

## Release Notes for 08/10/2021 WISEid/WISEstaff Production Release

Feature Title	Notes
<p><b>WISEid:</b> Last Name only change requests were being created</p>	<p>Fixed issue that WISEid was still creating change requests for Last Name only changes. There should be no more new Last Name only change requests starting from 8/10/21. Some are still pending until they expire in 7 days.</p>
<p><b>WISEid:</b> Remove multiple mother change requests from filter</p>	<p>Filter for multiple mother change requests on the Change Request page was still there even though those change requests no longer existed. Removed filter option.</p>
<p><b>WISEid:</b> Require comments when creating CR on Edit Person</p>	<p>In the WISEid Edit Person screen if you create a Change Request when editing a person we now require you to add a comment to explain the reason for the change. This should help when other districts or DPI CST evaluates the detailed reason for the change.</p>
<p><b>WISEstaff:</b> Require comments when creating Entity ID CR on Edit Person / Edit Staff</p>	<p>When creating a licensing Entity ID Change Request on the Edit Staff screen we now require comments to explain the change in more detail to prevent denials and follow-up requests by DPI CST. Also, we now customize the on-screen text to be specific to your situation if first name, last name, birthdate or Entity ID don't match between WISEid and the ELO licensing system. The message text will help you better resolve the specific situation.</p>
