Greetings from the DPI!

March is National Nutrition Month. This issue of the Update contains an article from the DPI Public Health Nutritionist on reading food labels. This information would make for a great classroom presentation or parent newsletter article or blog. The National Association of School Nurses (NASN) also has a number of resources available for school nurses related to the topics of wellness and nutrition:

- Childhood Obesity
- Diabetes in Children
- School Wellness

Last week I was in meetings at the national level (NASN) to discuss how to improve and impact student health. We discussed the barriers and opportunities using a SWOT (Strengths/Weaknesses/Opportunities/Threats) analysis. Not knowing what health conditions keep students from attending school and what school nurse interventions are effective in improving student health outcomes is a weakness. However, finding out is an opportunity. My PRACTICE POINTS this week is again about data collection. We need to know where you are and what school nurses are doing! In this Update see NASN’s continuing education opportunity to improve school nurses capacity to collect and use school health data. NASN has also released its Translating Strategies into Actions to Improve Care Coordination for Students with Chronic Health Conditions.

The WASN’s annual conference is April 8-10. If you have not yet registered there is still time! Please let me know if you or someone you know is retiring this school year so I can mention them during my DPI report at the state conference on April 10th.

Measles continues to dominate public health concerns. Alerts will be shared via this DPI school nurse discussion list.

DPI supports best practices/evidence-based resources, but does not vet or endorse products/services. User is responsible to evaluate the resource and how it meets local needs.
NEW Interactive Safety Resource!

The Wisconsin Department of Justice's Internet Crimes Against Children Task Force and the Department of Public Instruction is teaming up to keep families safe online.

The departments have launched a program called "Interact!" that will give parents resources to have conversations with their children about internet safety.

Interact is an online, interactive e-course created for parents and guardians to complete with their children with the goal of sparking basic online safety discussions in the home. This 30-minute module provides parents with the opportunity to review their own tech use to set a good example; interactive activities to complete alongside their children, and follow-up resources and activities to keep the discussions going.

This e-course gives parents the opportunity to set themselves up as the trusted adult in their child's life. If the child sees something online they don't understand or that makes them uncomfortable, they know they have someone to reach out to. The e-course even provides some ideas on how to start and continue these discussions, along with some bonus tips to help break the ice on awkward topics!

Be your child’s trusted adult. Interact, and stay safe!

WISCONSIN DEPARTMENT of HEALTH SERVICES

Butterball LLC Recalls Ground Turkey Products Linked to Salmonella Infections

State and local agencies are investigating the outbreak that has affected at least 4 people in Wisconsin

The Wisconsin Department of Health Services, Department of Agriculture, Trade, and Consumer Protection, and local health departments are investigating an outbreak of Salmonella infections. To date, the investigation has identified four Wisconsin residents who are infected with the same strain (DNA fingerprint) of Salmonella. The four Wisconsin patients are linked to Butterball raw ground turkey products. Additionally, a Minnesota resident with the same strain of Salmonella also reported eating ground turkey, but the brand is unknown. Testing of leftover raw ground turkey received by the Wisconsin patients was also positive for the outbreak strain of Salmonella. As a result of this outbreak, Butterball is voluntarily recalling 78,164 pounds of raw ground turkey products. A complete list of products included in the recall can be found in the U.S. Department of Agriculture Recall notice. The products subject to recall bear establishment number "EST. P-7345" inside the USDA mark of inspection. These items were shipped to institutional and retail locations nationwide.

View the entire news release.

Multi-State Measles Outbreaks

Multiple states are reporting cases of measles. Due to the increase in cases, the Wisconsin Department of Health Services is asking providers to:

1) Identify and vaccinate patients who are unvaccinated or behind schedule
2) Report any suspect cases of measles to your local health department, immediately
3) Ensure all staff are aware of your disease control measures

Please see memo for details, as well as information about clinical and lab criteria, and case classification.

Weekly Respiratory Report

The Weekly Respiratory Report for the week ending on March 2, 2019, is now available.

The FDA has the most updated information on the shortage of certain epinephrine auto injectors. In October 2018, the FDA extended expiration dates for certain epinephrine auto-injectors as listed on this FDA page. You will need to scroll down half way to locate epinephrine information. School nurses will note that most of the extended dates have also already passed. There are a few lots that may extend until the end of April 2019.
DHS Relaunches Tobacco Prevention Campaign to Address Youth E-cigarette Epidemic

In early 2019, the Wisconsin Department of Health Services (DHS) issued a rare health advisory on youth e-cigarette use in response to new data showing skyrocketing vape use among Wisconsin teens (from 8% of high school students in 2014 to 20% in 2018). DHS is continuing to build on the awareness created by the advisory with the relaunch of their Tobacco is Changing media campaign across the state.

Tobacco is Changing, which originally debuted in November 2017, focuses on providing education to Wisconsin parents on the candy and fruit-flavored tobacco products enticing today’s kids.

“We're concerned about kids using any tobacco product. Tobacco can harm developing minds and bodies, and teens are more likely to stay addicted as adults, leading to harmful and fatal health consequences down the road”, said DHS Deputy Secretary Julie Willems Van Dijk.

View the entire news release

Vaccine Safety Based on Evidence: The current measles outbreaks in the United States and elsewhere are being fueled by misinformation about the safety of vaccines. To help counter such misinformation, the National Academies of Science, Engineering, and Medicine created a website that provides clear, concise, and evidence-based answers to questions about vaccine safety and other commonly asked questions about health and science.

Empowering School Nurses with Data Collection

To encourage school nurses to communicate the amount of care that is needed in schools, NASN has released the second data collection educational activity, Data 101: Using School Nurse Data as a Force for the Future. This online course offers 1 CNE contact hours and will provide tips on how school nurses translate the data they collect into information and knowledge. Learn more or enroll in this free course today.

Addressing the Opioid Epidemic at School

School nurses who participate in the online course Naloxone Use in the School Setting: The Role of the School Nurse will learn ways to implement proper use of Naloxone in the school setting. Earn 1.0 CNE contact hour learning this and about the scope of the prescription drug epidemic.

Managing Chronic Health Conditions

In April 2018, NASN convened the Strategies to Action Roundtable, bringing together multiple stakeholders to define and outline actions for school nurse-led care coordination for students with chronic health conditions. This work is aligned with the American Nurses Association charge that nurses take the lead on care coordination to achieve the objectives of the National Quality Strategy: better care, healthy people and communities, and affordable care. Help spread the word to health and education leaders about NASN’s new online publication, Translating Strategies into Actions to Improve Care Coordination for Students with Chronic Health Conditions. This white paper is filled with recommendations from the Roundtable to secure a student-centered approach to health and learning for students with a chronic health condition.
March is National Nutrition Month®! Nutrition Facts Labels
From: Molly Gregory, RDN, CD
Public Health Nutritionist
Wisconsin Department of Public Instruction

The Nutrition Facts label shares a wealth of information about a food or beverage. No matter the reason you might be looking at the Nutrition Facts label, the following information will help you decipher it with ease.

In order to understand what the rest of the numbers on the Nutrition Facts label represent, you must first look at the serving size. The calories, total fat, sodium, total carbohydrate, protein, vitamins, minerals, etc. are all based on the serving size. The number of servings per container communicates how many of the serving size are in the container. For example, if the serving size is 1 cup and there are 4 servings per container, this means there are 4 cups in the container. If you were to consume the full, 4 cup container, you would need to multiply the Nutrition Facts label information by four in order to determine the amount of calories, total fat, sodium, etc. that was consumed.

The percent daily values are based on a 2,000 calorie intake per day. Caloric needs vary from person to person based on many different factors. A low percent daily value is 5 percent or less, and a high percent daily value is 20 percent or more. Registered Dietitian Nutritionists recommend consuming more foods high in vitamins, minerals, and fiber and consuming less foods high in saturated fat, trans fat, and sodium.

Although the ingredient list is not part of the Nutrition Facts label, foods with more than one ingredient are required to have an ingredient list on the packaging. The ingredients are listed by weight, with the largest amount listed first and smallest amount listed last.

For more information on healthy eating based on the Nutrition Facts label, understanding the label, and changes to the label required between 2020 and 2021, check out these resources:

- The Basics of the Nutrition Facts Label
- Interactive Nutrition Facts Label
- Changes to the Nutrition Facts Label

School Nutrition in the News

How does sleep -- or lack thereof -- impact how you manage asthma and allergies? Is it possible to find a safe sleep zone?

Join us for our next webinar -- "The Importance of Sleep in Asthma & Allergic Disease" on Thursday, March 21 at 4:00 p.m. ET.

We'll be joined by Don Bukstein, MD, FACAAI, board-certified allergist and immunologist and pediatric pulmonologist with Allergy Asthma Sinus Center in Milwaukee and Madison, Wisconsin.

Click Here to Register Now!
(After registering, you will receive a confirmation email containing information about joining the webinar.)

Crivitz School District is hosting a FREE mental Health Wellness Conference.

This conference offers two tracks, one for teenagers and one for adults. The conference is a full day of keynote and breakout session speakers. Program details and registration information can be found on the district website: www.crivitz.k12.wi.us

Flyer attached to this Update.

From Medscape-Nurses:

A Patient Refuses Best Medical Advice. What Should I Do?
This article though not school-based provides school nurses with information on patient choice and the importance of documentation.

A 'Cure' for Peanut Allergy?
Medscape Pediatrics
Make sure you read the entire article. School nurses are often asked for their opinion on desensitization therapy. Therefore, it behooves school nurses to read research studies on this topic.

Army Lake Camp is looking for a Health Services Manager for summer 2019. Army Lake Camp is owned and operated by The Salvation Army and primarily serves disadvantaged and at-risk youth from throughout the State of Wisconsin and Upper Michigan.

Last month the Maine Department of Education released a report that caught the attention of the news media. *The School Health Annual Report summary for 2017-2018* combines required reporting for Maine and optional data collected as part of the national initiative with the National Association of School Nurses, Every Student Counts™ program. Maine has mandated reporting of school health services data. Therefore, they are able to present data representative of Maine schoolchildren. Read the article *School health report reveals value of school nurses in Maine.*

I am often asked “what about Wisconsin data?” In fact just this past week I have been in contact with a researcher whose project requires information on school nurse FTE’s, school nurse to student ratios, and the staffing patterns of health services in Wisconsin schools.

The sad reality is that the Department of Public Instruction does not have that information! I need YOU to provide that information. I need you to encourage your fellow school nurses to collect and report that information.

I will be presenting Wisconsin’s School Health Services 2017/18 Summary at the WASN conference on April 10th. Due to the low participation rate, the data is not publishable. Wouldn’t it be grand if we could flood Wisconsin media outlets with representative Wisconsin data?! I understand I keep harping on this but, I do dream of the day when the Wisconsin DPI can publish a report detailing the health care needs of Wisconsin students and the health services provided by school nurses and other support staff.

The site to enter district health services 2018/19 data will be open in mid-May. Attached to this Update is another copy of the data points for Wisconsin. Please make a commitment to collect and enter as many data points as you can. I am seeking responses from all public school districts (and as many private schools as possible). Even if here in Wisconsin we could get accurate numbers of FTE’s, districts with or without medical advisors, and districts with stocked medication programs it would be a start! Those are easy data points to submit.
MENTAL HEALTH WELLNESS CONFERENCE
SATURDAY, APRIL 13TH, 2019
CRIVITZ HIGH SCHOOL
400 SOUTH AVENUE, CRIVITZ, WI

GOAL
Mental illness impacts us all. Shining a light on this reality helps us bring mental health concerns out of the dark. There is hope for all of us to achieve better mental health for ourselves, our children and our community.

TEENS
Teenagers today face some unique challenges. There are real things you can do to maintain and improve your mental health during this time in your life. 14 breakout sessions for teens to choose from. Each session offering information and tools to better mental health.

ADULTS
17 Breakouts sessions for adults to choose from. Each session focusing on the mental health needs of parents, families, educators, care providers and concerned community members. Something for everyone!

FOR TEENAGERS and ADULTS

Day Schedule
8:00-8:30 am Doors Open/Vendor set-up/Registration
8:35-8:45 am Welcome
8:45-9:30 am Keynote Speaker
9:40-10:20 am Breakout Session 1
10:30-11:10 am Breakout Session 2
11:15-12:00 pm FREE Lunch
Mental Health Provider & Wellness Vendor Displays
12:00-12:30 pm Breakout Session 3
12:40-1:10 pm Breakout Session 4
1:20-1:30 pm Wrap Up/Prize Drawings
1:30-2:15 pm Keynote Speaker

- Door Prizes
- Wellness Basket Raffle
Proceeds from Wellness Basket Raffle to go toward Wellness initiatives for the students and staff of Crivitz School District
Mental Health Matters!
Mental Health Wellness Conference-April 13th, 2019
Crivitz High School, 400 South Ave., Crivitz, WI
A FREE Community Event

Keynote Speaker-Alison Maresh, Communications Specialist at the Wisconsin Office of Children's Mental Health
Staying Connected to What Matters: Advice on Establishing a Balanced Relationship with Technology
As the next generation of digital natives grow up with access to social media and smart phones earlier than ever before, it’s critical that all of us understand how overusing technology can impact a person’s well-being and the benefits of moderating screen time. During this presentation, audience members will learn the science behind why it’s so difficult to unplug, the health implications of overusing technology, and strategies for creating balance in the digital age. Special Note: During this presentation, Ali is sharing her own personal views and is not representing the Wisconsin Office of Children’s Mental Health or any state agency position.

TEEN BREAKOUT SESSIONS

TEEN BREAKOUT SESSION 1

1A Healthy Friendships and Dating Relationships- Allyson Mahlik, Youth Advocate, The Rainbow House Domestic Abuse Services Inc.
What does a healthy relationship look like? What does an unhealthy relationship look like? It is important to understand traits that you might desire in a friend and a dating partner. Come play the “Trait Trader” game in this fun interactive session.

1B Who Cares?- Cindy Reffke, Board Chair of Prevent Suicide Fox Cities, Appleton (adult/teen combined program)
Cindy Reffke, Board Chair of Prevent Suicide Fox Cities, Appleton and survivor of suicide loss will weave her personal story into a presentation that will cover those at greatest risk of suicide, suicide warning signs, WI statistics compared to our county, an overview of QPR – Question, Persuade and Refer and lastly self-care – how we can take care of our mental health.

1C Trauma…..Causes, Effects, Ways to Cope- Lori Eklund Walsh, Bellin Psychiatric Center (adult/teen combined program)
Simply put, a trauma is an experience that overwhelms our ability to make sense of and cope with the situation. Traumatic effects can linger long after the threat no longer exists. Trauma can impact emotional, physical, and cognitive functioning, making it hard for individuals to go about their day-to-day lives. Fortunately, there are many ways to effectively deal with the aftermath of a traumatizing situation.

1D One Choice Changes Everything- Pharmacist Lead Presentation, CVS Pharmacy
Prescription drug misuse and abuse is now considered a national epidemic. 1 in 4 teens have misused or abused prescription drugs. Come learn about prescription drug misuse and abuse to help you and your friends make a different choice.

TEEN BREAKOUT SESSION 2

2A Chill Out!- Leah Grant, School Counselor (A-He), Pulaski High School
How many times have you said this to yourself recently but have had no idea how to actually implement it? Let’s spend some time together talking about the stresses you encounter everyday as a pre-teen or teenager and ways you can make small changes that I promise will make a huge difference in your stress level! Also, there may be chocolate...just saying :)

2B Ease Relationship Stress- Bill & Cindy Verschay, Independent Love and Logic Facilitators
Ever had a conversation blow up in your face? Had someone take you completely wrong? Join us as we learn a few relationship basics to help make friend and parent relationships easier.

2C Vision Boards, Lets Create!- Carrie Klitzke, Crivitz Elementary/Middle School Art Teacher
A vision board is a collage of visual images and words that represent the life you want to live. They can be a powerful tool that helps you narrow down your dreams through the power of creative choice. Bring your own photos, magazine pictures, quotes or words that speak to your soul or use some of our provided supplies. Come create your own vision board.

2D Improving Mental Health through Exercise and Physical Activity- Tyler Crossman, Programs and Fitness Coordinator, Crivitz Community Center (adult/teen combined program)
This presentation will focus on the positive benefits of exercise and physical activity on mental health, the brain and the correlation to overall health.

TEEN BREAKOUT SESSION 3

3A Let it Go…..Anxiety- Michelle Brownson, MA, LSW, Labor of Love Family Counseling Center
Anxiety disorders are the most common mental health problem of childhood and adolescence. Nearly one in three adolescents will meet criteria for an anxiety disorder by the age of 18. Come learn some simple strategies for coping with this all too common problem. You are not alone!

3B One Breathe Away From a Stress-free Life- Kelly Garrigan, Certified Life Coach, Yoga Instructor and Reiki Practitioner
Learn an 8 minute meditation practice that uses the breathe to ease stress & anxiety.
3C Essential Oils: Natural Solutions to Support Emotional Wellness-Shelley Patz, Wellness Advocate (adult/teen combined program)

In this session you will learn about the benefits of certified pure therapeutic grade oils to support your body's emotional health and wellness. This will include the science behind essential oils and emotions, tools and habits for healthy body chemistry and practical mental/emotional wellness steps you can start NOW.

TEEN BREAKOUT SESSION 4

4A Live Your YOPP! Life Lessons from Dr. Seuss-Tim Markle, Senior Outreach Specialist, UW-Madison Waisman Center

We all know life's hard and seems full of stress. But is there a way to live life in a mess? We can learn to think better, we can learn ways to be great. We can learn from the doctor, we don't have to wait.

4B Power of Laughter to BOOST Mental Health-Christine Pada, MA, LPC (adult/teen combined program)

Learn how to improve and boost your mental health with laughter. Christine Pada is a Licensed Professional Counselor and she will be teaching a unique concept where anyone can laugh for no reason, without relying on humor, jokes, or comedy. We will initiate laughter as an exercise in a group with eye contact and childlike playfulness. Let's boost our mental health and feel good everyday. HA HA HA

4C Inhale, Exhale-Wendy Stuart, BSN, RN, RYT-200, Ayurvedic Practitioner, Owner of the Yoga Loft, Marinette (adult/teen combined program)

Join Wendy as she introduces you to the impact of yoga and breathing on your mental health. All ages and abilities welcome. Learn some basic yoga techniques that can be done while sitting in a chair.

ADULT BREAKOUT SESSIONS

ADULT BREAKOUT SESSION 1

1E Sustainable Self Care-Leah Grant, School Counselor (A-He), Pulaski High School

Have you been feeling overwhelmed lately? Like there isn't enough time to get everything done? Small changes in our habits can make a huge difference in our mental health. Let's spend some time talking about things beyond meditation and weight loss. I promise you will walk away with new tips and tricks that help you feel more balanced and energized in your daily life!

1F Handle Whining and Arguing the Love and Logic Way-Bill & Cindy verschay, Independent Love and Logic Facilitators

Ever thought your child should be a lawyer? Join us and learn how to handle whining/arguing with kids of all ages without breaking a sweat and take some of the stress out of parenting.

1G Who Cares?-Cindy Reffke, Board Chair of Prevent Suicide Fox Cities, Appleton (adult/teen combined program)

Cindy Reffke, Board Chair of Prevent Suicide Fox Cities, Appleton and survivor of suicide loss will weave her personal story into a presentation that will cover those at greatest risk of suicide, suicide warning signs, WI statistics compared to our county, an overview of QPR – Question, Persuade and Refer and lastly self-care - how we can take care of our mental health.

1H Trauma.....Causes, Effects, Ways to Cope-Lori Eklund Walsh, Bellin Psychiatric Center (adult/teen combined program)

Simply put, a trauma is an experience that overwhelms our ability to make sense of and cope with the situation. Trauma effects can linger long after the threat no longer exists. Trauma can impact emotional, physical, and cognitive functioning, making it hard for individuals to go about their day-to-day lives. Fortunately, there are many ways to effectively deal with the aftermath of a traumatizing situation.

ADULT BREAKOUT SESSION 2

2E Helping Children Build Healthy Friendships-Allyson Mahlik, Youth Advocate, The Rainbow House Domestic Abuse Services Inc.

Learn how to help children build healthy friendships. Learn how to talk to your children about concerns of unhealthy friendships and relationships. Learn warning signs to look out for and also services available to assist you when you need extra help.

2F Dementia 101-Teresa West, Dementia Care Specialist, ADRC of Marinette County

For spouses, children, care providers, friends and the community, dementia is something that will likely touch many of us. Come learn the basics of this common issue. The presentation to include a dementia review, dementia facts, early symptoms/warning signs and the most common types of dementia. Learn about the dementia friendly community of Marinette County and the ADRC resources and services available.

2G Let it Go....Anxiety-Michelle Brownson, MA, LSW, Labor of Love Family Counseling Center

Anxiety disorders are the most common mental illness in the U.S., affecting 40 million adults in the United States age 18 and older. Learn some simple strategies for coping with this pervasive issue. You are not alone!

2H Prescription for Parents-Pharmacist Lead Presentation, CVS Pharmacy

Prescription drug misuse and abuse is now considered a national epidemic. 1 in 4 teens has misused or abused prescription drugs in their lifetime. Children who learn about the risks from their parents are up to 50% less likely to misuse or abuse drugs. Come learn about this problem and how to talk to your children about it.

2I Improving Mental Health through Exercise and Physical Activity-Tyler Crossman, Programs and Fitness Coordinator, Crivitz Community Center (adult/teen combined program)

This presentation will focus on the positive benefits of exercise and physical activity on mental health, the brain and the correlation to overall health.
ADULT BREAKOUT SESSION 3

3D Part 1 Care Mapping, for Children with Special Health Care Needs-Lawren Olivanti, Project Coordinator, Northeast Regional Center-Children and Youth with Special Health Care Needs  (Taken in conjunction with Part 2 Care Mapping-Breakout Session 4D)

Join me as we learn about Care Mapping! In this interactive session, you will work to create a comprehensive snapshot of your youth’s health and life journey. A process which guides and supports families and health care professionals to work together to achieve the best possible outcomes.

3E Vision Boards, Lets Create-Carrie Klitzke, Crivitz Elementary/Middle School Art Teacher

A vision board is a collage of visual images and words that represent the life you want to live. They can be a powerful tool that helps you narrow down your dreams through the power of creative choice. Bring your own photos, magazine pictures, quotes or words that speak to your soul or use some of our provided supplies. Come create your own vision board.

3F Peer Specialist Model/Supporting hope and recovery-Advocates for Healthy Transitional Living

A peer specialist is an individual who has personally lived the experience of recovery from a mental health or substance use condition and who has been trained and certified to support their peers in gaining hope and moving forward in their own recovery journeys. Learn how the Peer Specialist model can be infused in business, organizations, schools and everyday life.

3G Essential Oils: Natural Solutions to Support Emotional Wellness-Shelley Patz, Wellness Advocate (adult/teen combined program)

In this session you will learn about the benefits of certified pure therapeutic grade oils to support your body’s emotional health and wellness. This will include the science behind essential oils and emotions, tools and habits for healthy body chemistry and practical mental/emotional wellness steps you can start NOW.

ADULT BREAKOUT SESSION 4

4D Part 2 Care Mapping, for Children with Special Health Care Needs-Lawren Olivanti, Project Coordinator, Northeast Regional Center-Children and Youth with Special Health Care Needs  (Taken in conjunction with Part 1 Care Mapping-Breakout Session 3D)

Join me as we learn about Care Mapping! In this interactive session, you will work to create a comprehensive snapshot of your youth’s health and life journey. A process which guides and supports families and health care professionals to work together to achieve the best possible outcomes.

4E Cultivating Love & Kindness-Kelly Garrigan, Certified Life Coach, Yoga Instructor and Reiki Practitioner

Learn a meditation practice that calms the mind and opens the heart, enabling parents to address challenges in a more compassionate way.

4F Power of Laughter to BOOST Mental Health-Christine Pada, MA, LPC (adult/teen combined program)

Learn how to improve and boost your mental health with laughter. Christine Pada is a Licensed Professional Counselor and she will be teaching a unique concept where anyone can laugh for no reason, without relying on humor, jokes, or comedy. We will initiate laughter as an exercise in a group with eye contact and childlike playfulfulness. Let's boost our mental health and feel good everyday. HA HA HA

4G Inhale, Exhale-Wendy Stuart, BSN, RN, RYT-200, Ayurvedic Practitioner, Owner of the Yoga Loft, Marinette (adult/teen combined program)

Join Wendy as she introduces you to the impact of yoga and breathing on your mental health. All ages and abilities welcome. Learn some basic yoga techniques that can be done while sitting in a chair.

Keynote Speaker-Tim Markle, Senior Outreach Specialist, UW-Madison Waisman Center

The Role of Forgiveness in Mental Health

Bitterness, toxic anger, and unforgiveness can lead to physical, mental, emotional, relational and spiritual health challenges. By learning how to forgive and how to start living a more forgiving life we can open up to becoming our best selves. We can then share these tools with others struggling with past hurts and resentment.

THANK YOU to all for participating in this event and supporting your own mental health and the mental health of our children and community!

THANK YOU to the Crivitz School District, Community Education, Crivitz Student Services Team, Mental Health Wellness Committee Volunteers, Student, Staff and Community Volunteers, Donors and Speakers for supporting this work!

![Mental Health Matters](MentalHealthMatters.png)
WASN is excited to bring you a whole new annual conference in 2019...

First, we chose a new venue, the beautiful **Chula Vista Resort** located on the Wisconsin river in Wisconsin Dells, which also served as the inspiration for our conference theme. For those that choose to stay at the resort, your room reservation includes passes to the indoor waterpark, a full-service day spa with discounted services, and beautiful newly renovated junior suite rooms!

Next, there are new conference days and times. This year we will hold an exciting and interactive afternoon pre-conference on **Monday** followed by **two FULL conference days**, **Tuesday** and **Wednesday**. We worked very hard to bring you topics on current issues in school nursing which will build on your current nursing practice and enhance your leadership and advocacy skills. Topics will follow the principles of the **Framework for 21st Century School Nursing™**, with current NASN president **Nina Fekaris** presenting the opening keynote. Other speakers of note include **Martha Dewey-Bergren**, **Ruth Ellen Luehr**, and **Sue Will**, past NASN President, who will close out the conference with a motivating presentation on the “Seven Habits of Highly Successful School Nurses.” For those who may not be able to be away from their districts for the entire conference, it is our hope that by offering two full days, we present an alternate opportunity to participate by having the option to choose a single day that is of most interest to you. Earn **up to 13.75 hours of CEUs** and be sure to register early to take advantage of the **new early-bird discount**.

Finally, this year we will have **two** new fun and exciting **social networking events** directly on the resort’s property; no need to drive anywhere! Join us Monday evening at The Tavern Restaurant and bring your “A” game because “It's time to play...Family Feud!” That’s right, hosted by Bob Viking from Dellsdj.com, attendees can sign up to be a member of one of several “families” to compete in this hilarious version of the traditional TV game show. After several rounds of comedic relief, it’s time to let loose, cut a rug and boogie down with DJ Bob spinning your favorite tunes...We may even have a go at the Hokey Pokey, Electric Slide or a conga line around The Tavern!

Tuesday evening, following our annual Membership Meeting and award ceremony, we are hosting an informal banquet during which **Jeff Jay**, an award-winning Master Magician and Certified Stage Hypnotist will be strolling around visiting with guests while performing jaw-dropping magic tricks for your table. Following dinner, Jeff and his assistant will perform a 70-minute hilarious Comedy Stage Hypnosis show. Jeff Jay's "Mind Power" Comedy Hypnosis Show is a hilarious, fast-paced show featuring audience participant volunteers as the "stars"! You won't believe your eyes as you watch your friends and family sing like Elvis, dance like Michael Jackson and even become 4-year-olds again [http://www.magicalpresentations.com/home.html](http://www.magicalpresentations.com/home.html).

We hope you will consider attending the annual conference this year to gain new knowledge, build on your current skills, network and share your experiences and stories with colleagues from across the state, and have fun! Please see the Conference Justification Kit for guidance when requesting funding from your employer. **We look forward to seeing you in April 2019!**
Win $1,000 for Applying

5 lucky WI School Health/WSCC Award applicants will be randomly selected to win $1,000 to support policy, system and environmental changes in your school.

Deadline March 31, 2019

Is your school working on . . .

• Addressing health and wellness efforts?
• Promoting healthy nutrition choices?
• Getting students active?
• Creating a strong social & emotional climate?
• Actively involving parents and community?
• Improving policies to address & promote staff wellness?

If you answered YES, then you should apply to see if your school is eligible to receive a gold, silver or bronze award and be entered into the drawing to win one of five (5) $1,000 awards.

Registration

### Wisconsin School Health Services Survey
#### Year Long Data Collection Tool

<table>
<thead>
<tr>
<th>DATA POINT</th>
<th>DEFINITION CRITERIA</th>
<th>DATA POINT</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>RN=Registered Nurse</td>
<td></td>
</tr>
<tr>
<td></td>
<td>LPN=License Practice Nurse</td>
<td></td>
</tr>
<tr>
<td></td>
<td>LVN=Licensed Unlicensed Assistive Personnel (non RN or non LPN)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>FTE=Full-time Equivalent (based on teacher FTE)</td>
<td></td>
</tr>
</tbody>
</table>

#### Number of enrolled students in district
- **Enrolled students**: Use district’s official (third Friday count) number.

#### Health Personnel Information

- **Total number of RN FTEs with an assigned caseload providing direct services**
  - **Direct services**: Means responsible for the care of a defined group of students in addressing their acute and chronic health conditions. It includes case management, health screenings and health promotion activities. Direct services also include care provided by members of a health care team including LPNs or unlicensed assistive personnel.

  - Include long-term substitutes.

  - **Do not include RNs, LPNs, UAPs working with medically fragile students (1:1, 1:2, 1:3, 1:4 or 1:5).**

  - **Do not include % of administrative assignment for RN. Case management FTEs included under administrative or supervisory FTEs.**

- **Total number of RN FTEs with special assignment**
  - Include RNs working with limited caseload providing direct services such as medically fragile students (1:1, 1:2, 1:3, 1:4 or 1:5).

- **Total number of RN FTEs providing administrative or supervisory school health services**
  - RNs providing management/clinical supervision to RNs, LPNs, or other health extenders, UAPs, or conducting other administrative health services, e.g. case management.

- **Total number of LPN FTEs with an assigned caseload providing direct services**
  - See definition of direct services above.

- **Total number of LPNs FTEs with special assignment**
  - Include LPNs working with limited caseload providing direct services such as medically fragile students (1:1, 1:2, 1:3, 1:4 or 1:5).

- **Total number of UAP FTEs with an assigned caseload that includes providing direct health services**
  - See definition of direct services above.
