Community of Practice

Save the dates!

The Community of Practice for Related Service Providers is an online collaboration for occupational therapists, speech-language pathologists, and physical therapists to share best practices relating to the provision of services in schools. This series will be interactive using Zoom Meetings to amplify the voices of all who participate. *Collaborative partners of related service providers are welcome to attend.* Participants will be introduced to a topic and then break into virtual groups to share resources and hear from each other. Recordings of past meetings are posted on the [professional learning events page](#) and hyperlinked to this flyer.
