

WISEdata Release Notes: 10/20/20

Title	Description/Comments
WDP: Bug Fix - Validation rule 6719 now throws an error when appropriate	Previously, validation rule 6719 did not check for subsequent records with an enrollment type of PPP, which could lead to it throwing an error as a false positive. This issue is now fixed.
WDP: Bug Fix - Validation rule 6396 now correctly checks for an editable district before throwing an error	Previously, validation rule 6396 did not properly look for an editable district in the Ed-Fi API v3, as it did in v2. This issue is now fixed.
WDP: Bug Fix - API View for School Food Service Program Association now correctly shows records	Previously, records with errors would not appear in the API view for the School Food Service Program Association. This issue is now fixed.
