

WISEdata Release Notes: 10/6/20

Title	Description/Comments
WDP: Validation message tagging in WISEdata Portal	<p>You can now tag validation messages in WISEdata Portal to help with investigating and working on clearing validation errors and warnings. For example, you can tag a validation message as under investigation or delegated to another user or team. You can add multiple tags to each validation message.</p> <p>To add tags to validation messages, go to the Validation Message screen in WISEdata Portal, select a validation message, then select tags from the drop-down menus in the Tags column in the validation message grid.</p>
WDP: WISEdata Portal now shows all agency contacts	<p>The WISEdata Contacts section in WISEdata Portal now shows agency contacts for WISEid and WISEstaff as well as for WISEdata. As a result, the section has been renamed Agency Contacts to more accurately reflect the data shown.</p>
WDP: New data elements in Student Demographics export	<p>The Student Demographics WISEdata export now includes the following new data elements in new columns:</p> <ul style="list-style-type: none">● Local Person ID● Student Email● Last Evaluation Date
WDP: Bug Fix - School Roster Detail page now properly shows error icons	<p>Previously, an issue caused the School Roster Detail page to sometimes not show error icons when a validation error is active. This issue is now fixed.</p>

WDP: Bug Fix - Student API view no longer shows Multiple Birth Status data element twice

Previously, an issue caused the Multiple Birth Status data element could be duplicated on the Student API View screen. This issue is now fixed.
