

SCHOOL NURSE UPDATE 2017-18 #2 9.5.17

WISCONSIN DEPARTMENT OF PUBLIC INSTRUCTION SCHOOL NURSING/HEALTH SERVICES CONSULTANT

For those of you who started school on or prior to September 1, and those of you possibly starting back to school today, I wish you a safe and successful start to the school year! This update will be short given your attention is rightfully focused elsewhere. This is a stressful time for school nurses, school staff, administration, students, and parents. Do call or email me if you need help finding resources or have questions as you lead your health services program and care for your students.

Information and registration for the **DPI New School Nurse Orientation October 11-12, 2017** is located under the **Save the Date** section. The new DPI **medication administration interactive modules** are linked to the Medication Administration webpage. School nurses and staff should note that **once a medication quiz is taken in these interactive systems an email message is sent** to whatever email address the participant entered. This email serves as confirmation that the module was taken and successfully completed. A participant cannot send an email unless they 1) have taken the course; 2) passed the quiz at 80 percent.

The Department of Health Services (DHS) webinar on School Immunization Law: What schools need to know for fall 2017 is archived and can be viewed at the following link off both the DHS and DPI websites in case you were too busy to attend or want to review it:

<https://livestream.com/accounts/14059632/events/5766391/videos/162132834> The DHS **interactive web map where the public can view immunization compliance information for school districts** throughout the state of Wisconsin will be available later in September.

Louise Wilson, MS, BSN, RN, NCSN

2017-2018 Use of Seasonal Influenza Vaccines Recommendation Now Available

The 2017-2018 Advisory Committee on Immunization Practices (ACIP) [prevention and control of seasonal influenza recommendations](#) is available. Routine vaccination is recommended annually for all persons at least six months of age and older. A reminder that live attenuated influenza vaccine (LAIV₄) is not recommended for use during the 2017-2018 season due to concerns about its effectiveness. Please review the recommendation for further details. Influenza vaccine for the 2017-2018 season has started shipping from the manufacturers.

Income Eligibility Guidelines Announced for School and Day Care Meals

Each year, the U.S. Department of Agriculture Food and Nutrition Service updates income eligibility guidelines for meals served at schools and day care programs based on federal poverty levels. The guidelines apply to student eligibility for free and reduced-price school meals offered through the National School Lunch or School Breakfast programs and milk offered through the Special Milk Program as well as to reimbursement for meals served in day care centers and family child care homes participating in the Child and Adult Care Food Program. Additional information is available on the Department of Public Instruction News Room website http://dpi.wi.gov/sites/default/files/news-release/dpinr2017_68.pdf.

New Legal Resource Book Recently Published

For information view <http://www.schoolnurse.com/products/Legal-Resource-for-School-Health-Services.cfm>

PRACTICE POINTS

All Kindergarten students should be evaluated for immunization compliance as a “new enterer” even if they attended a district- based EC, or 4K program. This means kindergartners are considered “in process” if they do not have all immunization doses but have at least one dose of each required vaccine.

SCHOOL NURSES: Best, Current Practices for School Medical Emergencies

A Unique One-Day Seminar Presented by

Sandra Moritz, M.Ed, BS, RN CSN

2010 Pennsylvania School Nurse of the Year, Exceptional School Nurse Trainer

The most emergency-ready practices, including response plans for the 21st Century school nurse

Be better prepared for the unplanned ... Utilize the most current assessment techniques and training resources during life-threatening emergencies

Apply the evidence from the latest research to your first aid protocols ...
Be better prepared for lockdowns, evacuations and school violence

Streamline emergency care plans to better manage medical emergencies ... Utilize the most up-to-date interventions to manage anaphylaxis, overdoses, cardiac arrest, and more!

Receive a detailed school medical emergency handbook complete with handouts and forms you can implement immediately in your school nursing practice to streamline your practice and impact student health

Nursing CEUs Available in These Locations:

Provider approved by the California Board of Registered Nursing, Provider #CEP 15144, for five (5) Contact Hours for RNs and LPNs. This approval is valid in the states of New Hampshire and Rhode Island. This seminar meets the requirements of the Massachusetts Board of Registration in Nursing listed in 244 CMR 5.00 for 6 Contact Hours.

APRNs in all states need to check with their credentialing agency to determine if this seminar meets the additional CEU requirements for their specialty area.

Ten Key Benefits of Attending

'Well organized, interactive, great, useful information! Also a wonderful opportunity to meet and exchange ideas with other school nurses.

– ROZ BALWIN,
SCHOOL NURSE, RN, BSN

Who Should Attend

School Nurses, District Nurses and School Health Coordinators serving grades K-12

1. What Every School Nurse Should Know When Responding to School Medical Emergencies

Know the very latest research-based recommendations on interventions during hypoglycemia, traumatic brain injury, acute bronchospasm, and more!

2. Be Better Prepared for the Unplanned During Life-Threatening Situations

Sudden cardiac arrest, anaphylaxis and seizures are occurring more frequently in schools and preparation is key

3. Be Better Prepared with New Assessment Skills

Apply new assessment skills according to the Pediatric Assessment Triangle (AAP) to determine your response during a medical crisis

4. Recognize the Critical Symptoms of an Opioid Overdose

Implement and administer Naloxone as appropriate to your practice ... Why, when and how

5. Be Better Prepared for Students with Special Needs and Chronic Health Concerns

Examine health care and emergency plans for our most vulnerable students during lockdowns and evacuations

6. Incorporate the Best Assessment Techniques for Common Injuries and Provide for Smooth Transfer

Review new splinting materials and application skills to get students safely to the next level of care

7. Improve Trainings for Lockdowns, Evacuations and Your Emergency Teams

Understand triage from the school nurse perspective and prepare for 72 hours of emergency supplies

8. Learn the Key Components for Smooth Ambulance Transfers

Examine medical transfer forms and get practical tips from first aid and safety organizations to document critical details of school emergencies

9. More Effectively Address Issues Surrounding the Use of Unlicensed Personnel

Use checklists and apps to increase the safe collaboration of others who work with school nurses

10. Receive a Detailed School Medical Resource Handbook Complete with Handouts and Forms

Each participant will receive an extensive resource handbook full of ready-to-implement materials that will streamline and increase efficiency in your school nursing practice on a daily basis

Outstanding Strategies You Can Use Immediately

What You Will Learn ...

- Gain hands-on experience using **the latest products and supplies for first aid and medical treatment**
- **The best practices** from FEMA, American Red Cross and Heart Association on recommended school nurse response to medical emergencies
- **Learn advanced skills in assessing the major life-threatening medical emergencies** and current guidelines in nurse interventions ... Learn from real-life scenarios for sudden cardiac arrest, seizures, hypoglycemia and more
- **The most useful apps for mobile devices** to make training school staff easier
- **The latest equipment and products** to deliver first aid for emergencies
- **Hands-on experience for splinting common school injuries** ... Learn about products that keep your practice relevant in the changing practice of today's school nurse
- **New timesaving tools and supplies** to treat student health issues
- **Apply experts' evidence** to create the best medical emergency response plan using suggestions from medical authorities to review the school nurse's role
- **The school nurses' role in school emergency preparedness** ... "Team up" and be in charge with confidence
- **Five strategies every school nurse must implement** to excel in the changing world of the school nurse
- **How to best respond to mouth and teeth injuries** quickly to insure a safe re-implantation

I would recommend this seminar to better prepare for emergencies and get up-to-date information on the changing best practices that face school nurses today.

– CHRISTINE SIMMONS, RN, BSN, AE-C

Practical Ideas and Strategies

If you are looking for current, best practices and evidence to support your school emergency medical interventions, this is a seminar you won't want to miss! During this intensive, interactive and collaborative seminar, outstanding school nurse of more than 30 years, **SANDRA MORITZ**, will share dozens of the most current practices, strategies and practical tips to help school nurses better respond to medical emergencies in a school setting. As a school nurse, Sandra can relate to the seriousness of the daily health and medical challenges in your practice. Your ever-changing role as a school nurse will be examined from a perspective of how you can best respond when medical emergencies occur in your school setting. Gain greater confidence in your practice, discover new products that are now available to make daily interventions more effective and become better prepared for the unexpected. Realize your full potential by addressing the stress of your career choice, and learn ways to be more proactive with stress-reducing tips to survive and flourish as today's school nurse.

A Message From Seminar Leader, Sandra Moritz

Uniquely Qualified Instructor

SANDRA MORITZ is a nationally recognized and experienced school nurse and coordinator with more than 30 years of hands-on school nursing practice. As her state's School Nurse of the Year, a recent National Association of School Nurses (2017) presenter and a national speaker, she is a frequent presenter at conferences, in-services and seminars. Sandra is the author of *SCHOOL NURSES: Best, Current Practices for School Medical Emergencies*, the extensive resource handbook participants will receive at the seminar. She has authored many articles in professional journals, including *Advance for Nurses* and NASN's *School Nurse*. She passionately interacts with other school nurses, supporting their personal challenges in dealing with medical emergencies in the school setting. As one school nurse to another, she understands the changing role of the school nurse.

The often solo role of the school nurse transforms into the sharing world of school nurses as a result of the interactions with others at Sandra's seminars. Sandra's participants find her seminars to be a knowledge-gaining experience and leave energized with new ideas and strategies and a personal connection to the world of school nursing.

Dear Colleague:

As a fellow school nurse and colleague, I understand the unique challenges we face in our changing role as today's school nurse. We are the first responders in schools, assisting students who need us the most. As a school nurse and health services coordinator of more than 31 years, I can relate to your daily concerns. To stay current in our roles today we must be prepared for the unexpected. As the first set of medical eyes in the school setting, planning for the unplanned is now another function of our role. We must respond quickly with assessment skills and knowledge based on the latest research. My ability to relate to other school nurses gives me a unique opportunity for a great day of sharing, as only one school nurse to another can understand. As your professional colleague, we will explore the current challenges in our career choice of school nursing.

Enjoy a day of sharing with other school nurses who also understand today's challenges. Learn practical new strategies to keep students safe while in your care. Get the latest information so that you can respond with confidence during the increasingly common school medical emergency. Be prepared for life-threatening situations by creating best practices during evacuations and lockdowns. Take care of yourself so your energies will be ready for our daily challenges. I believe you will leave this seminar refreshed, renewed with professional energy and better prepared to handle the stressors of your job. You will excel as the healthcare provider in your school setting and be confident in your skills as the school nurse! You'll gain practical information to use immediately in your school nurse setting and an extensive resource handbook written by your professional colleague—another school nurse!

Sincerely,

Sandra Moritz

P.S. You will receive **an extensive school medical emergency resource handbook** containing a summary of all the information and resources presented in this seminar.

'To stay current in our roles today, we must be prepared for the unexpected. As the first set of medical eyes in the school setting, planning for the unplanned is part of our role today.'

What Your Colleagues Say About Sandra Moritz

*"Sandra is **extremely knowledgeable and engaging as a speaker.** The topics that were covered are reflective of what school nurses are dealing with today."*

Sheryl Zulkeski, Nurse Supervisor

*"Sandra Moritz is a great speaker. She is **engaging and fun.**"* Michele Britell, School Nurse, RN

*"This was **one of the best and most informative seminars** I have ever attended."*

Doreen Mondry, RN,

*"**Dynamic speaker!** Sandra kept the day moving and incorporated a lot of content into the seminar. Very interactive."*

Patti Falvey, School Nurse, RN

*"Sandra is a **very dynamic speaker.** Listening to her was a wonderful and empowering experience. It was like an adrenaline boost for school nurses. She had wonderful ideas and also allowed for brainstorming with other nurses."*

Mary Dever Brady, School Nurse

*"Absolutely enjoyed this seminar!. It is **great to have a presenter who knows and deals with all the challenges that a school nurse endures daily.**"*

Tina Loomis, School Nurse

*"Sandy is highly entertaining and has a warm, genuine personality. **Great tips for the novice or practiced school nurse!**"*

Diane W. Andrew, School Nurse

*"This is my second seminar presented by Sandra – **she is excellent!** I would go to any seminar presented by her."*

Karen Johns, School Nurse

"Sandra is a wonderful speaker – easy to understand, kept my attention! She made me feel special as a school nurse."

Sherry Boyd, School Nurse, RN

*"I've been a school nurse 32 years and I still found the seminar most interesting and learned new information. **Most enjoyable day.**"*

Judy Lewis, School Nurse

*"Beautifully presented. Sandy is **highly knowledgeable and informative.**"*

Sylvia Kallich, School Nurse Administrator

Special Benefits of Attending

Online Learning

BER offers educators a wide range of online courses that are affordable, fun, fast, and convenient. BER is now offering On Demand Video-Based courses as well as Scheduled Instructor-Led courses. You also may earn optional graduate-level credits for most courses. See the catalog of available courses at www.ber.org/onlinelearning

On-Site Training

Most BER seminars can be brought to your school or district. See the options at www.ber.org/onsite or call 877-857-8964 to speak to one of our On-Site Training Consultants.

SCHOOL NURSES: Best, Current Practices for School Medical Emergencies

BER
Bureau of Education & Research

A Unique One-Day Seminar Coming to a Location Near You

Presented by

Sandra Moritz, M.Ed, BS, RN CSN

2010 Pennsylvania School Nurse of the Year,
Exceptional School Nurse Trainer

The most up-to-date practices every school nurse needs to know for addressing school health and medical emergencies

Be better prepared for the unplanned ... Utilize the most current research to respond to major medical emergencies

Apply the evidence from the latest research to your first aid protocols ... Be better prepared for common first aid issues

YOU ARE THE KEY TO CANCER PREVENTION

2017 Wisconsin Human Papilloma Virus (HPV) Vaccine Summits

October 18, 2017
Green Bay, WI
7:30 a.m. - 4 p.m.

October 26, 2017
Eau Claire, WI
7:30 a.m. - 4 p.m.

PURPOSE OF THE SUMMITS

The Wisconsin HPV Vaccine Summit series aims to improve HPV immunization rates throughout Wisconsin by providing:

- Current data on state-specific HPV disease epidemiology and immunization rates
- Updates on disease caused by HPV from regional experts
- Current information on HPV vaccine safety
- Ways to advocate for organizational support of adolescent immunizations

TAKE PART IN INTERACTIVE SESSIONS ON THESE TOPICS

- How to address vaccine hesitancy
- Best practices for improving timely completion of the entire HPV vaccine series
- Sharing HPV-related quality improvement projects from across the state
- Barriers faced in initiating and completing HPV immunizations

WHO SHOULD ATTEND THE SUMMITS?

These conferences are offered to vaccine advocates from organizations engaged in activities to improve the health of adolescents and prevent cancer. We invite representatives from all organizations and providers who can help implement HPV immunization program improvements across Wisconsin and promote timely HPV immunizations. Supporting HPV vaccine champions is critical to increasing HPV immunization rates and ensuring that all Wisconsin residents have an equal opportunity to prevent HPV disease. Come prepared to share!

Registration: <http://bit.ly/2uiJ9NT>

These conferences are sponsored by the Wisconsin Chapter of the American Academy of Pediatrics (WIAAP), and Wisconsin Department of Health Services (WI DHS) Immunization Program, Scenic Rivers Area Health Education Center (SRAHEC), and the Wisconsin Comprehensive Cancer Control Program (WI CCCP).

American Academy of Pediatrics
DEDICATED TO THE HEALTH OF ALL CHILDREN™

Wisconsin Chapter

**Funding for this conference was made possible (in part) by the Centers for Disease Control and Prevention. The views expressed in written conference materials/publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services, nor does the mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.*

The CPR in Wisconsin Schools Program, through funding provided by the Advancing a Healthier Wisconsin Endowment Healthier Wisconsin Partnership Program (HWPP), is a joint effort between the Medical College of Wisconsin and Cooperative Educational Service Agency (CESA) #7 in collaboration with the American Heart Association and a number of other Wisconsin-based groups. The program is dedicated to increasing sudden cardiac arrest survival by making sure all Wisconsin students are trained to perform high-quality CPR. The program builds the infrastructure for schools to provide ongoing high-quality, hands-only CPR training and develops best practices for school-based training programs.

We are currently recruiting additional public and private schools to receive educator training, CPR in Schools Training Kits, and assistance with finding local healthcare partners to help with student training. Educators are invited to attend a training session at a near-by CESA; the training provides an overview of CPR, links to training resources, and ideas for classroom management and setup.

There is no charge to attend the training and some schools will qualify to receive a stipend to cover substitute teacher costs. CPR in Schools kits will be provided at low or no cost to each school, depending on the percentage of students in the school who receive free or reduced costs lunches. The kits include 10 inflatable manikins and a training DVD to ensure that all students physically practice how to perform CPR. Finally, we will help teachers identify training partners from the local community to be student role models in the classroom and to discuss their real-world experiences with performing CPR.

Once a school joins the program, their teachers will receive quarterly newsletters with updates and lessons learned to improve their future CPR training sessions. Cardiac arrest causes over 6,500 deaths annually in Wisconsin and the likelihood of survival is 10%. When bystanders immediately provide CPR to a victim, survival rates double or triple. This program hopes to improve cardiac arrest survival in Wisconsin by ensuring that everyone who graduates from high school has been trained to provide high-quality CPR. Training sessions will begin again in the fall and any school that would like to participate should contact Kelli Mincheski at 920-617-5616 or kmincheski@cesa7.org.

Professional Development 2017 -- 2018

Choose 3 undergrad credits (\$525) or professional development hours (\$159) or 3 grad credits (\$840) or audit (\$234) -- limited to 12 participants!

School Nurse Conference

Student Risk Taking Behavior: Trends & Strategies

Wisconsin Association
of School Nurses

Tuesday, November 7, 2017

4:30 pm – 8:20 pm

Learning Outcomes for this program are to:

- Discover risk taking behaviors of school age children and teens that effect health and learning outcomes
- Describe trends in sexual risk taking behaviors and strategies for improving health outcomes associated with these trends
- Explain how health is impacted by technology use and approaches to minimize these effects
- Discuss your questions with an expert panel and obtain resources for health room staff and parents

Target audience:

- School nurses and health care professionals interested in the care of children.

Accreditation and Contact Hours:

- Waukesha County Technical College is an approved provider of continuing nursing education by the Wisconsin Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.
- Participation certificates will be provided to all conference participants who attend the entire program.
- **Wisconsin Association of School Nurses (WASN) District 1 is a joint-provider** for this educational program.
- This program is being offered for **3.3** contact hours.

Planning Committee:

- Ann M. Cook, MSN, RN – *WCTC*

YOUTH MENTAL HEALTH FIRST AID TRAINING

WHEN

Part 1 Friday, September 15th &

Part 2 Friday, September 22th

8 am - NOON

Registration at 7:45 am

MUST ATTEND BOTH SESSIONS

WHERE

NAMI Fox Valley

211 E. Franklin St. Appleton WI

A young person you know could be experiencing a mental health challenge or crisis. You can help them.

You are more likely to encounter someone — friend, family member, student, neighbor, or member of the community — in an emotional or mental crisis than someone having a heart attack. Youth Mental Health First Aid teaches a 5-step action plan to offer initial help to young people showing signs of a mental illness or in a crisis, and connect them with the appropriate professional, peer, social, or self-help care. Anyone can take the 8-hour Youth Mental Health First Aid course, but it is ideally designed for adults who work with young people, ages 12-18 — teachers, coaches, leaders of faith communities, social workers, and other caring citizens.

Sometimes, the best first aid is you. Take the course, save a life, strengthen your community.

This program is funded as a WI DPI project AWARE grant. To register please contact Lisa Schiller at NAMI Fox Valley. Call 920-954-1550 or EMAIL Lisa@namifoxvalley.org.
