

WISEdata Release Notes: 10/12/17

Title	Description/Comments
Data Warehouse: New view for Student Program Associations and School Info	We created a new view for Student Program Associations, and this view will populate for all programs, e.g., CEIS and 504. There is also a new view in the data warehouse for School Info.
WDP: Bug Fix--Rule 6511 working properly	Validation rule 6511 - 'The Expected Transfer School should not be provided' was being thrown when it didn't apply. This has been fixed and now throws correctly.
WDP: Bug Fix--Rule 6512 working properly	Validation rule 6512 - 'The Expected Transfer Agency should not be provided' was being thrown when it didn't apply. This has been fixed and now throws correctly.
WDP: Bug Fix--Rule 6597 working properly and marked as a critical error in WDP	Validation rule 6597 - 'Educational Environment Classification Invalid For Age' was being thrown when it didn't apply. This has been fixed and now throws correctly. It is also now checked in the All Agency job and marked as critical in the WISEdata Portal.
WDP: New rule 6723	We created a new L2 validation rule 6723 'Begin Date on the special education record cannot precede the Effective Begin Date of the corresponding enrollment'.
WDP: New rule 6726	We created a new L2 validation rule 6726 'Enrollment following transfer is missing. Student may be reported as a mid-term dropout'.
WDP: New rule 6727	We created a new L2 validation rule 6727

	'Enrollment following transfer is missing. Student may be reported as a full-term dropout'.
WDP: New rule 6728	We created a new L2 validation rule warning 6728 'Not known to be continuing exit type may result in mid-term dropout'.
WDP: New rule 6729	We created a new L2 validation rule warning 6729 'Not known to be continuing exit type may result in full-term dropout'.
WDP: New rule 6730	We created a new L2 validation rule warning 6730 'Expected transfer may result in mid-term dropout'.
WDP: New rule 6731	We created a new L2 validation rule warning 6731 'Expected transfer may result in full-term dropout'.
WDP: New rule 6732	We created a new L2 validation rule 6732 'One or more students in the prior school year may become a Full-Term Dropout'.
WDP: New rule 6733	We created a new L2 validation rule warning 6733 'One or more students in the prior school year may become a Full-Term Dropout'.
WDP: New rule 6734	We created a new L2 validation rule warning 6734 'WISEid is no longer active'.
WDP: All validation messages display correctly.	We corrected a bug where message 6615, 6632, 6646, 6649, 6650, 6651, 6652, 6653, 6659, 6666 weren't displaying properly.
WDP: Bug Fix--Rule 6699 is now a warning.	We modified L2 validation rule 6699 'Student discipline information was submitted by another district or school, but your district is accountable' from an error to a warning.

<p>Environments: Enhanced performance in testing environments</p>	<p>We have enhanced speed and performance in our testing environments. Note, this is only of significance to internal test users.</p>
<p>WDP: Bar chart metrics now display numbers vertically over bars</p>	<p>In the WISEdata Portal metrics section, the numbers that used to appear at the top of the bar with a horizontal orientation are now displayed vertically. This will make it easier to read, especially for large districts.</p>
<p>WDP: No runtime error in Data Statistics panel</p>	<p>On the WISEdata Portal Data Statistics panel, some users were seeing a runtime error for slow processing. This no longer displays.</p>
<p>WDP: New Dropout form in WDP</p>	<p>We added a Dropout form in WISEdata Portal for public school users to review and/or correct old 2015-16 ISES data that is not in WISEdata. Users who are trying to complete 2016-17 Dropout info for the November snapshot can use this form to review/edit 2015-16 data.</p>
<p>WDP: Bug Fix--Queue Validation button hidden when job queue is disabled</p>	<p>We modified the Queue Validation button so that if we disable the job queue, the button will not display for the district.</p>
<p>WDP:Modified Count Inclusion fields in the Student Detail screen</p>	<p>We modified the Count Inclusion fields on the Student Detail Screen a little more after the prior release to make them even more useful.</p>
<p>WDP: Merged WISEid displays on Student Details screen</p>	<p>On the WISEdata Portal Student Details screen, if there is a WISEid that's no longer active because of a merge, now the merged WISEid will display for the user.</p>
