

**Release Notes for 2/22/2018 WISEid/WISEstaff
Production Release
(Core Apps Team Sprint 154 2-Week Work Cycle)**

Feature Title	Notes
WISEstaff: Added filters to the Staff Salary and Fringe Benefit Variance Report	We added multiple filters to the Staff Salary and Fringe Benefit Variance Report. This will allow you to detect multiple potential data issues with individual records at one time.
WISEid: Hotfix-- Fixed issue with duplicate mother Change Requests being created unnecessarily	We had to fix multiple issues around change requests for mother records, including many records generating when they shouldn't. This issue was finally resolved with the last fix on 2/12/18.
WISEid/WISEstaff: Continued work on new notification system	A new notification system is a work in progress but not turned on yet. We continue to progress towards completing a notification system with the ability to receive email updates of change requests or other items that need district attention.
