

**Release Notes for 6/15/2017 WISEid/WiSEstaff Production Release
(Core Apps Team Sprint 137 2-Week Work Cycle)**

Feature Title	Notes
WISEid: Hotfix--Message and Change Requests link now fixed on WiSEid tab	We fixed an issue where the WISEid tab Message and Change Requests page link was broken.
WISEid: HotFix--Person Legal Names are Inserted Correctly After Person Upload Completes	We changed the system, so an uploaded person's Legal Names don't insert into the Other Names field automatically when uploading.
WISEstaff: Assignment FTE method adjusted to number instead of percent	We started the first phase of converting Staff Assignments to use numbers with up to the hundredth decimal instead of a percentage method of FTE. Also, the text and column header was changed from "FTE Percent" to "FTE". Areas changed: Assignment Upload, Assignment UI, Staff Edit page, Copy Forward Assignment Files, and FTE-related validation messages.
WISEstaff: Created dynamic report for Assignment code description spreadsheet	<p>We created a dynamic report for yearly assignment code lists with descriptions. Once the assignments are configured for the year, they will be enabled for publishing. You can find the list in multiple locations in WISEstaff.</p> <ul style="list-style-type: none"> ● "Assignment Code List" under the Reports/Validations menu ● On the bottom of the Upload page when Request Type Assignment is selected ● On the bottom of the Assignment UI page when creating or editing assignments
