WISEdata Release Notes: 1/12/21

Title	Description/Comments
WDP: New column available in Child Count export	The WISEdata Portal Child Count export now includes a new Educational Environment column.
WDP: New columns available in Special Education Data Export	The WISEdata Portal Special Education Data export now includes columns that show a student's SSEPA effective begin and end dates.
WDP: Bug Fix - Digital Equity T-Mobile Hotspot page available only from 20-21 school year and alter	Previously, school districts could submit data on the Digital Equity T-Mobile Hotspot page from school years prior to the 2020-21 school year. As this feature is available only from 2020-21 and after, districts can now only access this page for the 2020-21 school year and later years.
WDP: Bug Fix - Warnings can now be acknowledged on Graduation Plan data	Previously, an issue prevented users from acknowledging validation warnings in the Graduation Plan section. This issue is now fixed.
