

## Private School Report Cards

### Choice School Option for 2015-16 School Year's Data

Private schools participating in the Private School Choice Programs (Choice) have the option of receiving a Private School - All Students Report Card in addition to the Private School - Choice Students Report Card. The Private School - All Students Report Card includes both Choice and non-Choice students at the private school. Please see the [Private School - All Students Report Card Form](#) for further information.

The Private School - All Students Report Card Form is due to the Department of Public Instruction (DPI) by August 1. Choice schools who are not making a change to their prior year report card option do not need to send a new form. After August 1, the next opportunity to change the school's option for the Private School - All Students Report Card is the following August 1. Due to data collection processes, DPI cannot change the data collection for Choice and non-Choice students until the next school year.

The table below and on the following pages has the school's Private School - All Students Report Card option for the 2015-16 school year's data. This option applies to all locations included on the Notice of School's Intent to Participate.
