

WISEdata Release Notes: 1/30/20

Title	Description/Comments
WDP: New validation rule 7116	We've released validation rule 7116 , which throws a warning if a student has no Grades record submitted for a course. This rule is similar to rule 6770 , but 6770 applies specifically to CTE courses.
WDP: Performance improvements for rules 6575 and 7112	Validation rules 6575 and 7112 now run more quickly when you validate your data.
WDP: Bug Fix - Agency Contacts filter now works correctly	Previously, if you tried to filter Agency Contacts data but entered the wrong information, you couldn't click the filter to re-enter the correct information. This issue is now fixed.
WDP: Bug Fix - Error icon in Student Details Roster section	Previously, the error icon could appear in the Student Details Roster section, but no validation message appeared. This issue is now fixed.
WDP: Bug Fix - Message icon now appears as expected in Student Details Roster section	Previously, the message icon might not appear on the inner grid in the Student Details Roster section if a validation message existed. This issue is now fixed.
