

CCR IEP Learning Event Calendar

The following schedule of regional and statewide CCR IEP training opportunities will be updated as the department schedules or is notified of additional training events. Registration information for each event is listed.

The purpose of these CCR IEP learning opportunities is to increase participant understanding of the CCR-IEP 5 Step Process and how to use it to develop IEPs. Unless otherwise noted, participants are encouraged to attend in district teams. Participants should bring at least one copy of a student's IEP* to use as reference or be able access to an IEP online* during the session.

**participants are reminded of FERPA protections and are highly encouraged to redact personally identifiable information from IEPs they may happen to share with participants from other districts during workshop activities.*
