Release Notes for 3/5/2020 WISEid/WISEstaff Production Release

Feature Title	Notes
WISEstaff: Display a version of the Data Quality dashboard metrics on the Certify Data page	On the Certify Data page we made an update to the text to be more clear and added a copy of the Hiring Agency Counts widgets from the Data Quality Dashboard.
WISEstaff: Link the Staff Collection Checklist Step 3c to the Reports / Overview page	On Step 3c of the Staff Collection Checklist, a direct link to the Reports / Overview page was added
WISEstaff: Show data quality metrics in red if they exceed the standard variance threshold	The Hiring Agency Counts widget on the Data Quality Dashboard and Certify Data page now have red indicators when the current year's data varies significantly from the previous year. The red indicators trigger based on a combination of the percentage and numeric change from the previous year. An info icon is displayed to provide an explanation of the red indicator.
