Robotics League Participation Grants 2021-22 Annual Report

Introduction

In accordance with Wis. Stat. section 115.45, the Department of Public Instruction submits this final report for the Robotics League Participation grants program for the 2021-22 school year for referral to the appropriate standing committees of the legislature.

Under the program, eligible teams of pupils in grades 6-12 from school districts, charter schools, private schools, and home-based private education programs may submit one application per eligible team. This report provides a list of teams that received award letters and overall funding detail.

If you have any questions regarding this report, please contact Kevyn Radcliffe, Legislative Liaison, at (608) 264-6716.

Description

Eligible teams of pupils in grades 6-12 from school districts, charter schools established under Wis. Stat. sections 118.40 (2r) and (2x), private schools, and home-based private education programs may submit one application per eligible team to receive funding under the robotics league participation grants program.

In spite of the ongoing novel coronavirus (“COVID-19”) pandemic, school districts were able to support robotics teams and attend robotics competitions, as they occurred both in-person and virtually during this time frame. For a variety of reasons, including ongoing pandemic challenges, some school districts and organizations could not spend all or any of their awarded funds.

Table 1 below contains information regarding the number of grants paid relative to the number of grants awarded in the 2021-22 school year.

Table 1. Number of Robotics Grants Paid and Awarded, 2021-22 School Year

Number of Grants Awarded	Number of Grants Paid	Percentage
166	*139	83.7%

* After being awarded, 27 teams declined to submit claims for grant money.

Table 2 below contains further information regarding the total funds paid out relative to the funds available under the grant in the 2021-22 school year.

Table 2. Total Grant Funds Paid, 2021-22 School Year

Total Fund Amount	Total Grant Funds Paid Out	Percentage
Approved for \$500,000 Awarded \$499,981	\$379,515	75.9%

In total, the Department of Public Instruction received \$636,918 worth of grant funding requests. As outlined in statutory language, the maximum possible award per team is \$5,000. If the requests from applications approved exceeds the amount of funding (\$500,000), the department will prorate the amount it awards to each applicant. This prorated formulation was necessary in 2021-22; therefore, each approved application was awarded 78.5% of every dollar requested, resulting in \$3,927 being awarded of every \$5,000 requested.

The pages that follow list the total amount of state funds obligated per team receiving a grant under the robotics league participation grants program, as well as the school district, school, or organization from which the team originates and the grade levels of pupils participating in each team.

Individual Robotics Grants Awarded, 2021-22 School Year
