

Read&Write for Google™ is a Chrome browser web app for use with PCs, Macs and Chromebooks. It increases the accessibility of text by working with web pages and common file types in Google Drive such as Google Docs.

Install Read&Write for Google™ to access the free “Read Aloud with highlighting” feature and the free “Translator” feature. Other features such as a talking dictionary, picture dictionary, word prediction, etc. are available in the premium version with a paid subscription.

After installing the app you will see a Read&Write for Google™ tab appear at the top of your browser window or whenever you have a document, email, etc. open in Google Drive.

*Read & Write tab (shown in the search bar at the top of the Chrome browser)*

Clicking that Read & Write tab will open a menu of available accessibility options depending on whether it is the free version or premium version that is installed.

*Read & Write menu*

*Read aloud with highlighting button*

*Translator button*
