

Release Notes for 1/9/2020 WISEid/WISEstaff Production Release

Feature Title	Notes
WISEid: Remove 'All' as a cached option from Local Person ID Type list on Create Person	When manually creating a person on the Create Person screen Local Person ID Type of all was included and shouldn't have. Now you can only choose from Student or Staff.
WISEstaff: Fix Roster to pull data from Ed-Fi v3 for 19-20 data	On Edit Staff Current Year WISEdata Roster Detail currently 18-19 Roster data is being displayed. We have fixed so that 19-20 data will be displayed. We are also changing so multiple sections of the same courses show up only once to make it easier to read.
WISEstaff: Edit Staff page doesn't always fully load previous year contracts or assignments	Improved performance so previous years contracts and assignments always show up on Edit Staff at page load.
WISEstaff: Add Expiring Background Checks filter to Licensing Download	Adding columns and filters to the Licensing Download for <ul style="list-style-type: none"> ● Last Background Check Submitted - contain the Last Background Check Submitted year value for each Entity ID ● Background Check Expires - contain the calculated year the background check for the applicable Entity ID will expire (5 years from last background check)
WISEstaff: Improvements to Staff Salary and Fringe Variance Report	Added ability to filter to Salary and Fringe Variance Report for Working

	Agency. Now filters include Hiring and Working Agency with currently selected WISEstaff agency defaulting for both.
WISEstaff: update logic for 6359 ValidateNoPrincipalAssignment	Increased performance of the 6359 validation Warning for no principals at school.
