

**Release Notes for 10/25/2018 WISEid/WISEstaff
Production Release
(Core Apps Team Sprint 171 2-Week Work Cycle)**

| Feature Title | Notes |
|---|---|
| <p>WISEid: Bug Fix--Changes to selected Potential Match record now updating</p> | <p>Previously we had a problem when during a Potential Match, if you resolved the match to an existing WISEid, the fields below were not updating correctly:</p> <ul style="list-style-type: none"> ○ Gender ○ Race Ethnicity Key ○ Birth City ○ Birth State ○ Birth County ○ Birth Country ○ Parent Guardians <p>This issue was resolved, and the fields update properly.</p> |
| <p>WISEid: Bug Fix--Cancel button on Potential Match Review page works.</p> | <p>We had an issue that while doing Resolve Potential Matches, the Cancel button resulted in a system error instead of taking you back to the Potential Match list. This was fixed.</p> |
| <p>WISEid: Deleted emails attached to multiple WISEids and added database constraint and validation to ensure uniqueness</p> | <p>We found the emails that were attached to multiple WISEids. We've started deleting emails when they exist for multiple WISEids. We also now include a validation to stop emails from being added to more than one WISEid. Note, this field should include only district-generated emails that are unique for one per student.</p> |

| <p>WISEid: Bug Fix--DPI Admin can add multiple mother records</p> | <p>We fixed an issue where DPI staff couldn't add multiple mother records when customers needed.</p> |
| <p>WISEid: Improved visibility of new comments on CR screen for DPI and district users</p> | <p>We improved the Message and Change Request page to show more clearly unread comments and change requests requiring votes by your district. This enhancement will make it easier for districts to know what tasks require action and may save about 10 minutes per district user per week.</p> |
| <p>WISEid: Bug Fix--Person Results Download message triggers properly</p> | <p>We fixed an issue so that there are no longer Parent/Guardian messages in the Person Results Download Message field when there was not a change.</p> |
| <p>WISEid: Bug Fix--Require comments when reporting duplicates</p> | <p>We had an issue where when reporting duplicates without adding comments, a system error would generate. Now a comment is required in on all places where you report duplicates.</p> |
| <p>WISEstaff: Added a new race/ethnicity code validation message in Validate Staff Data</p> | <p>We added validation in Validate Staff Staff data for cases where person with Contract and/or assignment only have a legacy race/ethnicity key (former student long ago) which needs to be changed to a newer race/ethnicity key.</p> |
| <p>WISEstaff: Hotfix--Added K3 grade level to assignments</p> | <p>We added support for districts and schools that have K3 grade level because K3 staff data reporting is required.</p> |
| <p>WISEstaff: Improved/combined display of ELO/Licensing Info on Edit Staff page</p> | <p>We revised the display of Licensing data on the WISEstaff Search Edit page. It's now broken up by current and expired license sections to make it</p> |

| | easier to review licensing information. This may also save districts a few minutes of time in not having to search through expired licenses when looking for current data. |
| WISEstaff: Inserted linkable WISEid in Staff List | On the Staff List, we made the WISEid a clickable link to take you to the WISEstaff Edit page for that person. |
| WISEstaff: Removed 1% FTE Warning in Aggregate Assignment UI | The Enter Aggregate Staff FTE page had a warning when you entered 1% FTE. It shouldn't have been there, so we removed it. |
| WISEstaff: Bug Fix--Results Change Request link works. | There was an issue when on the WISEstaff Results page, the change request counter link didn't take you to the Message and Change Request page with the change request that applied. This issue was resolved. |
| WISEstaff: Bug Fix--Staff List download now maintains selected filter. | We fixed an issue that on the Staff List the Download didn't reflect filters applied to shows all results. |
| WISEstaff: Bug Fix--All Staff Report filters now work properly. | We fixed filters on the All Staff Report so that the School list is populated based on the Working LEA selected. |
