

SOCIAL EMOTIONAL LEARNING—TRAINING OF TRAINERS

Building the Social and Emotional Learning (SEL) expertise of your staff can be challenging, however, it is not impossible. Developing SEL trainers in your district is a sustainable way to ensure that all staff receive the necessary training to support your SEL efforts moving forward.

TRAINING DETAILS

In this Training of Trainers, participants will learn how to train staff in the fundamentals of Social and Emotional Learning and will receive all the materials needed to do so.

The training materials are provided in six core modules:

- Why SEL?
- What is SEL?
- SEL Frameworks
- School/District Implementation
- Classroom Implementation
- Building Adult SEL Competence

These modules can be implemented as one whole day of training, or divided up over time.

Join us for this one day ToT to build local capacity for SEL professional development!
