

WISEdata Release Notes: 12/5/19

Title	Description/Comments
WDP: Dropout exports now include WISEdata error information	Dropout exports now include columns to show messages from WISEdata errors 7095 and 7096, which indicate possible mid-term and full term dropouts.
WDP: Rule 7051 logic revised	We revised the logic for rule 7051, which checks for a student with a CTE concentrator summary who is not in grade 11 or 12. This rule now fires if any of the student's enrollments are not grade 11 or 12.
WDP: Bug fix - Error icon now appears correctly for Homeless information on the Student Details screen	Previously, the data grid under Homeless didn't show the error icon in a row with a WISEdata error. This issue is now fixed.
WDP: Bug fix - Merged WISEid banner now appears correctly	Previously, the banner that informs users a WISEid has been merged didn't appear in WISEdata Portal. This issue is now fixed.
WDP: Bug fix - Rule 6576 fires for the appropriate students	Previously, rule 6576 would show an error for students who didn't meet the rule's criteria. This issue is now fixed.
WDP: Bug fix - Rule 6651 now only shows an error for the correct agency	Previously, if rule 6651 showed an error for one agency, it would show that error for other agencies where the student is enrolled. This issue is now fixed.
WDP: Bug fix - Rule 6651 now uses effective dates	Previously, rule 6651 didn't use the effective begin and end dates for a student's enrollment and could throw an error incorrectly. This issue is now fixed.
