

## WISEdata Release Notes: 7/6/17

WORK ITEM	Description/Comments
API: Now accepting 2017-18 school year data	There has been significant development and testing to make sure our data warehouse can accept 2017-18 school year data.
WDP: Bug Fix--6495 now works properly	The rule "6495" - Invalid Combination Of Diploma Type And Achievement Category Descriptor has been fixed to throw properly.
Discipline: New rule 6678	We have created a new L2 validation rule - "6678" - Invalid 'Discipline' and 'Behavior' combination.
Discipline: New rule 6683	We have created a new L2 validation rule - "6683" - Required field is missing, 'Early Reinstatement Conditions'.
Discipline: New rule 6684	We have created a new L2 validation rule - "6684" - Required field is missing, 'Modified Term'.
Discipline: New rule 6685	We have created a new L2 validation rule - "6685" - Required field is missing, 'Behavior Detailed Description'.
Discipline: New rule 6686	We have created a new L2 validation rule - "6686" - Invalid 'Actual Discipline Action Length'.
Discipline: New rule 6687	We have created a new L2 validation rule - "6687" - Required field is missing, 'Actual Discipline Length'.
Discipline: New rule 6691	We have created a new L2 validation rule - "6691" - The 'Action Length' for flagging length over 200 days.
Discipline: New rule 6694	We have added a new L2 validation rule - "6694" - Invalid 'Modified Term'.
WDP: Turned off rule messages for rules that are off	We have temporarily turned off certain validation rules, so we turned off the coordinating validation messages to avoid user confusion.

<b>WDP: Bug Fix--Rule 6375 now throws correctly.</b>	<b>The L2 rule 6375 was showing duplicate names for the error, but this has been resolved.</b>
<b>WDP: Bug Fix--Rule 6633 now throws correctly.</b>	<b>The L2 rule 6633 Error was throwing inappropriately for schools when the students were not enrolled in that district, but this has been fixed now.</b>
<b>Discipline: Bug Fix--Rule 6661 now throws correctly.</b>	<b>Error 6661 was throwing inaccurately, as multiple students were tied to the same incident, but the rule only returned for one when it should have returned for all. This has been fixed now.</b>
<b>WDP: Bug Fix--Student Detail Search is now working properly.</b>	<b>For the new feature Student Detail Search, all records were not pulling in the grid, but this has been corrected.</b>
<b>Discipline: Bug Fix--Discipline details display properly in the Student Detail Search.</b>	<b>In the Student Detail Search, when multiple students were involved in an incident and when Student Discipline Incident Association for one of them was deleted, the 'Other Students involved in the incident' panel didn't reflect the deletion. This has been corrected.</b>
<b>Roster: Testing for better performance of Roster exports</b>	<b>We have been working to improve the performance of Roster export file downloads, especially for large files.</b>
