FREE WORKSHOP
SEPTEMBER 23, 2015

From Research to Practice: Enhancing the effectiveness of family-based programs for teen parents

- Grasp the key ingredients of effective youth and family programs
- Learn about current best practices to promote positive parenting in teen parents
- Identify areas of your program to strengthen that align with key ingredients and best practices
- Use AAPI-II data to determine areas of high need and how programs might be modified to better meet these issues
- Develop action plans with specific steps for program improvement
