Report Due Date and Auditor Requirements

- The school must hire an auditor to determine if the school is in compliance or not in compliance with the fiscal and internal control practices requirements.
- The Fiscal and Internal Control Practices report is due by December 15th each year.
- The auditor may not rely on oral or written representations of school's administration or staff when completing the required procedures.

Wisconsin Administrative Rule requires that the school hire an independent auditor to determine if the school is in compliance with the fiscal and internal control practices requirements. The school is responsible for ensuring the Fiscal and Internal Control Practices Report is submitted to DPI by December 15.

In order to determine if the school is meeting the fiscal and internal control practices requirements for the program, the auditor must complete the requirements specified in Wisconsin Administrative Rule and in the Fiscal and Internal Control Practices Report. The auditor may not rely on oral or written representations of the school's administration or staff. For example, schools that are continuing in the program or first year schools that select the surety bond option are required to prepare a budget by June 30 before the school year begins. The auditor must have evidence that the budget was timely prepared such as board minutes approving the budget. The auditor could not determine if this requirement was met based on the school principal stating it was prepared by June 30.

Response Letter Requirements

- School management must respond to any findings of non-compliance with a response letter:
 - The letter must be submitted with the fiscal and internal control practices report.
 - The response must explain how the school addressed the issue.
 - The response must explain how the school will ensure the issue will not occur in the future.

The school management must respond to any findings of non-compliance. The response letter must be submitted with the fiscal and internal control practices report. The response must be sufficient to explain how the school has addressed the issue and how the school will ensure the issue will not occur in the future. The department will review the responses to any non-compliance items and ensure that the school has properly addressed the non-compliance issue. The department will review the non-compliance items to determine if they identify that the school is not financially viable. See the financial viability section of this training for more information on the financial viability review and what happens when a school is determined not financially viable.

Evidence of Resolution

- If a non-compliance item(s) was not resolved, the school's management should provide evidence of the resolution to the DPI no later than the third Tuesday in January.
- This information can be emailed to DPIChoiceAuditReports@dpi.wi.gov

If the auditor identified that the non-compliance item was not resolved in the Report, management should provide evidence that the item(s) identified by the auditor are resolved. This evidence should be provided to the Department of Public Instruction no later than the third Tuesday in January. This documentation can be emailed to the address on the slide.
