

Release Notes for 2/6/2020 WISEid/WISEstaff Production Release

| Feature Title | Notes |
|--|---|
| WISEstaff: Aggregate Staff Report - add visible Year filter | Added the ability to look back at previous years in the Aggregate Staff Report. Also on the Data Quality Dashboard if you drill into the Aggregate Staff FTE Sum amounts it goes to the above report with year filtered to the year you clicked on. |
| WISEstaff: Checklist Steps 2, 3 default to collapsed even though certification not complete | Fixed collapsing issues on steps so that the collapse correctly after completion of all sub steps when viewed after date of completion. |
| WISEstaff: Fix Vertical Scroll interaction with page footer on Assignment Review Page | Fixed visibility of buttons on the bottom of many pages accessible by clicking links on the View Upload Pages. |
| WISEstaff: Hotfix Update script to delete duplicate validation warnings for 6362 and 6359 | Fixed 6362 and 6359 not to duplicate. On the morning of release DPI will manually make final removal of any already acknowledged duplicated messages. We will adjust things so if there is already a comment it remains. |
| WISEstaff: Licensing Download when using Staff List option was not working | Fixed issue where Licensing Download when using Staff List option was not working. |
