

## Special Needs Scholarship Program (SNSP)

### Facts and Figures – 2016-17 School Year

#### As of October 2017

In January 2017, there were twenty-six (26) private schools participating in the SNSP, with a total enrollment of 235 students or 228.4 full-time equivalent (FTE) in the program. In the 2016-17 school year, the SNSP state aid for a student enrolled full-time in the SNSP in grades kindergarten through twelve is \$12,000 per FTE.

Public school districts will have their resident SNSP students added by DPI to their membership counts for state aid and revenue limit purposes. This results in a one year delay for impacts to state aids and a three year phase in for revenue limits. Participating private schools will receive \$12,000 per FTE for each SNSP student from the department. The department will withhold the \$12,000 per FTE for each SNSP student from state equalization aid payments. If state general school aid payments are insufficient to cover the SNSP cost, the department will decrease other state aid payments made by the department to the school district for the remaining amount.

The table below shows the SNSP enrollment by grade level for the 3<sup>rd</sup> Friday in September count date and the 2<sup>nd</sup> Friday in January 2017 count date. The number of students listed in the table is reported by headcount and FTE. For example, a four-year-old kindergarten student may be counted as 0.5 or 0.6 FTE.
