**Active Students Learn Better with
Active Schools Core 4+**

According to the CDC, students who are physically active tend to have better grades, school attendance, cognitive performance (e.g., memory) and classroom behaviors (e.g., on-task behavior). CDC recommends 60 minutes of physical activity each day. However, this is not always the case in school. Too often students are sedentary the majority of their day. This workshop will provide the tools necessary for the implementation of a comprehensive physical activity program (CSPAP) that multiple national

organizations, including SHAPE America and the Centers for Disease Control and Prevention (CDC), recommend developing and implementing.

Wisconsin has developed its own very successful comprehensive program called Active Schools: Core 4+ This program is tailored to meet the needs of your school/district. Learn the strategies and help your students meet their need of 60 minutes of activity a day and boost their academic performance without disrupting the current school schedule.

Who should attend this training?

We recommend a team of 2 or more consisting of: Administrators, Curriculum Coordinators, School Board Members, Classroom Teachers, Physical Education Teachers, Health Educators, District Wellness Committee Members, Parents, PBIS Team Members, School Nurses, Before/After School Coordinators, Community Center Wellness Coordinators and Community Education Coordinators.

How much will it cost? \$25.00

What is the registration deadline? One week before each training

How do I register? Please register online

■ **October 9—Pewaukee:** http://login.myquickreg.com/register/event/event.cfm?from_cms=1&eventid=18539

■ **October 11—Chippewa Falls:** http://login.myquickreg.com/register/event/event.cfm?from_cms=1&eventid=18541
