

**Release Notes for 11/29/2018 WISEid/WISEstaff
Production Release
(Core Apps Team Sprint 174 2-Week Work Cycle)**

Feature Title	Notes
WISEid: Bug Fix--Removed multiple spaces in first and last names	At some point in the past, we had a bug that let in multiple spaces in between multiple word first and last names. We purged these from the legal and other first and last names. Multiple spaces were shortened to single spaces to resolve this issue.
WISEid: Bug Fix--UI Middle name updates now working	We fixed an issue where in some cases middle name updates were not being applied. We changed the rules, so users can make any middle name change in the UI.
WISEid: Upload Middle name updates now working	We fixed name rules so that middle name changes are allowed as they should be. The only time they are ignored now is when going from a full middle name to the same abbreviation or abbreviation + a period; for example, we ignore changing from "Thomas" to "T" or "T." because it is less specific than what exists already.
