

WISCONSIN SCHOOL FUNDING SOURCES

MAIN FUNDING STREAMS

State aid and local property taxes are the two largest funding streams that power our school districts. On average, districts receive **42%** from local property taxes, and **39%** from state aid (2016-17).

REVENUE LIMIT

The sum of state aid and local property taxes **cannot exceed** the revenue limit established by state law.

ADDITIONAL FUNDING

Additional funding may come from other state aid, including per-pupil aid, federal aid, and other local resources.
