Statement of Need

Provide data and related information regarding the need for this program. This narrative will provide sufficient information regarding the overall project size, scope, and quality to indicate how the program will address the identified needs. Limit Response to 2000 characters

Example Statements: The National Student Clearinghouse reports that only 40% of low-income students from the graduating class of 2017 enrolled in post-secondary education compared to 60% of higher income students (2018). Students from low-income backgrounds are less likely to complete high school and pursue post-secondary education due to the financial limitations of the household and concern for paying for college. We will begin to close the gap of low-income students pursuing post-secondary education by providing college access and career readiness to economically disadvantaged students through precollege programming and support. Giving students access to college early will give early exposure, support and resources that will contribute to their post-secondary pursuit.

Goals and Objectives

Specific
Measurable
Attainable
Realistic
Time-limited

Goals: Identify the goals for this precollege program. When developing goals, keep in mind the overall purpose of the project. Consider the following when developing goals: Goals should be measurable, Goals should be clearly and succinctly written.

Objectives: Objectives provide the framework by which a given goal is met. Clearly written objectives also provide the basis for evaluation methods.

When developing goals and objectives, make sure that they are S.M.A.R.T. goals and objectives.

Precollege Programs objectives must include **at least one** of the following:

1. Preparing students to become college and career ready.
 2. Reinforcement in basic skills and competencies such as reading, writing, speaking, listening, mathematics, and reasoning.
 3. Reinforcement in skills and attitudes necessary for success in college and employment, including study skills, work habits, and instructor and employer expectations.
 4. Special experiences, such as computer camps and workshops in science, mathematics, writing, reading, arts, and the humanities.
 5. Reinforcement in employability skills and attitudes.
-

Precollege Programs may also include other components, such as the following:

1. Information on financial aids available to all pupils.
 2. Career guidance and counseling.
 3. Information on college living such as dormitory life and support groups.
 4. Information on college application procedures.
-

Identify the goals for this Precollege Program and how they will utilize the objective(s) selected above.

Describe in detail the evaluation procedures and methods that will be used to determine whether the program's goals and objectives are being met. The evaluation method must be consistent with the measurable outcomes that were described when discussing the goals and objectives in the previous questions.
