

Postsecondary Employment Goal Page update – More flexible Career Search functionality

Previously the application only searched for exact word matches in the Career Name. In the below example, the term 'biol' would not produce any results (and not give you an indication there are no results).

Previous functionality

12. The IEP must contain a measurable postsecondary goal in the area of employment related to the postsecondary education or training Demo will receive.

The options provided below are based on the Wisconsin Career Pathways modeled after 16 National Career Clusters developed by the States' Career Clusters Initiative (SCCI). For more information and resources on the clusters and pathways please visit: <http://www.wicareerpathways.org>.

The IEP Team must select one career cluster, one corresponding pathway, and one corresponding career. If the student's postsecondary employment goal does not fit into one of the careers for the selected cluster and pathway, use the 'Other' option to describe the student's career goal.

For a list of all career clusters and pathways visit: <http://www.wicareerpathways.org/Clusters/Map>. Click on the pathway for a list of corresponding careers.

Alternately, use the **Career Cluster/Pathway/Career Master List** of careers and their associated descriptions to identify the correct career.

Use the drop down menus to make your selections, OR use the search box to find careers that correspond with the clusters and pathways.

After completing or obtaining postsecondary education or training, Demo will be employed as a/an:

Step 1: Select a **Career Cluster**:

-- Select a Cluster --

- OR -

Search by Career Name:

biol

[Learn More](#)

Enter in the box below additional information, if any, the IEP Team may want to include.

Now the application will give you partial matches and also show you if there are no results.

New functionality – Partial Matches

12. The IEP must contain a measurable postsecondary goal in the area of employment related to the postsecondary education or training UUYOI will receive.

The options provided below are based on the Wisconsin Career Pathways modeled after 16 National Career Clusters developed by the States' Career Clusters Initiative (SCCI). For more information and resources on the clusters and pathways please visit:

<http://www.wicareerpathways.org>.

The IEP Team must select one career cluster, one corresponding pathway, and one corresponding career. If the student's postsecondary employment goal does not fit into one of the careers for the selected cluster and pathway, use the 'Other' option to describe the student's career goal.

For a list of all career clusters and pathways visit: <http://www.wicareerpathways.org/Clusters/Map>. Click on the pathway for a list of corresponding careers.

Alternately, use the **Career Cluster/Pathway/Career Master List** of careers and their associated descriptions to identify the correct career.

Use the drop down menus to make your selections, OR use the search box to find careers that correspond with the clusters and pathways.

After completing or obtaining postsecondary education or training, UUYOI will be employed as a/an:

Step 1: Select a **Career Cluster**:

-- Select a Cluster --

- OR -

Search by Career Name or Description:

biol

- Biological Science Teacher, Postsecondary (Science, Technology, Engineering & Mathematics - Science and Math)
- Biological Science Teacher, Postsecondary (Education & Training - Teaching/Training)
- Biological Scientist, All Other (Health Science - Biotechnology Research and Development)
- Biological Scientist, All Other (Science, Technology, Engineering & Mathematics - Science and Math)
- Biological Technician (Health Science - Biotechnology Research and Development)
