WISEdata Release Notes: 1/26/21

Title	Description/Comments
WISEadmin Portal: Updated warning message for Immunization Registry integration	In WISEadmin Portal, a more detailed message now displays if schools in your district aren't set up in the Wisconsin Immunization Registry.
WDP: Select school year on Digital Equity T-Mobile Hotspot page	You can now change which school year you're viewing on the Digital Equity T-Mobile Hotspot page using a drop-down menu. The data submitted on this page is specific to an individual school year, so this change helps you more efficiently manage data for future school years going forward.
WDP: Detailed column information now available for more exports	You can now see detailed information about the columns included in the Child Count, High School Completion, and Student Demographics exports by clicking the Details link in the corresponding row on the Exports page.
WDP: Student names now clearly show first, middle, and last names	On the Student Details page, a student's first, middle, and last names are now labeled more clearly.
