

WISEdata Release Notes: 3/5/20

Title	Description/Comments
Ed-Fi Credential: School city now appears on agency selection page	When you select an agency to view information for in Ed-Fi Credential, you can now see the school's city on the selection page.
WDP: New validation rule 7119	We've released validation rule 7119 , which throws an error if a student has an expected transfer agency or school submitted, but the student does not have an exit type of TC or ETC. For more information about exit types, refer to the Exit Types data element page.
WDP: Revision to validation rule 6496	Validation rule 6496 now checks that the term on a student resource is Annual only after a diploma is submitted.
WDP: Revision to validation rule 6499	Validation rule 6499 now checks to ensure that student records with diplomas are submitted only for high school completers.
WDP: Data errata email improvements	We've improved the readability of data errata emails that you receive after submitting data errata, including adding useful links and DPI branding.
WDP: Bug Fix - Error icon doesn't appear in Discipline section	Previously, if a student had an error message for Discipline data, the error icon might not appear in the Discipline section of the Student Details page. This issue is now fixed.
