning community which offers opportunities for students in grades 07-12 to become productive, responsible citizens of our community. Students develop the skills and recognize their ability to attend post-secondary institutions of higher learning.

The foundation of the academic program at Phantom Knight is project-based learning. Instead of formal, subject-oriented classes, individuals and groups of students choose, plan, research, and complete academic study and hands-on projects that result in tangible, real-life products.

Learning experiences take place outside the confines of the school building (in the "real world") whenever possible; include community experts and cover broad academic areas of study. The activities require students to develop skills in time management, teamwork, communication, planning, self-assessment, problem solving, and meaningful applications of applied knowledge.

Waupaca County Charter School is a collaborative effort of six school districts, the Waupaca County Department of Human Services, and one of Wisconsin's Cooperative Educational Service Agencies, CESA 5. The school serves students in grades 06-12. The administrative relationship among WCCS participants is unique. Although the Weyauwega-Fremont School District holds the charter, the charter school is a non-instrumentality and is managed by CESA 5. CESA 5 employs all charter school personnel, including a coordinator who oversees daily operations and ensures educational goals are attained.

Jefferson Eastern Dane Interactive network is a consortium of eleven school districts in Dane and Jefferson counties that work cooperatively to provide high-quality, distance-learning opportunities for students. JEDI Virtual School harnesses the power of anytime, anyplace delivery of classes for students using emerging technologies. There are three key components that differentiate JEDI Virtual School from existing Wisconsin virtual schools:

1. Each student meets with a certified counselor to develop a personal education plan.
2. Each student is assigned a learning coach to guide the student on a daily basis. The coach is under the direction of a certified JEDI teacher and lives in close proximity to the student in order to maintain personal contact.
3. Asynchronous virtual courses are created and taught by master teachers from within the JEDI network consortium.

Grade Level: 4K

Collaborating On Readiness Education for Four-Year-Olds is a public charter school that was developed to serve as an organizational hub building a strong network of similar educational agencies and enhancing services to all families of four-year olds in the community.

The CORE 4 mission is to prevent or close achievement gaps that might occur among children with limited early learning experiences. Working together with area providers, CORE 4 increases opportunities for families to access quality learning environments and also links public health, social, library, and community agencies in codeveloping unique services to enable parents to better meet the needs of their growing children. The Parent Co-op component provides strong individual connections to each child's family through participation in the classrooms and family programs.

The CORE 4 school was developed through an Integrated Comprehensive Services model to better meet the needs of children who may present learning challenges. A range of services can now be offered, as the Whitnall School District

provides services to students with disabilities in both district and community settings. This ensures that each child will develop and grow with his or her peers, within the context of the community.

Mead Elementary School is a conversion charter school, designated as a Differentiated Service Learning Community. The unique school design addresses the social and academic needs of 430 students in grade 4K-05. The design is built upon four pillars of success, determined to provide Mead students with essential learning for their future.

The Four Pillars of Success model incorporates researched best practices to assure success for every child as follows:

1. Differentiation—Learning is differentiated using a workshop model based on the Optimal Learning Model for increased success for students. Access to high-level technology, differentiated literacy and math resources, and opportunities for academic choice are essential to this pillar. The staff operates as a Professional Learning Community to determine clear learning targets, common assessments, and strategies for enrichment and intervention.
2. Service-Learning—Students participate in meaningful service to their school and community by integrating curriculum through service-learning projects. Students are involved in real-life projects that teach academic skills and civic responsibility.
3. Goal-Directed—Essential to this pillar is a vision for the future including career exploration and community involvement. Students set learning goals and self-monitor their progress toward their learning in order to achieve their hopes and dreams for their future.
4. Asset-Building—The 40 Developmental Assets are the measure of success for this pillar. Responsive Classroom strategies focus on social and academic learning through the daily morning meeting and teaching of cooperation, assertion, responsibility, empathy, and self-control. Asset-building is the focus of Club Mead before- and after-school programs, parent and family activities, and parent communication. Free preschool programs and a variety of family activities are key to this pillar.
