

2024-2025 Human Trafficking Trainings for School-Based Professionals

'It Happens Here' Facilitation Guide & Lessons Training for School Staff & Other Professionals Supporting Anti-Trafficking

This session will provide school staff, such as pupil service staff, and professionals working in trafficking prevention and response, training on using the DPI Anti-Human Trafficking Video Facilitation Guide and accompanying videos with students. While not restricted to pupil service staff, staff should have some training and experience handling difficult topics, responding to student disclosures, and the ability to assess risk and safety concerns. Participants will gain access to the video series, as well as the facilitator guide and related resources.

Participants will be able to lead lessons for students grades 7-12 to help them understand what human trafficking is, some of the dynamics involved, recognize warning signs and unsafe situations, how to get help, and where to find additional resources. School staff and professionals in the community are encouraged to attend training together to collaborate on lesson delivery for students.

'It Happens Here' Documentary Screening & Discussion

The Department of Children and Families (DCF) has created a documentary that tells the true stories of sex trafficking survivors in Wisconsin and conveys how easy it is to be drawn into the life. This project is part of a statewide effort to inform youth and adults about the risk factors and warning signs of trafficking and what they can do to assist individuals who may be at risk of, or affected by, trafficking.

School Staff, community partners, and parents/caregivers are welcome to join us for a free screening and discussion of the documentary. The event will be facilitated by Asia Jackson, DCF Anti-Human Trafficking Coordinator, Julie Incitti, DPI School Social Work Consultant, and Jessica Goodman Schutz, MPS School Social Worker.
