

Release Notes for 11/14/2019 WISEid/WISEstaff Production Release

Feature Title	Notes
WISEid: Hotfix Name changes by Upload not getting into index	Fixed issue so name changes are in index so you search by them and also the WISEstaff Contract Upload can see them without generating last name mismatch with WISEid errors.
WISEid/WISEstaff: analysis code review of security access (Access Forbidden issues)	Resolved some Access Forbidden issues around non-admin roles blocking access to some pages in application. This does NOT resolve other Access Forbidden issues which DPI is still looking into.
WISEid/WISEstaff: improve methods performance	Made modifications to system code to increase system performance.
WISEid/WISEstaff: Change column name on View Upload Results page	On View Upload Results changed Changes column header to Change Requests to be more descriptive.
WISEid: Analysis: Testing of Download Transaction History after database upgrade	Tested and found the Download Transaction History is still slow even after database upgrade. Created ticket for the future to find ways to increase performance.
WISEstaff: Hotfix Improve Performance on Contract Uploads	Fixed performance issue with Contract Uploads taking up to 1 hour in some cases. Now less than a minute as they should be.
WISEstaff: Update TEPDL audit view for grades	In the past we delivered only low and high grades for each assessment to the license audit application. This year we

	<p>will also send exact grade levels selected and license audit can adjust rules to use these when needed to be precise with grade levels.</p>
<p>WISEstaff: Add license replacements to licensing download Expiring filter logic</p>	<p>Added the following license combinations to the logic for filtering out staff from appearing on the licensing download when filtering by expiration date range:</p> <ul style="list-style-type: none">• When expiring License Type = T601 and Stage = SUB5, allow License Type = T001 and Stage = SB59 to be considered an equivalent license so that if staff holds T001 / SB59 with matching Position/Subject and an expiration date beyond the selected expiration date range, that record will not appear on the expiring license report. <p>Added logic to look for exact license replacements with a future expiration date for a staff person:</p> <ul style="list-style-type: none">• When a license is expiring during the selected date range and the person holds the same license for a future expiration date beyond the selected date range, they should be excluded from the expiring license report because their replacement license covers / extends the expiring one.

<p>WISEstaff: Update Average Teacher Salary widget current year calculation</p>	<p>Changed Average Teacher Salary widget on Data Quality Dashboard for Your Hiring Agency current year to populate data from live system if no snapshot has been created yet for year.</p>
<p>WISEstaff: Revise layout of data quality dashboard</p>	<p>Made some cosmetic changes to the Data Quality Dashboard. Revise the verbiage in the About the Data pop-up for the Average Teacher Salary widget to reflect "Teachers who have a full-time equivalency (FTE) sum, for position 53 (Teacher), of .95 or greater."</p>
<p>WISEstaff: Update logic and message for library assignment validation warning</p>	<p>Updated the logic for the L2 validation warning code 6361 when validating staff data to look for the assignment code 86, 87, or 91 per district, not per school as when we first rolled out.</p> <ul style="list-style-type: none"> ● Warning code: 6361 ● Description: Your working agency has no staff with library specialist assignments: Librarian, Library Media Specialist, or Library Media Supervisor. If your agency has no library specialist assignments, acknowledge this warning with comments; otherwise add a library specialist assignment." <p>Agencies excluded from this validation are: Charter, 2R Charter Schools, CMOs, DOC, DHS, CCDEBs, and WCBVI and WSD.</p>

WISEstaff: Add teacher salary and fringe metrics to dashboard

Added a new section to the Average Teacher Salary widget on the Data Quality Dashboard called "Current Year Teacher Salaries"

- Added the following to the Current Year Teacher Salaries widget:
 - Current Year Low Salary
 - Current Year High Salary
 - Current Year Low Fringe
 - Current Year High Fringe
- A tool tip shows when hovering over any of the salary or fringe amounts with the WISEid and name of the person that goes with the contract containing that value.
 - If more than one contract shares that value, show each applicable WISEid and name combination
- All salary and fringe values should pull from the district's contracts where the staff person meets the following assignment qualifications:
 - Position code = 53, except 53-0970
 - Contract days = 160 or more
 - FTE = .95 or more
 - Subcontracted question = No
 - Hiring agency is not a CESA

<p>WISEstaff: Add a Licensed Assignments comparison widget to the dashboard</p>	<p>Added new Licensed Assignment Count widget to Data Quality Dashboard - Hiring Agency Counts section. This is particularly helpful for the preliminary audit to verify you have least gotten all your assignments requiring a license in the system for the preliminary audit.</p>
<p>WISEstaff: Hotfix Staff List Delete button broken</p>	<p>Fixed the issue where the Delete button on the Staff List wasn't deleting the Contracts and Assignments for the person as it should.</p>
