Data, Data and More Data
June 16, 2015
Skyward session

Items covered

1. How nurses can best utilize Skyward Health Records to their advantage

2. How to navigate and easily get data into the system

3. How students can let the nurses know when they have arrived and are awaiting treatment

4. What/how parents can see about their student's health information

5. How the system performs immunization checks and updates nurses/parents with who is out of compliance, etc.

6. Questions from the group throughout which included items on reporting & different ways to track information within the solution.
