#### **ESSA updates, Spring Equity in ESSA workshop format (25 mins)**

Tony – CCSSO 10 Commitments for State Chiefs the release has gone well. Please take a look at the Booklet that you received.

Tony - Visit to Berlin SD – working to define what “ready” means. Appreciated the local control SD is showing initiative

Jonas – Regulations are on hold until at least March 21. Bill has passed House and is expected to pass senate to undo those regulations – expecting to see a revised template for state plans not a complete undoing of all ESSA. This work remains important because the state is allowed to be the driver.

Roxie – Updates on what has happened since last meeting

Heidi– Last month the SI group talked about engagement and how to draw in more community involvement. Jonas and Rachael have been writing a draft incorporating those comments – today we will be examining the relationship of DPI to the districts.

Kevin –Came up with five assessment proposals to for group to evaluate. Today will be focused on results of long term goal survey, and specific measures.

Humphries (NAACP) Children who are struggling to read are failing and being failed and they internalize that in unhealthy ways when they are promoted grade levels for social reasons rather than educational ones.

Roxie/Evers – Equity is the goal of this group. That is at the core of all of this. It is important to

remember the individual kids while we are looking at this from 35K feet.

Turnaround Group – How can accountability be supportive instead of prescriptive? Every year the school gets X resources Annual reports but long term goals with three year check-ins.

How does support differ from financial v. mentoring?

Humphries – Institutions must be held accountable, not families

Jose - Where do CESAs fit in? Want to ensure local control. WE agree to the outcomes and the terms. What are the specific tangibles that we are looking for? Key stakeholders – need to be a part of the process. It's all about how you sell it to parents.

How do we leverage what is already working?

Lively and informative conversations were had by all.

Family Engagement overlapped between two - What is measured, what is made transparent? Menu of things districts can look at; wide range of measures allows districts to see what's working as well as what is not.
