

## WISEdata Release Notes: 5/11/17

WORK ITEM	Description/Comments
<p><b>*Note, the following Roster and Discipline items are listed to make you aware of development progress, but they are not yet in use in your SIS.</b></p> <p><b>Discipline:</b> Removed sSEPA references in Discipline Actions</p>	<p>DPI removed sSEPA references in the Discipline Action endpoint per SIS vendor request so as not to interfere with other special education systems.</p>
<p><b>WDP:</b> New SIS authorization method for Roster and Discipline access</p>	<p>DPI implemented a new authorization method to give SIS vendors access to Discipline and Roster only when they have completed Ed-Fi certifications and WI DPI use case testing.</p>
<p><b>Roster:</b> Bug Fix--Staff data only visible to authorized agency</p>	<p>We fixed Staff Section Association programming to restrict staff data to the authorized agency only.</p>
<p><b>Discipline:</b> Responsible school reference optional in Discipline Actions</p>	<p>When entering Discipline Actions, DPI updated the responsibility of School Reference to make it optional.</p>
<p><b>Discipline:</b> Discipline Action, Incident, and association tables loaded to database</p>	<p>DPI loaded Discipline Action, Incident, and Incident Association data values into the Collection database tables.</p>
<p><b>Discipline:</b> Discipline validations run after collections import.</p>	<p>The Discipline job now runs after the Collections Import (for agency requests or 24 hour job).</p>
<p><b>Discipline:</b> New rule about acceptable Actual Discipline Length values</p>	<p>DPI put validation rules in place to ensure the Actual Discipline Action Length field only accepts values with one decimal place (.0 or .5), does not take negative numbers, and will not default null fields to 0.</p>
<p><b>Discipline:</b> New rule to check for only one discipline incident per action</p>	<p>DPI implemented a new validation to make sure only one discipline incident is allowed for the discipline action.</p>
<p><b>Discipline:</b> New rule ensures Discipline descriptor is always submitted for an action.</p>	<p>DPI set up a new validation to check that Discipline (descriptor) is always submitted in the</p>

	Discipline Actions endpoint.
<b>Discipline:</b> New rule to verify Discipline dates	DPI implemented a new Discipline Incident validation to throw when the Incident Date is anything other than in the current school year. It will also throw within the school year if it is in the future.
<b>Discipline:</b> New rule checking for Behavior value	DPI has a new validation rule of 6663 - Required Field is missing, 'Behavior'.
<b>WDP:</b> Bug Fix--Last Time Data Received stat will display the correct time.	The Statistics panel was incorrectly showing a Last Time Data received as only the time the Student Record was created/changed. DPI updated the WDP Statistics Panel - Last Time Data Received to ensure an accurate time.
<b>WDP:</b> Bug Fix--Pending Students number will reset to 0 after validation run.	The pending students number wasn't always refreshing before. DPI updated the WDP Statistics Panel - Number of Students Pending Imports to reset to 0 after a validation run.
