

## WISEdata Release Notes: 6/19/18

Title	Description/Comments
<p><b>WDP:</b> Revised description of Co-teacher for Classroom Position Descriptor</p>	<p>We revised the Co-teaching description for the Roster Classroom Position Descriptor data element to be more informative. Find the updated info on the <a href="#">data element page</a>.</p>
<p><b>WDP:</b> Bug Fix--Rule 6749 works appropriately now.</p>	<p>We had a bug with validation rule 6749 where the logic appeared to pick the wrong LEA-School combinations and consequently threw errors incorrectly. This was resolved.</p>
<p><b>WDP:</b> Removed Drop Out and Roster Collection options from Data Quality page</p>	<p>The Drop Out and Roster collections did not have metrics, so we deleted these options from the Data Quality page Collections drop-down.</p>
<p><b>WDP:</b> Validation Category drop-down will not show non-Choice options to Choice schools.</p>	<p>When logged into WISEdata Portal as a Choice school, some validation categories that didn't apply to Choice schools were displaying in the Validation Category filter drop-down menu on the Validation Messages page. We removed categories that don't apply, so now only validation categories that apply to Choice schools will appear as drop-down options for Choice users.</p>
<p><b>WDP:</b> Reset option for Validation Category filter</p>	<p>Users can select any validation category (Discipline, Dropouts) from the drop-down menu on the Validation Messages page. Now if you want to return to the default results, you can click <b>Reset</b> to set to "All Categories".</p>
<p><b>WDP:</b> Bug Fix--Validation Messages process improved speed.</p>	<p>We had a bug where when districts, especially large ones like MPS, were clicking on 'Unacknowledged Warnings', the WISEdata Portal was timing out trying to</p>

	return validation messages. We have fixed this by restructuring the way the data is stored/loaded to improve performance speed and ensure warnings display properly.
	*The majority of development work is continued efforts on 2018-19 changes for Roster, Career Education, and the new Home page in the WISEdata Portal.
